STATEMENT AND ASSUMPTIONS PART - 2

Directions: In each questions below is given a statement followed by three assumptions (A), (B) and (c). An assumption is something supposed or taken for granted. You have to consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement.

(C) The government functionary may request the police authority to lift the ban on movement of the locality outside their dwellings.

(1) None is implicit

(2) Only (A) is implicit

(3) Only (B) is implicit

2. Statement: The apex body controlling universities in the country has decided to revise the syllabus of all the technical courses to make them focused towards the present needs of the industry thereby making the technical graduates more employable than they are at present.

(B) The industry may welcome the decision of the apex body and scale up their hiring from these colleges.

(C) The government may not allow the apex body to implement its decision in all the colleges as it may lead to chaos.

STATEMENT AND ASSUMPTIONS PART-2_Analytical Reasoning

1. (1) None of the Assumptions (A), (B) and (C) is implicit in the statement. If police authority has cordoned off the entire locality, it implies that police will ably control the vehicular movement in the locality. Any advice is given assuming that people will follow it.

2. (3) Only Assumption (B) is implicit in the statement.

3.(2) Both B and C are implicit. If the Government has decided to auction construction of highways to private entities, it may be assumed that many private entities in the country are capable of constructing highways within reasonable time.

Private entities will agree to construct only if they see some profit. Thus, C is also implicit

4. (2) Only Assumption (A) is implicit in the statement. Any appeal/request is issued assuming that some people will pay heed to it.

5. (5) Neither Assumption I nor II is implicit in the statement. If training facility is available in one's own country, he/she would not go to other country for training. It is mentioned in the statement that the employee XYZ should be sent for a training in United Kingdom to gain more insight into the project. It does not imply that the employee XYZ is incapable of handling the project with the present skill. Moreover, a project is assigned to any person assuming that he/she is capable enough to handle it.

6. (1) Only Assumption I is implicit in the statement. It is mentioned that the presence of nitrate in fodder B makes it unsuitable for cattle.
