

Answer_ ASSIGNMENT ON SYLLOGISM

ANSWERS:

1. 3;

A + I = No conclusion. Hence, neither conclusion I nor II will follow. However, Conclusion I and II make a complementary pair, hence, either conclusion I or II will follow.

2. 1;

All curls are circles (A) + All circles are cubicals. (A) = All curls are cubicals (A) $\Rightarrow$ conversion $\Rightarrow$ Some cubicals are curls (I). Hence, conclusion I will follow.

Both the statements are positive statements and conclusion II is negative and we know that negative definite conclusions cannot be drawn from the positive statements. Hence, conclusion II will not follow.

3. 1;

Some directions are series (I) $\Rightarrow$ conversion $\Rightarrow$ Some series are directions(I). Hence, conclusion I will follow.

All series are fractions (A) $\Rightarrow$ Conversion $\Rightarrow$ Some fractions are series (I). Hence, conclusion II will not follow.

4. 5

All numbers are marks (A) + All marks are places (A) $\Rightarrow$ conversion $\Rightarrow$ All numbers are places(A). Hence, conclusion I will follow.

All marks are places (A) $\Rightarrow$ I.I. = Some marks are places(I). Hence, conclusion II also follow.

5. 5

Some oranges are grapes (I) + All grapes are bananas (A) = some oranges are bananas (I). Hence, conclusion I will follow.

All grapes are bananas $\Rightarrow$ conversion = Some bananas are grapes (I). Hence, conclusion II will not follow.

6. 5

Some roses are lilies (I) + All lilies are lotus (A) $\Rightarrow$ Some roses are lotus (I). Hence, conclusion I will follow.

Some roses are lilies (I) $\Rightarrow$ conversion $\Rightarrow$ Some lilies are roses(I). Hence, conclusion II will follow.

7. 4

All notes are serials (A) + No serial is a handout (E) $\Rightarrow$ No note is a handout (E). Hence, conclusion I will not follow.

No serial is a handout (E) $\Rightarrow$ conversion $\Rightarrow$ No handout is a serial (E). Hence, conclusion II will not follow.

8. 2;

All bats are stumps (A) + Some stumps are balls (I) $\Rightarrow$ no conclusion. Hence, conclusion I will not follow.

Some stumps are balls (I) $\Rightarrow$ conversion $\Rightarrow$ Some balls are stumps (I). Hence, conclusion II will follow.

9. 4

All tickets are votes (A) + All votes are elections (A) $\Rightarrow$ All tickets are elections (A). Hence, conclusion I will not follow.

All votes are elections (A) $\Rightarrow$ conversion $\Rightarrow$ Some elections are votes(I) . Hence, conclusion II will not follow.

Answer_ ASSIGNMENT ON SYLLOGISM

10. 4;

Some grills are railings (I) + Some railings are stairs (I) $\Rightarrow$ no conclusion. Hence, conclusion I will not follow.

Repeated statement cannot be considered. Hence, conclusion II will not follow.

11. 5

Some crickets are footballs (I) + All football are soccers(A) $\Rightarrow$ Some crickets are soccers (I) $\Rightarrow$ conversion $\Rightarrow$ Some soccers are crickets. Hence, conclusion I & II will follow.

12. 4

Some awards are rewards (I) + Some rewards are exams (I) $\Rightarrow$ no conclusion. Hence, conclusion I will not follow.

Both the statements are positive statements and conclusion II is negative and we know that negative definite conclusions cannot be drawn from the positive statements. Hence, conclusion II will not follow.

13. 2

No clerk is an assistant (E) + Some assistants are officers (I) $\Rightarrow$ Some officers are not clerks (O*). Hence, conclusion I will not follow.

Some assistants are officers (I) $\Rightarrow$ conversion $\Rightarrow$ Some officers are assistants(I). Hence, conclusion II will follow.

14. 1

Some letters are pairs (I) $\Rightarrow$ conversion $\Rightarrow$ Some pairs are letters(I). Hence, conclusion I will follow.

Some letters are pairs (I) + No pair is an arrangement (E) $\Rightarrow$ Some letters are not arrangement (O). Hence, conclusion II will not follow.

15. 1;

All consonants are alphabets (A) + All alphabets are vowels (A) $\Rightarrow$ All consonants are vowels (A). Hence, conclusion I will follow.

All consonants are alphabets (A) $\Rightarrow$ conversion $\Rightarrow$ Some alphabets are consonants (I). Hence, conclusion II will not follow.

16. 2

Some mustards are not cumins (O) $\Rightarrow$ no conclusion. Hence, conclusion I & II will not follow. But they will form a complementary pair. i.e, I – O.

17. 2

No train is a bullock (E) $\Rightarrow$ Conversion $\Rightarrow$ No bullock is a train(E). Hence, conclusion I will not follow.

Some engines are trains (I) + No train is a bullock (E) $\Rightarrow$ Some engines are not bullocks (O). Hence, conclusion II will follow.

18. 4;

Convert the first statement and change the order of the statements to align. Now, All newspapers are catalogues (A) + Some handouts are catalogues = A + I = No conclusion]. Hence, conclusion I & II will not follow.

Answer_ ASSIGNMENT ON SYLLOGISM

19. 1;

No seed is a fruit (E) + All fruits are buds (A) $\Rightarrow$ Some buds are not seeds (O*). Hence, conclusion I will follow.

All fruits are buds $\Rightarrow$ Conversion $\Rightarrow$ Some buds are fruits (I). Hence, conclusion II also follow.

20. 5

All lions are tigers (A) + All tigers are leopards (A) $\Rightarrow$ All lions are leopards (A). Hence, conclusion I will follow.

All tigers are leopards (A) $\Rightarrow$ conversion $\Rightarrow$ Some leopards are tigers(I). Hence, conclusion II will also follow.

21. 4

All cinemas are movies (A) $\Rightarrow$ conversion $\Rightarrow$ Some movies are cinemas (I). Hence, conclusion I will not follow.

No film is a cinema (E) + All cinemas are movies (A) $\Rightarrow$ Some movies are not films(O*). Hence, conclusion II not follow.

22. 4

Some lawyers are teachers (I) $\Rightarrow$ Conversion $\Rightarrow$ Some teachers are lawyers (I). Hence, conclusion I will not follow.

Some lawyers are teachers (I) + No teacher is a doctor (E) $\Rightarrow$ Some lawyers are not doctors(O). Hence, conclusion II will not follow.

23. 2

Some cones are angles (I) $\Rightarrow$ Conversion $\Rightarrow$ Some angles are cones (I). Hence, conclusion I will not follow.

All angles are rectangles $\Rightarrow$ Conversion $\Rightarrow$ Some rectangles are angles (I). Hence, conclusion II will follow.

24. 2

All Mondays are Tuesdays (A) $\Rightarrow$ Conversion $\Rightarrow$ Some Tuesdays are Mondays(I). Hence, conclusion I will not follow.

No Tuesdays is a Wednesday (E) $\Rightarrow$ Conversion $\Rightarrow$ Some Wednesdays are not Tuesdays (O). Hence, conclusion II will follow.

25. 4

All values are prizes (A) $\Rightarrow$ Conversion $\Rightarrow$ Some prizes are values(I). Hence, conclusion I will not follow.

All values are prizes (A) + All prizes are awards (A) $\Rightarrow$ All values are awards (A). Hence, conclusion II will not follow.
