

ASSIGNMENT ON SYLLOGISM

Directions(Q. 1-5): In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the two given statements, disregarding commonly known facts. Give Answer:

- 1) If only conclusion I follows;
- 2) If only conclusion II follows;
- 3) If either I or II follows;
- 4) If neither I nor II follows; and
- 5) If both I and II follow.

1. Statements: All fingers are hands.
Some hands are legs.

Conclusions: I. Some fingers are legs.
II No finger is a leg.

2. Statements: All curls are circles.
All circles are cubicals.

Conclusions: I. Some cubicals are curls.
II. No circle is a cubical.

3. Statements: Some directions are series.
All series are fractions.

Conclusions: I. Some series are directions.
II. All fractions are series

4. Statements: All numbers are marks.
All marks are places.

Conclusions: I. All numbers are places.
II. Some marks are places.

5. Statements: Some oranges are grapes.
All grapes are bananas.

Conclusions: I. Some oranges are bananas.
II. Some bananas are grapes.

ASSIGNMENT ON SYLLOGISM

Directions(Q. 6-10): In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the two given statements, disregarding commonly known facts. Give Answer:

Give answer 1) if only conclusion I follows.

Give answer 2) if only conclusion II follows.

Give answer 3) if either conclusion I or II follows.

Give answer 4) if neither conclusion I nor II follows.

Give answer 5) if both conclusions I and II follow

6. Statements: Some roses are lilies.
All lilies are lotus.

Conclusions: I. Some roses are lotus.
II. Some lilies are roses.

7. Statements: All notes are serials.
No serial is a handout.

Conclusions: I. Some notes are handouts.
II. Some handouts are serials.

8. Statements: All bats are stumps.
Some stumps are balls
Conclusions I. Some bats are balls.
II. Some balls are stumps.

9. Statements: All tickets are votes
All votes are elections.

Conclusions: I. All elections are tickets.
II. No election is a vote.

10. Statements: Some grills are railings.
Some railings are stairs.

Conclusions: I. Some grills are stairs.
II. Some railings are stairs.

ASSIGNMENT ON SYLLOGISM

Directions(Q. 11-15): In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the two given statements, disregarding commonly known facts. Give Answer:

Give answer 1) if only conclusion I follows.

Give answer 2) if only conclusion II follows.

Give answer 3) if either conclusion I or II follows.

Give answer 4) if neither conclusion I nor II follows.

Give answer 5) if both conclusions I and II follow

11. Statements: Some crickets are footballs.
All football are soccers.

Conclusions: I. Some soccers are crickets.
II. Some crickets are soccers.

12. Statements: Some awards are rewards.
Some rewards are exams.

Conclusions: I. Some awards are exams
II. No exam is a reward.

13. Statements: No clerk is an assistant.
Some assistants are officers.

Conclusions: I. Some clerks are not officers.
II. Some officers are assistants.

14. Statements: Some letters are pairs.
No pair is an arrangement.

Conclusions: I. Some pairs are letters
II. No letter is an arrangement.

15. Statements: All consonants are alphabets.
All alphabets are vowels.

Conclusions: I. All consonants are vowels.
II. Some alphabets are not consonants.

ASSIGNMENT ON SYLLOGISM

Directions(Q. 16-20): In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the two given statements, disregarding commonly known facts. Give Answer:

Give answer 1) if only conclusion I follows.

Give answer 2) if only conclusion II follows.

Give answer 3) if either conclusion I or II follows.

Give answer 4) if neither conclusion I nor II follows.

Give answer 5) if both conclusions I and II follow

16. Statements: Some cloves are mustards.

Some mustards are not cumins.

Conclusions: I. Some mustards are cumins

II. Some mustards are not cumins.

17. Statements: Some engines are trains.

No train is a bullock.

Conclusions: I. Some trains are bullocks.

II. Some engines are not bullocks.

18. Statement: All handouts are catalogues.

All newspapers are catalogues.

Conclusions: I. Some handouts are newspapers.

II. Some newspapers are handouts.

19. Statements: No seed is a fruit.

All fruits are buds.

Conclusions: I. Some buds are not seeds.

II. Some buds are fruits.

20. Statements: All lions are tigers.

All tigers are leopards.

Conclusions: I. All lions are leopards.

II. Some leopards are tigers.

Directions(Q. 21-25): In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly

ASSIGNMENT ON SYLLOGISM

known facts and then decide which of the given conclusions logically follows from the two given statements, disregarding commonly known facts. Give Answer:

Give answer 1) if only conclusion I follows.

Give answer 2) if only conclusion II follows.

Give answer 3) if either conclusion I or II follows.

Give answer 4) if neither conclusion I nor II follows.

Give answer 5) if both conclusions I and II follow

21. Statements: No film is a cinema.

All cinemas are movies.

Conclusions: I. All movies are cinemas.

II. No movie is a film.

22. Statements: Some lawyers are teachers.

No teacher is a doctor.

Conclusions: I. All teachers are lawyers

II. Some doctors are not lawyers.

23. Statements: Some cones are angles.

All angles are rectangles.

Conclusions: I. All angles are cones.

II. Some rectangles are angles.

24. Statements: All Mondays are Tuesdays.

No Tuesdays is a Wednesday.

Conclusions: I. Some Tuesdays are not Mondays.

II. Some Wednesdays are not Tuesdays.

25. Statements: All values are prizes.

All prizes are awards.

Conclusions: I. All prizes are values.

II. All awards are values.
