

Answer_Assignment 2_Level 2 Puzzles

ANSWERS and SOLUTIONS

I.

1. 3
2. 2
3. 2
4. 4
5. 3

Members	City	Product
K	Bhopal	C
L	Amritsar	B
M	Ahmedabad	B
N	Raipur	A
O	Allahabad	C
P	Hyderabad	A
Q	Shillong	A
R	Lucknow	C

∴ From (ii), N does not go to either Ahmedabad or Hyderabad. So the only city left for N is Raipur. Therefore, N will go to Raipur for surveying.

∴ From (iv), Same product is surveyed in Ahmedabad and Amritsar. So, the only member left for Ahmedabad is M. Therefore, M will go to Ahmedabad for surveying product B.

Now, the only city left is Hyderabad and the only member left is P. So, P will go to Hyderabad.

∴ Each product must be surveyed in at least two cities but not more than three cities.

∴ M, P and Q are marketing product A.

II.

1. 4
2. 2
3. 1
4. 3
5. 4

Solution:

From (i), (ii), (iv), (v), (vi) & (vii), we get the basic information as follows:

Answer_Assignment 2_Level 2 Puzzles

Clubs	Place		Days	
	√	X	√	X
Australia	Kennington			Friday / Monday
New Zealand	Leicester			
India				
England	Manchester		Thursday	
Pakistan				
Sri Lanka	Sophia Gardens		Wednesday	
South Africa	Headingley		Sunday	

From(iii), it is clear that there is a gap of one day between Australia and England match. Australia cannot play the match on Tuesday as in statement (ix), it is said that on Tuesday the match will be held at Trent Bridge. So, only day left for Australia is Saturday. It is also clear that for New Zealand, the day only left is Monday.

From(iv), it is said that the match played by Pakistan will be held before the match played by Sri Lanka. So, the only day left is Tuesday before Wednesday. So, Pakistan will play at Trent Bridge on Tuesday.

Only place and day left for India is Edgbaston and Friday respectively.

Country	Place		Days	
	√	X	√	X
Australia	Kennington		Saturday	Friday / Monday/Tuesday
New Zealand	Leicester		Monday	Tuesday/ Friday
India	Edgbaston		Friday	
England	Manchester		Thursday	
Pakistan	Trent Bridge		Tuesday	
Sri Lanka	Sophia Gardens		Wednesday	
South Africa	Headingley		Sunday	

Answer_Assignment 2_Level 2 Puzzles

III.

1. 3
2. 4
3. 4
4. 2
5. 4

Solution:

Name	Country	Position
Ronaldo	Uruguay	Right back
Messi		
<u>Dybala</u>		Goal keeper
Suarez	Spain	Left back
Neymar		
Sanchez		

∴ From (v), Neither Messi nor Sanchez is a striker. So, the only person left who could be a striker is Neymar. Therefore, Neymar is a striker.

∴ From (ii), person who is from England is a striker. Therefore, Neymar is a striker and is from England.

Answer_Assignment 2_Level 2 Puzzles

Name	Country	Player
Ronaldo	Uruguay	Right back
Messi		
<u>Dybala</u>		Goal keeper
Suarez	Spain	Left back
Neymar	England	Striker
Sanchez		

∴ From (i), Dybala is neither from Germany or Uruguay and also from (iv) Dybala is not from Argentina. Therefore, the only country left for Dybala is Brazil.

From (iv), Sanchez is not from Germany. Therefore, only country left for Sanchez is Argentina.

Name	Country	Player
Ronaldo	Uruguay	Right back
Messi		
<u>Dybala</u>	Brazil	Goal keeper
Suarez	Spain	Left back
Neymar	England	Striker
Sanchez	Argentina	

Now, only player left is Messi and the only country left is Germany. Therefore, Messi belongs to Germany.

Answer_Assignment 2_Level 2 Puzzles

The only category left for Messi and Sanchez is defender. Therefore, Messi and Sanchez are defenders.

NAME	COUNTRY	PLAYER
Ronaldo	Uruguay	Right Back
Messi	Germany	Defender
Dybla	Brazil	Goal Keeper
Suarez	Spain	Left Back
Neymar	England	Striker
Sanchez	Argentina	Defender

IV.

- 1.
- 3.
- 1.
- 4.
- 4.

Solution:

∴ From (i), Bat is a faculty of neither History nor Geography.

Also from (iii), faculty of Mathematics likes Shayari.

From (iv), one who likes Swimming is a faculty of Chemistry and one who is a faculty of Poetry likes Music. Therefore, the only subject left for Bat is Biology. Hence, Bat is a faculty of Biology.

From (vii), Sat likes Swimming and also from (iv), one who likes swimming is a faculty of Chemistry. Therefore, Sat is a faculty of Chemistry and likes Swimming.

Answer_Assignment 2_Level 2 Puzzles

Person	Subject	Hobby
Bat	Biology	Cooking
Cat	English	
Rat		
Sat	Chemistry	Swimming
Mat		
Vat		
Fat	Reasoning	
Hat		

∴ From (iii), Cat does not like either Singing or Poetry and also from (vi), Mat and Vat likes Music and Tracking. Therefore, only hobby left for Cat is Painting. Hence, Cat likes Painting.

Person	Subject	Hobby
Bat	Biology	Cooking
Cat	English	Painting
Rat		
Sat	Chemistry	Swimming
Mat	Polity/ Geography	Music/ tracking
Vat	Geography/ polity	Tracking/ music
Fat	Reasoning	
Hat		

Answer_Assignment 2_Level 2 Puzzles

∴ From (x), Rat is not a faculty of History. So, the only subject left is Mathematics. Therefore, Rat is a faculty of Mathematics and also from (iii), one who is a faculty of Mathematics likes Shayari. Hence, Rat is a faculty of Mathematics and likes Shayari.

Person	Subject	Hobby
Bat	Biology	Cooking
Cat	English	Painting
Rat	Mathematics	<u>Shayari</u>
Sat	Chemistry	Swimming
Mat	Polity/ Geography	Music/ tracking
Vat	Geography/ polity	Tracking/ music
Fat	Reasoning	
Hat		

Now, only subject left for Hat is History. Therefore, Hat is a faculty of History.

∴ From (viii), Fat does not like Singing. So, the only hobby left for Fat is Poetry.

Now, only hobby left for Hat is singing. Therefore, Hat likes Singing.

Answer_Assignment 2_Level 2 Puzzles

Person	Subject	Hobby
Bat	Biology	Cooking
Cat	English	Painting
Rat	Mathematics	<u>Shayari</u>
Sat	Chemistry	Swimming
Mat	Geography/ polity	Music/ tracking
Vat	Polity/ geography	Tracking/ music
Fat	Reasoning	Poetry
Hat	History	Singing

V.

1. 1
2. 2
3. 5
4. 5
5. 2

Solution:

From (ii), one person lives between Mercury and the one travelling to America.

From (iv), one travelling to Japan lives on an even numbered floor. Therefore, possibility of the person travelling to Japan being in floor no. 2nd or 4th or 6th floor is correct.

Answer_Assignment 2_Level 2 Puzzles

Floor	Person	Country
7		
6		America/Japan
5		
4	Mercury	Japan
3		
2		America/ Japan
1		

From (iii), Saturn lives immediately below the one travelling to Japan.

Now, the floor for the person travelling to Japan is not yet determined. So, as of now Saturn can be either in floor no 1 or 3 or 5.

Floor	Person	Country
7		
6		America/Japan
5	Saturn	
4	Mercury	Japan
3	Saturn	
2		America/ Japan
1	Saturn	

From (v), only three people live between the ones travelling to America and Germany.

From (ii), it is clear that the person travelling to America in floor no. 2 or 6.

Answer_Assignment 2_Level 2 Puzzles

So two possibility is there:

(i) Person travelling to Japan cannot be in floor no. 2 then person travelling to Germany will be in floor no.6.

(ii) Person travelling to Japan cannot be in floor no. 6 then person travelling to Germany will be in floor no.2.

Therefore, person travelling to Japan cannot be in floor no. 2 or 6.

From (iii), Saturn will be in floor no. 3.

Hence, Mercury lives in floor no. 4 and is travelling to Japan.

Floor	Person	Country
7		
6		America/Germany
5		
4	Mercury	Japan
3	Saturn	
2		America/ Germany
1		

From (vi), Jupiter lives immediately above Earth.

Answer_Assignment 2_Level 2 Puzzles

Floor	Person	Country
7	Jupiter	
6	Jupiter/Earth	America/Germany
5	Earth	
4	Mercury	Japan
3	Saturn	
2	Jupiter	America/ Germany
1	Earth	

From (vii), only two people live between Venus and the one who travelling to China. The one travelling to China lives below the floor on which Venus lives. So, person travelling to China and Venus are two floors apart, with the person travelling to China below Venus.

Now, the person travelling to China cannot be in floor no.1 because then Venus would be in floor no.4 which is not possible as Mercury is already at floor no. 4.

If the person travelling to China is in floor no 3, then Venus will be in floor no.6.

The China person cannot be in floor no.5 or 7 as there will be no floor for Venus above them.

∴ Venus is confirmed to be in floor no 6, Jupiter and Earth combination cannot be available in the floor no. 5 , 6 and 7. Therefore, Saturn lives at floor no. 3 and travelling to China.

Venus lives in floor no. 6 and travelling to either America or Germany.

Earth lives in floor no. 1 and Jupiter lives in floor no.2 and travels to either America or Germany.

Answer_Assignment 2_Level 2 Puzzles

Floor	Person	Country
7		
6	Venus	America/Germany
5		
4	Mercury	Japan
3	Saturn	China
2	Jupiter	America/ Germany
1	Earth	

Jupiter is not travelling Germany. Therefore, Jupiter will be the one travelling to America and Venus will be travelling to Germany.

Floor	Person	Country
7		
6	Venus	Germany
5		
4	Mercury	Japan
3	Saturn	China
2	Jupiter	America
1	Earth	

From (ix), one travelling to France does not live immediately above or below Venus. So, the only floor no. 1 is there for the person travelling to France ie, Earth. Therefore, Earth lives in floor no. 1 and travelling to France.

Answer_Assignment 2_Level 2 Puzzles

Floor	Person	Country
7		
6	Venus	Germany
5		
4	Mercury	Japan
3	Saturn	China
2	Jupiter	America
1	Earth	France

From (xi), Uranus does not travel to Italy.

Only floor no. 5 is left for Uranus and Uranus does not travel to Italy that means Mars will travel to Italy.

Now, only place left is Russia, therefore Uranus will be the person who travels to Russia.

Floor	Person	Country
7	Mars	Italy
6	Venus	Germany
5	Uranus	Russia
4	Mercury	Japan
3	Saturn	China
2	Jupiter	America
1	Earth	France

Answer_Assignment 2_Level 2 Puzzles

VI.

1. 3
2. 2
3. 3
4. 2
5. 1

Solution:

From (I), we get two possibilities case (I) and case (ii):

Floors	Persons	Brands
7		
6	<u>Sneha</u>	<u>Numero Uno</u>
5		
4		Peter England
3		
2	<u>Tarun</u>	
1		

Case (i)

Floors	Persons	Brands
7	<u>Sneha</u>	
6		<u>Numero Uno</u>
5		Peter England
4		
3	<u>Tarun</u>	
2		
1		

Case (ii)

From (ii),

Answer_Assignment 2_Level 2 Puzzles

Floors	Persons	Brands
7		
6	<u>Sneha</u>	<u>Numero Uno</u>
5	<u>Kiran</u>	
4	<u>Nitika</u>	Peter England
3		
2	<u>Tarun</u>	John Players
1	<u>Mohini</u>	

Case (i)

Floors	Persons	Brands
7	<u>Sneha</u>	
6	<u>Kiran</u>	<u>Numero Uno</u>
5	<u>Nitika</u>	Peter England
4		
3	<u>Tarun</u>	John Players
2	<u>Mohini</u>	
1		

Case (ii)

From(iii)&(iv), case(i) will get discarded as M cannot like Vimal. And there is one person left who likesVimal.

Answer_Assignment 2_Level 2 Puzzles

Floors	Persons	Brands
7	Sneha	Vimal
6	Kiran	Numero Uno
5	Nitika	Peter England
4	Diwakar	Madame
3	Tarun	John Players
2	Mohini	Levis
1	Roma	Arrow

VIII.

1. 3
2. 1
3. 2
4. 3
5. 5

Solution:

From 1, 2, 4

Answer_Assignment 2_Level 2 Puzzles

FRIEND	Station	AC Coach	Comment
P	Roorkee	1 st AC	+1 Friend
Q			
R			xBiharigarh xBhagwanpur xSunderpur xRoorkee
S		2 nd AC	+1 xSunderpur
T			
U			
V			

From 3, with V – +2

With V, any two out of Q / R / U (xP, xT, xS)

The two who travel with V ordered food at Biharigarh, Puhana or Bhagwanpur but the one who ordered food at Puhana travels with P in 1st AC.

Thus, those who travel with V ordered food at Biharigarh or Bhagwanpur. Also, according to 5, the one who ordered at Mohand travels by 3rd AC. Thus, V ordered food at Mohand and travels by 3rd AC with two others who ordered food at Biharigarh and Bhagwanpur. Also. Since T does not order food at Biharigarh, Puhana or Bhagwanpur, it means that it doesn't travel in either 1st or 3rd AC. T travels in 2nd AC.

Since R doesn't order at either Biharigarh or Bhagwanpur, it doesn't travel by 3rd AC and thus travels by 1st AC with P and orders food at Puhana

Answer_Assignment 2_Level 2 Puzzles

FRIEND	Station	AC Coach	Comment
P	Roorkee	1 st AC	+1 Friend
Q			
R	Puhana	1 st AC	xBiharigarh, xBhagwanpur, xSunderpur, xRoorkee
S	Meerut	2 nd AC	+1 xSunderpur, xBiharigarh, xBhagwanpur, xRoorkee, xMohand xPuhana
T	Sunderpur	2 nd AC	xMohand xRoorkee xBiharigarh, xBhagwanpur xMeerut xPuhana
U			
V	Mohand	3 rd AC	

Complete the table by filling in missing entries

FRIEND	Station	AC Coach
P	Roorkee	1 st AC
Q	Bhagwanpur/ Biharigarh	3 rd AC
R	Puhana	1 st AC
S	Meerut	2 nd AC
T	Sunderpur	2 nd AC
U	Biharigarh/Bhagwanpur	3 rd AC
V	Mohand	3 rd AC

From 3, 4, 5, 7, 9, 10, 12

	MORNING	NOON	EVENING	Comments (Possibilities)	
MONDAY	Othello			WFG, xMacbeth	

Answer_Assignment 2_Level 2 Puzzles

TUESDAY			Hamlet		WFG
WEDNESDAY				WFG, xMacbeth	
THURSDAY				Othello	Othello, WFG
FRIDAY		Hamlet		WFG	
SATURDAY		xRomeo&Juliet	Macbeth		WFG

Now, from 6, we know that Out of 3 shows of Macbeth, only two are staged on consecutive days. These consecutive days can be any two out of Thursday, Friday and Saturday. (Monday and Wednesday, Macbeth is not staged). We definitely know that Macbeth is staged on Saturday, and only two shows of Macbeth are to be held on consecutive days, thus, the two consecutive days have to be Friday and Saturday. Macbeth cannot be on Thursday because it is staged consecutively only for two days. Thus, only possibility left for Macbeth is Tuesday

Thus, Macbeth is staged on Friday, Saturday and Tuesday.

Also, Out of 3 shows of Macbeth, only two are staged on consecutive days, out of which, **it is once staged with Death of a salesman and once with Waiting for Godot.**

	MORNING	NOON	EVENING	Comments (Possibilities)	
MONDAY	Othello			WFG,	
TUESDAY			Hamlet	Macbeth	WFG, Macbeth
WEDNESDAY				WFG,	
THURSDAY				Othello	Othello, WFG
FRIDAY		Hamlet		WFG, Macbeth	Macbeth, DOS
SATURDAY		xRomeo&Juliet	Macbeth	Macbeth, DOS	WFG, Macbeth

From 8 we know that Othello, Waiting for Godot and Romeo & Juliet are staged together on two days. This means for two days Waiting for Godot is staged with Othello and Romeo and Juliet. But we also know that Waiting for Godot is staged with Macbeth for either 1 day or two days. It cannot be two days as for other two days the slots with Waiting for Godot are reserved for Othello and Romeo and Juliet.

Thus, Macbeth is staged with Waiting for Godot only once in the theatre festival.

Thus, we will discard the possibilities in the last column.

	MORNING	NOON	EVENING	Comments (Possibilities)	
--	---------	------	---------	--------------------------	--

Answer_Assignment 2_Level 2 Puzzles

MONDAY	Othello			WFG, Othello, Romeo&Juliet	
TUESDAY			Hamlet	Macbeth, Hamlet	WFG, Macbeth
WEDNESDAY				WFG, Othello, Romeo&Juliet	
THURSDAY				Othello	Othello, WFG
FRIDAY		Hamlet		WFG, Macbeth	Macbeth, DOS
SATURDAY		xRomeo&Juliet	Macbeth	Macbeth, DOS	WFG, Macbeth

Reforming the table with possibilities in each case,

	MORNING	NOON	EVENING	Comments (Possibilities)	
MONDAY	Othello	WFG / R&J	R&J / WFG	WFG, Othello, Romeo&Juliet	
TUESDAY			Hamlet	Macbeth, Hamlet	WFG, Macbeth
WEDNESDAY	WFG / R&J	R&J / WFG / Othello	WFG / R&J Othello	WFG, Othello, Romeo&Juliet	
THURSDAY				Othello	Othello, WFG
FRIDAY	WFG / Macbeth	Hamlet	Macbeth / WFG	WFG, Macbeth	Macbeth, DOS
SATURDAY		xRomeo&Juliet	Macbeth	Macbeth, DOS	WFG, Macbeth

Macbeth cannot be staged on Friday evening as it is already being staged in evening on Saturday. Thus, WFG on Friday evening and Macbeth to be staged on Friday morning. And thus, on Tuesday out of the noon and the morning show, Macbeth will be staged in the noon show as morning show for Macbeth is taken on Friday.

	MORNING	NOON	EVENING	Comments (Possibilities)	
MONDAY	Othello	WFG / R&J	R&J / WFG	WFG, Othello, Romeo&Juliet	
TUESDAY		Macbeth	Hamlet	Macbeth, Hamlet	WFG, Macbeth
WEDNESDAY	WFG / R&J	R&J / WFG / Othello	WFG / R&J / Othello	WFG, Othello, Romeo&Juliet	
THURSDAY				Othello	Othello, WFG

Answer_Assignment 2_Level 2 Puzzles

FRIDAY	WFG / Macbeth	Hamlet	WFG	WFG, Macbeth	Macbeth, DOS
SATURDAY		xRomeo&Juliet	Macbeth	Macbeth, DOS	WFG, Macbeth

From 12, The last show of Hamlet is the noon show staged on Friday. Thus, till Thursday 2 shows of Hamlet should be staged, one in the morning shift and the other in the evening shift. Only possibility is, Morning show for Hamlet to be staged on Thursday.

	MORNING	NOON	EVENING	Comments (Possibilities)	
MONDAY	Othello	WFG / R&J	R&J / WFG	WFG, Othello, Romeo&Juliet	
TUESDAY		Macbeth	Hamlet	Macbeth, Hamlet	WFG, Macbeth
WEDNESDAY	WFG / R&J	R&J / WFG / Othello	R&J / Othello	WFG, Othello, Romeo&Juliet	
THURSDAY	Hamlet			Othello	Othello, WFG
FRIDAY	Macbeth	Hamlet	WFG	WFG, Macbeth	Macbeth, DOS
SATURDAY		xRomeo&Juliet	Macbeth	Macbeth, DOS	WFG, Macbeth

Now, Death of a salesman is to be staged on three days as all other plays and three days left are Tuesday, Thursday and Saturday. This means Death of a salesman are staged on these days.

	MORNING	NOON	EVENING	Comments (Possibilities)	
MONDAY	Othello	WFG / R&J	R&J / WFG	WFG, Othello, Romeo&Juliet	
TUESDAY	DOS	Macbeth	Hamlet	Macbeth, Hamlet	WFG, Macbeth
WEDNESDAY	WFG / R&J	R&J / WFG / Othello	R&J / Othello	WFG, Othello, Romeo&Juliet	
THURSDAY	Hamlet	Othello	DOS	Othello, DOS	Othello, WFG
FRIDAY	Macbeth	Hamlet	WFG	WFG, Macbeth	Macbeth, DOS
SATURDAY		DOS	Macbeth	Macbeth, DOS	WFG, Macbeth

Completing the table.

Answer_Assignment 2_Level 2 Puzzles

	MORNING	NOON	EVENING
MONDAY	Othello	Waiting for Godot	Romeo & Juliet
TUESDAY	Death of a Salesman	Macbeth	Hamlet
WEDNESDAY	Waiting for Godot	Romeo & Juliet	Othello
THURSDAY	Hamlet	Othello	Death of a salesman
FRIDAY	Macbeth	Hamlet	Waiting for Godot
SATURDAY	Romeo & Juliet	Death of a Salesman	Macbeth

XI.

1. 4
2. 2
3. 3
4. 4
5. 2

Solution:

From (ii), only one person lives between Hulk and the one who flies for 400m. So, two possibilities are there:

Case (i) – Hulk lives in floor no. 1

Case (ii) – hulk lives in floor no. 5.

If Hulk lives on floor no. 5, then one who flies for 700m lives at floor no. 6.

∴ From (iv), only one person lives between one who flies for 700m and the one who flies for 300m. Therefore, one who flies for 300m lives at floor no. 4.

∴ From (v), number of people living between Hulk and one who flies for 300m is the same as that between the one who flies for 700m and Black widow. Therefore, Black widow lives at floor no. 7.

From (vi), Thor lives at odd numbered floor and also flies for 300m more than the one who lives at floor no. 4. Therefore, Thor lives at floor no. 1 and flies for 600m.

From (vii), two people lives between Hawkeye and one who flies for 600m. Therefore, Hawkeye lives at floor no. 4.

From (viii), one who flies for 500m lives at one of the floors below Hawkeye but not at floor no.2 and the only place left below Hawkeye is floor no.2. Therefore, case II cannot be possible.

Floors	Person	Distance
--------	--------	----------

Answer_Assignment 2_Level 2 Puzzles

7		
6		
5		
4		300m
3		400m
2		700m
1	Hulk	

Now, Hulk lives at floor no 1, then one who flies for 700m lives at floor no. 2.

∴ From (iv), only one person lives between one who flies for 700m and the one who flies for 300m. Therefore, one who flies for 300m lives at floor no. 4.

∴ From (v), number of people living between Hulk and one who flies for 300m is the same as that between the one who flies for 700m and Black widow. Therefore, Black widow lives at floor no. 5.

Floors	Person	Distance
7		
6		
5	Black widow	
4		300m
3		400m
2		700m
1	Hulk	

Now, from (vi), Thor lives on an odd numbered floor and flies for 300m more than the one who lives at floor no. 4. Therefore, Thor is living at floor no. 7 and flies for 600m.

From (vii), two people lives between Hawkeye and the one who flies for 600m. Therefore, Hawkeye is living at floor no. 4.

∴ From (viii), one who flies for 500m lives at floor below Hawkeye but not at floor no. 2. Therefore, the only place left for the person who flies for 500m is at floor no. 1.

Floors	Person	Distance
7	Thor	600m
6		
5	Black widow	
4	Hawkeye	300m
3		400m
2		700m
1	Hulk	500m

Answer_Assignment 2_Level 2 Puzzles

From (ix), one who flies for 150m lives immediately below Captain. So, the only two consecutive places left for them is floor no. 5 and 6. Therefore, Captain lives at floor no. 6 and one who flies for 150m is at floor no. 5.

Floors	Person	Distance
7	Thor	600m
6	Captain	
5	Black widow	150m
4	Hawkeye	300m
3		400m
2		700m
1	Hulk	500m

Now, only flying distance left for any person to fly is 800m and the only person left is Captain. Therefore, Captain flies for 800m.

From (ix), two people lives between Captain and Ironman. Therefore, Ironman is living at floor no 3. Now, only person left is Spiderman and the only floor left is floor no.2. Therefore, Spiderman lives at floor no.2.

Floors	Person	Distance
7	Thor	600m
6	Captain	800m
5	Black widow	150m
4	Hawkeye	300m
3	Ironman	400m
2	Spiderman	700m
1	Hulk	500m

XII.

1. 2
2. 3
3. 4
4. 2
5. 3

Solution:

From 1,2, 4, 5, 6, 8, 9

COUSIN	SUNDAE	EXTRA SCOOP	TOPPING	COMMENT
Honey	Blue Moon			xRaspberry xChocochips

Answer_Assignment 2_Level 2 Puzzles

Sugar				
Sweet		Guava		xRaspberry xStrawberry xChocochips
Caramel			Kracker	xRaspberry xStrawberry
Tamarind			Chocochips	
Berry	Black Chocolate	Banana		

Chocochips + Green Lemon

Guava ====X===== Pink Cherry

Raspberry ====X===== Chocochips

This means, Caramel does not order for Green Lemon nor does berry get choco chips as topping. Also, chocochips go with green lemon.

COUSIN	SUNDAE	EXTRA SCOOP	TOPPING	COMMENT
Honey	Blue Moon			Strawberry
Sugar				Raspberry / Strawberry Pink Cherry
Sweet		Guava		
Caramel			Kracker	Pink Cherry
Tamarind	Green Lemon		Chocochips	Raspberry / Strawberry
Berry	Black Chocolate	Banana		

From 7, Yellow Pie + Chocolate. From 9, Biscuit + Vanilla

We Know that,

Chocochips + Green Lemon

Answer_Assignment 2_Level 2 Puzzles

Guava ====X===== Pink Cherry

Yellow Pie + Chocolate + Munchini/Fruits/Gems/Kracker

Green Lemon + Raspberry/Guava/Strawberry + Chocochips

Chocolate scoop cannot be received by:

Berry (already Banana)

Tamarind (Chocolate with yellow pie)

Sweet (Already Guava)

Honey (Chocolate with yellow pie)

Thus, chocolate scoop is received by either Sugar or Caramel. Now from 10,

COUSIN	SUNDAE	EXTRA SCOOP	TOPPING	COMMENT
Honey	Blue Moon			Strawberry
Sugar			Gems	Raspberry / Pink Cherry
Sweet		Guava		
Caramel			Kracker	Pink Cherry
Tamarind	Green Lemon		Chocochips	Raspberry / Strawberry
Berry	Black Chocolate	Banana		

Extra scoop for sugar cannot be:

Guava (already taken)

Banana (already taken)

Strawberry (From 10)

COUSIN	SUNDAE	EXTRA SCOOP	TOPPING	COMMENT
Honey	Blue Moon	Vanilla		
Sugar		Raspberry	Gems	Raspberry / Pink Cherry
Sweet		Guava		
Caramel			Kracker	Pink Cherry

Answer_Assignment 2_Level 2 Puzzles

Tamarind	Green Lemon		Chocochips	Strawberry
Berry	Black Chocolate	Banana		

This means, yellow pie and chocolate are liked by caramel

COUSIN	SUNDAE	EXTRA SCOOP	TOPPING	COMMENT

Sugar	Pink Cherry	Raspberry	Gems	Raspberry / Pink Cherry
Sweet	White Musk	Guava	Fruits	
Caramel	Yellow Pie	Chocolate	Kracker	
Tamarind	Green Lemon	Strawberry	Chocochips	Strawberry
Berry	Black Chocolate	Banana	Munchini	

XIII.

1. 1
2. 3
3. 4
4. 2
5. 3

Solution:

Floor	Name	Activity	Month
7	<u>Chintu</u>	Gym	February
6	<u>Pintu</u>	Yoga	June
5	<u>Sonu</u>	Swimming	January
4	<u>Cheenu</u>	Dancing	April
3	<u>Monu</u>	Singing	March
2	<u>Titu</u>	Personality Development	May
1	<u>Bitto</u>	Aerobic Classes	July

Answer_Assignment 2_Level 2 Puzzles

From (i), Sonu lives at floor no 1 or 5 or 7.

From (iv), Cheenu is on 4th floor and he went for Dancing.

Now from (v), Pintu lives at floor no. 5 or 6 or 7.

∴ From (vi), it is clear that person who lives in floor **7** went for Gym and person who lives in floor no 1 went for Aerobic classes but not in January.

∴ It is clear that Sonu lives at floor no. 5 and Pintu lives at floor no. 6

From (vii), Titu lives at **even** no. floor. Therefore, the only place left for Titu is floor no. 2. Hence, Titu lives at floor no. 2

From (ii), one who went to personality Development classes lives immediately above Bittoo, so that two consecutive floors are floor no. 1 and 2. Therefore, Bittoo lives at floor 1 and Titu went for Personality Development classes.

∴ From (iii), one who went for Swimming, lives on odd number floor above Monu. So, the only places for Monu is floor 3. And therefore the only place left for Chintu is floor 7 and also from (iii), Sonu who lives at floor 5 went for swimming.

The only activity left for Monu is singing, Monu went for singing classes.

From (ii), Bittoo went for Aerobic Classes after the month of April that are either May or July.

But, according to (vii), Titu left 2 months after the one who went for singing left. Monu went for Singing in March. Thus Titu went in May.

Cheenu went in the month of April.
