eNAM Process Flow

The diagram illustrates the eNAM process flow, starting with a farmer (represented by a tractor icon) who registers on the platform. The process involves a series of steps: registration, bidding, quality-based trading, and finally, payments (nPayments). The flow is depicted with circular icons and arrows, showing the progression from the farmer to the market and back to the farmer.

Quality based trading

(eNAM) National Agriculture Market

One Nation One Market for Agricultural produce

- National Agriculture Market (e-NAM) is a pan-India electronic trading portal which networks the existing Agricultural Produce Market Committee (APMC) mandis to create a unified national market for agricultural commodities.
- Launched** by Prime Minister Shri Narendra Modi on 14th April, 2016
- e-NAM is completely funded by the Central Government
- Implemented** by Small Farmers Agribusiness Consortium (SFAC), under the aegis of Ministry of Agriculture and Farmers' Welfare.
- E-NAM platform promotes better marketing opportunities for the farmers to sell their produce through online competitive and transparent price discovery system and online payment facility

- eNAM is linked with 1522 markets (APMCs) in 23 states and 4 UTs

Commodity Category	No. of Commodities
FOOD GRAINS/ CEREALS	38
OILSEEDS	14
FRUITS	48
VEGETABLES	59
SPICES	17
MISC	62
Others	9
Total	247

Objectives

- To integrate markets first at the level of the States and eventually across the country through a common online market platform, to facilitate pan-India trade in agricultural commodities.

- To streamline marketing/transaction procedures and make them uniform across all markets to promote efficient functioning of the markets.
- To promote better marketing opportunities for farmers/sellers through online access to more buyers/markets, removal of information asymmetry between farmer and trader, better and real-time price discovery based on actual demand and supply of Agri commodities, transparency in auction process, prices commensurate with quality of produce, online payment etc. that contribute to marketing efficiency.
- To establish quality assaying systems for quality assurance to promote informed bidding by buyers.
- To promote stable prices and availability of quality produce to consumers

VISION

- To promote uniformity in agriculture marketing by streamlining of procedures across the integrated markets, removing information asymmetry between buyers and sellers and promoting real time price discovery based on actual demand and supply.

MISSION

- Integration of APMCs across the country through a common online market platform to facilitate pan-India trade in agriculture commodities, providing better price discovery through transparent auction process based on quality of produce along with timely online payment.

Features

- National e-market platform for transparent sale transactions and price discovery of products
- Liberal licensing of traders/buyers and commission agents by state authorities without any pre-condition of physical presence or possession of shop in the market
- One license for a trader valid across all markets in the state
- Harmonization of quality standards, quality testing and common tradable parameters for agricultural products in every market
- Single point levy of market fees, i.e., on the first wholesale purchase from the farmer
- Provision of soil testing laboratories in/or near the selected mandis
- eNAM mobile app is available in Android for farmers and traders to bid and complete a transaction on the app and is available in 13 languages

Advantages for various stakeholders

- **Farmers:** can sell products without the interference of any brokers or middlemen, thus making good returns out of their investment
- **Traders:** can do secondary trading from one APMC to other one anywhere in India

- **Buyers, processors and exporters:** can source commodities from any mandi in India without physical presence thereby reducing the inter-mediation cost
- **Consumers:** increase in competition among traders provide stable prices and better availability of products to consumers.
- **Mandis:** reduction in book keeping and reporting system, thus better monitoring and regulation of traders and commission agents

Scheme Components

- Selection of State's/UT's APMCs/Regulated Market Committees (RMCs) is undertaken after mandatory reforms in their APMC/RMC Acts as prescribed in the Scheme and approval of their Detailed Project Report (DPR) by Project Appraisal Committee (PAC). Details of eligibility to avail assistance under the scheme are outlined in the scheme guidelines.
- Provision of e-NAM software to States/UTs free of cost.
- Based on their Detailed Project Reports (DPR), **financial assistance upto Rs 30 Lakh per mandi for related hardware/ infrastructure including for quality assaying equipments and for creation of infrastructure like cleaning, grading, sorting, packaging and compost unit etc.**
- **Department will give grant as one time fixed cost to the States / UTs up to Rs.40.00 lakh per market, based on their DPR for purchase of cleaning , grading and packaging and related infrastructure/facilities as sanctioned by SLSC, based on its due diligence.**
- **Department will give grant as one time fixed cost to the States / UTs up to Rs. 5.00 lakh per market based on their DPR , as sanctioned by SLSC by applying due diligence, for compost unit in e-NAM mandi. The SLSC will submit the claim to DA&FW with requisite documents for release of fund. States/UTs may like to top up.**
- An established quality assaying lab in e-NAM mandis is a requisite for Agricultural Produce Market Committees (APMCs) that assess and certify the quality of produce, which helps farmers in getting prices commensurate with quality of their produce
- **Technical Assistance:** Small Farmers Agribusiness Consortium (SFAC), the Lead Implementing Agency (LIA), through Strategic Partner (SP) Nagarjuna Fertilizers & Chemicals Ltd. 7 (NFCL) for implementation of e-NAM, will depute at all APMCs/ RMCs free of cost one Mandi Analyst at each market, for a period of one year to provide day-to-day hand holding support to stakeholders for its successful implementation.
- **Capacity building:** Orientation of APMC/RMC line staff, awareness to farmers through Market talk, Gram Sabha, Print & Electronic media would be undertaken with support of strategic partner.

Pre-requisites for e-NAM

- There are three basic criteria for a state to propose Mandis for e-NAM:
 - The state APMC Act must have a specific provision for e-auction/electronic trading as mode of price discovery.
 - There must be one single trading license to be valid across the state/UT

- A single point levy of market fee across the State/UT. Beneficiaries & Benefits of the Scheme e-NAM is designed and implemented to benefit all the stakeholders- farmers, mandis, traders, buyers, processors and the exporters.

The benefits to stakeholders include:

- Transparent online trading with enhanced accessibility to the market.
- Real time price discovery for better & stable price realization for producers.
- Reduced transaction cost for buyers.
- Availability of information on e-NAM mobile app about commodity prices.
- The details of price of commodity sold along with quantity are received through SMS.
- Quality certification.
- More efficient supply chain& warehouse-based sales.
- Online payment directly to the bank accounts of the farmers.

Stakeholders

The different stakeholders of the Scheme are:

Outcome of the Scheme:

- Single license for trading across all markets in a State.
- Single point of market fee.
- Electronic auction for transparent price discovery.
- Easier norms for obtaining trading licenses.
- Abolition of fragmented markets. Seamless transfer of agricultural commodities
- Improved supply-chain and reduced wastage.

- Increased price share for the farmers.
- Wholesale based sales.
- Quality based informed training.

e-NAM Platform of Platforms (POP)

- On July 14, 2022, Platform of Platforms (POP) under the National Agriculture Market (e-NAM) was launched. With its introduction, farmers will be facilitated to sell the produce outside their state borders. This will increase farmers' digital access to multiple markets, buyers and service providers and bring transparency in business transactions.
- 41 service providers from different platforms are covered under POP facilitating various value chain services like trading, quality checks, warehousing, fintech, market information, transportation etc.
- AI based assaying equipment's have been integrated with e-NAM platform.
