50- Practice Questions

Flat & Floor Based

Puzzle

Questions

Directions(Q.1-5): Answer the questions based on the information given below:

Ten persons N, O, P, Q, R, S, T, U, V and W live on 10 different flats of a 5 storey building, where the bottommost floor is 1 and the topmost floor is 5. There are 2 types of flats on each floor, flat 1 and flat 2 such that flat 1 is in the west of flat 2. Flat 1 of floor 1 is immediately below of flat 1 of floor 2, which is immediately below of flat 1 of floor 3 and so on, similarly for flat 2.

Note: If a person lives above the other person, then flat type of both may or may not be same.

W lives at least two floors above T. S lives north east of N, who doesn't live on the bottommost floor. Q lives one floor above V. U lives to the south east of T. O lives to the north east of W. R lives above P such that they live in same type of flat (different floors).

1. V lives to the ____ of P.

- 1) North west
- 2) South west
- 3) North east
- 4) South east
- 5) None of the above

2. Find the odd one out:

- 1) S
- 2) N
- 3) V
- 4) Q
- 5) O

3. Who among the following doesn't live to the south west of Q?

- 1. V
- II. R

III. P

1) Only II and III

2) Only I and II

3) Only II

4) Only I

5) Only I and III

4. Who lives on 3rd floor in flat 1?

1) Q

2) N

3) R

4) P

5) None of the above

5. Only ____ lives to the north west of ____.

1) R, O

2) W, Q

3) N, V

4) R, S

5) P, U

Directions(Q.6-10): Answer the questions based on the information given below.

There are two types of flats i.e., 1 and 2 on each floor of a five- floor building. The bottommost floor is numbered as 1 and the topmost floor is numbered as 5. Flat 1 is in west of Flat 2. Ten persons (Q, R, S, T, U, V, W, X, Y, and Z) live in these flats such that one person lives in each flat. All flats are of same dimensions.

Note: If it is given that 'a person' lives adjacent to 'another person' then both persons live on the same floor unless stated otherwise. If it is given that 'a persons' lives one/two floors

above/below 'another person' then both persons live in the same type of flat unless stated otherwise.

Z lives one floor below Y. W lives two floors below T, but not in the same type of flat. Y lives in Flat 1. X, who lives adjacent to Q, lives two floors above S. S and Y live in the same type of flat. U lives one floor above V. R doesn't live adjacent to Z. Q and S does not live in the same type of flat.

6. Who lives adjacent to T?

- 1) U
- 2) Y
- 3) Z
- 4) V
- 5) None of the above

7. Who lives in Flat 2 of second floor?

- 1) V
- 2) R
- 3) W
- 4) U
- 5) None of the above

8. R lives _____ floors above Q.

- 1) One
- 2) Three
- 3) Two
- 4) Cannot be determined
- 5) R and Q lives in different type of flats

9. Which of the following person doesn't live in Flat 1?

- 1) Y
- 2) Z
- 3) W
- 4) S
- 5) T

10. Four of the following five are alike in a certain way based on a group, which among the following does not belong to that group?

- 1) Y and R
- 2) X and Q
- 3) W and U
- 4) S and U
- 5) V and S

Directions [11-15]: Answer the questions based on the information given below.

Eight persons, S, T, U, V, W, X, Y and Z live in these flats, such that one person lives in each flat. All flats are of same dimensions. There are two types of flats i.e., A and B on each floor of a four-storey building. The bottommost floor is numbered as 1 and the topmost floor is numbered as 4, Flat A is in west of flat B.

Note: If it is given just/two/three persons live between X and Y, then both persons live in the same type of flat unless state otherwise. If it is given X lives just/two/three floors above Y, then both of them are in the same type of flat unless state otherwise.

W lives in a perfect square numbered floor and in flat A. One person lives between W and T. S lives two floors above X. Z lives above Y but in different flats. Y lives east of V. S doesn't live in the same floor as T.

11. Who lives in flat B of third floor?

- 1) X
- 2) T

Flat & Floor Based Puzzle

3) S

4) U

5) None of the above

12. Who lives in the same floor as X?

1) Z

2) W

3) T

4) Y

5) None of the above

13. Who lives just above V but in different flat?

1) X

2) Z

3) U

4) S

5) None of the above

14. Four of the following five are alike in a certain way and thus form a group. Choose the one, which doesn't belong to the group.

1) Z

2) U

3) T

4) X

5) Y

15. How many persons live above U (in either of the flats)?

1) Two

2) Four

- 3) No one
- 4) Six
- 5) None of the above

Directions(Q.16-20): Answer the questions based on the information given below.

There are two types of flats i.e., 1 and 2 on each floor of a five- floor building. The bottommost floor is numbered as 1 and the topmost floor is numbered as 5. Flat 1 is in west of Flat 2. Ten persons M, N, O, P, Q, R, S, T, U, and V live in these flats such that one person lives in each flat. All flats are of same dimensions.

Note: If it is given that 'a person' lives adjacent to 'another person' then both persons live on the same floor unless stated otherwise. If it is given that 'a persons' lives one/two floors above/below 'another person' then both persons live in the same type of flat unless stated otherwise.

V lives one floor below U. S lives two floors below P, but not in the same type of flat. U lives in Flat 1. T, who lives adjacent to M, lives two floors above O. O and U live in the same type of flat. Q lives one floor above R. N doesn't live adjacent to V.

16. _____ lives adjacent to P.

- 1) Q
- 2) U
- 3) V
- 4) R
- 5) None of these

17. Who lives in Flat 2 of second floor?

- 1) R
- 2) N
- 3) S
- 4) Q
- 5) None of these

18. N lives _____ floors above M.

- 1) One
- 2) Three
- 3) Two
- 4) Cannot be determined
- 5) None of these

19. Which of the following person doesn't lives in Flat 1?

- 1) U
- 2) V
- 3) S
- 4) P
- 5) None of these

20. Who is adjacent to O in the same floor no.?

- 1) R
- 2) N
- 3) S
- 4) Q
- 5) None of these

Directions [Q.21-25]: Answer the questions based on the information given below:

Eight persons- Reena, Meena, Teena, Leena, Heena, Beena, Neena, and Veena, live in a building, however not in this particular order. There are two types of flats X and Y in the building such that each flat contains four floors. The bottommost floor is numbered as 1 and the topmost floor is numbered as 4, Flat X is to the west of flat Y. Note: If a person lives one/two floors above/below another person then, they live in the same type of flat unless stated otherwise. If a person lives adjacent to another person, then they live on the same floor but in different types of flat. Meena lives two floors above Heena. Neena lives

one floor below Heena but in different types of flat. Leena lives adjacent to Beena. Beena and Reena live in different types of flat. Reena lives below Veena in the same type of flats. Teena doesn't live in Flat X.

21. Leena lives above with which of the following person in the same type of flat?

- 1) Neena
- 2) Veena
- 3) Heena
- 4) Teena
- 5) None of the above

22. Which among the following statement/statement are definitely incorrect?

- 1) Reena lives in flat X.
- 2) Beena lives one floor above Heena in the same type of flat.
- 3) Both 'A' and 'B'
- 4) Teena lives on the fourth floor.
- 5) Both 'A' and 'D'

23. How many persons live above Teena (in both types of flat)?

- 1) Four
- 2) Two
- 3) Six
- 4) No one
- 5) Cannot be determined

24. Following pair of persons are related to one another in some way. Find the odd one out.

- 1) Beena - Neena
- 2) Heena - Leena
- 3) Teena - Veena

4) Leena - Beena

5) Reena – Meena

25. Who lives on the third floor of Flat Y?

1) Beena

2) Leena

3) Heena

4) Meena

5) None of the above

Directions (Q.26-30): Answer the following questions based on the information given below.

There are two types of flats, i.e., 1 and 2 such that flat 1 is to the west of flat 2. There are 5 floors in the building. There are two flats on each floor such that the floor which is at the bottom is numbered as 1, the floor above it as 2 and so on. Ten persons, K, L, M, N, O, P, Q, R, S and T, live in these floors, not necessarily in this particular order. All the flats are of the same dimensions.

Note: If 'A' is one/two floor above/below 'B' then both the persons live in the same type of flat unless stated otherwise.

L lives three floors above K. K lives on a prime numbered floor. K and M live in different type of flats. N lives two floors below M. O lives one floor above N. N lives above K but in different type of flats. T lives one floor above R but in different type of flats. T lives two floors above P. Q does not live above T. S lives in flat 1.

26. Who among the following lives one floor below S?

1) K

2) Q

3) T

4) O

5) M

27. Who lives two floors above P, however not in the same type of flat?

- 1) N
- 2) T
- 3) M
- 4) L
- 5) O

28. M lives ____ floors above R.

- 1) Three
- 2) Four
- 3) Two
- 4) One
- 5) None

29. Which among the following pairs of flat type and person is correct?

- 1) M, flat 1
- 2) T, flat 2
- 3) R, flat 1
- 4) P, flat 1
- 5) None of the above

30. S lives in which of the following floor no.?

- 1) Floor 4
- 2) Floor 5
- 3) Floor 3
- 4) Floor 2
- 5 Floor 1

Direction (Q.31-35): Study the following information carefully and answer the questions given below:

Seven persons J, K, L, M, N, O, and P are living in two different flats i.e. flat 1 and flat 2 of a four-storey building such that the lower-most floor is numbered as 1, the floor immediately above it is numbered as 2 and so on but not necessarily in the same order. Flat-1 is to the west of flat-2. One flat is vacant.

K lives in the southeast flat of M who lives on an odd number floor. No person lives between N and K in the same flat and N lives above K. L lives on an odd number floor and in an odd number flat. L neither living on the same floor as K nor M. J and P are living in different flats. O lives two floors below the one who lives adjacent floor of M. The vacant floor is north of P's flat but not east of J's flat.

31. On which of the following floor and flat does J live?

- 1) Floor 1, Flat 2
- 2) Floor 4, Flat 2
- 3) Floor 3, Flat 1
- 4) Floor 2, Flat 1
- 5) Floor 4, Flat 1

32. Which of the following statements is/are true?

- I) M lives immediately above O
 - II) P lives east of L
 - III) Vacant flat and M's flat are on the same floor
 - IV) J lives northeast of K
- 1) Both II and III
 - 2) Only IV
 - 3) None is true
 - 4) Only III
 - 5) All are true except IV

33. Who among the following persons is/ are living in Flat-1?

- I) J
- II) Vacant
- III) O
- IV) P
- 1) Both I and II
- 2) Both II and III
- 3) Both I and IV
- 4) Both I and III
- 5) All I, II, and III

34. What is the direction of J's flat with respect to the Vacant flat?

- 1) North-west
- 2) South-west
- 3) North-east
- 4) North
- 5) South

35. Which of the following combination of persons are living on the same floor?

- 1) JK
- 2) OP
- 3) MN
- 4) LP
- 5) Vacant, N

Directions (Q.36-40): Answer the questions based on the information given below.

There are eight persons P, Q, R, S, T, U, V and W who live in a building having four floors such that the ground floor is numbered as 1 and the floor immediately above the ground floor is numbered as 2 and so on up to the top floor is numbered as 4.

Each of the floors consists of two types of flats i.e., flat-A and flat -B. Flat-A of floor 2 is immediately above the flat – A of floor 1 and immediately below flat – A of floor 3 and in the same way flat -B of floor 2 is immediately above the flat – B of floor 1 and immediately below the flat-B of floor 3 and so on. Also, flat -A is in the west of flat-B. Only one person lives in each flat. Each of the flats is of the same dimension.

V lives in flat-B. W lives to the west of U. W and P live in the same type of flat. P lives above W. R and Q live on the same floor. Q lives below the floor of S and both live in the same type of flat. T lives above V. T and V do not live in the same type of flat. There is one floor between V and U's floor. T lives on an even-numbered floor.

36. Who among the following lives in Flat A of floor 3?

- 1) S
- 2) P
- 3) V
- 4) Q
- 5) None of these

37. Who lives immediately above V in same type of flat as V lives?

- 1) Q
- 2) R
- 3) P
- 4) S
- 5) None of these

38. Who among the following lives in Flat A of floor 2?

- 1) S
- 2) W
- 3) R
- 4) None of these
- 5) T

39. Who lives exactly between V and U in the same type of flat?

- 1) S
- 2) P
- 3) Q
- 4) Either T or S
- 5) T

40. Which of the following statement is true?

- 1) S lives below U in the same type of flat
- 2) P lives above S
- 3) T and W live on consecutive floors
- 4) S lives west of T
- 5) Q and U live in same type of flat

Directions (Q.41-45): Study the following information carefully to answer the given questions:

Ten persons J, K, L, M, N, U, V, W, X and Y are living in a five storey building such that ground floor is numbered as 1, above it is floor 2 then top floor is numbered as 5. Each of the floor has 2 flats in it as flat-1 and flat-2. Flat-1 of floor-2 is immediately above flat-1 of floor-1 and immediately below flat-1 of floor-3 and so on. In the same way flat-2 of floor-2 is immediately above flat-2 of floor-1 and immediately below flat-2 of floor-3 and so on. Flat-1 is in west of flat-2.

K lives in an odd numbered floor. Both N and V lives in the same flat number. L and U live in the same floor. W does not live in flat number 2. There is a gap of two floors in which K and J lives. Both J and K do not live in the same flat number. K lives above J's floor. N lives immediately above J in the same flat number. There is a gap of one floor in which N and V lives. Y, who lives on an even numbered floor, lives below U and both lives in the same flat number. X lives above M and both live in the same flat number. W and M neither live in the same flat number nor in the same floor.

41. Who among the following lives in flat-2 of 4th floor?

- (1) L
- (2) U
- (3) J
- (4) Y
- (5) None of these

42. Who among the following lives with K in the same floor?

- (1) W
- (2) V
- (3) Y
- (4) X
- (5) None of these

43. How many floors are there between W and L?

- (1)) One
- (2)) Two
- (3)) None
- (4)) Three
- (5)) Cannot be determined

44. V lives on which of the following floor?

- (1)) Floor – 1
- (2)) Floor – 2
- (3)) Floor – 3
- (4)) Floor – 4
- (5)) Floor – 5

45. Four of the following five are alike in a certain way and hence form a group, which among the following does not belong to that group?

- (1)) U
- (2)) Y
- (3)) M
- (4)) X
- (5)) N

Directions(46-50): Read the following information carefully and answer the questions given below:

In a four storey building, 10 people namely – Ajay, Sanjay, Rahul, Rohit, Rohan, Yuvraj, Ashish, Vikas, Pallav and Suresh live on different floors, such that one person lives in one flat only. Each floor in this building has 3 unique flats – Flat number 1, Flat number 2 and Flat number 3 respectively from left to right. The ground floor is taken as first floor and the floor on the top is taken as fourth floor. Each of the flats is designed in such a manner that flat number 1 of second floor is just above flat number 1 of first floor and likewise.

Ajay does not live on an even numbered floor and in an even numbered flat. Rohan lives in the flat just above Rohit's. Sanjay and Rahul live on the same floor and no one else is living with them on that floor. The two flats in which no person is living are on even numbered floors and even numbered flats. The flat between Pallav's and Ashish's is unoccupied and Pallav lives in one of the flats above Ashish's. Vikas lives in an odd numbered flat which is to the left of Ashish's. Sanjay and Yuvraj both live in the flat which is numbered 1. Ajay lives on the floor just above Rohan's floor and Yuvraj lives on one of the floors on which one flat is vacant.

46. In which of the following flats does Suresh live?

- 1) Flat number 1 of floor 3
- 2) Flat number 3 of floor 2
- 3) Flat number 1 of floor 2
- 4) Flat number 2 of floor 1
- 5) None of these

47. Who among the following live at floor number 3?

- 1) Ajay and Rohan
- 2) Suresh and Ajay
- 3) Rohan and Rahul
- 4) Yuvraj, Rahul and Rohan
- 5) Ajay and Yuvraj

48. Who among the following live in flat number 2?

- 1) Pallav
- 2) Rohan
- 3) Ashish
- 4) Both 1 and 3
- 5) Both 1 and 2

49. Four of the following five are similar in certain way and hence form a group. Which of the following does not belong to the group?

- 1) Sanjay
- 2) Ajay

Flat & Floor Based Puzzle

- 3) Rohan
- 4) Rohit
- 5) Rahul

50. Ajay is related to Rahul in a way, Vikas is related to Yuvraj in the same way then Pallav is related to whom among the following?

- 1) Sanjay
- 2) Ajay
- 3) Rohit
- 4) Ashish
- 5) None of these

Explanations

(Q.1-5):

Solution:

W lives at least two floors above T. U lives to the south east of T. O lives to the north east of W.

If T lives at flat no. 1 of floor no. 2, then W lives at flat no. 1 of floor no. 4.

U lives at flat no. 2 of floor no. 1.

O lives at flat no. 2 of floor no. 5.

Flat & Floor Based Puzzle

Floors	Flat 1	Flat 2
5		O
4	W	
3		
2	T	
1		U

S lives north east of N, who doesn't live on the bottommost floor. Q lives one floor above V. R lives above P such that they live in same type of flat (different floors).

If N lives at flat no. 1 of floor no. 3, then S lives at flat no. 2 of floor no. 4.

Q lives at flat no. 2 of floor no. 3 and V lives at flat no. 2 of floor no. 2.

If R lives at flat no. 1 of floor no. 5, then P lives at flat no. 1 of floor no. 1.

Floors	Flat 1	Flat 2
5	R	O
4	W	S
3	N	Q
2	T	V
1	P	U

1. 3

2. 2

3. 2

4. 2

5. 4

(Q.6-10):

Solution:

Z lives one floor below Y. Y lives in Flat 1. X, who lives adjacent to Q, lives two floors above S. S and Y live in the same type of flat. Q and S does not live in the same type of flat.

There will be two cases:

Case 1.

If Y lives at floor no. 5 of Flat 1, then Z lives at floor no. 4 of Flat 1. Q and S will live at floor no. 3 of flat 2 and floor no. 1 of flat 1. X will live at live at floor no. 3 of flat 1.

Case 2.

If Y lives at floor no. 2 of Flat 1, then Z lives at floor no. 1 of Flat 1. Q and S will live at floor no. 5 of flat 2 and floor no. 3 of flat 1. X will live at live at floor no. 5 of flat 1.

	CASE 1.		CASE 2.	
FLOOR	FLAT 1	FLAT 2	FLAT 1	FLAT 2
5	Y		X	Q
4	Z			
3	X	Q	S	
2			Y	
1	S		Z	

W lives two floors below T, but not in the same type of flat. U lives one floor above V. R doesn't live adjacent to Z.

Case 1.

If W lives at floor no. 2 of Flat 1, then T lives at floor no. 4 of Flat 2. U and V will live at floor no. 2 of flat 2 and floor no. 2 of flat 1. X will live at live at floor no. 3 of flat 1.

Case 2.

Flat & Floor Based Puzzle

If W lives at floor no. 2 of Flat 2, then T lives at floor no. 4 of Flat 1. U and V will live at floor no. 4 of flat 2 and floor no. 3 of flat 1. This case will get discarded as R doesn't live adjacent to Z.

	CASE 1.		CASE 2.	
FLOOR	FLAT 1	FLAT 2	FLAT 1	FLAT 2
5	Y	R	X	Q
4	Z	T	T	U
3	X	Q	S	V
2	W	U	Y	W
1	S	V	Z	

Final arrangement as shown below:

FLOOR	FLAT 1	FLAT 2
5	Y	R
4	Z	T
3	X	Q
2	W	U
1	S	V

6. 3

7. 4

8. 3

9. 5

10. 4

[11-15]:

Flat & Floor Based Puzzle

Solution:

W lives in a perfect square numbered floor and in flat A. One person lives between W and T.

If W lives at floor no. 4 in flat no A, then T will live at floor no. 2 in flat A.

FLOOR	FLAT A	FLAT B
4	W	
3		
2	T	
1		

S lives two floors above X. Z lives above Y but in different flats. Y lives east of V. S doesn't live in the same floor as T.

If S lives at floor no. 4 in flat no B, then T will live at floor no. 1 in flat A.

If Z lives at floor no. 3 in flat no A, then Y will live at floor no. 1 in flat B.

FLOOR	FLAT A	FLAT B
4	W	S
3	Z	U
2	T	X
1	V	Y

Flat & Floor Based Puzzle

11. 4

12. 3

13. 1

14. 5

15. 1

(Q.16-20):

Solution:

(i) U lives in Flat 1.

(ii) V lives one floor below U.

(iii) O and U live in the same type of flat.

(iv) T, who lives adjacent to M, lives two floors above O.

There will be two cases:

Case 1.

If T lives in Flat 1 of floor no. 5, then O lives at Flat 1 of floor no. 3.

M lives in Flat 2 of floor no. 5.

We will need two consecutive flats for U and V. So, U and V live at floor no. 2 and 1 respectively of Flat 1.

Case 2.

If T lives in Flat 1 of floor no. 3, then O lives at Flat 1 of floor no. 1.

M lives in Flat 2 of floor no. 3.

We will need two consecutive flats for U and V. So, U and V live at floor no. 5 and 4 respectively of Flat 1.

Floor	Flat 1	Flat 2	Flat 1	Flat 2
5	T	M	U	
4			V	
3	O		T	M

Flat & Floor Based Puzzle

2	U			
1	V		O	

(v) S lives two floors below P, but not in the same type of flat.

(vi) Q lives one floor above R. N doesn't live adjacent to V.

Case 1.

There will be gap of one floor between S and P. So, P lives in Flat 1 of floor no. 2 and S lives in Flat 2 of floor no. 2.

As Q lives one floor above R. It means there will be no gap between Q and R. If Q and R lives in Flat 2 of floor no. 4 and 3 respectively. Then N lives in Flat 2 of floor no. 1. But this case will get discarded as N doesn't live adjacent to V.

Case 2.

There will be gap of one floor between S and P. So, P lives in Flat 2 of floor no. 4 and S lives in Flat 1 of floor no. 2.

As Q lives one floor above R. It means there will be no gap between Q and R. If Q and R lives in Flat 2 of floor no. 2 and 1 respectively. Then N lives in Flat 2 of floor no. 5.

Floor	Flat 1	Flat 2	Flat 1	Flat 2
5	T	M	U	N
4	P		V	P
3	O		T	M
2	U	S	S	Q
1	V		O	R

Final arrangement as shown below:

Floor	Flat 1	Flat 2
5	U	N
4	V	P
3	T	M
2	S	Q
1	O	R

16. 3 17. 4 18. 3 19. 4 20. 1

[Q.21-25]:

Solution:

Meena lives two floors above Heena. Neena lives one floor below Heena but in different types of flat

There will be two cases:

If Meena lives in Flat X of floor no. 4, then Heena lives in Flat X of floor no. 2. Neena lives in Flat Y of floor no. 1.

If Meena lives in Flat Y of floor no. 4, then Heena lives in Flat Y of floor no. 2. Neena lives in Flat X of floor no. 1.

Flat & Floor Based Puzzle

	CASE 1.		CASE 2.	
Floors	Flat X	Flat Y	Flat X	Flat Y
4	Meena			Meena
3				
2	Heena			Heena
1		Neena	Neena	

Leena lives adjacent to Beena. Beena and Reena live in different types of flat. Reena lives below Veena in the same type of flats. Teena doesn't live in Flat X.

Case 1.

If Beena lives in Flat X of floor no.3, then Leena lives in Flat Y of floor no.3.

As Reena lives below Veena in the same type of flats. So, Reena and Veena live in Flat Y of floor no. 2 and 4 respectively.

Only person left who lives in Flat X of floor no. 1 is Teena but this case will get discarded as Teena doesn't live in Flat X.

Case 2.

If Beena lives in Flat X of floor no.3, then Leena lives in Flat Y of floor no.3.

As Reena lives below Veena in the same type of flats. So, Reena and Veena live in Flat X of floor no. 2 and 4 respectively.

Only person left who lives in Flat Y of floor no. 1 is Teena.

Flat & Floor Based Puzzle

	CASE 1.		CASE 2.	
Floors	Flat X	Flat Y	Flat X	Flat Y
4	Meena	Veena	Veena	Meena
3	Beena	Leena	Leena	Beena
2	Heena	Reena	Reena	Heena
1	Teena	Neena	Neena	Teena

Final arrangement as shown below:

Floors	Flat X	Flat Y
4	Veena	Meena
3	Leena	Beena
2	Reena	Heena
1	Neena	Teena

21. 1

22. 4

23. 3

24. 4

25. 1

(Q.26-30):

Solution:

L lives three floors above K. K lives on a prime numbered floor.

There will be two cases:

If K lives at floor no. 2 of flat no. 1, then L lives at floor no. 5 of flat no. 1.

Flat & Floor Based Puzzle

If K lives at floor no. 2 of flat no. 2, then L lives at floor no. 5 of flat no. 2.

	CASE 1.		CASE 2.	
Floor	Flat 1	Flat 2	Flat 1	Flat 2
5	L			L
4				
3				
2	K			K
1				

K and M live in different type of flats. N lives two floors below M. O lives one floor above N. N lives above K but in different type of flats.

If N lives at floor no. 3 of Flat no. 2, then M lives at floor no. 5 of Flat no. 2. O lives at floor no. 4 of Flat no. 2.

If N lives at floor no. 3 of Flat no. 1, then M lives at floor no. 5 of Flat no. 1. O lives at floor no. 4 of Flat no. 1.

	CASE 1.		CASE 2.	
Floor	Flat 1	Flat 2	Flat 1	Flat 2
5	L	M	M	L
4		O	O	
3		N	N	
2	K			K
1				

Flat & Floor Based Puzzle

T lives one floor above R but in different type of flats. T lives two floors above P. Q does not live above T. S lives in flat 1.

If T lives at floor no. 3 of Flat no. 1, then P lives at floor no. 1 of Flat no. 1. R lives at floor no. 2 of Flat no. 2. Q lives at floor no. 1 of Flat no. 2.

If T lives at floor no. 3 of Flat no. 2, then P lives at floor no. 1 of Flat no. 2. R lives at floor no. 2 of Flat no. 1. Q lives at floor no. 1 of Flat no. 1 but this case will get discarded as S lives in flat 1.

	CASE 1.		CASE 2.	
Floor	Flat 1	Flat 2	Flat 1	Flat 2
5	L	M	M	L
4	S	O	O	S
3	T	N	N	T
2	K	R	R	K
1	P	Q	Q	P

Final arrangement as shown below:

Floor	Flat 1	Flat 2
5	L	M
4	S	O
3	T	N
2	K	R
1	P	Q

26. 3

27. 1

28. 1

29. 4

30. 1

(Q.31-35):

Solution:

K lives in the southeast flat of M who lives on an odd number floor. No person lives between N and K in the same flat and N lives above K. L lives on an odd number floor and in an odd number flat.

There will be two cases:

If M lives on floor no. 3 at flat no. 1, then K lives on floor no. 2 at flat no. 2.

If M lives on floor no. 3 at flat no. 1, then K lives on floor no. 1 at flat no. 2.

Now there will be two subcases:

N lives at flat no. 2 of either floor no. 2 or 3 or 4.

L lives on floor no. 1 at flat no. 1.

	Case 1.				Case 2.			
Floors	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
4				N				
3	M	N	M	VACANT	M		M	N
2		K		K		N		VACANT
1	L		L		L	K	L	K

J and P are living in different flats. O lives two floors below the one who lives adjacent floor of M. The vacant floor is north of P's flat but not east of J's flat.

Flat & Floor Based Puzzle

O lives on floor no. 2 of flat no. 1.

All cases will get discarded except Case 1.a. as the vacant floor is north of P's flat but not east of J's flat.

P lives on floor no. 1 of flat no. 2 and J lives on floor no. 4 of flat no. 1.

	Case 1.		Case 1.a.		Case 2.		Case 2.a.	
Floors	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2	Flat 1	Flat 2
4			J	N				
3	M	N	M	VACANT	M		M	N
2	O	K	O	K	O	N	O	VACANT
1	L		L	P	L	K	L	K

Final arrangement as shown below:

Floors	Flat 1	Flat 2
4	J	N
3	M	VACANT
2	O	K
1	L	P

31. 5

32. 5

33. 4

34. 1

35. 4

(Q.36-40):

Flat & Floor Based Puzzle

Solution:

(i) V lives in flat-B.

(ii) T lives above V. T and V do not live in the same type of flat.

(iii) There is one floor between V and U's floor. T lives on an even-numbered floor.

(iv) W lives to the west of U.

We will have three cases:

If T lives at floor no. 4 of flat A, then V lives either at floor no. 3 or 1 of flat B. U lives either at floor no. 3 or 1 of flat B. U cannot live at flat A as W lives to the west of U.

If T lives at floor no. 2 of flat A, then V lives at floor no. 1 of flat B. U lives at floor no. 3 or 1 of flat B.

W lives either at floor no. 1 or 3 of flat A.

	Case 1.		Case 2.		Case 3.	
Floor	Flat A	Flat B	Flat A	Flat B	Flat A	Flat B
4	T		T			
3		V	W	U	W	U
2					T	
1	W	U		V		V

W and P live in the same type of flat. P lives above W. R and Q live on the same floor. Q lives below the floor of S and both live in the same type of flat.

In case 1.

S lives at floor no. 1 of flat A and Q lives at floor no. 2 of flat A.

R lives at floor no. 2.

P lives at floor no. 3 of flat A.

Flat & Floor Based Puzzle

Case 2 will get discarded as we cannot place P.

In case 3.

S lives at floor no. 1 of flat A and Q lives at floor no. 2 of flat A.

This case will get discarded as we cannot place R.

	Case 1.		Case 2.		Case 3.	
Floor	Flat A	Flat B	Flat A	Flat B	Flat A	Flat B
4	T	S	T		P	S
3	P	V	W	U	W	U
2	R	Q			T	Q
1	W	U		V		V

Final arrangement as shown below:

Floor	Flat A	Flat B
4	T	S
3	P	V
2	R	Q
1	W	U

36. 2

37. 4

38. 3

39. 3

40. 5

(Q.41-45):

Solution:

There will be two cases:

(i) K lives in an odd numbered floor.

(ii) There is a gap of two floors in which K and J lives. Both J and K do not live in the same flat number.

(iii) K lives above J's floor.

(iv) N lives immediately above J in the same flat number.

If K lives either at flat no. 1 or 2 of floor no. 5. J lives either at flat no. 1 or 2 of floor no. 2.

N lives either at flat no. 1 or 2 of floor no. 3.

	Case 1.		Case 2.	
Floors	Flat – 1	Flat – 2	Flat – 1	Flat – 2
5	K			K
4				
3		N	N	
2		J	J	
1				

There is a gap of one floor in which N and V lives. Both N and V lives in the same flat number. Again there will be two subcases:

V lives either at flat no. 1 or 2 of either floor no. 5 or 1.

L and U live in the same floor.

Flat & Floor Based Puzzle

Y, who lives on an even numbered floor, lives below U and both lives in the same flat number. X lives above M and both live in the same flat number.

As Y lives on even numbered floor so, Y lives either at flat no. 1 or 2 of floor no. 2.

U and L lives either at flat no. 1 or 2 of floor no. 4.

	Case 1.		Case 1.a.		Case 2.		Case 2.a.	
Floors	Flat – 1	Flat – 2	Flat – 1	Flat – 2	Flat – 1	Flat – 2	Flat – 1	Flat – 2
5	K	V	K		V	K		K
4	U	L	U	L	L	U	L	U
3		N		N	N		N	
2	Y	J	Y	J	J	Y	J	Y
1				V			V	

W does not live in flat number 2.

X lives above M and both live in the same flat number. W and M neither live in the same flat number nor in the same floor.

Case 1 and case 1.a. will get discarded as we cannot place W and M.

In case 2, if W lives at flat no. 1 of floor no. 1, then M lives at flat no. 2 of floor no. 1 but it will not be possible as W and M neither live in the same flat number nor in the same floor.

So, in case 2.a W lives at flat no. 1 of floor no. 5, then M lives at flat no. 2 of floor no. 1. X lives at flat no. 2 of floor no. 3.

	Case 1.		Case 1.a.		Case 2.		Case 2.a.	
Floors	Flat – 1	Flat – 2	Flat – 1	Flat – 2	Flat – 1	Flat – 2	Flat – 1	Flat – 2

Flat & Floor Based Puzzle

5	K	V	K		V	K	W	K
4	U	L	U	L	L	U	L	U
3		N		N	N	X	N	X
2	Y	J	Y	J	J	Y	J	Y
1				V	W	M	V	M

Final arrangement as shown below:

Floors	Flat – 1	Flat – 2
5	W	K
4	L	U
3	N	X
2	J	Y
1	V	M

41. 2

42. 1

43. 3

44. 1

45. 5

(46-50):

Solution:

We will have two cases:

Ajay lives either at flat 1 or 3 on floor no. 3.

Flat & Floor Based Puzzle

There are two even floors i.e. 2 and 4 and one even numbered flats i.e. 2. So, two vacant floors are at flat 2 of floor no. 2 and 4.

Ajay lives on the floor just above Rohan's floor. So, Rohan lives either at flat 1 or 3 on floor no. 2.

	Case 1.			Case 2.		
Floors	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
4		_____			_____	
3	Ajay					Ajay
2	Rohan	_____			_____	Rohan
1						

Sanjay and Rahul live at flat 1 and 3 respectively on floor no. 4. Yuvraj lives at flat 1 as he lives on one of the floors on which one flat is vacant.

Hence case 1 will get discarded.

	Case 1.			Case 2.		
Floors	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
4	Sanjay	_____	Rahul	Sanjay	_____	Rahul
3	Ajay					Ajay

Flat & Floor Based Puzzle

2	Rohan	_____		Yuvraj	_____	Rohan
1						

The flat between Pallav's and Ashish's is unoccupied and Pallav lives in one of the flats above Ashish's. It means there is a vacant floor between Pallav's and Ashish's flat. So, Pallav and Ashish live at flat 2 on floor no. 3 and 1 respectively.

Vikas lives in an odd numbered flat which is to the left of Ashish's. Vikas lives at flat no. 3 on floor no. 1.

Rohan lives in the flat just above Rohit's. So, Rohit lives at flat no. 3 on floor no. 1.

Only person left who lives at flat 1 on floor no. 3 is Suresh.

	Case 2.		
Floors	Flat 1	Flat 2	Flat 3
4	Sanjay	_____	Rahul
3	Suresh	Pallav	Ajay
2	Yuvraj	_____	Rohan
1	Vikas	Ashish	Rohit

Final arrangement as shown below:

Flat & Floor Based Puzzle

Floors	Flat 1	Flat 2	Flat 3
4	Sanjay	—	Rahul
3	Suresh	Pallav	Ajay
2	Yuvraj	—	Rohan
1	Vikas	Ashish	Rohit

46. 1
