

The answers along with explanations are given at the end of the question paper

Section: Reasoning Ability & Computer Aptitude

Directions(1-5):

Study the following information carefully and answer the given questions.

A Company 'P' has four batches for Production department. Each employee is given an entry code. The entry code of each of the employee of a particular batch is the same on a particular day. The names of the batches are A, B, C and D. Working days are from Monday to Saturday. The code for the employees of batch A on a particular day interchanges its code with Batch D on succeeding days and the code for the employees of batch B on a particular day interchanges its code with Batch C on succeeding days. Here are the codes of each batch on Monday(10th April 2017)

Day's Pass Code (Entry code)

Batch A: it is a wonderful vista in the evenings and

Batch B: is it wonderful a vista the in and evenings

Batch C: evenings and in the vista a wonderful it is

Batch D: and evenings the in vista wonderful a is it

Question No. 1

If the entry code of **Batch A** on Monday (10th April 2017) was "junior will introduce essential life skills through the medium: then what was the entry code for the **Batch B** on 15th April 2017?

Options :

1. the through life introduce essential junior medium skills will
2. the medium skills through life introduce essential junior will
3. the medium skills junior will through life introduce essential
4. introduce essential the medium skills through life junior will
5. None of these

Question No. 2

If the entry code for **Batch D** on Friday (14th April 2017) was "concept art the on focus also will session each", then which of the following batches does not have the following entry code?

Entry Code : each session will also focus on the art concept

Options :

1. Batch A on 12th April 2017
2. Batch D on 11th April 2017
3. Batch A on 13th April 2017
4. Batch D on 15th April 2017
5. None of these

Question No. 3

If the entry code for **Batch C** on 12th April, 2017 was “here you will explore the heritage sites relating to”, then what was the entry code for **Batch B** on 14th April, 2017?

Options :

1. to relating sites heritage the explore will you here
2. heritage the explore will you here to relating sites
3. to relating will you here sites heritage the explore
4. to explore will you here relating sites heritage the
5. None of these

Directions (4-5):

In the following questions the symbols %, # , =, & and \$ are used with the following meaning as illustrated below :

P % Q means P is not greater than Q.

P # Q means P is neither greater than nor equal to Q.

P = Q means P is equal to Q.

P & Q means P is not smaller than Q.

P \$ Q means P is neither smaller than nor equal to Q.

In each of the following questions assuming the given statements to be true, find out how many of the given conclusions (I), (II), (III), (IV) and (V) is/are definitely false / true as asked in the question?

Statements: W # X, X \$ E, U \$ E, U % T, Q % B, W = B

Conclusion :

(I) X \$ B

(II) U # W

(III) Q = E

(IV) X % T

(V) W & Q

Question No. 4

How many of the above conclusion is/are definitely false?

Options :

1. 3
2. 1
3. more than three
4. 2
5. 0

Question No. 5

In which of the following expression, T & W and P \$ R are definitely true?

Options :

1. R & S = W # P \$ K = T
2. S = W % P \$ K = T % R
3. P \$ R & S = W = K = T
4. P \$ K = T & R & S = W
5. None of these

Directions (6-10):

Read the following information carefully and answer the questions given below:

A reputed institute of fashion designing wants to admit students for their post-graduate degree course with following conditions:

The candidate must be

- i. a graduate in fashion designing with minimum 60% marks.
- ii. not more than 24 yrs of age as on 1.7.2017
- iii. willing to pay a donation of Rs.100,000 at the time of admission.
- iv. willing to sign a bond for working with the institute for its Annual Fashion Fiesta at least 1 year after completion of the course.

However, if the candidate satisfies all the conditions except

- a. (i) above, but diploma in fashion designing with minimum 80% marks, the case may be referred to the director of the Institute.
- b. (iii) above, but willing to sign a bond for working with the institute for two Annual fashion Fiesta after completing the course, the case may be referred to the Coordinator Admissions.
- c. (iv) above, but is willing to pay an amount of Rs.,50,000 in addition to the donation of Rs.1,00,000, the case may be referred to the President of the Institute.

Based on the above criteria an information given in each case, you have to decide the course of action. You are not to assume anything. All this cases are given to you as on 01.06.2017. If you are not able to decide the course of action for want of data, your answer would be data inadequate.

Question No. 6

Kanika completed her graduation in Fashion Designing in 2016 at the age of 22 years, She secured 64% marks in graduation. She doesn't mind signing the bond with the institute for Annual Fashion Fiesta for any number of years but cannot afford to pay the amount of donation.

Options :

1. To be selected
2. Refer to the President
3. Refer to the Co-ordinator Admissions
4. Refer to the Director
5. Not to be selected

Question No. 7

Rohit, a fashion designing graduate who passed out in 2016, is working in the training institute as a faculty member. His date of birth is 16.8.1994. He has no problem in paying Rs.100,000 as donation and also he is ready to sign the bond for 1 year for Annual Fashion Fiesta of an institute.

Options :

1. Refer to the Director
2. Refer to the President
3. Refer to the Coordinator Admissions
4. Data inadequate
5. None of these

Question No. 8

Amit Bisht has done Bachelors in jewellery designing a branch of fashion designing with 75% marks. His date of birth is 27.05.1995. At present he is doing a diploma in accessory designing from a Govt-recognised institute. He is willing to pay the amount of Rs.100,000 as donation and is also ready to sign the one year bond with the institute.

Options :

1. Not to be selected
2. Refer to the Director
3. Refer to the President
4. Refer to the Coordinator Admissions
5. To be selected

Question No. 9

Radhika completed her bachelor in fashion designing in December 2016 just before her completion of 23 yrs. She secured 74% marks at graduation and has been working in a private firm for the last one year. She is willing to sign the bond for two years and is willing to donate Rs.1,00,000

Options :

1. To be selected
2. Refer to the President
3. Refer to the Director
4. Refer to the Coordinator Admissions
5. Not to be selected

Question No. 10

Ravleen Kaur has completed her graduation in History honours securing 77% marks. She has just completed 21 yrs of age. She is ready to sign the bond for one year and is also ready to pay the donation of Rs.1,00,000.

Options :

1. Refer to the Director
2. Refer to the President
3. Data inadequate
4. To be selected
5. Not to be selected

Directions (11-15):

Study the following information carefully and answer the given questions:

Five kids Ayush, Ritank, Ved, Vidhu and Ishi are swinging in five different swings viz. A, B, C, D and E of different colours viz. red, blue, white, green and pink. Their mothers are Neha, Rashmi, Alka, Shweta and Surbhi not necessarily in the same order.

- (i) Ishi is on the swing C but the colour of the swing is not red and neither Shweta nor Neha is her mother.
- (ii) There is only one mother child pair whose name starts with the same letter and the swing they got is of green colour.
- (iii) The colour of swing E is neither red nor blue and neither Ved nor Vidhu are on that swing.
- (iv) Neha's son Ritank is on the white coloured swing and Rashmi's son is on the blue coloured swing.
- (v) Colour of swing A is neither red nor white and also neither Rashmi's son nor Ved is on this swing.
- (vi) Colour of swing D is not blue.

Question No. 11

Who is the mother of the kid who is on the red swing?

Options :

1. Shweta
2. Rashmi
3. Neha
4. Alka
5. None of these

Question No. 12

Which of the following mother – child - swing pair is correct?

Options :

1. Ved – Rashmi - E
2. Ishi - Surbhi - C
3. Ayush - Shweta - B
4. Ritank – Neha – A
5. Vidhu – Alka - D

Question No. 13

What is the colour of swing E?

Options :

1. White
2. red
3. blue
4. pink
5. None of these

Question No. 14

Which of the following pair is not correct?

Options :

1. Vidhu – blue - Rashmi
2. Ishi – pink - Surbhi
3. Ritank – White - Neha
4. Ayush – green – Shweta
5. None of these

Question No. 15

Who is Ved's mother?

Options :

1. Shweta
2. Neha
3. Rashmi
4. Data inadequate
5. None of these

Directions(16-20):

Study the following information carefully and answer the given question:

Nine kids Kirti, Isha, Mona, Divya, Jiya, Leela, Gauri, Heena, Soni are playing games and are made to sit in three rows, row I is the front row and row III is the last row and three columns such that each row has same number of chairs. Column I is on the west end and Column III is on the east end. All of them are facing south.

- (i) Isha and Jiya are neither sitting in the same row nor the same column.
- (ii) Leela is sitting in the same row as Soni.
- (iii) Heena is sitting in row 3 and is sitting at the farthest possible distance from Isha.
- (iv) Mona and Gauri are sitting in the same column but neither of them is sitting in the same row as Isha.
- (v) Kirti and Heena are sitting in the same row but not next to each other.
- (vi) Gauri is sitting immediate right to Divya.
- (vii) Leela and Mona are in the second column but they are at the farthest possible distance from each other.

Question No. 16

Who is sitting to the immediate left of Leela?

Options :

1. Gauri
2. Jiya
3. Heena
4. Isha
5. None of these

Question No. 17

Who is sitting between Kirti and Heena?

Options :

1. Gauri
2. Soni
3. Jiya
4. Mona
5. None of these

Question No. 18

Which of the following group is sitting in row 2?

Options :

1. Isha, Kirti, Mona
2. Jiya, Gauri, Divya
3. Heena, Leela, Mona
4. Mona , Jiya, Isha
5. Isha, Divya, Kirti

Question No. 19

Who is sitting in column 3 of row 3?

Options :

1. Soni
2. Gauri
3. Kirti
4. Isha
5. None of these

Question No. 20

Which of the following combination is correct?

Options :

1. Gauri - Row 1 – Column 2
2. Jiya – Row 2 – Column 1
3. Heena - Row3 – Column 2
4. Isha - Row 2 – Column 2
5. None of these

Directions (21-23):

Study the following information carefully and answer the questions given below.

In a certain language.

'Dark corners single light', is written as 'x#u14 h#o12 w@u8 o@k10

'Probably middle aged librarian', is written as 'o&d18 n#o12 z#h8 k#o16

'Something innovate keep alive', is written as 'z&y10 p#h8 r\$w16 h&q18

'Inception almost five years', is written as 'z#v12 b#u10 r\$r18 u#y8

Question No. 21

What is the code for innovate?

Options :

1. z&y10
2. h&q18
3. p#h8
4. r\$w16
5. None of these

Question No. 22

What does 'read request for books' represents?

Options :

1. i#f18 i#d24 u@t16 y#p18
2. i#d8 i&v14 u@r6 y#n10
3. v@r6 y#n10 j#d8 k#v14
4. i#d8 #v14i ur@6 #ny10
5. None of these

Question No. 23

What does x&d14 stands for?

Options :

1. Chennai
2. Combine
3. Traffic
4. Overload
5. None of these

Directions (24-25):

The following questions are based on the five three letter words given below:

AHY CGM STQ ILO WEF

(Note: The words formed after applying the given operations may or may not be meaningful English words.)

Question No. 24

If the first letter is replaced by its next letter in the alphabets and second letter is replaced by its previous letter in the alphabets, then which of the following would be the second word in dictionary order?

Options :

1. JKO
2. TSQ
3. XDF
4. DFM
5. None of these

Question No. 25

If the second and third letter in all the words is interchanged, after that first and second letter is interchanged, then which of the following is the last word in dictionary?

Options :

1. YAH
2. MCG
3. FWE
4. QST
5. None of these

Directions (26-28):

In each of the following questions two rows of numbers are given. The resultant number in each row is to be worked out separately based on the following rules and the questions below the rows of numbers is to be answered. The operations of numbers progress from left to right.

Rules :

- (i) If a prime number is followed by an odd composite number, the two numbers are multiplied to each other.
- (ii) If an even number is followed by an odd number, the first number is subtracted from the second number.
- (iii) If a two digit even number is followed by another even number the first one is to be divided by the second one.
- (iv) If an odd number is followed by an even number, the first number is subtracted from the second number.
- (v) If a perfect square is followed by a composite number, the two numbers are added.

Question No. 26

45	54	25
48	55	87

What is the value when half of the resultant of the first row is added to the resultant of the second row?

Options :

- 1. 616
- 2. 652
- 3. 626
- 4. 630
- 5. None of these

Question No. 27

13	9	124
x15	116	

If 'x' is the resultant of the first row, what is the product of the resultant of the first and the second row?

Options :

- 1. 77
- 2. 80
- 3. 66
- 4. 92
- 5. None of these

Question No. 28

602035

14x63

If 'x' is one - fifth of the resultant of the first row, find the sum of the resultants of the two rows.

Options :

1. 462
2. 580
3. 546
4. 508
5. None of these

Question No. 29

What is the Java development environment?

Options :

1. Sun Microsystems headquarters
2. A customized, partitioned hard drive
3. A software development kit
4. All of these
5. None of these

Question No. 30

What kind of programming language is Java?

Options :

1. An object-oriented programming language
2. An array programming language
3. A logic programming language
4. All of these
5. None of these

Question No. 31

What is the common term for the core infrastructure of the Internet?

Options :

1. Backbone
2. master control program (MCP)
3. the matrix
4. All of these
5. None of these

Question No. 32

Digital fingerprinting compares a sample of an audio or video clip to what to determine if it's copyrighted?

Options :

1. A file in a database
2. An exact duplicate
3. An index of all audio and video files on the Internet
4. Inserts a tiny fingerprint into a file to track it
5. None of these

Question No. 33

Host to Host connection & Flow Control Protocol layer which ensures that messages are delivered error-free, in sequence, and with no losses or duplications and associated with Message segmentation, Message acknowledgement, Message traffic control, Session multiplexing, is known as

Options :

1. Session layer
2. Presentation layer
3. Transport layer
4. Application layer
5. None of these

Question No. 34

Which of the following is a cyber-attack intended to redirect a website's traffic to another bogus site either by changing the hosts file on a victim's computer or by exploitation of a vulnerability in DNS server software.

Options :

1. Phishing
2. Pharming
3. Spoofing
4. Cloning
5. None of these

Question No. 35

Which is not a part of the Oracle database block?

Options :

1. Footer
2. Conductors
3. Motion ware
4. Freelists
5. None of these

Section: Data Analysis & Interpretation

Directions (36-40):

Study the table and answer the following questions carefully :

Wages (in rupees per day) for different category of workers for different projects.

Workers	Project				
	A	B	C	D	E
Skilled	675	525	625	525	650
Semi-skilled	550	400	575	450	550
Unskilled	425	375	525	350	400

Question No. 36

If the overall estimate of Project A is Rs.35,500 and the number of skilled, semi-skilled and unskilled people is 3 : 2 : 1. Find the number of semi-skilled workers engaged in the Project?

Options :

1. 60
2. 30
3. 20
4. 10
5. None of these

Question No. 37

In which of the following Projects, the wage difference between skilled and semi-skilled is the maximum?

Options :

1. A and B only
2. A and C only
3. A, B and E only
4. A, B and C only
5. A, B and D only

Question No. 38

If a contractor is paid Rs. 30,000 after completion of Project E, how much profit he has earned after paying to his workers, i.e. 10 skilled, 8 semi-skilled and 5 unskilled workers for one day and paying the middle man a commission of 10% of the total amount he has paid to the workers?

Options :

1. Rs.15,810
2. Rs. 13,000
3. Rs. 14,100
4. Cannot be determined
5. None of these

Question No. 39

A contractor got orders for project D and duration of the project is 15 days. He quoted the project cost in such a way that 40% of the project cost he will pay to the workers and remaining amount will be his profit. Find the total project cost quoted by him, if he has engaged 1 skilled, 1 semi-skilled and 1 unskilled worker for the project? (Assume that no other cost is involved in the project)

Options :

1. Rs. 3312.5
2. Rs.18,563
3. Rs. 32,234
4. Rs. 49,687.5
5. Cannot be determined

Question No. 40

If same number of workers i.e 5 skilled, 3 semi-skilled and 4 unskilled workers were hired for each Project; Project B and Project C separately, then find the ratio of total wages paid on Project B and Project C (assume that duration of both the projects is same).

Options :

1. 231/278
2. 215/273
3. 211/274
4. 213/287
5. 213/278

Directions (41-44):

In each of the following questions, read the following questions, read the given statements and compare given two quantities on its basis:

Question No. 41

A group of 6 artists is to be selected out of 5 dancers and 7 singers.

Quantity I – What is the probability that the team has at least one dancer?

Quantity II – What is the probability that the team has exactly 3 dancers and 3 singers?

Options :

1. Quantity I > Quantity II
2. Quantity I < Quantity II
3. Quantity I $\geq$ Quantity II
4. Quantity I $\leq$ Quantity II
5. Quantity I = Quantity II

Question No. 42

What would be the percentage change in the volume of the box?

Quantity I – If the length, breadth and height of a box of cuboid shape is increased by 10%, 25% and 40% respectively.

Quantity II – If the length and height of a box of cuboid shape is increased by 55% and 22% respectively but breadth remains the same.

Options :

1. Quantity I = Quantity II
2. Quantity I $\leq$ Quantity II
3. Quantity I $\geq$ Quantity II
4. Quantity I < Quantity II
5. Quantity I > Quantity II

Question No. 43

What will be the speed in km/hr if the train crosses the platform which is twice its length.

Quantity I – A 320 metre long train crosses the platform in 63 seconds.

Quantity II – A 335 metre long train crosses the platform in 72 seconds.

Options :

1. Quantity I > Quantity II
2. Quantity I < Quantity II
3. Quantity I $\geq$ Quantity II
4. Quantity I $\leq$ Quantity II
5. Quantity I = Quantity II

Question No. 44

The simple interest accrued on a sum at the rate of 10% p.a. for two years is Rs. 5,000.

Quantity I – What will be the compound interest on the same amount at the same rate for 2 years?

Quantity II – What will be the compound interest on the same amount at 8% p.a. for 3 years?

Options :

1. Quantity I > Quantity II
2. Quantity I < Quantity II
3. Quantity I $\geq$ Quantity II
4. Quantity I $\leq$ Quantity II
5. Quantity I = Quantity II

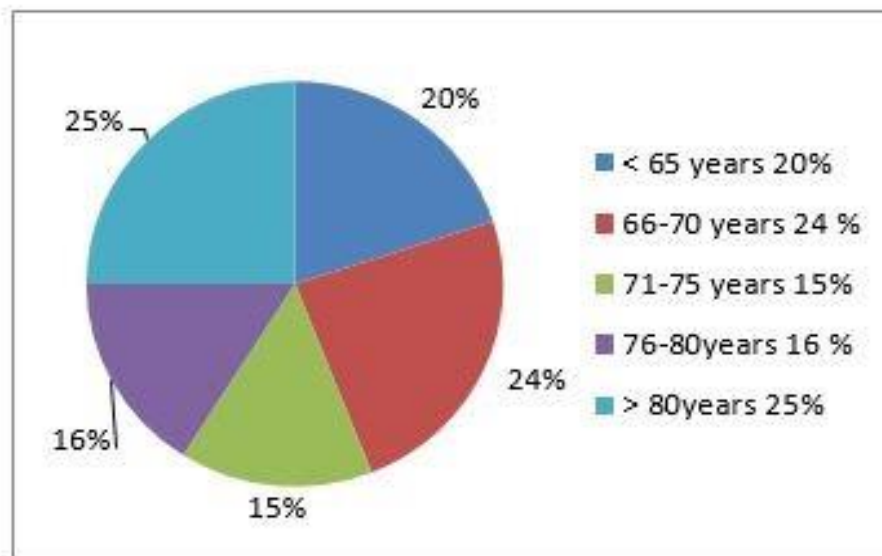

Directions (45-47):

Study the following Pie Chart carefully and answer the following questions.

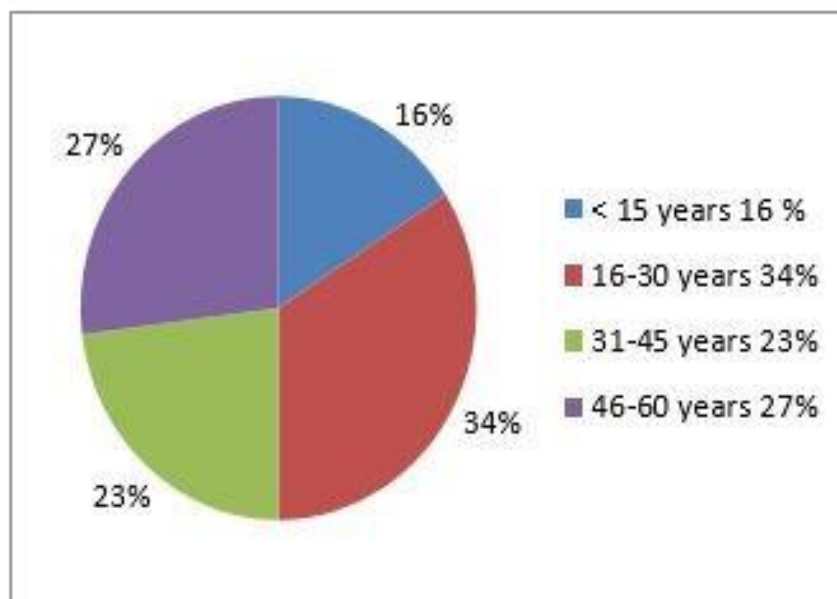

Total no. of passengers in a train = 24,000

(Senior Citizens – 25% & Non Senior Citizens – 75%)

Distribution of Senior Citizens as per their age.

Distribution of Non Senior Citizens as per their age.

Question No. 45

Which of the following statement / statements is /are not correct ?

- I. Number of senior citizens in the train who are equal to or below the age of 70 years is less than 2,640.
- II. Number of non-senior citizens in the train who are equal to or above 31 years is 9,000.
- III. Number of non-senior citizens who are below 31 years is more than 9,000.

Options :

- 1. Only I and II
- 2. Only I and III
- 3. Only II and III
- 4. All are true
- 5. None of these

Question No. 46

By what % approximately is the number of senior citizens of age group 66-70 years less than that of the non-senior citizens of less than 15 years age category?

Options :

- 1. 54%
- 2. 50%
- 3. 58%
- 4. 56%
- 5. None of these

Question No. 47

If next year, 40% non-senior citizen of age group between 46 – 60 years becomes senior citizen, then what will be the total number of senior citizen next year?

Options :

- 1. 9,744
- 2. 4,947
- 3. 9,974
- 4. 7,944
- 5. None of these

Directions(48-50):

In each of the following questions, a question is followed by information given in three statements. You have to study the question along with the statement and decide the information given in which of the statements is necessary to answer the question.

Question No. 48

What is the monthly salary of Varun?

I. Varun spends one-third of his salary on rent, one –fifth on household expenses, one – sixth on travel expenses and deposits the remaining in the bank.

II. His monthly deposits in the bank amount to Rs. 18,000.

III. The ratio of his salary to his wife's is 6 : 1. His wife spends one – fifth of her salary on travel expenses, and the remaining Rs. 8,000 on her cosmetic goods.

Options :

1. I and II together or I and III together
2. Only I and III together
3. Only I and II together
4. I and II together or only III alone
5. none of these

Question No. 49

What is the total number of students in a college?

I. In the college 25% of the students are between 17 to 22 years of age, and 40% of the remaining are above 28 years of age group.

II. Ratio between the students of age group between 17 to 22 years and between 22 to 28 years is 4 : 5.

III. The ratio of teachers to students in the college is 1 : 50

Options :

1. Only I and II
2. Only I and III
3. Only I and either II or III
4. All I, II and III
5. None of these

Question No. 50

What will be the cost of painting the four walls of a room if the rate of painting is Rs. 20 per square metre?

- I. Perimeter of the floor is 52 m.
- II. Height of the wall of the room is 15 m.
- III. Ratio of length and breadth of the room is 5 : 2.

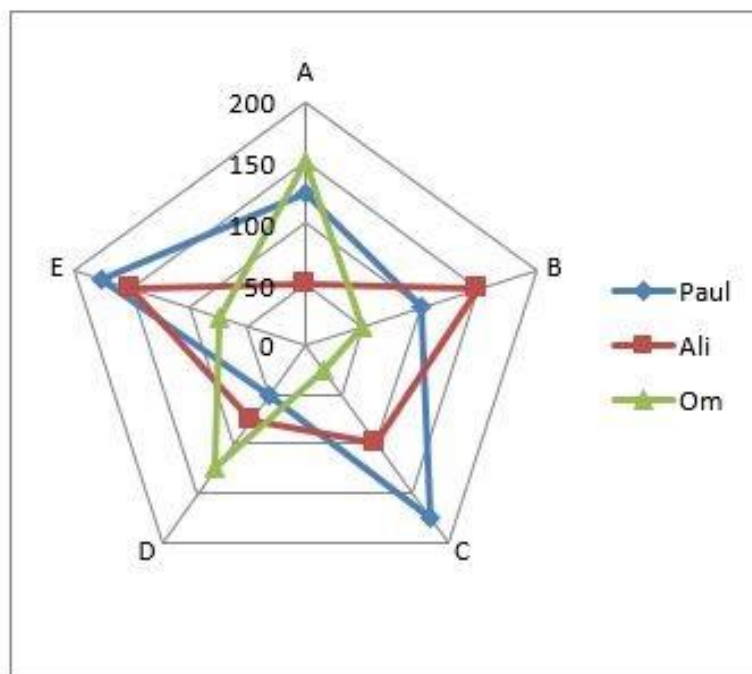

Options :

- 1. I and II together or only III alone
- 2. Only I and III
- 3. Only I and II
- 4. All I, II and III
- 5. None of these

Directions (51-55):

Study the following radar-graph carefully and answer the given questions.

Number of runs scored by three batsmen, Paul, Ali and Om in five different matches

Question No. 51

Which of the following statement / statements is /are correct ?

- I. Runs scored by Ali in Match D is approximately 167% of the runs scored by Om in the same Match ?
- II. Paul has scored highest runs among the three players in all the matches together.
- III. Total runs scored by Ali in all the matches is approximately 24% more than the total runs scored by Om in all the matches together.

Options :

- 1. Only I and II
- 2. Only I and III
- 3. Only II and III
- 4. All are true
- 5. None of these

Question No. 52

If after playing the sixth match, average runs scored by Ali increases by 12 runs, what is the runs scored by him In the sixth match ?

Options :

- 1. 125
- 2. 177
- 3. 190
- 4. Data Inadequate
- 5. None of these

Question No. 53

Which of the following players has consistently improved his performance from Match A to Match E ?

Options :

- 1. Ali
- 2. Om
- 3. Paul
- 4. Data Inadequate
- 5. None of these

Question No. 54

Ratio between which of the following is the lowest.

Options :

1. No. of runs scored by Paul in match A to the no. of runs scored by Om in match D.
2. No. of runs scored by Ali in match C to the no. of runs scored by all the players in match E.
3. No. of runs scored by Ali and Paul together in the match B and E to the no. of runs scored by Om in the match A and D.
4. No. of runs scored by all the players in match D to the no. of runs scored by Om in match B and C.
5. No. of runs scored by Paul in match D to the no. of runs scored by the same batsman in match E.

Question No. 55

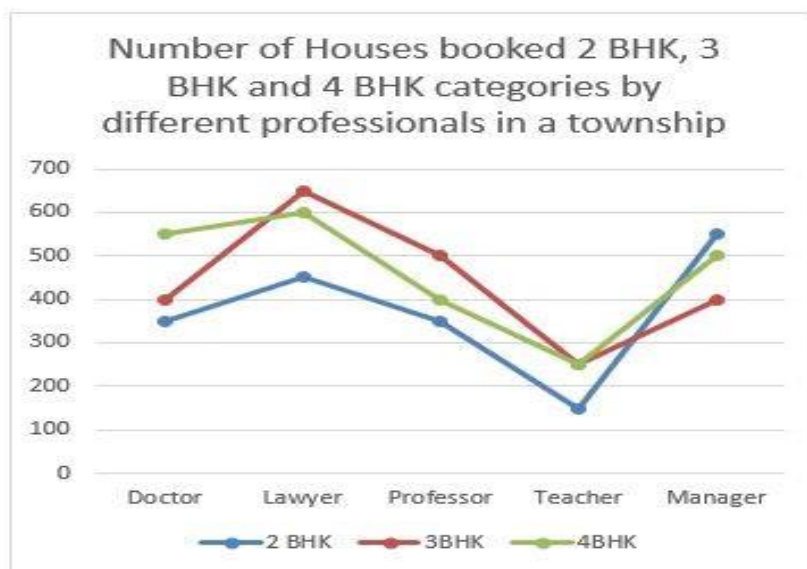

What is the difference between the runs scored by Paul in Match A and B together and runs scored by Om in the same matches together?

Options :

1. 9
2. 18
3. 21
4. 25
5. None of these

Directions (56-60):

Study the following graph carefully and answer the questions given below.

Question No. 56

If the persons who booked 60% of the houses under 2BHK and 8% of the houses under 4BHK categories are registered but yet to deposit the booking amount due to which their bookings may get cancelled, find the number of houses that may be available for booking after the cancellation?

Options :

1. 7,275
2. 5,285
3. 3,525
4. 2,975
5. None of these

Question No. 57

As per the scheme of the township, anyone who booked the house deposits 50% of the total cost of the house at the time of booking, he gets a discount of 10% of the total cost. If a person borrows Rs. 10,00,000 at simple interest rate of 12% p.a. for 1 year so that he can pay 50% of the total cost of Rs. 25,00,000 at the time of booking, how much he has saved in the process ?

Options :

1. Rs.2,70,000
2. Rs.2,30,000
3. Rs.1,30,000
4. Rs.1,07,000
5. None of these

Question No. 58

If the ratio of the total number of male professionals to the total number of female professionals who booked 3BHK houses was 6 : 5, then the number of female professionals who booked the 3BHK house is approximately what percent of the number of male professionals who booked the same type of house?

Options :

1. 83
2. 93
3. 47
4. 75
5. None of these

Question No. 59

If all the professionals who booked the houses took loans from various sources viz. 30% of them took loan from bank, 50% of them from relatives and friends and remaining from NBFCs, then find the number of persons took loan from NBFCs.

Options :

1. 1270
2. 1393
3. 1475
4. 1075
5. None of these

Question No. 60

If 20% of the total number of 2BHK houses, 15% of the total number of 3BHK houses, 35% of the total number of 4BHK houses bookings got cancelled. Find the total number of houses for which booking were not cancelled.

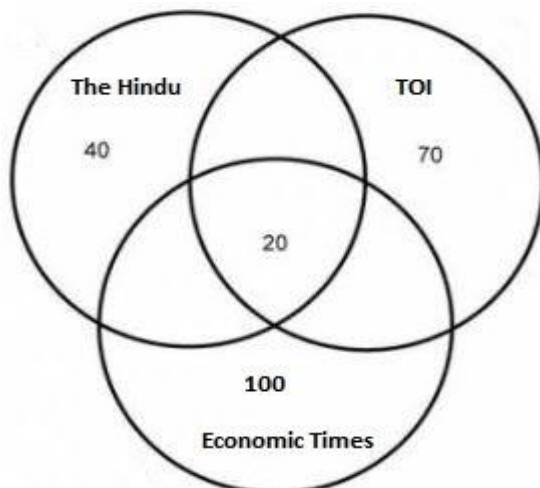

Options :

1. 4,265
2. 5,285
3. 4,845
4. 3,026
5. None of these

Directions (61-65):

Study the following diagram and table to answer the questions given below it.

The residents of a building read different newspaper; The Hindu, TOI, and Economic Times. A total of 100 residents read The Hindu, 150 read TOI and 200 read Economic Times.

Newspaper	Male: Female
The Hindu (only)	5: 3
TOI (Only)	7: 3
Economic Times (Only)	11: 9
The Hindu and TOI (Only)	4: 1
The Hindu and Economic Times (Only)	7: 8
TOI and Economic Times (Only)	2: 3
The Hindu, TOI, and Economic Times	3: 1

Question No. 61

What is the total number of residents in the building?

Options :

1. 500
2. 300
3. 400
4. 320
5. 450

Question No. 62

What the ratio of males who read only 'The Hindu' to the Females who read all three newspaper?

Options :

1. 5:2
2. 2:3
3. 5:1
4. 3:4
5. 4:5

Question No. 63

What is the difference between the total number of males and females in the building?

Options :

1. 25
2. 52
3. 65
4. 56
5. 45

Question No. 64

What approx. percentage of the total females read both The Hindu & TOI?

Options :

1. 2.5%
2. 3.5%
3. 2.85%
4. 3.89%
5. 1.72%

Question No. 65

What is the average number of people who read only TOI, The Hindu and Economic Times only and all three newspaper?

Options :

1. 35
2. 20
3. 40
4. 32
5. 45

Directions (66-70):

Study the table carefully to answer the questions that follow:

Number of doctors who joined a hospital in five different years.

Years Specialization	2012	2013	2014	2015	2016
Cardiologist	35	48	—	—	59
Gynecologist	21	45	14	8	—
Surgeon	45	60	—	72	84
Phycologist	28	19	—	32	40
Endocrinologist	—	88	40	55	29

Question No. 66

If the average number of Cardiologists joined in all the given years is 65 and the number of cardiologists joined in 2014 is 4 times the number of Gynaecologists in 2012, then what is the total number of cardiologists who joined the hospital in 2015?

Options :

1. 76
2. 84
3. 67
4. 99
5. None of these

Question No. 67

If the total number of doctors who joined in 2016 is 400, then what is the total number of gynaecologists who joined the hospital in all the given years?

Options :

1. 165
2. 198
3. 252
4. 276
5. None of these

Question No. 68

What is the ratio of the total number of doctors who joined in 2013 and the number of Phycologists who joined in 2012 and 2015?

Options :

1. 13:3
2. 17 : 8
3. 3 : 13
4. 8 : 17
5. None of these

Question No. 69

If the average number of Psychologists who joined in all the given years is 31 and the total number of doctors who joined in 2012 is 140, then what is the difference between the number of Psychologists who joined in all the years together and the total number Endocrinologists in all the years together?

Options :

1. 222
2. 68
3. 114
4. 141
5. None of these

Question No. 70

If the total number of surgeons who joined in 2014 is one-third of the number of surgeons who joined in 2013, then the number of Endocrinologists who joined in all the years together is approximately what percent of the number of Surgeon in all the years together?

Options :

1. 73%
2. 79%
3. 66%
4. 92%
5. None of these

Section: General/Economy/Banking Awareness

Question No. 71

Who is the head of the Inter-Disciplinary committee constituted to examine the existing framework with regard to Virtual Currencies?

Options :

1. Madhukar Gupta
2. Dinesh Sharma
3. Shashikant Sharma
4. Shailesh Nagar
5. None of these

Question No. 122

Which of the following should be the FIRST sentence after the rearrangement?

Options :

1. D
2. C
3. E
4. A
5. B

Question No. 123

Which of the following should be the FIFTH sentence after the rearrangement?

Options :

1. A
2. C
3. E
4. B
5. D

Question No. 124

Which of the following should be the THIRD sentence after the rearrangement?

Options :

1. B
2. C
3. E
4. A
5. D

Question No. 125

Which of the following should be the SECOND sentence after the rearrangement?

Options :

1. E
2. C
3. B
4. A
5. D

Question No. 126

Which of the following should be the FOURTH sentence after the rearrangement?

Options :

1. C
2. B
3. E
4. A
5. D

Directions (127-130):

In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each five words are suggested, one of which fits the blank appropriately.

The experience(136) the British Rule in India was unique by itself. The rulers(137) bothered about the welfare of the ruled. They impoverished India to make England rich. They also accumulated personal wealth and possessions by hitting at the bellies of the(138) people, "India," remarks Chatham, "teems with iniquities so rank as to smell heaven and earth." Edmund Burke lamented(139) the misrule of India **by** the East India Company in Parliament.

Question No. 127

Find out the appropriate words.

Options :

1. for
2. from
3. of
4. to
5. None of these

Question No. 128

Find out the appropriate words.

Options :

1. never
2. not
3. Did not
4. do not
5. none of these

Question No. 129

Find out the appropriate words.

Options :

1. rich
2. powerful
3. good
4. hungry
5. None of these

Question No. 130

Find out the appropriate words.

Options :

1. over
2. to
3. of
4. from
5. none of these

Directions(131-134):

Each question below has three blanks, each blank indicating that something has been omitted. Find out which option can be used to fill up the blanks in the sentence in the same sequence to make it meaning complete.

Question No. 131

There is a _____ of interests for Turkey and Russia in finding a peaceful solution. Having seen the U.S. _____ in Iraq and Afghanistan, Russia doesn't want to get _____ in Syria.

Options :

1. happening, agenda, involved
2. compulsion, manifestation, indulged
3. convergence, interventions, stuck
4. moderation, agenda, struck
5. showbiz, people, struck

Question No. 132

Fast moving consumer goods companies witnessed a _____ in spending as consumers turned _____ in November due to a cash _____ following the Centre's demonetization move.

Options :

1. loss, precocious, flow
2. slowdown, cautious, crunch
3. profit, novice, deposit
4. layoff, carefree, munch
5. downward, horrid, pose

Question No. 133

If power and position were all that _____, SP supremo might have been able to more evenly distribute the _____ of office and quickly end the crisis _____ his party.

Options :

1. caters, work, engaging
2. matter, issue, loathed
3. shatter, causes, demeaning
4. mattered, loaves, engulfing
5. serious, issues, managing

Question No. 134

Mr. Obama's _____ will have long-term _____ for U.S.-Russia ties. The rising tensions have _____ fears of a new Cold War.

Options :

1. policy, implications, reignited
2. policies, diction, regained
3. agenda, jurisdiction, resolved
4. attitude, effect, engaged
5. simplicity, ties, rejoiced

Directions (135-145):

Read the following passage carefully and answer the questions given below it. Certain words/ Phrases have been printed in bold to help you locate them while answering some of the questions.

In a recent judgment, the Uttarakhand High Court declared the rivers Yamuna and Ganga as legal or juridical persons, enjoying all the rights, duties and liabilities of a living person. Indian courts have granted this status to temple deities, religious books, corporations, etc., but it is for the first time that an element of the natural environment has been declared a legal person. And it is not just the two rivers — all their tributaries, streams, every natural water body flowing continuously or intermittently off these rivers will enjoy this status.

The two issues before the High Court were: removal of illegal constructions on the banks of a canal in Dehradun, and the division of water resources between Uttar Pradesh and Uttarakhand (which had not been resolved since the formation of the new State). In December 2016, the High Court directed the removal of the constructions. It also directed the constitution of the Ganga Management Board (a statutory body under the U.P. Reorganisation Act 2000), and prohibited mining of the Ganga riverbed and its highest flood plain area. On the issue of resource division, the court directed the Central government to notify the settlement reached by the two States in a time-bound manner.

Three months later, when the matter came up before the court once again, the encroachments were still there, the settlement between the States was yet to take place, and the board had not been constituted. The court issued directions for time-bound action. But separately, it took three logical leaps.

First, for the court, an 'extraordinary situation' had been created which required extraordinary measures for the protection of the Ganga and the Yamuna. From what was a clear **breach** of statutory duties under the U.P. Reorganisation Act, and the regrettable, though scarcely unprecedented, inability of the State to remove encroachments, the case became one concerning the protection of the health and well-being of the two rivers. The issue may have been elaborated upon in court, but the judgment, unfortunately, does not tell us more.

Second, the court recorded how the rivers provide 'physical and spiritual **sustenance**' to half the Indian population. It found the constitution of the board to be necessary for various purposes including irrigation, water supply, and power generation. And then, curiously, found it expedient to give legal status to the rivers as living persons.

Third, the court decides to exercise the *parens patriae* jurisdiction to declare the rivers and all their tributaries, etc. as living persons. *Parens patriae*, literally 'parent of the country', is an inherent power of the **sovereign**, and not the courts, to provide protection to persons unable to take care of themselves. It was (in)famously deployed by the Indian government in the Bhopal Gas tragedy case to represent the claims of the victims. The Director, Namami Gange, the Chief Secretary of Uttarakhand and the Advocate General of Uttarakhand have been appointed as the persons in *loco parentis* — persons who will act 'in the place of parents' for the two rivers. These officers are now expected to act on behalf of the rivers for their protection and conservation. They are 'bound to uphold the status' of the rivers and also to promote their health and well-being.

The judgment comes close on the heels of New Zealand granting legal status to the Whanganui river. But unlike the comprehensive Bill passed by the New Zealand Parliament recognising rights and settling claims, the High Court's declaration is **terse**, and raises several questions. In the eyes of the law, living persons such as companies, associations, deities etc., have rights and duties — primary among these being the right to sue and the capacity to be sued. Which implies that from now on, the rivers can sue persons acting against their interests. But what for? Do they have a right not to be a receptacle for tons of sewage? Can they demand minimum ecological flows? A right not to be dammed, **dredged**, or diverted? If yes, who will sue whom? Can the Chief Secretary of Uttarakhand now sue a Municipal Corporation in Uttar Pradesh or Bihar for the discharge of effluents downstream? Or will the Director, Namami Gange, sue the Central government for approving another hydro-power project on the river? Do other **riparian** State governments now have less of a role in the protection of the rivers as they are not the identified 'custodians'? And what are rivers' duties?

Question No. 135

As per this article, what were the two issues before the high court regarding the rivers Ganga and Yamuna?

- (A) Removal of illegal constructions on the banks of a canal in Dehradun
- (B) Division of water resources between Uttar Pradesh and Uttarakhand
- (C) To find out ways of cleaning the rivers

Options :

- 1. Only (A)
- 2. All (A), (B) & (C)
- 3. Only (C)
- 4. Only (A) & (B)
- 5. None of these

Question No. 136

As per this article, what is the meaning of loco parentis.

- (A) Persons who will act 'in the place of parents'
- (B) Local guardian
- (C) Parent of the country
- (D) Parent of the Rivers

Options :

- 1. Only (A)
- 2. Only (A) & (B)
- 3. Only (C)
- 4. All of these
- 5. None of these

Question No. 137

As per this article, why was the constitution of the Ganga Management Board necessary?

- (A) To look after issues of irrigation, water supply and power generation
- (B) To give legal status to the rivers as living persons
- (C) For stopping illegal Mining on the banks of Ganga
- (D) For resource allocation between UP and Uttarakhand

Options :

1. Only (A)
2. Only (A) & (B)
3. Only (C)
4. All of these
5. None of these

Question No. 138

What are the duties of the loco parentis — persons who will act 'in the place of parents' for the two rivers?

- (A) To act on behalf of the rivers for their protection and conservation.
(B) To uphold the status of the rivers and also to promote their health and well-being.
(C) To clean the rivers themselves and ensure these resources are not misused

Options :

1. Only (A)
2. All of these
3. Only (C)
4. Only (A) & (B)
5. None of these

Question No. 139

The power to exercise the parens patriae jurisdiction has been used by the court in which of the following incidents?

- (A) In the Bhopal Gas tragedy case
(B) To provide legal status to the rivers Ganga and Yamuna
(C) In granting legal status to the Whanganui river

Options :

1. Only (A)
2. All of these
3. Only (A), (C) & (D)
4. Only (A) & (B)
5. None of these

Question No. 140

Which are the entities that have been declared as legal or juridical persons?

- (A) Rivers Ganga and Yamuna
- (B) All Rivers flowing in the Indian Mainland
- (C) Temple deities, religious books, corporations
- (D) Tributaries, streams, and every natural water body flowing continuously or intermittently off the Ganga and the Yamuna rivers.

Options :

- 1. Only (A)
- 2. All of these
- 3. Only (A), (C) &(D)
- 4. Only (A) & (B)
- 5. None of these

Question No. 141

Choose the word/group of words which is most similar in meaning to the word/group of words printed in bold as used in passage .

Riparian

Options :

- 1. Overflowed
- 2. Dodged
- 3. Riverside
- 4. Breached
- 5. none of these

Question No. 142

Choose the word/group of words which is most similar in meaning to the word/group of words printed in bold as used in passage .

Dredged

Options :

- 1. Infringed
- 2. Respected
- 3. Obeyed
- 4. Automated
- 5. None of these

Question No. 143

Choose the word/group of words which is most similar in meaning to the word/group of words printed in bold as used in passage .

Sovereign

Options :

1. Constitution
2. Surveillance
3. Autonomous
4. Econnaissance
5. None of these

Question No. 144

Choose the word/group of words which is most opposite in meaning to the word/group of words printed in bold as used in passage.

Terse

Options :

1. Laconic
2. Succinct
3. Verbose
4. Brusque
5. None of these

Question No. 145

Choose the word/group of words which is most opposite in meaning to the word/group of words printed in bold as used in passage.

Sustenance

Options :

1. Victual
2. Deprivation
3. Subsistence
4. Wherewithal
5. None of these

Answers and Explanations**Question.1.** Answer : Option 2**Explanation:**

In order to make things easier, let us represent the words digitally from 1 to 9. Then we have:

BatchA: it is a wonderful vista in the evenings and

1 2 3 4 5 6 7 8 9

Batches	Entry code					
	Mon	Tue	Wed	Thurs	Fri	Sat
A	123456789	987654321	123456789	987654321	123456989	987654321

Question.4. Answer : Option 1**Explanation:**

Decoded Statements: $W < X$, $X > E$, $U > E$, $U \geq T$, $Q \leq B$, $W = B$

Combined Inequality : $Q \leq B = W < X > E < U \geq T$

Conclusion:

- (I) $X > B$, it is clear that X is greater than B . Hence, it is correct.
 (II) $U < W$, relationship between U and W cannot be established. Hence, it is incorrect.
 (III) $Q = E$, relationship between Q and E cannot be established. Hence, it is incorrect.
 (IV) $X \geq T$, relationship between X and T cannot be established. Hence, it is incorrect.
 (V) $W \geq Q$, it is clear that W is greater than or equal to Q . Hence, it is correct.

Question.5. Answer : Option 4**Explanation:**

- 1) $R \& S = W \# P \$ K = T$; $R \geq S = W < P > K = T$
 2) $S = W \% P \$ K = T \% R$; $S = W \leq P > K = T$
 3) $P \$ R \& S = W = K = T$; $P > R \geq S = W = K = T$
 4) $P \$ K = T \& R \& S = W$; $P > K = T \geq R \geq S = W$

Now, $T \& W$ means $T \geq W$ and $P \$ R$ means $P > R$. Both are true only in option 4.

Question.6. Answer : Option 3**Explanation:**

Q.no	i/a	ii	iii/b	iv/c	Ans
6	✓	✓	(✓)	✓	3
7	?	✓	✓	✓	4
8	✓	✓	✓	✓	5
9	✓	✓	✓	✓	1
10	(✓)	✓	✓	x	5

Question.7. Answer : Option 4

Explanation:

Q.no	i/a	ii	iii/b	iv/c	Ans
6	✓	✓	(v)	✓	3
7	?	✓	✓	✓	4
8	✓	✓	✓	✓	5
9	✓	✓	✓	✓	1
10	(v)	✓	✓	x	5

Question.8. Answer : Option 5

Explanation:

Q.no	i/a	ii	iii/b	iv/c	Ans
6	✓	✓	(v)	✓	3
7	?	✓	✓	✓	4
8	✓	✓	✓	✓	5
9	✓	✓	✓	✓	1
10	(v)	✓	✓	x	5

Question.9. Answer : Option 1

Explanation:

Q.no	i/a	ii	iii/b	iv/c	Ans
6	✓	✓	(v)	✓	3
7	?	✓	✓	✓	4
8	✓	✓	✓	✓	5
9	✓	✓	✓	✓	1
10	(v)	✓	✓	x	5

Question.10. Answer : Option 5**Explanation:**

Q.no	i/a	ii	iii/b	iv/c	Ans
6	✓	✓	(✓)	✓	3
7	?	✓	✓	✓	4
8	✓	✓	✓	✓	5
9	✓	✓	✓	✓	1
10	(✓)	✓	✓	x	5

Question.11. Answer : Option 1**Explanation:**

From (i), (iii), (v) & (vi), we can fill the table as follows:

Kid's name		Mothers		Colours	
✓	x	✓	x	✓	x
	Ved		Rashmi		Red/White
Ishi			Shweta/Neha		Red
					Blue
	Ved/Vidhu				Red/Blue

From statement (ii) & (iv), we can say that colour of swing C cannot be white, Blue or Green. Hence, C is a pink coloured swing.

Now, since Ishi is on the pink swing it is also clear that Alka, Neha and Rashmi cannot be her mother. So, only person left for her mother will be Surbhi.

From(v), we can say that Vidhu is Rashmi's son and hence, only swing left for Vidhu is B, which is blue coloured swing.

Now, only D is left for red. Hence, colour of D is red and from(ii) & (iv) we know that Ayush and Neha are on the green and white coloured swing respectively. Hence, only Ved can sit on swing D and only Shweta is there to be Ved's mother.

Now, it is clear that Ayush is on green coloured swing A and his mother is Alka and Ritank is on white coloured swing E and his mother is Neha. Therefore, final arrangement will be as follows:

Swings	Name	Mother's Name	Colour
A	Ayush	Alka	Green
B	Vidhu	Rashmi	Blue
C	Ishi	Surbhi	Pink
D	Ved	Shweta	Red
E	Ritank	Neha	White

Question.12. Answer : Option 2

Explanation:

From (i), (iii), (v) & (vi), we can fill the table as follows:

Kid's name		Mothers		Colours	
✓	x	✓	x	✓	x
	Ved		Rashmi		Red/White
Ishi			Shweta/Neha		Red
					Blue
	Ved/Vidhu				Red/Blue

From statement (ii) & (iv), we can say that colour of swing C cannot be white, Blue or Green. Hence, C is a pink coloured swing.

Now, since Ishi is on the pink swing it is also clear that Alka, Neha and Rashmi cannot be her mother. So, only person left for her mother will be Surbhi.

From(v), we can say that Vidhu is Rashmi's son and hence, only swing left for Vidhu is B, which is blue coloured swing.

Now, only D is left for red. Hence, colour of D is red and from(ii) & (iv) we know that Ayush and Neha are on the green and white coloured swing respectively. Hence, only Ved can sit on swing D and only Shweta is there to be Ved's mother.

Now, it is clear that Ayush is on green coloured swing A and his mother is Alka and Ritank is on white coloured swing E and his mother is Neha. Therefore, final arrangement will be as follows:

Swings	Name	Mother's Name	Colour
A	Ayush	Alka	Green
B	Vidhu	Rashmi	Blue
C	Ishi	Surbhi	Pink
D	Ved	Shweta	Red
E	Ritank	Neha	White

Question.13. Answer : Option 1

Explanation:

From (i), (iii), (v) & (vi), we can fill the table as follows:

Kid's name		Mothers		Colours	
√	x	√	x	√	x
	Ved		Rashmi		Red/White
Ishi			Shweta/Neha		Red
					Blue
	Ved/Vidhu				Red/Blue

From statement (ii) & (iv), we can say that colour of swing C cannot be white, Blue or Green. Hence, C is a pink coloured swing.

Now, since Ishi is on the pink swing it is also clear that Alka, Neha and Rashmi cannot be her mother. So, only person left for her mother will be Surbhi.

From(v), we can say that Vidhu is Rashmi's son and hence, only swing left for Vidhu is B, which is blue coloured swing.

Now, only D is left for red. Hence, colour of D is red and from(ii) & (iv) we know that Ayush and Neha are on the green and white coloured swing respectively. Hence, only Ved can sit on swing D and only Shweta is there to be Ved's mother.

Now, it is clear that Ayush is on green coloured swing A and his mother is Alka and Ritank is on white coloured swing E and his mother is Neha. Therefore, final arrangement will be as follows:

Swings	Name	Mother's Name	Colour
A	Ayush	Alka	Green
B	Vidhu	Rashmi	Blue
C	Ishi	Surbhi	Pink
D	Ved	Shweta	Red
E	Ritank	Neha	White

Question.14. Answer : Option 4

Explanation:

From (i), (iii), (v) & (vi), we can fill the table as follows:

Kid's name		Mothers		Colours	
✓	x	✓	x	✓	x
	Ved		Rashmi		Red/White
Ishi			Shweta/Neha		Red
					Blue
	Ved/Vidhu				Red/Blue

From statement (ii) & (iv), we can say that colour of swing C cannot be white, Blue or Green. Hence, C is a pink coloured swing.

Now, since Ishi is on the pink swing it is also clear that Alka, Neha and Rashmi cannot be her mother. So, only person left for her mother will be Surbhi.

From(v), we can say that Vidhu is Rashmi's son and hence, only swing left for Vidhu is B, which is blue coloured swing.

Now, only D is left for red. Hence, colour of D is red and from(ii) & (iv) we know that Ayush and Neha are on the green and white coloured swing respectively. Hence, only Ved can sit on swing D and only Shweta is there to be Ved's mother.

Now, it is clear that Ayush is on green coloured swing A and his mother is Alka and Ritank is on white coloured swing E and his mother is Neha. Therefore, final arrangement will be as follows:

Swings	Name	Mother's Name	Colour
A	Ayush	Alka	Green
B	Vidhu	Rashmi	Blue
C	Ishi	Surbhi	Pink
D	Ved	Shweta	Red
E	Ritank	Neha	White

Question.15. Answer : Option 1

Explanation:

From (i), (iii), (v) & (vi), we can fill the table as follows:

Kid's name		Mothers		Colours	
✓	x	✓	x	✓	x
	Ved		Rashmi		Red/White
Ishi			Shweta/Neha		Red
					Blue
	Ved/Vidhu				Red/Blue

From statement (ii) & (iv), we can say that colour of swing C cannot be white, Blue or Green. Hence, C is a pink coloured swing.

Now, since Ishi is on the pink swing it is also clear that Alka, Neha and Rashmi cannot be her mother. So, only person left for her mother will be Surbhi.

From(v), we can say that Vidhu is Rashmi's son and hence, only swing left for Vidhu is B, which is blue coloured swing.

Now, only D is left for red. Hence, colour of D is red and from(ii) & (iv) we know that Ayush and Neha are on the green and white coloured swing respectively. Hence, only Ved can sit on swing D and only Shweta is there to be Ved's mother.

Now, it is clear that Ayush is on green coloured swing A and his mother is Alka and Ritank is on white coloured swing E and his mother is Neha. Therefore, final arrangement will be as follows:

Swings	Name	Mother's Name	Colour
A	Ayush	Alka	Green
B	Vidhu	Rashmi	Blue
C	Ishi	Surbhi	Pink
D	Ved	Shweta	Red
E	Ritank	Neha	White

Question.16. Answer : Option 4

Explanation:

From(iii) & (v), we get the two possibilities: case(a) and case(b).

Row	Column		
	C1	C2	C3
R3	Isha		
R2			
R1	Kirti		Heena

Case(a)

Row	Column		
	C1	C2	C3
R3			Isha
R2			
R1	Heena		Kirti

Case(b)

From(iv), (i) & (ii), arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Isha	Leela/Soni	Soni/Leela
R2	Divya	Gauri/Mona	Jiya
R1	Kirti	Mona/Gauri	Heena

Case(a)

Row	Column		
	C1	C2	C3
R3	Leela/Soni	Soni/Leela	Isha
R2	Jiya	Gauri/Mona	Divya
R1	Heena	Mona/Gauri	Kirti

Case (b)

From (vi) and since, all the kids are facing south it is clear that case(a) is not possible. Hence, we will go with case (b).

With the help of statement (vii), final arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Soni	Leela	Isha
R2	Jiya	Gauri	Divya
R1	Heena	Mona	Kirti

Question.17. Answer : Option 4

Explanation:

From(iii) & (v), we get the two possibilities: case(a) and case(b).

Row	Column		
	C1	C2	C3
R3	Isha		
R2			
R1	Kirti		Heena

Case(a)

Row	Column		
	C1	C2	C3
R3			Isha
R2			
R1	Heena		Kirti

Case(b)

From(iv), (i) & (ii), arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Isha	Leela/Soni	Soni/Leela
R2	Divya	Gauri/Mona	Jiya
R1	Kirti	Mona/Gauri	Heena

Case(a)

Row	Column		
	C1	C2	C3
R3	Leela/Soni	Soni/Leela	Isha
R2	Jiya	Gauri/Mona	Divya
R1	Heena	Mona/Gauri	Kirti

Case (b)

From (vi) and since, all the kids are facing south it is clear that case(a) is not possible. Hence, we will go with case (b).

With the help of statement (vii), final arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Soni	Leela	Isha
R2	Jiya	Gauri	Divya
R1	Heena	Mona	Kirti

Question.18. Answer : Option 2

Explanation:

From(iii) & (v), we get the two possibilities: case(a) and case(b).

Row	Column		
	C1	C2	C3
R3	Isha		
R2			
R1	Kirti		Heena

Case(a)

Row	Column		
	C1	C2	C3
R3			Isha
R2			
R1	Heena		Kirti

Case(b)

From(iv), (i) & (ii), arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Isha	Leela/Soni	Soni/Leela
R2	Divya	Gauri/Mona	Jiya
R1	Kirti	Mona/Gauri	Heena

Case(a)

Row	Column		
	C1	C2	C3
R3	Leela/Soni	Soni/Leela	Isha
R2	Jiya	Gauri/Mona	Divya
R1	Heena	Mona/Gauri	Kirti

Case (b)

From (vi) and since, all the kids are facing south it is clear that case(a) is not possible. Hence, we will go with case (b).

With the help of statement (vii), final arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Soni	Leela	Isha
R2	Jiya	Gauri	Divya
R1	Heena	Mona	Kirti

Question.19. Answer : Option 4

Explanation:

From(iii) & (v), we get the two possibilities: case(a) and case(b).

Row	Column		
	C1	C2	C3
R3	Isha		
R2			
R1	Kirti		Heena

Case(a)

Row	Column		
	C1	C2	C3
R3			Isha
R2			
R1	Heena		Kirti

Case(b)

From(iv), (i) & (ii), arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Isha	Leela/Soni	Soni/Leela
R2	Divya	Gauri/Mona	Jiya
R1	Kirti	Mona/Gauri	Heena

Case(a)

Row	Column		
	C1	C2	C3
R3	Leela/Soni	Soni/Leela	Isha
R2	Jiya	Gauri/Mona	Divya
R1	Heena	Mona/Gauri	Kirti

Case (b)

From (vi) and since, all the kids are facing south it is clear that case(a) is not possible. Hence, we will go with case (b).

With the help of statement (vii), final arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Soni	Leela	Isha
R2	Jiya	Gauri	Divya
R1	Heena	Mona	Kirti

Question.20. Answer : Option 2

From(iii) & (v), we get the two possibilities: case(a) and case(b).

Row	Column		
	C1	C2	C3
R3	Isha		
R2			
R1	Kirti		Heena

Case(a)

Row	Column		
	C1	C2	C3
R3			Isha
R2			
R1	Heena		Kirti

Case(b)

From(iv), (i) & (ii), arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Isha	Leela/Soni	Soni/Leela
R2	Divya	Gauri/Mona	Jiya
R1	Kirti	Mona/Gauri	Heena

Case(a)

Row	Column		
	C1	C2	C3
R3	Leela/Soni	Soni/Leela	Isha
R2	Jiya	Gauri/Mona	Divya
R1	Heena	Mona/Gauri	Kirti

Case (b)

From (vi) and since, all the kids are facing south it is clear that case(a) is not possible. Hence, we will go with case (b).

With the help of statement (vii), final arrangement will be as follows:

Row	Column		
	C1	C2	C3
R3	Soni	Leela	Isha
R2	Jiya	Gauri	Divya
R1	Heena	Mona	Kirti

Question.21. Answer : Option 4

Explanation:

Here the code contains 2 letters, one symbol and a number.

First letter represents an opposite letter of the first letter of the word.

Then symbol represents no. of vowels (if no. of vowels is 1, then code @, if it is 2, then code #, if it is 3, then code & and if it is 4, then code \$).

Next letter represents a second last letter of the word + 3.

Last number represents a no. of letters in the word multiplies by 2.

In the word Inception,

I → opposite of I is r

No. of vowels → 4 → \$

Second last letter → t + 3 → w

No. of letters in the word → 8 → $8 \times 2 = 16$

Question.22. Answer : Option 2

Explanation:

Here the code contains 2 letters, one symbol and a number.

First letter represents an opposite letter of the first letter of the word.

Then symbol represents no. of vowels (if no. of vowels is 1, then code @, if it is 2, then code #, if it is 3, then code & and if it is 4, then code \$).

Next letter represents a second last letter of the word + 3.

Last number represents a no. of letters in the word multiplies by 2.

In the word Read,

R → opposite of R is i

No. of vowels → 2 → #

Second last letter $\rightarrow a + 3 \rightarrow d$

No. of letters in the word $\rightarrow 4 \rightarrow 4 \times 2 = 8$

Code for 'read' is i#d8

In the word request,

R $\rightarrow$ opposite of R is i

No. of vowels $\rightarrow 3 \rightarrow \&$

Second last letter $\rightarrow s + 3 \rightarrow v$

No. of letters in the word $\rightarrow 7 \rightarrow 7 \times 2 = 14$

Code for 'request' is i&v14

In the word for,

f $\rightarrow$ opposite of f is u

No. of vowels $\rightarrow 1 \rightarrow @$

Second last letter $\rightarrow o + 3 \rightarrow r$

No. of letters in the word $\rightarrow 3 \rightarrow 3 \times 2 = 6$

Code for 'for' is u@r6

In the word books,

b $\rightarrow$ opposite of b is y

No. of vowels $\rightarrow 2 \rightarrow \#$

Second last letter $\rightarrow k + 3 \rightarrow n$

No. of letters in the word $\rightarrow 5 \rightarrow 5 \times 2 = 10$

Code for 'books' is y#n10

Question.23. Answer : Option 1

Explanation:

In the word Chennai,

C $\rightarrow$ opposite of C is x

No. of vowels $\rightarrow 3 \rightarrow \&$

Second last letter $\rightarrow a + 3 \rightarrow d$

No. of letters in the word $\rightarrow 7 \rightarrow 7 \times 2 = 14$

Code for 'Chennai' is x&d14

Question.24. Answer : Option 4

Explanation:

Given words: AHY CGM STQ ILO WEF

On applying operations: BGY DFM TSQ JKO XDF

Dictionary order: BGY DFM JKO TSQ XDF

Second word in dictionary order is DFM .

Hence, option 4 is the answer.

Question.25. Answer : Option 1**Explanation:**

Given words: AHY CGM STQ ILO WEF

On applying 1st operation: AYH CMG SQT IOL WFE

On applying 2nd operation: YAH MCG QST OIL FWE

Dictionary order: FWE MCG OIL QST YAH

Last word in dictionary order is YAH .

Hence, option 1 is the answer.

Question.26. Answer : Option 3**Explanation:**

$54 - 45 = 9$ (Rule iv) then $9 + 25 = 34$ (Rule v)

$55 - 48 = 7$ (Rule ii) then, $87 \times 7 = 609$ (Rule i)

$\therefore (1/2 \times 34) + 609 = 17 + 609 = 626$

Question.27. Answer : Option 1**Explanation:**

$13 \times 9 = 117$ (Rule i) Then, $124 - 117 = 7$ (Rule iv)

$\therefore x = 7$

$15 \times 7 = 105$, (Rule i) Then, $116 - 105 = 11$ (Rule iv)

$\therefore \text{Product} = 7 \times 11 = 77$

Question.28. Answer : Option 3**Explanation:**

$60 \div 20 = 3$ (Rule iii), Then, $3 \times 35 = 105$ (Rule i)

$\therefore x = 1/5 \times 105 = 21$

$21 - 14 = 7$ (rule ii), Then, $7 \times 63 = 441$ (Rule i)

$\therefore \text{Sum} = 105 + 441 = 546$

Question.29. Answer : Option 3**Explanation:**

The Java development environment is a special software development kit that lets you construct a Java program within a virtual test environment.

Question.30. Answer : Option 1

Explanation:

Java is an object-oriented programming language, meaning it focuses on objects (software). Each object has its own state and behaviour.

Question.31. Answer : Option 1

Explanation:

The core of the Internet is the backbone, a system of fiber-optic lines, cables, satellite links and Internet service providers that connect the various networks on the Internet together.

Question.32. Answer : Option 1

Explanation:

Digital fingerprinting databases contain segments of copyrighted files; if a file uploaded by an unlicensed distributor is scanned and a match is found, the video or song can be rejected.

Question.33. Answer : Option 3

Question.34. Answer : Option 2

Question.35. Answer : Option 4

Question.36. Answer : Option 3

Explanation:

Let number of skilled, semi-skilled and unskilled workers be $3x$, $2x$ and x respectively.

$$\Rightarrow 3x \times 675 + 2x \times 550 + x \times 425 = 35,500$$

$$\Rightarrow 2025x + 1100x + 425x = 35,500$$

$$\Rightarrow 3550x = 35,500$$

$$\therefore x = 10$$

$$\therefore \text{Number of semi-skilled workers} = 2x = 2 \times 10 = 20$$

Question.37. Answer : Option 1

Explanation:

Difference in wages,

$$\text{For Project A} = 675 - 550 = \text{Rs. } 125$$

$$\text{For Project B} = 525 - 400 = \text{Rs. } 125$$

$$\text{For Project C} = 625 - 575 = \text{Rs. } 50$$

$$\text{For Project D} = 525 - 450 = \text{Rs. } 75$$

$$\text{For Project E} = 650 - 550 = \text{Rs. } 100$$

∴ It is clear that for project A and B, the wage difference is same and the maximum.

Question.38. Answer : Option 1

Explanation:

Total money paid to the workers = $(10 \times 650) + (8 \times 550) + (5 \times 400) = 6500 + 4400 + 2000 = \text{Rs. } 12,900$ and

Commission paid = 10% of 12,900 = Rs.1,290

∴ Contractor's profit = $30,000 - 12,900 - 1,290$
= Rs.15,810

Question.39. Answer : Option 4

Explanation:

Total amount paid to the workers in 15 days = $(525 + 450 + 350) \times 15 = 1325 \times 15 = \text{Rs. } 19,875$

Let the total amount of the project be x

∴ 40% of x = 19,875

$x = (19875 \times 100)/40 = \text{Rs. } 49,687.5$

Question.40. Answer : Option 5

Explanation:

Total wages paid for Project B = $(5 \times 525) + (3 \times 400) + (4 \times 375) = 2625 + 1200 + 1500 = 5,325$ and

Total wages paid for Project C = $(5 \times 625) + (3 \times 575) + (4 \times 525) = 3125 + 1725 + 2100 = 6,950$

∴ Required ratio = $5325/6950 = 213/278$

Question.41. Answer : Option 1

Explanation:

Quantity I – Total number of members = $5 + 7 = 12$

Let S be the sample space. Then,

$n(S) = \text{total number of ways of selecting 6 artistes out of 12} = {}^{12}C_6 = (12 \times 11 \times 10 \times 9 \times 8 \times 7)/(6 \times 5 \times 4 \times 3 \times 2 \times 1) = 924$

Let E = event of selecting 6 members when none is Dancer.

$n(E) = {}^7C_6 = 7$

∴ P (E) when none of the member is Dancer = $7/924$

∴ P (E) when at least one member is Dancer = $1 - 7/924 = 917/924 = 131/132$

Quantity II – Total number of members = $5 + 7 = 12$

Let S be the sample space. Then,

$n(S) = \text{total number of ways of selecting 6 artistes out of 12} = {}^{12}C_6 = (12 \times 11 \times 10 \times 9 \times 8 \times 7)/(6 \times 5 \times 4 \times 3 \times 2 \times 1) = 924$

Let E = event of selecting 6 members having exactly 3 dancers and 3 singers.

$$n(E) = {}^5C_3 \times {}^7C_3 = (7 \times 6 \times 5)/(3 \times 2 \times 1) = 35$$

$\therefore P(E)$ when there are exactly 3 dancers and 3 singers in the group = $35/924$

$\therefore$ Quantity I > Quantity II.

Question.42. Answer : Option 5

Explanation:

Quantity I – For the calculation convenience, let us assume that original length(L), breadth (B) and height (H) be 10 cm each.

$$\text{Original volume} = 10 \times 10 \times 10 = 1,000 \text{ cm}^3$$

New L = 11, new B = 12.5 and new height = 14

$$\therefore \text{New volume} = 11 \times 12.5 \times 14 = 1,925 \text{ cm}^3$$

$$\text{Increase in volume} = 1,925 - 1,000 = 925 \text{ cm}^3$$

$$\% \text{ increase in volume} = 925/1000 \times 100 = 92.5\%$$

Quantity II – For the calculation convenience, let us assume that original length(L), breadth (B) and height (H) be 10 cm each.

$$\text{Original volume} = 10 \times 10 \times 10 = 1,000 \text{ cm}^3$$

New L = 15.5, new B = 10 and new height = 12.2

$$\therefore \text{New volume} = 15.5 \times 10 \times 12.2 = 1,891 \text{ cm}^3$$

$$\text{Increase in volume} = 1,891 - 1,000 = 891 \text{ cm}^3$$

$$\% \text{ increase in volume} = 891/1000 \times 100 = 89.1\%$$

Question.43. Answer : Option 1

Explanation:

Quantity I :

$$\text{Speed of the train} = (320+640)/63 = 960/63 \times 18/5 = 54.86 \text{ km/hr.}$$

Quantity II.

$$\text{Speed of the train} = (335+670)/72 = 1005/72 \times 18/5 = 50.25 \text{ km/hr.}$$

$\therefore$ Quantity I > Quantity II.

Question.44. Answer : Option 2

Explanation:

$$\text{Sum} = (5000 \times 100)/(10 \times 2) = \text{Rs. } 25,000$$

Quantity I:

$$CI = 25,000(1 + 10/100)^2 - 25,000$$

$$\Rightarrow 25,000 \times 110/100 \times 110/100 - 25,000$$

$$\Rightarrow 30,250 - 25,000 = \text{Rs. } 5,250$$

Quantity II:

$$CI = 25,000(1 + 8/100)^3 - 25,000$$

$$\Rightarrow 25,000 \times 108/100 \times 108/100 \times 108/100 - 25,000$$

$$\Rightarrow 31,492.8 - 25,000 = \text{Rs. } 6,492.8$$

$\therefore$ Quantity I < Quantity II.

Question.45. Answer : Option 2

Explanation:

I. Number of senior citizens in the train who are equal to or below the age of 70 years = (20+24) % of 25% of 24,000

$$= 44/100 \times 25/100 \times 24,000 = 2,640$$

II. Number of non-senior citizens in the train who are equal to or above 31 years = (23+27)% of 75% of 24,000

$$= 50/100 \times 75/100 \times 24,000 = 9,000$$

III. Number of non-senior citizens who are below 31 years = (16+34)% of 75% of 24,000

$$= 50/100 \times 75/100 \times 24,000 = 9,000$$

Question.46. Answer : Option 2

Explanation:

No. of senior citizens of age group 66-70 years = 24% of 25% of 24,000 = 1,440

No. of non-senior citizens of less than 15 years age = 16% of 75% of 24,000 = 2,880

$$\therefore \text{Reqd. \%} = (2880 - 1440) / 2880 \times 100 = 1,440 / 2,880 \times 100 = 50\%$$

Question.47. Answer : Option 4

Explanation:

No. of non-senior citizens of age group between 46 – 60 years = 27% of 75% of 24,000 = $27/100 \times 75/100 \times 24,000 = 4,860$

No. of non-senior citizens of age group between 46 – 60 years becomes senior citizen = $40/100 \times 4,860 = 1,944$

$$\therefore \text{Total number of senior citizen} = (25\% \text{ of } 24,000) + 1,944 = 25/100 \times 24,000 + 1,944 = 6,000 + 1,944 = 7,944$$

Question.48. Answer : Option 4

Explanation:

From I: Let the Varun's salary be x

$$x/3 + x/5 + x/6 + D = x$$

$$\therefore D = 3x/10$$

From II: D = Rs. 18,000

Now using I and II,

$$D = 3x/10$$

$$18,000 = 3x/10$$

$$x = 60,000$$

From III: Let his wife's salary be = Rs. x

$$x - x/5 = 8,000$$

$$4x/5 = 8,000$$

$$x = 10,000$$

Now, Varun's salary = $6/1 = y/10000$

$$y = 10,000 \times 6 = \text{Rs. } 60,000$$

Question.49. Answer : Option 5

Explanation:

All these statements even together are not sufficient to answer the question because neither the number of students nor the number of teachers is given. Also, we don't have the number of students of any age group.

Question.50. Answer : Option 3

Explanation:

From I and II,

$$\text{Area of four walls} = 2(l + b) \times h$$

$$\Rightarrow 52 \times 15 = 780 \text{ m}^2$$

$$\therefore \text{Cost of painting the four walls} = 780 \times 20 = \text{Rs. } 15,600$$

Question.51. Answer : Option 3

Explanation:

$$\text{I. Reqd. \%} = 75/125 \times 100 = 60 \%$$

Hence, Statement I is not correct.

$$\text{II. Total runs scored by Paul} = 125 + 100 + 175 + 50 + 175 = 625$$

$$\text{Total runs scored by Ali} = 50 + 150 + 100 + 75 + 150 = 525$$

$$\text{Total runs scored by Om} = 150 + 50 + 25 + 125 + 75 = 425$$

Hence, Statement II is correct.

$$\text{III. Total runs scored by Ali} = 50 + 150 + 100 + 75 + 150 = 525$$

$$\text{Total runs scored by Om} = 150 + 50 + 25 + 125 + 75 = 425$$

$$\therefore \text{Reqd. \%} = ((525-425))/425 \times 100 = 23.52 \%$$

Hence, Statement III is correct.

Question.52. Answer : Option 2

Explanation:

Total runs scored by Ali in all the 5 matches together = 525

∴ Average runs scored by Ali in all the 5 matches together = $525/5 = 105$

∴ Average runs scored by Ali in all the 6 matches together = 117

∴ Total runs scored by Ali in all the 6 matches together = $117 \times 6 = 702$

∴ Runs scored by Ali in the sixth match = $702 - 525 = 177$

Question.53. Answer : Option 5

Question.54. Answer : Option 5

Explanation:

Ratio between the no. of runs scored by Paul in match A to the no. of runs scored by Om in match D = $125/125 = 1$

Ratio between the no. of runs scored by Ali in match C to the no. of runs scored by all in match E = $100/(175+150+75) = 100/400 = 0.25$

Ratio between the no. runs scored by Ali and Paul together in the match B and E to the no. of runs scored by Om in the match A and D = $(300+275)/(150+125) = 575/275 = 2.09$

Ratio between the no. of runs scored by all in match D to the no. of runs scored by Om in match B and C = $(50+75+125)/(50+25) = 250/75 = 3.33$

Ratio between the no. of runs scored by Paul in match D to the no. of runs scored by the same batsman in match E = $50/175 = 0.28$

Question.55. Answer : Option 4

Explanation:

Runs scored by Paul in Match A and B together = $125 + 100 = 225$

Runs scored by Om in Match A and B together = $150 + 50 = 200$

∴ Required Difference = $225 - 200 = 25$

Question.56. Answer : Option 4

Explanation:

Total no. of 2BHK houses booked = $350 + 450 + 350 + 150 + 550 = 1,850$

∴ No. of unbooked houses = $(1850 \times 60)/40 = 2,775$

Total no. of 4BHK houses booked = $550 + 600 + 400 + 250 + 500 = 2,300$

∴ No. of unbooked houses = $(2300 \times 8)/92 = 200$

∴ Total no. of unbooked houses = $2,775 + 200 = 2,975$

Question.57. Answer : Option 3**Explanation:**

Total cost of the house = Rs.25,00,000

Total cost if he deposit 50% at booking time = 90% of 25,00,000 = Rs.22,50,000

Simple Interest paid = $(10,00,000 \times 12 \times 1)/100 = 1,20,000$

$\therefore$ Total cost to him = 22,50,000 + 1,20,000 = 23,70,000

Saving in the process = 25,00,000 – 23,70,000 = Rs.1,30,000

Question.58. Answer : Option 1**Explanation:**

Ratio of male to female = 6 : 5.

Since both male and female professionals booked the same type and percentage is asked, we need not calculate the total number of houses booked under 3 BHK category nor we have to calculate the number of male and female separately.

$\therefore$ Required percent = $5/6 \times 100 = 83.33\%$

Question.59. Answer : Option 1**Explanation:**

Total no. of houses booked by doctors = 350 + 400 + 550 = 1,300

Total number of houses booked by lawyers = 450 + 650 + 600 = 1,700

Total number of houses booked by professors = 350 + 500 + 400 = 1,250

Total number of houses booked by teachers = 150 + 250 + 250 = 650

Total number of houses booked by managers = 550 + 400 + 500 = 1,450

$\therefore$ Total number of houses booked = 1300 + 1700 + 1250 + 650 + 1450 = 6,350

$\therefore$ Percentage of persons who took loan from NBFCs = $100 - (30 + 50) = 20\%$

$\therefore$ Total number of persons took loan from NBFCs = 20% of 6350 = 1,270

Question.60. Answer : Option 3**Explanation:**

Total no. of 2BHK houses booked = 350 + 450 + 350 + 150 + 550 = 1,850

Total no. of 3BHK houses booked = 400 + 650 + 500 + 250 + 400 = 2,200

Total no. of 4BHK houses booked = 550 + 600 + 400 + 250 + 500 = 2,300

Total number of houses which were not canceled = $(1850 \times 80)/100 + (2200 \times 85)/100 + (2300 \times 65)/100$
 $= 1,480 + 1,870 + 1,495 = 4,845$

Question.61. Answer : Option 4**Explanation:**

Let the number of people who read 'The Hindu and TOI (Only)' be 'x'.

Let the number of people who read 'The Hindu and Economic Times (Only)' be 'y'.

Let the number of people who read 'TOI and Economics Times (Only)' be 'z'.

Given that:

$$40 + 20 + x + y = 100 \Rightarrow x + y = 40 \quad (i)$$

$$70 + 20 + x + z = 150 \Rightarrow x + z = 60 \quad (ii)$$

$$100 + 20 + y + z = 200 \Rightarrow y + z = 80 \quad (iii)$$

Adding eq. (i), (ii) and (iii), we get

$$2(x+y+z) = 180$$

$$\therefore x+y+z = 90 \quad (iv)$$

Now, subtracting (iv) by (i), we get

$$\therefore z = 50$$

Now, subtracting (iv) by (ii), we get

$$\therefore y = 30$$

Now, by subtracting (iv) by (iii), we get

$$\therefore x = 10$$

$$\text{Total number of residents in the building} = 40 + 70 + 100 + 10 + 50 + 30 + 20 = 320.$$

Question.62. Answer : Option 3**Explanation:**

Let the number of people who read 'The Hindu and TOI (Only)' be 'x'.

Let the number of people who read 'The Hindu and Economic Times (Only)' be 'y'.

Let the number of people who read 'TOI and Economics Times (Only)' be 'z'.

Given that:

$$40 + 20 + x + y = 100 \Rightarrow x + y = 40 \quad (i)$$

$$70 + 20 + x + z = 150 \Rightarrow x + z = 60 \quad (ii)$$

$$100 + 20 + y + z = 200 \Rightarrow y + z = 80 \quad (iii)$$

Adding eq. (i), (ii) and (iii), we get

$$2(x+y+z) = 180$$

$$\therefore x+y+z = 90 \quad (iv)$$

Now, subtracting (iv) by (i), we get

$$\therefore z = 50$$

Now, subtracting (iv) by (ii), we get

$$\therefore y = 30$$

Now, by subtracting (iv) by (iii), we get

$$\therefore x = 10$$

Number of males who read only 'The Hindu' = $5/8 \times 40 = 25$ Number of females who read all three newspaper = $1/4 \times 20 = 5$ $\therefore$ Required ratio = $25:5 = 5:1$

Question.63. Answer : Option 2

Explanation:

Let the number of people who read 'The Hindu and TOI (Only)' be 'x'.

Let the number of people who read 'The Hindu and Economic Times (Only)' be 'y'.

Let the number of people who read 'TOI and Economics Times (Only)' be 'z'.

Given that:

$$40 + 20 + x + y = 100 \Rightarrow x + y = 40 \quad (i)$$

$$70 + 20 + x + z = 150 \Rightarrow x + z = 60 \quad (ii)$$

$$100 + 20 + y + z = 200 \Rightarrow y + z = 80 \quad (iii)$$

Adding eq. (i), (ii) and (iii), we get

$$2(x+y+z) = 180$$

$$\therefore x+y+z = 90 \quad (iv)$$

Now, subtracting (iv) by (i), we get

$$\therefore z = 50$$

Now, subtracting (iv) by (ii), we get

$$\therefore y = 30$$

Now, by subtracting (iv) by (iii), we get

$$\therefore x = 10$$

Total number of males = $5/8 \times 40 + 7/10 \times 70 + 11/20 \times 100 + 4/5 \times 10 + 7/15 \times 30 + 2/5 \times 50 + 3/4 \times 20 = 186$ Total number of females = $320 - 186 = 134$ $\therefore$ Required difference = $186 - 134 = 52$

Question.64. Answer : Option 4

Explanation:

Let the number of people who read 'The Hindu and TOI (Only)' be 'x'.

Let the number of people who read 'The Hindu and Economic Times (Only)' be 'y'.

Let the number of people who read 'TOI and Economics Times (Only)' be 'z'.

Given that:

$$40 + 20 + x + y = 100 \Rightarrow x + y = 40 \quad (i)$$

$$70 + 20 + x + z = 150 \Rightarrow x + z = 60 \quad (ii)$$

$$100 + 20 + y + z = 200 \Rightarrow y + z = 80 \quad (iii)$$

Adding eq. (i), (ii) and (iii), we get

$$2(x+y+z) = 180$$

$$\therefore x+y+z = 90 \quad (iv)$$

Now, subtracting (iv) by (i), we get

$$\therefore z = 50$$

Now, subtracting (iv) by (ii), we get

$$\therefore y = 30$$

Now, by subtracting (iv) by (iii), we get

$$\therefore x = 10$$

$$\text{Required \%} = \left(\frac{(1/5 \times 10 + 1/4 \times 20)}{180} \right) \times 100 = 700/180 = 3.89 \%$$

Question.65. Answer : Option 3

Explanation:

Let the number of people who read 'The Hindu and TOI (Only)' be 'x'.

Let the number of people who read 'The Hindu and Economic Times (Only)' be 'y'.

Let the number of people who read 'TOI and Economics Times (Only)' be 'z'.

Given that:

$$40 + 20 + x + y = 100 \Rightarrow x + y = 40 \quad (i)$$

$$70 + 20 + x + z = 150 \Rightarrow x + z = 60 \quad (ii)$$

$$100 + 20 + y + z = 200 \Rightarrow y + z = 80 \quad (iii)$$

Adding eq. (i), (ii) and (iii), we get

$$2(x+y+z) = 180$$

$$\therefore x+y+z = 90 \quad (iv)$$

Now, subtracting (iv) by (i), we get

$$\therefore z = 50$$

Now, subtracting (iv) by (ii), we get

$$\therefore y = 30$$

Now, by subtracting (iv) by (iii), we get

$$\therefore x = 10$$

$$\text{Required Average} = \frac{(70 + 30 + 20)}{3} = 40$$

Question.66. Answer : Option 4

Explanation:

$$\text{Total number of Cardiologists} = 65 \times 5 = 325$$

$$\therefore \text{Number of cardiologist in 2015} = 325 - [(4 \times 21) + 35 + 48 + 59] = 325 - [84 + 35 + 48 + 59] = 325 - 226 = 99$$

Question.67. Answer : Option 4

Explanation:

$$\text{Number of Gynaecologists in 2016} = 400 - (59 + 84 + 40 + 29) = 400 - 212 = 188.$$

∴ Number of Gynaecologists in all the given years = $21 + 45 + 14 + 8 + 188 = 276$

Question.68. Answer : Option 1

Explanation:

Number of doctors in 2013 = $48 + 45 + 60 + 19 + 88 = 260$

Number of Phycologist in the year 2012 and 2015 = $28 + 32 = 60$

∴ Required ratio = $260 : 60 = 13 : 3$

Question.69. Answer : Option 2

Explanation:

Number of Phycologist in all the year = $31 \times 5 = 155$

Number Endocrinologist in 2012 = $140 - [35 + 21 + 45 + 28] = 140 - 129 = 11$

Total number Endocrinologist in all the years = $11 + 88 + 40 + 55 + 29 = 223$

∴ Required difference = $223 - 155 = 68$

Question.70. Answer : Option 2

Explanation:

Number of surgeons in 2014 = $60 \times \frac{1}{3} = 20$

Number of Surgeon in all the years together = $45 + 60 + 20 + 71 + 84 = 281$

Number of Endocrinologist in all the years together = 223 (from the previous solution)

∴ Required percent = $(223 \times 100) / 281 = 79.35\%$

Question.71. Answer : Option 2

Explanation:

The circulation of Virtual Currencies which are also known as Digital/Crypto Currencies has been a cause of concern. In order to examine the existing framework, Department of Economic Affairs, Ministry of Finance has constituted an Inter- Disciplinary Committee chaired by Dinesh Sharma, Special Secretary (Economic Affairs) and representatives from Department of Economic Affairs, Department of Financial Services, Department of Revenue (CBDT), Ministry of Home Affairs, Ministry of Electronics and Information Technology, Reserve Bank of India, NITI Aayog and State Bank of India.

Question.72. Answer : Option 4

Explanation:

IDFC Bank has become the first bank to launch the biometric-based payment system Aadhaar Pay through its network. The bank aims to on board anywhere between 50,000-75,000 merchant to the Aadhaar pay module in the next two years with a total target of touching 1,00,000 merchants over the next 36 months or three years.

Question.73. Answer : Option 3

Explanation:

Japan International Cooperation Agency (JICA) signed an agreement with the Government of India to provide Official Development Assistance (ODA) Loan of 22,145 million Japanese Yen (approximately INR 1,300 crores) for "Tamil Nadu Investment Promotion Program (Phase 2)" (TNIPP2).

Question.74. Answer : Option 1

Explanation:

ICICI Bank, India's largest private sector bank by consolidated assets on 28 March 2017 announced its partnership with Truecaller, a leading Swedish communication company and India's third most used app to power a new UPI based mobile payment service.

Question.75. Answer : Option 2

Explanation:

A Tirtha Darshan scheme, under which senior citizens of the state will be able to go on pilgrimage within the country on government expenses, was announced in the Haryana Assembly on 3 March 2017.

Question.76. Answer : Option 4

Explanation:

The World Bank has agreed to provide loan to develop internal transmission arrangements for the upcoming Rewa Ultra Mega Solar project in Madhya Pradesh on 14 March 2017.

Question.77. Answer : Option 3

Explanation:

The Arunachal Pradesh government has launched a new scheme Adarsh Gram Yojana that is in accordance with the basic philosophy of the Prime Minister "Sabka Saath Sabka Vikaas" (Collective Efforts Inclusive Growth). The scheme aims to reach the poor people in rural areas of the state to serve them better.

Question.78. Answer : Option 4

Explanation:

Reliance Defence and Engineering Ltd of the Anil Dhirubhai Ambani Group has signed a Master Ship Repair Agreement (MSRA) with US Navy.

Question.79. Answer : Option 2

Explanation:

Business Today in association with KPMG has adjudged Karur Vysya Bank as the "Best Small Bank" for 2016 (Balance Sheet size less than ₹1,00,000 crores) on 27 March 2017.

Question.80. Answer : Option 1

Explanation:

The Asian Development Bank (ADB) and the Government of India signed on 22 March 2017 a \$350 million loan for improving about 1,500 kilometers of major district roads in Madhya Pradesh in line with the State's Road Development Plan.

Question.81. Answer : Option 3

Explanation:

The Union Cabinet on 15 March 2017 cleared a proposal to increase dearness allowance and dearness relief by 2% to 4%, which will potentially benefit over one crore central government employees and pensioners.

Question.82. Answer : Option 4

Explanation:

The Central Board of Excise and Customs (CBEC) has launched a mobile application for Goods and Services Tax (GST) to inform the taxpayers of the latest updates on GST among others.

Question.83. Answer : Option 4

Explanation:

The Pradhan Mantri Garib Kalyan Deposit Scheme (PMGKDS), 2016 is a scheme notified by the Government of India on December 16, 2016 which is applicable to every declarant under the Taxation and Investment Regime for Pradhan Mantri Garib Kalyan Yojana, 2016.

Question.84. Answer : Option 1

Explanation:

Odisha became the first state in the country to carry financial inclusion and extend banking services to unbanked areas through Self Help Groups (SHGs). The state government signed an agreement with State Bank of India in this regard.

Question.85. Answer : Option 2

Explanation:

HDFC Life, one of India's leading private life insurance companies, on 31 March 2017, announced the launch of India's first life insurance chatbot in collaboration with Haptik, India's largest chatbot platform.

Question.86. Answer : Option 1

Explanation:

More than a 100 million school children will compulsorily need Aadhaar, the 12-digit unique identification number of India, to avail their mid-day meal from 1 July.

Question.87. Answer : Option 3

Explanation:

Millicom International Cellular S.A. ("Millicom") and Bharti Airtel Limited ("Airtel"), on 3 March 2017 announced that they have, through their respective subsidiaries, entered into an agreement for Tigo Ghana Limited and Airtel Ghana Limited to combine their operations in Ghana.

Question.88. Answer : Option 4

Explanation:

Reliance Group chairman Anil Ambani has been inducted into the international advisory board of the global think tank, The Atlantic Council.

Question.89. Answer : Option 2

Explanation:

Transactions where Aadhaar is listed as a payment ID on the BHIM app will not require any biometric authentication or prior registration with the bank or UPI.

Question.90. Answer : Option 1

Explanation:

NUUP (National Unified USSD Platform) service (also known as *99# service) is based on the Unified Payment Interface (UPI) service over USSD, initiated by the Government of India and developed by (NPCI) National Payments Corporation of India, to facilitate easy access banking services from mobile phones.

Question.91. Answer : Option 1

Question.92. Answer : Option 3

Question.93. Answer : Option 4

Question.94. Answer : Option 3

Question.95. Answer : Option 3

Question.96. Answer : Option 4

Question.97. Answer : Option 2

Question.98. Answer : Option 4

Question.99. Answer : Option 4

Question.100. Answer : Option 1

Question.101. Answer : Option 4

Question.102. Answer : Option 4

Question.103. Answer : Option 4

Question.104. Answer : Option 4

Question.105. Answer : Option 2

Question.106. Answer : Option 3

Question.107. Answer : Option 1

Question.108. Answer : Option 3

Question.109. Answer : Option 3

Question.110. Answer : Option 2

Question.111. Answer : Option 4

Question.112. Answer : Option 3

Question.113. Answer : Option 2

Question.114. Answer : Option 3

Question.115. Answer : Option 5

Question.116. Answer : Option 4

Question.117. Answer : Option 4

Question.118. Answer : Option 2

Question.119. Answer : Option 4

Question.120. Answer : Option 1

Question.121. Answer : Option 4

Explanation:

CEBDA

Question.122. Answer : Option 2

Explanation:

CEBDA
