

The answers along with explanations are given at the end of the question paper

Section: Reasoning Aptitude

Directions (1-5) :-

Study the information carefully and answer the questions given below.

A certain number of boxes are placed one above another of different colours. Black box is not placed below R. Not more than two boxes are placed in between Magenta and Black box. Two boxes are placed between blue box and box L. Green box is placed immediately above box D which is of blue colour. Two boxes are placed between D and R. Only one box is placed in between green box and box H. Only one box is placed in between box R and black box. Box L is not placed immediately above H. Only one box is placed in between Magenta and violet box. No box is placed below violet box. Box R is not of Magenta colour and also not placed below Magenta box.

Question No. 1

How many boxes are there?

Options :

1. 7
2. 14
3. 9
4. 10
5. None of these

Question No. 2

Which box is placed immediately above the one which is of Magenta colour?

Options :

1. L
2. Box which is of Blue colour
3. R
4. Box which is of Violet colour
5. None of these

Question No. 3

The box which is of Magenta colour is on which place?

Options :

1. seventh from the top
2. third from the top
3. fifth from the bottom
4. third from the bottom
5. None of these

Question No. 4

Which box is placed at fourth from the top end?

Options :

1. D
2. R
3. Box which is of Black colour
4. Box which is of blue colour
5. Both 1 and 4

Question No. 5

Which box is placed two places above R?

Options :

1. Box which is of blue colour
2. Box which is of green colour
3. Box which is of black colour
4. L
5. None of these

Directions(6-10) :

Study the following information carefully to answer the given questions:-

There are ten family members Raman, Mahi, Vikrant, Raghav, Ansh, Rudra, Vineet, Varun, Atif, Shiv. They like different exams i.e. IBPS PO, SBI PO, PCS, KVS, SSC CGL, CDS, NDA, RRB PO, RBI Grade B and LIC AAO but not necessarily in the same the same order. They are sitting in two parallel rows containing five members each, in such a way that there is an equal distance between adjacent persons. In row 1 – Raman, Mahi, Vikrant, Raghav, Ansh are seated (not necessarily in the same order) and all of them are facing south. In row 2- Rudra, Vineet, Varun, Atif, Shiv are seated (not necessarily in the same order) and all of them are facing north. Members of row 1 are sitting ahead (towards north) of the members of row 2. Therefore in the given seating arrangement each member seated in row 2 faces the back of the other member of row 1. All of them have relation with each other.

Only one member sits between Vikrant's sister and Raman's brother. Only two members sit between Vikrant's father and Atif's father. Neither Mahi nor Atif's grandfather sits just opposite to Atif. Vineet likes KVS and Mahi likes neither IBPS PO nor LIC AAO. Atif's husband, who likes CDS, sits third to the right of Atif's uncle. Rudra sits second to the left of Atif's husband. Raman has two sons and one daughter. The member who sits just opposite to Atif's brother, who likes PCS, sits immediate left of Raman's daughter. Ansh is the grandmother of Rudra and Atif. Raghav is the brother – in – law of Ansh. Vikrant is the father of Rudra and brother of Mahi. Rudra's grandfather, who likes IBPS PO, is not an immediate neighbour of Mahi. Shiv is the husband of Atif and brother of the one, who likes SSC CGL. Atif likes NDA and Ansh likes RBI Grade B. Vikrant likes neither RRB PO nor SBI PO. Varun likes SSC CGL. Raghav does not like SBI PO.

Question No. 6

Four of the following five are alike in a certain way based on the given arrangement and hence form a group. Who among them does not belong to that group?

Options :

1. Raman, IBPS PO
2. Varun, CDS
3. Vikrant, LIC AAO
4. Rudra, PCS
5. Raghav, RRB PO

Question No. 7

What is the position of Shiv with respect to Shiv's wife?

Options :

1. immediate right
2. second to right
3. immediate left
4. third to right
5. fourth to left

Question No. 8

Who among the following persons sits on the left end of both rows?

Options :

1. Raghav, Vineet
2. Rudra, Mahi
3. Vineet, Raman
4. Shiv, Atif
5. None of these

Question No. 9

How is Vikrant related to Varun's brother?

Options :

1. Mother in law
2. Son – in – law
3. Father – in - law
4. Brother – in – law
5. None of these

Question No. 10

Mahi likes who among the following exams?

Options :

1. PCS
2. SBI PO
3. KVS
4. CDS
5. None of these

Directions (Q.11-12):

Study the following information carefully and answer the given questions based on it:

There is a family of nine person's viz. P, Q, R, S, T, U, V, W and X. There are two couples in a family and both the couples have three children each .

- i) U is daughter of S and niece of P and V.
- ii) There are only three female members including X and R in the family and none of them is a daughter-in law.
- iii) X is mother- in law of S , who has two sons.
- iv) Q is v's father.

Question No. 11

How does S related to Q?

Options :

1. niece
2. son
3. son-in-law
4. daughter
5. None of these

Question No. 12

Which of the following statement is true?

Options :

1. R is the mother in law of P
2. W is granddaughter of Q
3. U is sister of T.
4. P is brother in law of R
5. None of these

Directions(13-17):

Study the following information carefully and answer the questions given below.

In a certain code language, 'I feel very sleepy' is written as '9@R 6?O 22?B 19*B'

'Sleep in my eyes' is written as '19%K 9!M 13!B 5?H'

'Manage sleeping skills' is written as '13*V 19+T 19*H'

Question No. 13

What will be the code for 'Manager'?

Options :

1. 13^I
2. 13%J
3. 14#I
4. Either 1 or 3
5. Cannot be determined

Question No. 14

What will be the code for 'cloud'?

Options :

1. W@3
2. 2%W
3. 23&W
4. 3%W
5. None of these

Question No. 15

What will be the code for 'Managing skills'?

Options :

1. 8&G 14*T
2. 13*G 19+H
3. 13+T 19*H
4. 14&G 8*G
5. None of these

Question No. 16

In the given code language, code '19*V' could be of which word?

Options :

1. Simplex
2. Sample
3. Simple
4. Either 2 or 3
5. None of these

Question No. 17

In the given code language, '23?U' will be the code for which of the following word?

Options :

1. Wife
2. Wide
3. Wolf
4. None of these
5. Cannot be determined

Directions(18-22):

Study the following information and answer the given questions

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule. The following is an illustration of input and rearrangement.

INPUT: while 22 window yells 12 become 36 cost 48 hole 97 73

Step I: become while 22 window yells 12 36 cost 48 hole 97 73

Step II: become 12 while 22 window yells 36 cost 48 hole 97 73

Step III: become 12 cost while 22 window yells 36 48 hole 97 73

Step IV: become 12 cost 22 while window yells 36 48 hole 97 73

Step V: become 12 cost 22 hole while window yells 36 48 97 73

Step VI: become 12 cost 22 hole 36 while window yells 48 97 73

Step VII: become 12 cost 22 hole 36 while 48 window yells 97 73

Step VIII: become 12 cost 22 hole 36 while 48 window 73 yells 97

Step VIII is the last step of the arrangement of the above input as the intended arrangement is obtained.

As per the rules followed in the above steps, find out in each of the following questions the appropriate steps for the given input.

Question No. 18

Input: milk 47 simple 75 23 viva 16 sample elf 34

How many steps would be needed to complete the given arrangement?

Options :

1. V
2. VI
3. VIII
4. VII
5. None of these

Question No. 19

Input: milk 47 simple 75 23 viva 16 sample elf 34

Which of the following would be the final arrangement?

Options :

1. elf 16 milk 23 sample 47 simple 75 viva 34
2. elf 75 milk 47 sample 34 simple 23 viva 16
3. 16 elf 23 milk 34 sample 47 simple 75 viva
4. elf 16 milk 23 sample 34 simple 47 viva 75
5. None of these

Question No. 20

Input: milk 47 simple 75 23 viva 16 sample elf 34

Which word/number would be in the sixth position from the right end in step III?

Options :

1. sample
2. 47
3. milk
4. simple
5. 23

Question No. 21

Step II of an input is 'above 13 below 23 dim come 45 87 zonal 92'.

Which of the following will definitely be the input?

Options :

1. below above 45 13 dim come 87 zonal 92 23
2. 45 zonal above 13 dim come below 87 92 23
3. above below 13 dim come 45 below 87 zonal 92 23
4. Cannot be determined
5. None of these

Question No. 22

Input: milk 47 simple 75 23 viva 16 sample elf 34

Which of the following will be step IV of the given arrangement?

Options :

1. elf 16 milk 47 simple 75 23 viva sample 34
2. elf 16 milk 23 sample 47 simple 75 viva 34
3. elf 16 milk 23 sample 34 simple 47 75 viva
4. elf 16 milk 23 47 simple 75 viva sample 34
5. elf milk 47 simple 75 23 viva 16 sample 34

Question No. 23

Statement: The Supreme Court of India has temporarily banned the sale of firecrackers in the National Capital Region with the idea to test whether it cuts the deadly pollution levels seen in Delhi during and after Deepavali.

Assumptions:

I. The pollution level in Delhi and the National Capital Region have increased at an alarming rate and imposing ban on fire crackers is the only way to ensure that the pollution levels are controlled.

II. A ban made in the National Capital Region ensures that the other states aiming for better development follow the suit and eventually proceed towards ban for the betterment of the state.

III. Since the ban came just about 10 days before the festival, it will be tough to impose the ban on an industry that has already produced stocks to order.

IV. There are chances of upliftment of the ban on the sale of crackers in Delhi and National Capital Region.

Which of the given assumption(s) is(are) implicit in the above statement?

Options :

1. Only III
2. Only I, III and IV
3. Only III and IV
4. Only IV
5. All of the above

Question No. 24

Statement: The findings, which appear in the latest issue of the journal 'Frontiers in Robotics and AI', suggest that virtual interviewers could prove to be even better than human therapists at helping people open up about their mental health.

Arguments:

I. It is impossible to have anonymity and rapport at the same time.

II. An embodied AI which uses machine vision to interpret test subjects' verbal and facial cues and respond supportively can be designed to engage test subjects in verbal interviews.

III. Beyond our grasp is the capacity to imbue such a machine with humanness.

IV. Removing the idea of human presence leads to more fruitful clinical sessions. Which of the argument(s) given above contradicts the above finding?

Options :

1. Only III
2. Only I, II and III
3. Only II and IV
4. Only I and III
5. Only I, III and IV

Direction: (25-26):

In each question below a statement is given followed by two courses of action numbered I and II. A course of action is a practicable and feasible step or administrative decision to be taken for follow – up, improvement, or further action in regard to the problem, policy, etc. On the basis of the information given in the statement, you have to assume everything in the statement to be true, and decide which of the suggested courses of action logically follows(s) pursuing.

Question No. 25

Statement: The footprint of the climate change is evident and extreme weather adversely impacts agricultural yields.

Courses of Action:

I. The government should try to find some other ways to improve agricultural yields.

II. The government should give subsidy on AC, coolers, heaters, etc, to help people deal with the extreme weather conditions.

Options :

1. if only I follows.
2. if only II follows.
3. if either I or II follows.
4. if neither I nor II follows.
5. if both I and II follows

Question No. 26

Statement : The fertility stopping rule leads to skewed sex ratios but in different directions: skewed in favour of males if it is the last child, but in favour of females if it is not the last.

Inference:

I. People prefer male child to a girl child.

II. People want male child if they already have a female child and but they want a female child if they already have a male child.

Options :

1. if only I follows.
2. if only II follows.
3. if either I or II follows.
4. if neither I nor II follows.
5. if both I and II follows

Directions (27-28):

Study the following information carefully and answer the given Questions:

School W is situated in the heart of the city. There is a park R situated 2 km east of W. U's house is 4 km south from the park. Q and S stay 5 km and 7 km away from the school in the north and west direction respectively. T has to walk 7 km east from Q's house to reach his own house. V is situated 9 km south of T's house.

Question No. 27

How far is V from U?

Options :

1. 2 km east
2. 5 km east
3. 5 km north
4. 3 km south
5. 7 km west

Question No. 28

What is the shortest distance between the park and T's house?

Options :

1. 5 km
2. 6 km
3. $\sqrt{50}$ km
4. $\sqrt{74}$ km
5. $\sqrt{20}$ km

Direction (29-33):

Each of the questions given below has one question and two statements marked I and II. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements.

Question No. 29

Five friends Harsha, Geeta, Naman, Suraj and Anuj are seated around a circular table facing the centre. Who sits to the immediate right of Suraj?

I. Anuj sits on the left to Suraj and on the right to Naman.

II. Harsha does not sit near Suraj.

Options :

- a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- c) If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- d) If the data even in both the statement I and II together are not sufficient to answer the question
- e) If the data in both statement I and II together are needed to answer the question.

Question No. 30

How is E related to D?

I. D is the son of A's wife who is the daughter of E's wife.

II. E's wife is mother-in-law of D's mother.

Options :

- a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- c) If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- d) If the data even in both the statement I and II together are not sufficient to answer the question
- e) If the data in both statement I and II together are needed to answer the question.

Question No. 31

What is the code for 'auto' in the code language in which 'giant segment the spot' is written as 'sag map pap rap'?

I. In that code language 'the auto giant passenger car' is written as 'tap cap jap sag pap'.

II. In that code language 'giant segment gap spot' is written as 'rap map gap sag' and give car auto' is written as 'lap jap cap'

Options :

- a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- c) If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- d) If the data even in both the statement I and II together are not sufficient to answer the question
- e) If the data in both statement I and II together are needed to answer the question.

Question No. 32

Among P, Q, R, S and T whose salary is the highest?

I. Combined salary of P and Q is more than the combined salary of R and S but T's salary is more than both P's and Q's.

II. Difference between P's salary and R's salary is more than the difference between S's and Q's salaries where P's salary and S's salary are higher than R's and Q's respectively.

Options :

- a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- c) If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- d) If the data even in both the statement I and II together are not sufficient to answer the question
- e) If the data in both statement I and II together are needed to answer the question.

Question No. 33

How many children does Mr. Raman has?

I. Mr. Raman has eight sons and each has one sister.

II. Number of sons of Mr. Raman is eight times the number of his daughter(s).

Options :

- a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- c) If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- d) If the data even in both the statement I and II together are not sufficient to answer the question
- e) If the data in both statement I and II together are needed to answer the question.

Direction (34-38) :

Study the following information carefully and answer the given questions given below:

Nine people P, Q, R, T, U, V, W, X and Y are living in a nine storey building .The ground floor is numbered 1 and the topmost floor is numbered 9. All of them like a different fruit, viz Grapes, Pineapple, Apple, Banana, Orange, Mango, Watermelon, Papaya and Kiwi, but not necessarily in the same order.

(i) Q likes Banana and lives on an even numbered floor. Y also lives on even numbered floor but he is not above the floor of Q. U lives on the second floor and likes Apple.

(ii) The one who likes Papaya lives on the fourth floor. The one who lives on the third floor likes Kiwi. Y does not like Papaya.

- (iii) There are two floors between the floors on which the persons who like Orange and Banana, live.
- (iv) There are three floors between the floors on which W and R live. W likes Pineapple and R does not live on topmost floor.
- (v) T does not like Kiwi and he does not live on the ground floor.
- (vi) There is one floor between the floor on which T and R live. V lives on a floor immediately above P's floor.
- (vii) The one who lives on the topmost floor likes Grapes. There is only one floor between the ones who like Watermelon and Banana.

Question No. 34

Which of the following combinations is true?

Options :

1. 9th Floor – T – Grapes
2. 2nd Floor – P – Papaya
3. 1st Floor – Y – Pineapple
4. 5th Floor – R - Orange
5. None of these

Question No. 35

Which of the following groups live on the odd numbered floors?

Options :

1. W, Q, R, V and X
2. W, V, U, T and X
3. V, Q, P, T and Y
4. W, P, R, T and X
5. None of these

Question No. 36

Who lives on the ninth floor ?

Options :

1. X
2. T
3. P
4. V
5. None of these

Question No. 37

How many persons are living between the floors on which P and T lives?

Options :

1. One
2. Two
3. Three
4. More than three
5. None of these

Question No. 38

Which of the following fruits is liked by Y?

Options :

1. Watermelon
2. Papaya
3. Grapes
4. Mango
5. None of these

Directions (39- 40):

Read the following passage carefully and answer the questions that follow:

In April, the India Meteorological Department (IMD) had predicted “near normal”, or 96%, rains and then upgraded the figure to 98% a couple of months later. These percentages refer to the proportion of rains to 89 cm, a 50-year average of monsoon rains. However, the country finally ended up with “below normal” rains (that is, less than 96% of the 50-year long period average). In itself, this is not a problem. Crop sowing is expected to be only a little less than last year, which saw a record harvest, with more districts posting deficient rain. Better drought management has over the years weakened the link between rain shortfall and food production, but the IMD continues to persevere with the meaningless practice of assigning a catch-all number to the quantum of rain expected during the monsoon.

Question No. 39

What can be the repercussions of below average rainfall?

- I. Drought like conditions are prevailing in the country.
- II. Country has become fully independent of the natural rainfall.
- III. Food production is not directly correlated with the rainfall now a days as better water saving and drought management practices have been adopted by the government.

Options :

1. Both I and II
2. Only III
3. Only I
4. Both II and III
5. All I, II and III

Question No. 40

What shows the inefficiency of meteorological department in predicting the accurate forecast of rainfall?

- I. The department wrongly calculated the 50 year average of rainfall.
- II. Constantly changing the weather forecast detrimental to the farmers of the country.
- III. Rainfall not happening up to the calculations of meteorological department

Options :

- 1. Only I
- 2. Both I and II
- 3. Only II
- 4. Both II and III
- 5. All I, II and III

Section: General Awareness

Question No. 41

The Chief Minister's Sashakt Kisan Yojana and Krishi Samuh Yojana is launched by _____

Options :

- 1. Andhra Pradesh
- 2. Himachal Pradesh
- 3. Arunachal Pradesh
- 4. Uttar Pradesh
- 5. Uttar Pradesh

Question No. 42

Ghauri Ballistic missile was successfully test fired by _____

Options :

- 1. Pakistan
- 2. Myanmar
- 3. Nepal
- 4. Sri Lanka
- 5. Maldives

Question No. 43

Nobel Prize in Economic Sciences 2018 was awarded to

Options :

- 1. Richard Thaler and Paul M. Romer
- 2. Barry Barish and Jeffery C. Hall
- 3. Barry Barish and Richard Henderson
- 4. William D. Nordhaus and Paul M. Romer
- 5. None of them

Question No. 44

Name of the state which is best state as per the ranking undertaken by Swachh Survekshan Grameen 2018?

Options :

1. Odisha
2. Andhra Pradesh
3. Haryana
4. Karnataka
5. Himachal pradesh

Question No. 45

The Ancient Monuments and Archaeological Sites and Remains (Amendment) Bill, 2017 will allow the government departments to carry out construction of public works in 'prohibited areas' for public purposes only after the recommendation of which of the following body?

Options :

1. Indian Institute of Ecology and Environment
2. National Monuments Association
3. Archaeological Survey of India
4. National Monuments Authority
5. Council of Architecture

Question No. 46

Rajeev Gandhi International Airport is in which state?

Options :

1. Kerala
2. Tamil Nadu
3. Telangana
4. Chhattisgarh
5. Karnataka

Question No. 47

Instruments issued by registered foreign institutional investors (FII) to overseas investors, who wish to invest in the Indian stock markets without registering themselves with the market regulator, the Securities and Exchange Board of India (SEBI) are called _____.

Options :

1. Participatory notes
2. Promissory notes
3. Quantitative tapering
4. Electronic Clearing Service
5. None of these

Question No. 48

Which Cyber Insurance Policy for individuals was launched by HDFC ERGO General Insurance Company in September 2018?

Options :

1. S@Secure
2. Safe@Secure
3. E@Secure
4. Net@Secure
5. None of these

Question No. 49

What does S & P 500 relate to?

Options :

1. Super computer
2. A new technique in e- business
3. A new technique in bridge building
4. An index of stock of large companies
5. None of these

Question No. 50

Which of the following National Parks has become the largest habitat of the endangered estuarine crocodiles in India with a record number of 101 nesting sites?

Options :

1. Gulf of Kutch National Park
2. Simlipal National Park
3. Sulthanpur National Park
4. Bhitarkanika national park
5. None of these

Question No. 51

What is true about the teaser loan rates charged by banks?

Options :

1. Fixed rate of interest charged by banks
2. Floating rate of interest charged by banks
3. Rate of interest in the initial period is less
4. Rate of interest in the initial period is more and it goes down subsequently.
5. None of these

Question No. 52

With which of the following companies, Paytm has launched “Paytm AI Cloud for India” for developers, start-ups, and enterprises?

Options :

1. Wipro
2. TCS
3. Amazon
4. Google
5. Alibaba

Question No. 53

A Non Resident External Rupee(NRE) account can be opened by any individual residing outside India. Which of the following facility is not attached to NRE accounts?

Options :

1. KYC norms are not applicable on NRE accounts.
2. The interest earned by NRE account holders is not taxable in India.
3. Loans in foreign countries can be availed by an NRI through these accounts.
4. Transfer of funds across borders with no cost of transfer
5. None is true.

Question No. 54

_____ game will be dropped from Olympics Games 2020.

Options :

1. Wrestling
2. Archery
3. Kabadi
4. Discus Throw
5. Cricket

Question No. 55

In which state is the Chandoli National Park situated ?

Options :

1. West Bengal
2. Uttarakhand
3. Uttar Pradesh
4. Maharashtra
5. Madhya Pradesh

Question No. 56

The main objective of 'launching 'e-Sahaj' portal is _____

Options :

1. E-filing of Income Tax returns
2. Easy approval to manufacturing units
3. Security clearance to businesses
4. None of these
5. All of these

Question No. 57

The iconic Trump Tower was recently launched in which Indian state ?

Options :

1. Maharashtra
2. Uttar Pradesh
3. New Delhi
4. Kolkata
5. Punjab

Question No. 58

Credit risk is _____.

Options :

1. Risk of loss arising from the creditor.
2. Risk of loss arising from a borrower who does not make payments as promised.
3. Risk of loss arising from failed internal processes.
4. Risk of loss arising due to system failure.
5. None of these.

Question No. 59

Which one of these is the currency of Turkey ?

Options :

1. Manat
2. Baht
3. Turkish lira
4. Vatu
5. Rial

Question No. 60

India was ranked at which place in US Chamber's Intellectual Property Index?

Options :

In which of the following state Kamlang Wildlife Sanctuary is?

Options :

1. Assam
2. Himanchal Pradesh
3. Sikkim
4. Arunachal Pradesh
5. Meghalaya

Question No. 77

National Green Tribunal ordered how many member committee to conduct an inspection and submit report about the waste dumping near Polavaram project in Andhra Pradesh ?

Options :

1. (6)
2. (3)
3. (4)
4. (5)
5. (8)

Question No. 78

Which state government has commenced a scheme to offer free education and vocational training to the children of fishermen who died or went missing in the 2017 Ockhi cyclonic storm?

Options :

1. Karnataka
2. Kerala
3. Maharashtra
4. Tamil Nadu
5. Odissa

Question No. 79

Where is the headquarter of Allahabad Bank?

Options :

1. Lucknow
2. Kolkata
3. Bhopal
4. New Delhi
5. Allahabad

Question No. 80

4-day Regional meeting of the World Customs Organisation was held in _____.

Options :

1. Bangalore
2. Indore
3. Jaipur
4. New Delhi
5. Mumbai

Section: English Language**Question No. 81**

Why is the power sector in trouble?

Options :

1. The NPAs are low as compared to last year.
2. The availability of coal is decreasing.
3. The number of Non-performing assets (NPAs) among power-generating companies is growing on a fast rate.
4. Both II and III
5. Both I and III

Direction: (82-90) :

Read the following passage carefully and answer the questions given below it. Certain words/phrases have been printed in bold to help you locate them while answering some of the questions.

The power sector is in serious trouble. Non-performing assets (NPAs) among power-generating companies are **mounting**. There is a shortage of coal. Plant load factor (PLF) is down to 58%. Distribution companies (discoms) are in a bad shape and new power purchase agreements (PPAs) are few and far between. Launched in 2015, UDAY — Ujwal Discom Assurance Yojana — was to provide much-needed relief, which it did temporarily. UDAY was a framework that had worked in Gujarat. If any 'Gujarat model' required replication in other parts of the country, it was this power sector model. But it didn't happen, at least in the manner it was expected to.

States were to take over 75% of discom debts as on September 30, 2015. This was to ease their fiscal burden and 'improve' their balance sheets. But critical elements of UDAY, like reduction of aggregate technical and commercial (AT&C) losses, elimination of the average cost of supply (ACS)-average revenue realised (ARR) gap, feeder metering, and distribution transformer (DT) metering, remain unaddressed. The debt transfer was supposed to provide fiscal space and time to discoms to carry out the more critical part that was supposed to **revive** them in the mid-term. Almost all the discoms got on board and utilised the facility to transfer debt to the state government. This improved their financial health, some even showing profits. However, this raised the debt burden of the states quite **substantially**.

Last year's Economic Survey revealed that "due to these bonds, the states' gross fiscal deficit-to-GDP ratio got increased by 0.7%". Most of the discoms failed to carry out mandates relating to the reduction of AT&C losses, elimination of ACS-ACR gap, etc. Ironically, of all the UDAY states, 13 have actually reported higher AT&C losses as compared to the previous year. The focus of UDAY was primarily on fiscal restructuring. It was indeed a necessary condition, but not a sufficient one. States were '**mandated**' to carry out the second and more 'essential' part of the deal. But the manner in which this part of the 'mandate' should have been carried out may not have been carried out. Monitoring systems were put in place, but the 'facilitating' mechanism for the states was not set up.

No extensive field visits or intensive interaction with the stakeholders were adopted. Little effort was made to understand their problems. They could have learnt from states like Gujarat (where UDAY had happened well before it 'went national') to replicate the model. Much time was spent on fiscal restructuring. Equal, if not more, time should have been spent on understanding how AT&C losses were reduced in states like Gujarat, the ACS-ACR gap was reduced and it could be adopted by other states.

Most discoms continue to be in trouble. The fundamental issues remain unaddressed. On account of the poor financial condition of discoms, no new PPAs are being floated, even though there is demand for power. (Incidentally, India's per-capita consumption of power is one of the lowest in the world, and equivalent to the consumption in late 19th-early 20th century in the US.) There is demand, but discoms don't have the money to buy power. Above all, the more they sell, the more they lose. This 'lack of demand', in turn, is impacting the health of power-generating companies. Discoms have been turned

around earlier. Narendra Modi as Gujarat chief minister proved that good economics also makes good politics. What really needs to be understood is what happened in Gujarat, and how it happened.

Separate feeder lines, auditing, strong action against defaulters and pricing are some of the issues that will need to be addressed. It will require time and effort, and may not provide great material for 'headlines'. Other state officials will be required to sit with those from Gujarat, and after understanding the how of this success story, they will need to make out their own plans. These plans can't be made or monitored in Delhi. Intensive discussions will have to be held with all stakeholders to get their 'buy-ins'. This is critical for the success of any plan. If it could happen in coal, it can happen in power as well.

Discoms can, indeed, be turned around. They are not merely a problem of the states. They are a problem of the country.

Question No. 82

Choose the word which is most similar in meaning to the word substantially as used in the passage.

Options :

1. Correctly
2. Insignificantly
3. Considerably
4. Slight
5. Fewer

Question No. 83

Choose the word which is most opposite in meaning to the word mounting as used in the passage.

Options :

1. Amending
2. Rising
3. Decreasing
4. Enhancing
5. Ignoring

Question No. 84

Choose the word which is most similar in meaning to the word revive as used in the passage.

Options :

1. Renew
2. Vitalize
3. Explain
4. Explore
5. Enhance

Question No. 85

Choose the word that is most similar in meaning to the word mandated as used in the passage.

Options :

1. Distracted
2. Attempted
3. Required
4. Questioned
5. Responsive

Question No. 86

UDAY scheme was able to permanently provide a solution.
According to the passage, this statement is –

Options :

1. Probably True
2. Definitely True
3. Definitely False
4. Probably False
5. Can not be determined

Question No. 87

Which of the following statements is correct according to the information given in the passage?

Options :

1. Overtaking 75% of the discom debts could have eased the financial burden and made their balance sheets better.
2. The power sector has been able to overcome its troubles.
3. The issues of the states were given proper attention and were understood.
4. All of the above
5. None of the above

Question No. 88

UDAY scheme was meant for _____.

Options :

1. All the states
2. Gujarat
3. Only some selected states
4. Only the states which could invest
5. None of these

Question No. 89

Choose the statement which gives the correct reason of improved monetary health of most of the discoms?

Options :

1. By agreeing to the power-purchase agreements.
2. By opting for an extensive research.
3. By passing on their debts to the state governments.
4. All of the above
5. None of the above

Question No. 90

Instead of concentrating just on financial "restructuring", what other areas should have got attention by the states?

Options :

1. By managing the NPAs.
2. By understanding how the ACS-ACR gap and the AT&C losses were reduced.
3. By increasing the number of power-purchase agreements.
4. None of the above
5. All of the above

Direction: (91-100):

In the following passage, some of the words have been left out, each of which is indicated by a number. Find the suitable word from the options given against each number and fill up the blanks with appropriate words to make the paragraph meaningfully complete.

"The future of our economy depends on this lending capacity. And therefore we have to target ourselves and our policies, the whole (91) _____ has to direct itself in a direction, where we improve the credit giving ability of our banks, and where we improve the (92) _____ available as far as our markets are concerned," Jaitley said, adding that this could (93) _____ India towards a higher growth path.

In the last four years, the government announced capital infusion of Rs 70,000 crore and Rs 2.12 lakh crore to improve the capital levels of banks, he said. The government also (94) _____ the bankruptcy law and amended various loan recovery laws to minimize the NPAs. More efforts are required in this direction.

"To maintain the (95) _____ of the banking system and help India grow, we need to minimize our NPAs. Various, multiple options have been exercised, not many (96) _____ results. What is being experimented today is certainly yielding results, slowly but surely," he said, referring to the (97) _____ coming through the Insolvency and Bankruptcy Code.

Strength of the banking system has to be improved so that they are able to lend to MSMEs and Non-Banking Financial Companies. "The NBFCs today need credit because a large part of lending is done by them," he said. The finance minister's comments come at a time when the government is (98) _____ with the Reserve Bank of India to ease some of its stricter rules on capital adequacy to enable banks to grow their loan book. Further taking on (99) _____ of GST blaming it as the reason for lower growth, Jaitley said the Goods and Services Tax (GST) was a "(100) _____ reform" with a disruptionist impact on growth only for two quarters.

Question No. 91

Choose the appropriate word.

Options :

1. Arrangement
2. Method
3. System
4. Order
5. Process

Question No. 92

Choose the appropriate word.

Options :

1. Liquidity
2. Exchangeability
3. Fluidity
4. State
5. All of the above

Question No. 93

Choose the appropriate word.

Options :

1. Catapult
2. Plunge
3. Plummet
4. Propel
5. Scuttle

Question No. 94

Choose the appropriate word.

Options :

1. Repealed
2. Enacted
3. Abrogated
4. Retracted
5. Disavowed

Question No. 95

Choose the appropriate word.

Options :

1. Frailty
2. Stoicism
3. Cogency
4. Patience
5. Strength

Question No. 96

Choose the appropriate word.

Options :

1. Relinquished
2. Fetched
3. Yielded
4. Renounced
5. All of these

Question No. 97

Choose the appropriate word.

Options

1. Convalesces
2. Rehabilitations
3. Recoveries
4. Ameliorations
5. Recuperations

Question No. 98

Choose the appropriate word.

Options :

1. Engaging
2. Captivating
3. Perpetuating
4. All the above
5. None of these

Question No. 99

Choose the appropriate word.

Options :

1. Connoisseur
2. Savant
3. Leader
4. Critics
5. Chief

Question No. 100

Choose the appropriate word.

Options :

1. Dreadful
2. Monumental
3. Exalted
4. Gleeful
5. Mirthful

Directions: (101-105):

In each of the following questions, a sentence is given with a part missing. Out of the remaining options choose the one that provides the filler that suits the context most appropriately and is grammatically correct.

Question No. 101

The deal will help the Walmart - _____ consumers migrating to online platforms like those run by Amazon - get a foothold in the world's fastest growing economy with a market of 1.3 billion people.

- I. Which has seen
- II. Which will be seen
- III. Which will see

Options :

1. Only I & II
2. All I, II, III
3. Only I
4. Only I & III
5. None of these

Question No. 102

The pharmaceutical companies _____ the petitioner banking on the parliamentary committee report in court.

- I. Were oppose to
- II. Were opposed to
- III. Were being opposed to

Options :

1. Only I
2. Only I & III
3. Only III
4. Only II
5. None of these

Question No. 103

Barely two days before all campaigning _____, the candidate walks into your home to seek your vote.

- I. Coming to a halt
- II. Will be coming to a halt
- III. Comes to a halt

Options :

- 1. Only I & I
- 2. Only I
- 3. Only I & III
- 4. Only III
- 5. None of these

Question No. 104

Discussions over simplifying GST returns _____ for months and considered by the Council, a committee of officers and a Group of Ministers.

- I. Have been under way
- II. Has been over way
- III. Has been under way

Options :

- 1. Only I & II
- 2. Only I
- 3. Only II & III
- 4. Only III
- 5. None of these

Question No. 105

The price of oil _____ for weeks now, with Brent crude oil futures hitting their highest level in more than three years on Monday, at more than \$75.

- I. Had been shot over
- II. Has been shooting over
- III. Has been shooting up

Options :

- 1. Only III
- 2. Only I
- 3. Only I & II
- 4. Only I & III
- 5. None of these

Direction: (106-110) :

In each of the questions, a sentence is divided into five parts namely A, B, C, D and E in which one of the parts is given in bold and is grammatically and contextually correct. You have to identify which fragment, apart from the bold one, is correct in terms of grammar and usage.

Question No. 106

The State Department said (A)/ recently those India has (B)/ ordered defence equipment worthy \$18 billion (C)/ from the U.S, and the administration is (D)/ unlike to stall it all under sanctions (E).

Options :

1. B
2. C
3. D
4. E
5. All are correct

Question No. 107

There could been strong statements (A)/ from the U.S, in continuation (B)/ in its line, but sanctions (C)/ are extremely unlikely according (D)/ on both official and unofficial sources (E).

Options :

1. C
2. D
3. E
4. A
5. All are correct

Question No. 108

There are no specific trigger points (A)/ mentioned in CAATSA for sanctions, (B)/ and the administration can (C)/ delay the decision (D)/ without announcing any waiver (E).

Options :

1. E
2. A
3. B
4. D
5. All are correct

Question No. 109

The path that we took (A)/ hereon will not only determine (B)/ our well-being but along that (C)/ of the generations who (D)/did inhabit our planet after us (E).

Options :

1. A
2. C
3. D
4. E
5. All are correct

Question No. 110

When we as a society are aware (A)/ of our strong links in environmental conservation (B)/ and talk about it regular, (C)/ we will automatically be proactive as (D)/ working towards a sustainable environment (E).

Options :

1. D
2. E
3. B
4. C
5. All are correct

Directions (116-120):

Following pie-chart shows the percentage distribution of employees of a state placed in various sectors. Study the chart carefully and answer the questions given below:

Total number of employees = 15000

The following table gives the ratio of male and female employees

Professions	Male	Females
Telecom	7	2
Banking	2	3
Construction	3	2
Aviation	1	2
Retail	5	2

Question No. 116

Female employees who got placed in banking sector is approximately what per cent of the female employees who got placed in Retail sector?

Options :

1. 90%
2. 93%
3. 95%
4. 98%
5. None of these

Question No. 117

What is the difference between the total number of male employees and the total number of female employees placed in all the given sectors together?

Options :

1. 2,270
2. 2,480
3. 2,860
4. 3,210
5. None of these

Question No. 118

Total number of employees placed in banking sector is approximately how much percent less than the total number of employees placed in construction sector?

Options :

1. 30%
2. 25%
3. 15%
4. 13%
5. None of these

Question No. 119

If 20% of the persons placed in aviation sector left their jobs and joined Banking sector, what is the total number of persons in banking sector?

Options :

1. 1,550
2. 2,550
3. 2,750
4. 2,950
5. None of these

Question No. 120

What is the total number of female employees who joined telecom and construction sector?

Options :

1. 1,700
2. 1,950
3. 1,85
4. 1730
5. None of these

Question No. 121

Seven balls of different colours are to be placed in four boxes of different sizes. Each box can hold all seven balls. In how many different ways can we place the balls so that no box remains empty?

Options :

1. 8340
2. 7560
3. 6700
4. 8100
5. None of these

Question No. 122

Raman gave a certain amount to his son Ritesh for buying some pens and pencils. With this amount Ritesh can purchase either 10 pens or 30 pencils. Ritesh bought a chocolate with 10% of total amount and purchased 7 pens. How many pencils he can purchase with rest of the money.

Options :

1. 6
2. 7
3. 8
4. Data inadequate
5. None of these

Question No. 123

A bag contains 5 red flowers, 7 yellow flowers and 8 green flowers. 3 flowers are drawn randomly. What is the probability that the flowers drawn contain flowers of different colours?

Options :

1. $17/57$
2. $19/57$
3. $14/57$
4. $18/57$
5. None of these

Question No. 124

A student breaks a stick in such a way that the ratio of larger part to 125% of the smaller part is same as $5/6$ th of that of the original length of the stick to one of the larger part of the pencil. The ratio of the larger part to the original length of stick is:

Options :

1. $1/2$
2. $2/5$
3. $3/2$
4. $5/8$
5. None of these

Question No. 125

P and Q are working on a project which they can complete in ' $x - 35$ ' days and ' $x - 15$ ' days while working individually. While working together, they can complete the work in $(x + 505)/22$ days. Had P worked on the first day and Q on second day and they continued working in this pattern, then how long would it have taken them to complete the project?

Options :

1. 32
2. 68
3. 55
4. $47(1/3)$
5. None of these

Directions (126-130): Study the following table carefully to answer the questions that follow:

[Cost price & Marked Price of a laptop (in Rs.) & the discount offered to the customers and commission given to the brokers]

	Shopkeepers			
	A	B	C	D
CP(in Rs.)	32000	34000	36000	36500
MP	25% more than CP	Rs. 49,000	1.5 times of CP	Rs.42000
Discount	Two successive discounts of 10% each	Rs.5,000	20%	10%
Commission on SP	2%	4%	5%	2.5%

Question No. 126

How many shopkeepers are actually incurring losses in the transaction (with commission)?

Options :

1. one
2. two
3. three
4. four
5. None of these

Question No. 127

If you plan to purchase a laptop, you will get at the cheapest rate from which of the shopkeeper?

Options :

1. A
2. B
3. C
4. D
5. None of these

Question No. 128

If Shopkeeper B sold three laptops on a particular day, out of which he sold one laptop through the broker, how much profit he earned on that particular day ?

Options :

1. Rs. 30,000
2. Rs. 28,24
3. Rs.27,500
4. Rs. 24,720
5. None of these

Question No. 129

Which shopkeeper is earning the highest profit % in the transaction (without commission)?

Options :

1. A
2. B
3. C
4. D
5. None of these

Question No. 130

On a particular day, B sold 5 laptops and C sold 7 laptops through broker. What is the difference between the net profit earned by B and C on that day.

Options :

1. Rs. 4,900
2. Rs. 5,815
3. Rs. 5,920
4. Rs. 6,190
5. None of these

Directions – (131-135):

Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer

Question No. 131

P, Q and R together can complete a work in 12 days. All of them worked together for 6 days and then P left. How much time will Q and R together take to complete the remaining work?

I. If P completes a work in X number of days, then Q and R together complete the work in X number of days.

II. After leaving the work, P completed another work in 10 days.

Options :

1. If the data in statement I alone is sufficient to answer the question, while the data in statement II alone is not sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question, while the data in statement I alone is not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone is sufficient to answer the question.
4. If the data even in both statements I and II together and not sufficient to answer the question.
5. If the data in both statements I and II together are necessary to answer the question

Question No. 132

What is the yearly salary of Mr. Rohan?

I. Sohan earns Rs. 44000 more than Mohan in a year who earns Rs. 16000 more than Rohan per annum

II. The total salary of Rohan and Sohan together for one year is Rs.192000.

Options :

1. If the data in statement I alone is sufficient to answer the question, while the data in statement II alone is not sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question, while the data in statement I alone is not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone is sufficient to answer the question.
4. If the data even in both statements I and II together and not sufficient to answer the question.
5. If the data in both statements I and II together are necessary to answer the question

Question No. 133

The cost price of an article is Rs. 600. How much profit did a trader get by selling the article, if it was sold at 15% discount?

- I. The trader marked the article at Rs. 750.
- II. The trader sold the article to X and X sold the article to Y at Rs. 650 earning a profit of 25%.

Options :

- 1. If the data in statement I alone is sufficient to answer the question, while the data in statement II alone is not sufficient to answer the question.
- 2. If the data in statement II alone is sufficient to answer the question, while the data in statement I alone is not sufficient to answer the question.
- 3. If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- 4. If the data even in both statements I and II together and not sufficient to answer the question.
- 5. If the data in both statements I and II together are necessary to answer the question

Question No. 134

How much time will train A take to cross a platform of length 400 m?

- I. The train A crosses another train B in 40 seconds.
- II. Both trains are running in opposite direction.

Options :

- 1. If the data in statement I alone is sufficient to answer the question, while the data in statement II alone is not sufficient to answer the question.
- 2. If the data in statement II alone is sufficient to answer the question, while the data in statement I alone is not sufficient to answer the question.
- 3. If the data either in statement I alone or in statement II alone is sufficient to answer the question.
- 4. If the data even in both statements I and II together and not sufficient to answer the question.
- 5. If the data in both statements I and II together are necessary to answer the question

Question No. 135

A trader allows two successive discounts of $x\%$ and $y\%$ on the marked price of an article. Is the selling price of the article less than Rs. 18,000?

I. The cost price of the article is Rs.23,000.

II. $x\% = 10\%$ and $y\% = 15\%$.

Options :

1. If the data in statement I alone is sufficient to answer the question, while the data in statement II alone is not sufficient to answer the question.
2. If the data in statement II alone is sufficient to answer the question, while the data in statement I alone is not sufficient to answer the question.
3. If the data either in statement I alone or in statement II alone is sufficient to answer the question.
4. If the data even in both statements I and II together and not sufficient to answer the question.
5. If the data in both statements I and II together are necessary to answer the question

Direction: (136-140):

In the following question two quantities are given Quantity 1 and quantity 2. By solving those quantities then give corresponding answer.

Question No. 136

Quantity 1: From a group of 5 male and 6 female, five persons are to be selected to form a committee so that at least 3 female are there in the committee. In how many ways can it be done?

Quantity 2: In how many different ways can the letters of the word 'QUANTITATIVE' be arranged in such a way that the vowels always comes together? (Repetition not allowed)

Options :

1. Quantity 1 $\geq$ Quantity 2
2. Quantity 1 = Quantity 2 (or) No relation
3. Quantity 1 > Quantity 2
4. Quantity 1 $\leq$ Quantity 2
5. Quantity 1 < Quantity 2

Question No. 137

Quantity 1: Three coins are tossed, what is the probability of getting at least two head?

Quantity 2: Two dice are thrown, what is the probability of getting sum of the two dice is multiple of 3?

Options :

1. Quantity 1 $\geq$ Quantity 2
2. Quantity 1 = Quantity 2 (or) No relation
3. Quantity 1 > Quantity 2
4. Quantity 1 $\leq$ Quantity 2
5. Quantity 1 < Quantity 2

Question No. 138

Quantity 1: The age of Mala 12 years ago if the ratio between Siva's present age and Mala's present age is 2:3. After four years their ratio will become 7:10.

Quantity 2: The age of mother if the average age of the mother and her 3 children is 12 years which is reduced by 4 years if the age of the mother is excluded.

Options :

1. Quantity 1 $\geq$ Quantity 2
2. Quantity 1 = Quantity 2 (or) No relation
3. Quantity 1 > Quantity 2
4. Quantity 1 $\leq$ Quantity 2
5. Quantity 1 < Quantity 2

Question No. 139

Quantity 1: In a village 20000 people are living. If 20% of them migrated to another village and 50% of migrated people are unemployed, what is the total number of people who were employed in the migrated people?

Quantity 2: According to the report of Municipality government population 20% increases every year compared to the previous year. What is the total population in the year 2016, if the population in the year 2018 is 3600?

Options :

1. Quantity 1 $\geq$ Quantity 2
2. Quantity 1 = Quantity 2 (or) No relation
3. Quantity 1 > Quantity 2
4. Quantity 1 $\leq$ Quantity 2
5. Quantity 1 < Quantity 2

Question No. 140

Quantity 1: Vessel A contains milk and water in the ratio of 2:3 and vessel B contains Milk and Water in the ratio of 5:7, two vessels are mixed to make third vessel C, what percentage of water in the final mixture?

Quantity 2: There are two tanks P and Q having Alcohol and water in the ratio 1:4 and 3:5 respectively, two tanks mixed together and form a third tank S, what percentage of water in the final mixture

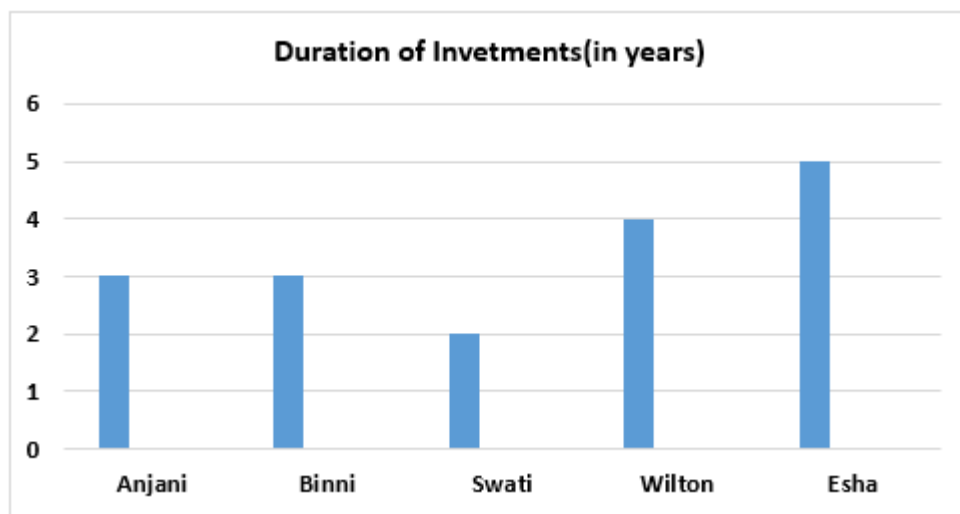

Options :

1. Quantity 1 $\geq$ Quantity 2
2. Quantity 1 = Quantity 2 (or) No relation
3. Quantity 1 > Quantity 2
4. Quantity 1 $\leq$ Quantity 2
5. Quantity 1 < Quantity 2

Direction: (141-145):

The following table shows the principal amount invested by five friends in five different schemes which pays different simple or compound interests. Bar graph shows the total duration of investments.

Person	Type of interest	Principal	Rate of interest
Anjani	Simple		
Binni	Compound		5
Swati	Compound	3000	4
Wilton	Simple	15000	
Esha	Simple		2

Question No. 141

If the ratio between the interest rate of Esha and Wilton is 1:4, and Binni's received twice the amount that of Wilton, then what is the Principal amount (P) of Binni?(rounded off to nearest value)

Options

1. 35000
2. 38090
3. 36510
4. 34208
5. 30250

Question No. 142

If the total amount earned by Wilton after 2 years is 16500 (in Rs) and rate of interest & principal of Anjani is same as Wilton, then what is total amount earned by Anjani?

Options :

1. 17200
2. 18500
3. 17250
4. 17750
5. 17900

Question No. 143

If the ratio of Principal of Swati to that of Anjani is 2:5 and the rate of interest is 25% more than that of Swati, then total amount of Swati is what percentage of total amount of Anjani?

Options :

1. 33.7%
2. 44.7%
3. 37.6%
4. 33.2%
5. 50.5%

Question No. 144

If the Principal (P) of Binni is 25% more than that of principal of Wilton, then what is the total amount of Binni?

Options :

1. Rs.22694.60
2. Rs.21705.46
3. Rs.22584.80
4. Rs.21484.80
5. Rs.25684.60

Question No. 145

If principal amount of Esha is five times of the total amount of Swati, then what is the amount received by her?

Options :

1. 19678.2
2. 14439.4
3. 14889.7
4. 17846.4
5. None of the Above

Question No. 146

An intern was paid a stipend of Rs. 1,792 for a period of 30 days calculated on daily basis. During this period, he was absent for 4 days and was fined Rs. 12 per day for absence. He was given full amount for only 20 days as he was late for the rest of the days and he got only half of the amount on the late days. Had the intern come on time every day, not being absent on any day, what stipend he would have been received?

Options :

1. Rs. 2,200
2. Rs. 2,100
3. Rs. 2,400
4. Rs, 2,500
5. None of these

Question No. 147

In a job fair, 50% of the people are graduates, one fifth of them are post graduates and rest are double graduates. If three-fourth of the graduates, 60% of the post graduates and half of the double graduates are unemployed, what percentage of total people is already employed?

Options :

1. 35.5%
2. 40.5%
3. 38%
4. 42%
5. None of these

Question No. 148

A can complete a project in 20 days and B can complete the same project in 30 days. If A and B start working on the project together and A quits 10 days before the project is completed. In how many days will the project be completed?

Options :

1. 12 days
2. 18 days
3. 36 days
4. 24 days
5. None of these

Question No. 149

Vijay has to keep 5 letters and there are 4 envelopes available, in how many ways can he keep the letters?

Options :

1. 4096
2. 256
3. 64
4. 1024
5. none of these

Question No. 150

A, B and C jointly thought of engaging themselves in a business venture. It was agreed that A would invest Rs. 6500 for 6 months, B Rs. 8400 for 5 months and C Rs. 10000 for 3 months. A wants to be the working member for which, he was to receive 5% of the profits. The profit earned was Rs. 7400, what is the share of B in the profit?

Options :

1. Rs 2660
2. Rs 2150
3. Rs 2240
4. Rs 2360
5. None of these

Answers and Explanations

Question.1. Answer : Option 4

Explanation:

By (5) Two boxes are placed between D and R and it is not given that which box is placed above or below so here we get two following conditions:

I condition:

By (4) Green box is placed immediately above box D which is of blue colour.

By (1) and (7) Black box is placed two places above R.

By combining (2), (11) and (9) Magenta box is placed immediately below R and Only one box is placed in between violet and magenta box and By (10) no box is placed below violet so D should be of violet colour but it is of Blue colour therefore I condition is not possible.

II condition:

By (4), (1), (7), (2), (11) and (9) we place the given information. Magenta box is placed immediately below R and violet box is placed two places below Magenta box. And by (10) no box is placed below violet box.

By (3) L is placed three places above D.

By (6) box H is of Black colour.

Therefore II condition is the final arrangement.

I condition	II condition
- Black	L
-	-
R	- Green
- Magenta	D Blue
- Green	H Black
D Blue	-
	R
	- Magenta
	-
	- Violet

Only II condition is possible.

Question.2. Answer : Option 3

Explanation:

By (5) Two boxes are placed between D and R and it is not given that which box is placed above or below so here we get two following conditions:

I condition:

By (4) Green box is placed immediately above box D which is of blue colour.

By (1) and (7) Black box is placed two places above R.

By combining (2), (11) and (9) Magenta box is placed immediately below R and Only one box is placed in between violet and magenta box and By (10) no box is placed below violet so D should be of violet colour but it is of Blue colour therefore I condition is not possible.

II condition:

By (4), (1), (7), (2), (11) and (9) we place the given information. Magenta box is placed immediately below R and violet box is placed two places below Magenta box. And by (10) no box is placed below violet box.

By (3) L is placed three places above D.

By (6) box H is of Black colour.

Therefore, II condition is the final arrangement.

I condition	II condition
- Black	L
-	-
R	- Green
- Magenta	D Blue
- Green	H Black
D Blue	-
	R
	- Magenta
	-
	- Violet

Only II condition is possible.

Question.3. Answer : Option 4

Explanation:

By (5) Two boxes are placed between D and R and it is not given that which box is placed above or below so here we get two following conditions:

I condition:

By (4) Green box is placed immediately above box D which is of blue colour.

By (1) and (7) Black box is placed two places above R.

By combining (2), (11) and (9) Magenta box is placed immediately below R and Only one box is placed in between violet and magenta box and By (10) no box is placed below violet so D should be of violet colour but it is of Blue colour therefore I condition is not possible.

II condition:

By (4), (1), (7), (2), (11) and (9) we place the given information. Magenta box is placed immediately below R and violet box is placed two places below Magenta box. And by (10) no box is placed below violet box.

By (3) L is placed three places above D.

By (6) box H is of Black colour.

Therefore II condition is the final arrangement.

I condition

- Black
-
R
- Magenta
- Green
D Blue

II condition

L
-
- Green
D Blue
H Black
-
R
- Magenta
-
- Violet

Only II condition is possible.

Question.4. Answer : Option 5

Explanation:

By (5) Two boxes are placed between D and R and it is not given that which box is placed above or below so here we get two following conditions:

I condition:

By (4) Green box is placed immediately above box D which is of blue colour.

By (1) and (7) Black box is placed two places above R.

By combining (2), (11) and (9) Magenta box is placed immediately below R and Only one box is placed in between violet and magenta box and By (10) no box is placed below violet so D should be of violet colour but it is of Blue colour therefore I condition is not possible.

II condition:

By (4), (1), (7), (2), (11) and (9) we place the given information. Magenta box is placed immediately below R and violet box is placed two places below Magenta box. And by (10) no box is placed below violet box.

By (3) L is placed three places above D.

By (6) box H is of Black colour.

Therefore II condition is the final arrangement.

I condition

- Black
-
- R
- Magenta
- Green
- D Blue

II condition

- L
-
- Green
- D Blue
- H Black
-
- R
- Magenta
-
- Violet

Only II condition is possible.

Question.5. Answer : Option 3**Explanation:**

By (5) Two boxes are placed between D and R and it is not given that which box is placed above or below so here we get two following conditions:

I condition:

By (4) Green box is placed immediately above box D which is of blue colour.

By (1) and (7) Black box is placed two places above R.

By combining (2), (11) and (9) Magenta box is placed immediately below R and Only one box is placed in between violet and magenta box and By (10) no box is placed below violet so D should be of violet colour but it is of Blue colour therefore I condition is not possible.

II condition:

By (4), (1), (7), (2), (11) and (9) we place the given information. Magenta box is placed immediately below R and violet box is placed two places below Magenta box. And by (10) no box is placed below violet box.

By (3) L is placed three places above D.

By (6) box H is of Black colour.

Therefore, II condition is the final arrangement.

I condition

- Black
-
R
- Magenta
- Green
D Blue

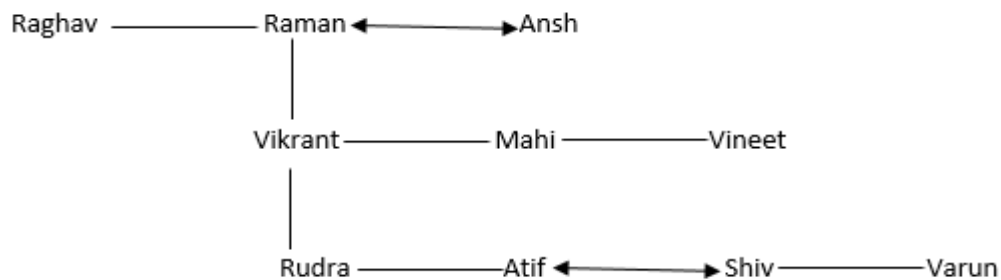

II condition

L
-
- Green
D Blue
H Black
-
R
- Magenta
-
- Violet

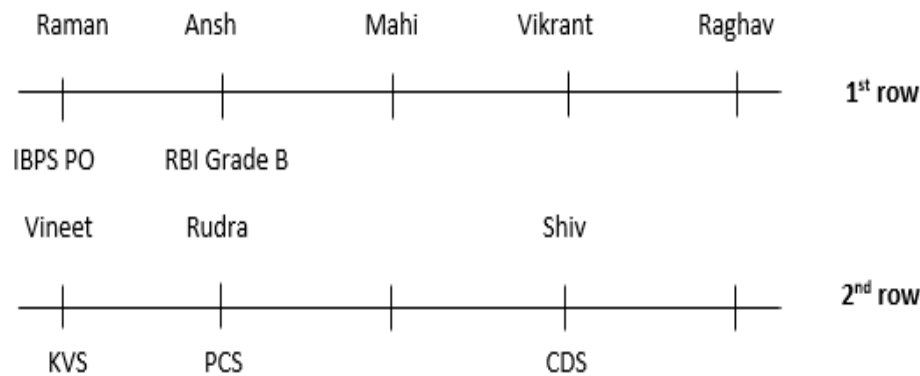

Only II condition is possible.

Question.6. Answer : Option 2

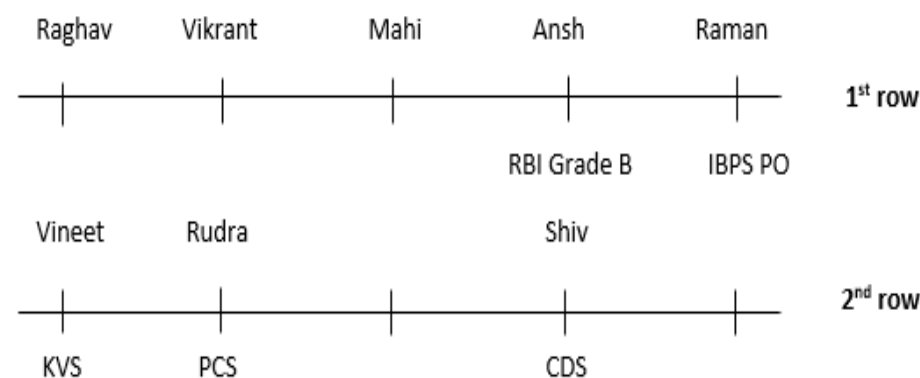

Explanation:

Case 1:-

Case 2:-

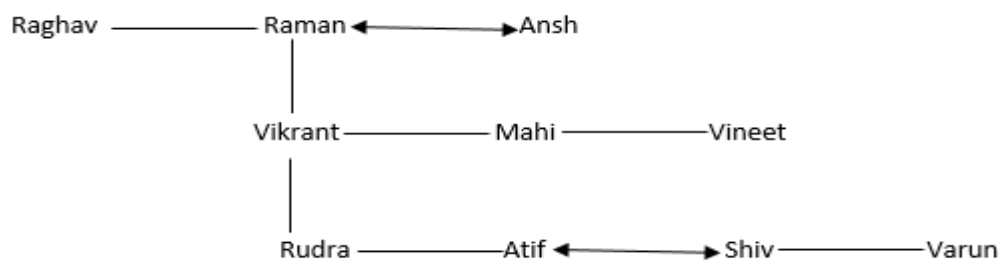

Now Neither Mahi nor Atif's grandfather sits just opposite to Atif. As there will be no place left for Atif in case 2. So case 2 will be eliminated. From rest Atif likes NDA and Ansh like RBI Grade B. Vikrant likes neither RRB PO nor SBI PO. Varun likes SSC CGL. Raghav does not like SBI PO.

So the final solution is –

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B	SBI PO	LIC AAO	RRB PO	
Vineet	Rudra	Varun	Shiv	Atif	
					2 nd row
KVS	PCS	SSC CGL	CDS	NDA	

Question.7. Answer : Option 3

Explanation:

Case 1:-

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B				
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

Case 2:-

Raghav	Vikrant	Mahi	Ansh	Raman	
					1 st row
			RBI Grade B	IBPS PO	
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

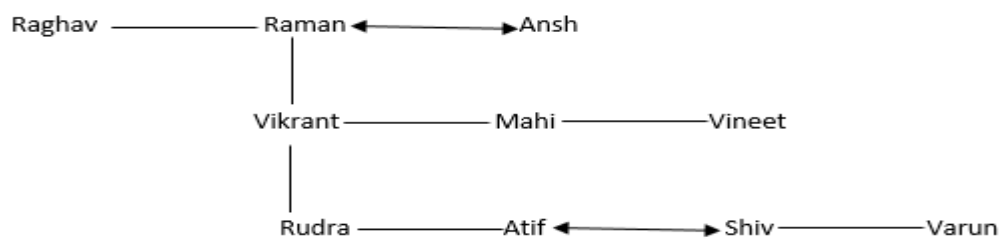

Now Neither Mahi nor Atif's grandfather sits just opposite to Atif. As there will be no place left for Atif in case 2. So case 2 will be eliminated. From rest Atif likes NDA and Ansh like RBI Grade B. Vikrant likes neither RRB PO nor SBI PO. Varun likes SSC CGL. Raghav does not like SBI PO.

So, the final solution is –

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B	SBI PO	LIC AAO	RRB PO	
Vineet	Rudra	Varun	Shiv	Atif	
					2 nd row
KVS	PCS	SSC CGL	CDS	NDA	

Question.8. Answer : Option 1

Explanation:

Case 1:-

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B				
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

Case 2:-

Raghav	Vikrant	Mahi	Ansh	Raman	
					1 st row
			RBI Grade B	IBPS PO	
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

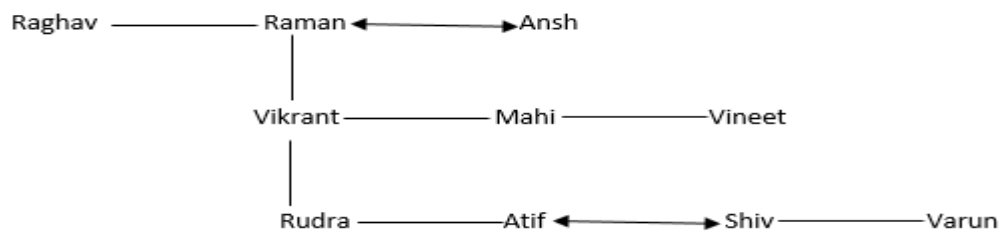

Now Neither Mahi nor Atif's grandfather sits just opposite to Atif. As there will be no place left for Atif in case 2. So case 2 will be eliminated. From rest Atif likes NDA and Ansh like RBI Grade B. Vikrant likes neither RRB PO nor SBI PO. Varun likes SSC CGL. Raghav does not like SBI PO.

So the final solution is –

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B	SBI PO	LIC AAO	RRB PO	
Vineet	Rudra	Varun	Shiv	Atif	
					2 nd row
KVS	PCS	SSC CGL	CDS	NDA	

Question.9. Answer : Option 3

Explanation:

Case 1:-

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B				
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

Case 2:-

Raghav	Vikrant	Mahi	Ansh	Raman	
					1 st row
			RBI Grade B	IBPS PO	
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

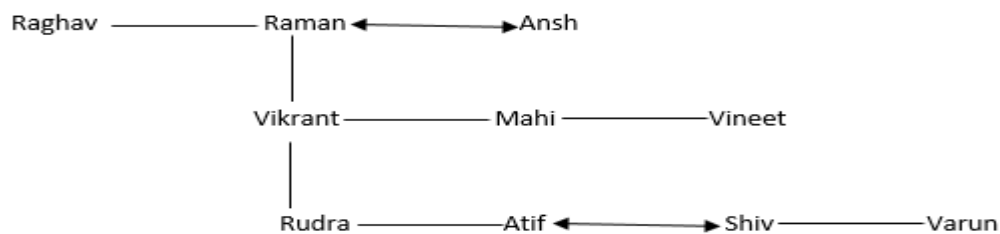

Now Neither Mahi nor Atif's grandfather sits just opposite to Atif. As there will be no place left for Atif in case 2. So case 2 will be eliminated. From rest Atif likes NDA and Ansh like RBI Grade B. Vikrant likes neither RRB PO nor SBI PO. Varun likes SSC CGL. Raghav does not like SBI PO.

So the final solution is –

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B	SBI PO	LIC AAO	RRB PO	
Vineet	Rudra	Varun	Shiv	Atif	
					2 nd row
KVS	PCS	SSC CGL	CDS	NDA	

Question.10. Answer : Option 2

Explanation:

Case 1:-

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B				
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

Case 2:-

Raghav	Vikrant	Mahi	Ansh	Raman	
					1 st row
			RBI Grade B	IBPS PO	
Vineet	Rudra		Shiv		
					2 nd row
KVS	PCS		CDS		

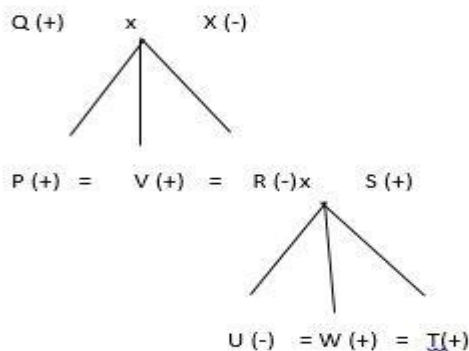

Now Neither Mahi nor Atif's grandfather sits just opposite to Atif. As there will be no place left for Atif in case 2. So case 2 will be eliminated. From rest Atif likes NDA and Ansh like RBI Grade B. Vikrant likes neither RRB PO nor SBI PO. Varun likes SSC CGL. Raghav does not like SBI PO.

So the final solution is –

Raman	Ansh	Mahi	Vikrant	Raghav	
					1 st row
IBPS PO	RBI Grade B	SBI PO	LIC AAO	RRB PO	
Vineet	Rudra	Varun	Shiv	Atif	
					2 nd row
KVS	PCS	SSC CGL	CDS	NDA	

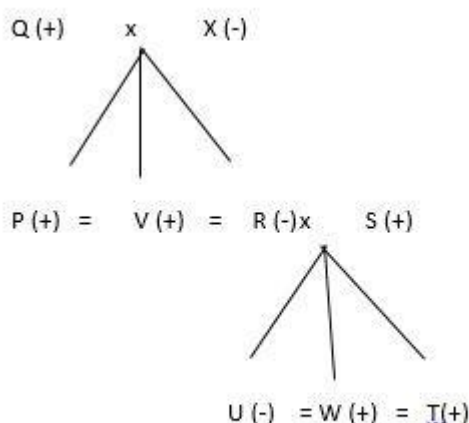

Question.11. Answer : Option 3

Explanation:

Question.12. Answer : Option 3

Explanation:

Question.13. Answer : Option 5

Explanation:

Position (as per the English alphabetical series) of the first letter of every word is written, followed by a character representing the number of characters in the word according to the table:

1	@
2	!
3	#
4	?
5	%
6	*
7	^
8	+
9	/
10	-

And the last element of the code is the opposite letter (in the alphabetical series) of the last letter of every word

The code for seven letter word is not known so it cannot be determined.

Question.14. Answer : Option 4

Explanation:

Position (as per the English alphabetical series) of the first letter of every word is written, followed by a character representing the number of characters in the word according to the table:

1	@
2	!
3	#
4	?
5	%
6	*
7	^
8	+
9	/
10	-

And the last element of the code is the opposite letter (in the alphabetical series) of the last letter of every word

Question.15. Answer : Option 3**Explanation:**

Position (as per the English alphabetical series) of the first letter of every word is written, followed by a character representing the number of characters in the word according to the table:

1	@
2	!
3	#
4	?
5	%
6	*
7	^
8	+
9	/
10	-

And the last element of the code is the opposite letter (in the alphabetical series) of the last letter of every word.

Question.16. Answer : Option 4**Explanation:**

Position (as per the English alphabetical series) of the first letter of every word is written, followed by a character representing the number of characters in the word according to the table:

1	@
2	!
3	#
4	?
5	%
6	*
7	^
8	+
9	/
10	-

And the last element of the code is the opposite letter (in the alphabetical series) of the last letter of every word

* means 6 letters

V means last letter should be E

And 19 means first letter should be S

Question.17. Answer : Option 3**Explanation:**

Position (as per the English alphabetical series) of the first letter of every word is written, followed by a character representing the number of characters in the word according to the table:

1	@
2	!
3	#
4	?
5	%
6	*
7	^
8	+
9	/
10	-

And the last element of the code is the opposite letter (in the alphabetical series) of the last letter of every word

23 – First letter W

? – Four letter word

U – Last letter F

Question.18. Answer : Option 4**Explanation:**

Step I: elf milk 47 simple 75 23 viva 16 sample 34

Step II: elf 16 milk 47 simple 75 23 viva sample 34

Step III: elf 16 milk 23 47 simple 75 viva sample 34

Step IV: elf 16 milk 23 sample 47 simple 75 viva 34

Step V: elf 16 milk 23 sample 34 47 simple 75 viva

Step VI: elf 16 milk 23 sample 34 simple 47 75 viva

Step VII: elf 16 milk 23 sample 34 simple 47 viva 75

Question.19. Answer : Option 4**Explanation:**

Step I: elf milk 47 simple 75 23 viva 16 sample 34

Step II: elf 16 milk 47 simple 75 23 viva sample 34

Step III: elf 16 milk 23 47 simple 75 viva sample 34

Step IV: elf 16 milk 23 sample 47 simple 75 viva 34

Step V: elf 16 milk 23 sample 34 47 simple 75 viva

Step VI: elf 16 milk 23 sample 34 simple 47 75 viva

Step VII: elf 16 milk 23 sample 34 simple 47 viva 75

Question.20. Answer : Option2

Explanation:

Step I: elf milk 47 simple 75 23 viva 16 sample 34

Step II: elf 16 milk 47 simple 75 23 viva sample 34

Step III: elf 16 milk 23 47 simple 75 viva sample 34

Step IV: elf 16 milk 23 sample 47 simple 75 viva 34

Step V: elf 16 milk 23 sample 34 47 simple 75 viva

Step VI: elf 16 milk 23 sample 34 simple 47 75 viva

Step VII: elf 16 milk 23 sample 34 simple 47 viva 75

Question.21. Answer : Option 4

Question.22. Answer : Option 2

Explanation:

Step I: elf milk 47 simple 75 23 viva 16 sample 34

Step II: elf 16 milk 47 simple 75 23 viva sample 34

Step III: elf 16 milk 23 47 simple 75 viva sample 34

Step IV: elf 16 milk 23 sample 47 simple 75 viva 34

Step V: elf 16 milk 23 sample 34 47 simple 75 viva

Step VI: elf 16 milk 23 sample 34 simple 47 75 viva

Step VII: elf 16 milk 23 sample 34 simple 47 viva 75

Question.23. Answer : Option 4

Explanation:

Imposing a ban on fire crackers is not the ONLY way to ensure a control in pollution levels as it is also mentioned in the statement that this has been done as a test to check if the pollution levels fall. Thus I is not implicit.

Nothing about development or other states following the trend is relevant to the ban on sale of fire crackers. Hence, II is not implicit.

Assumption III tells whether it will be easy or difficult to impose a ban on the crackers and the fact that stocks have already been produced. It is not something that the reader will assume on the basis of the given statement thus. III is not implicit.

Since the ban is temporary, there are chances of its upliftment. Hence IV is implicit.

Question.24. Answer : Option 4

Explanation:

The findings suggest that virtual interviewers could prove to be even better than human therapists and virtual interviewers may be anonymous thus, I contradicts the finding.

Argument II suggests a way in which the task mentioned in the statement can be implemented. Thus II does not contradict the finding.

Argument III says that developing a machine with human behaviours is beyond our capacity thus, III contradicts the statement.

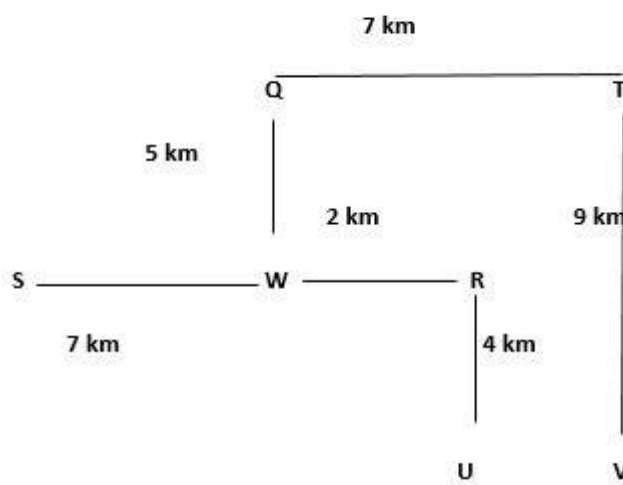

Argument IV supports the removal of human presence when discussing mental issues. Thus it supports the statement.

Question.25. Answer : Option 5

Question.26. Answer : Option 1

Question.27. Answer : Option 2

Explanation:

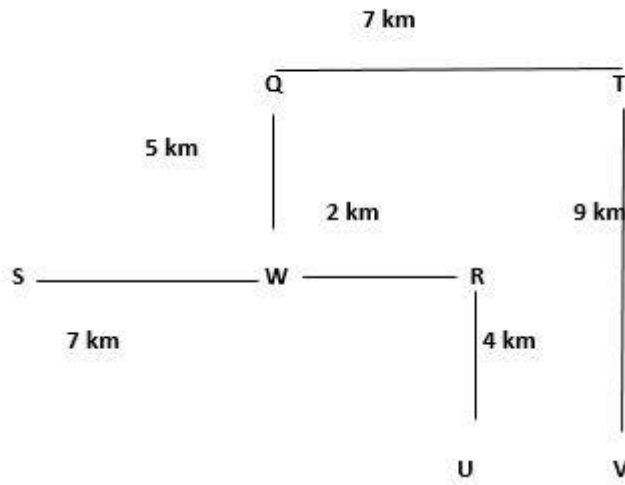

Now we can answer all the questions with the help of the above diagram:

UV will be equal to QT-WR, i.e., 7-2 which is equal to 5. Hence option 2 is correct.

Question.28. Answer : Option3

Explanation:

Now we can answer all the questions with the help of the above diagram:

Distance between R and T will be equal to $\sqrt{((QT-WR)^2+WQ^2)}$, i.e., $\sqrt{50}$.

Question.29. Answer : Option 5

Explanation:

From I and II, we can find out that Geeta sits to the right of Suraj. Therefore, both the statements are necessary to answer the question.

Question.30. Answer : Option 3

Explanation:

From I alone, we can find out that E is the grandfather of D.

From II alone, we can find out that E is the grandfather of D.

Therefore, either statement I or statement II is sufficient to answer the question.

Question.31. Answer : Option 4

Explanation:

From question part, we get the code for

giant segment the spot sag map pap rap(i)

From I we get the code for

the auto giant placed car tap cap jap sag pap (ii)

From II we get

giant segment grape spot rap map gap sag (iii)

give car auto lap jap cap (iv)

Code for 'give' is 'lap' [from (ii) and (iv)]

Hence, code for 'auto' is either 'jap' or 'cap'.

Question.32. Answer : Option 4**Explanation:**

From I. Salary of $(P + Q) >$ salary of $(R + S)$ and salary of $T >$ salary of P, Q .

From II. Salary of $(P - R) >$ Salary of $(S - Q)$, salary of $P >$ salary of R and $S > Q$.

Even from both the statements, we are not able to get the answer.

Question.33. Answer : Option1**Explanation:**

From I. Number of sons = 8. Number of daughter = 1.

Hence, the total number of total children = $8 + 1 = 9$

From II. Suppose number of daughter = x

Hence, the number of total children = $8x + x = 9x$

Still we need the value of x . Hence II alone is not sufficient.

Question.34. Answer : Option 4**Explanation:**

From (i), it is clear that both Q and U are on even numbered floor and since, U is on 2nd floor, only 4th, 6th and 8th floor are there for Q and Y . Since, Y is not above Q , there are two possibilities:

Possibility (a) – Q at 8th and Y at 6th floor.

Possibility (b) – Q at 6th and Y at 4th floor.

But statement (ii) says, that one who likes papaya lives on 4th floor and Y does not like papaya, possibility (b) is not possible.

Hence, we will go with possibility (a) which is Q at 8th (likes Banana) and Y at 6th floor.

Statement (ii) also says that person on 3rd floors likes Kiwi.

From (iii), it is clear that the person who likes orange is on the 5th floor.

From (vii), we can say that the person who likes grapes is on the 9th floor and also the person who likes watermelon lives on the 6th floor.

From (v), T is not on the 1st floor and also since he does not like Kiwi, he is not on the 3rd floor.

Floors	Fruits		Persons	
	√	×	√	×
9	Grapes			
8	Banana		Q	
7				
6	Watermelon	Papaya	Y	
5	Orange			
4	Papaya			
3	Kiwi			T
2	Apple		U	
1				T

From (iv), neither W nor R can be at the 9th floor, as W likes pineapple and R is not at the topmost floor. Also as W likes pineapple, only two floors .i.e 7th and 1st, are left for W. Hence, there are two possibilities for W and R :

Possibility (a) – W at 7th floor and R at 3rd floor.

Possibility (b) - R at 5th floor and W at 1st floor.

But we can see in the above table that T cannot be at 1st or 3rd floor. Now (vi), says that there is one floor between the floor on which T and R live. Hence, R also cannot be at 3rd floor. Therefore, possibility (a) cannot be correct. Hence, we will go ahead with the possibility (b) which is R at 5th and W at 1st floor and also from (vi), it is clear that T will be on the 7th floor. Only fruit Mango is left for T, hence T likes Mango.

From (vi), it is also clear that V and P will be on 4th and 3rd floors respectively. Now only person left for 9th floor is X.

Final arrangement will be as follows:

Floors	Fruits	Persons
	√	√
9	Grapes	X
8	Banana	Q
7	Mango	T
6	Watermelon	Y
5	Orange	R
4	Papaya	V
3	Kiwi	P
2	Apple	U
1	Pineapple	W

Question.35. Answer : Option 4**Explanation:**

From (i), it is clear that both Q and U are on even numbered floor and since, U is on 2nd floor, only 4th, 6th and 8th floor are there for Q and Y. Since, Y is not above Q, there are two possibilities:

Possibility (a) – Q at 8th and Y at 6th floor.

Possibility (b) – Q at 6th and Y at 4th floor.

But statement (ii) says, that one who likes papaya lives on 4th floor and Y does not like papaya, possibility (b) is not possible.

Hence, we will go with possibility (a) which is Q at 8th (likes Banana) and Y at 6th floor.

Statement (ii) also says that person on 3rd floors likes Kiwi.

From (iii), it is clear that the person who likes orange is on the 5th floor.

From (vii), we can say that the person who likes grapes is on the 9th floor and also the person who likes watermelon lives on the 6th floor.

From (v), T is not on the 1st floor and also since he does not like Kiwi, he is not on the 3rd floor.

Floors	Fruits		Persons	
	✓	×	✓	×
9	Grapes			
8	Banana		Q	
7				
6	Watermelon	Papaya	Y	
5	Orange			
4	Papaya			
3	Kiwi			T
2	Apple		U	
1				T

From (iv), neither W nor R can be at the 9th floor, as W likes pineapple and R is not at the topmost floor. Also as W likes pineapple, only two floors i.e 7th and 1st, are left for W. Hence, there are two possibilities for W and R :

Possibility (a) – W at 7th floor and R at 3rd floor.

Possibility (b) - R at 5th floor and W at 1st floor.

But we can see in the above table that T cannot be at 1st or 3rd floor. Now (vi), says that there is one floor between the floor on which T and R live. Hence, R also cannot be at 3rd floor. Therefore, possibility (a) cannot be correct. Hence, we will go ahead with the possibility (b) which is R at 5th and W at 1st floor and also from (vi), it is clear that T will be on the 7th floor. Only fruit Mango is left for T, hence T likes Mango.

From (vi), it is also clear that V and P will be on 4th and 3rd floors respectively. Now only person left for 9th floor is X.

Final arrangement will be as follows:

Floors	Fruits	Persons
	√	√
9	Grapes	X
8	Banana	Q
7	Mango	T
6	Watermelon	Y
5	Orange	R
4	Papaya	V
3	Kiwi	P
2	Apple	U
1	Pineapple	W

Question.36. Answer : Option 1

Explanation:

From (i), it is clear that both Q and U are on even numbered floor and since, U is on 2nd floor, only 4th, 6th and 8th floor are there for Q and Y. Since, Y is not above Q, there are two possibilities:

Possibility (a) – Q at 8th and Y at 6th floor.

Possibility (b) – Q at 6th and Y at 4th floor.

But statement (ii) says, that one who likes papaya lives on 4th floor and Y does not like papaya, possibility (b) is not possible.

Hence, we will go with possibility (a) which is Q at 8th (likes Banana) and Y at 6th floor.

Statement (ii) also says that person on 3rd floors likes Kiwi.

From (iii), it is clear that the person who likes orange is on the 5th floor.

From (vii), we can say that the person who likes grapes is on the 9th floor and also the person who likes watermelon lives on the 6th floor.

From (v), T is not on the 1st floor and also since he does not like Kiwi, he is not on the 3rd floor.

Floors	Fruits		Persons	
	✓	×	✓	×
9	Grapes			
8	Banana		Q	
7				
6	Watermelon	Papaya	Y	
5	Orange			
4	Papaya			
3	Kiwi			T
2	Apple		U	
1				T

From (iv), neither W nor R can be at the 9th floor, as W likes pineapple and R is not at the topmost floor. Also as W likes pineapple, only two floors .i.e 7th and 1st, are left for W. Hence, there are two possibilities for W and R :

Possibility (a) – W at 7th floor and R at 3rd floor.

Possibility (b) - R at 5th floor and W at 1st floor.

But we can see in the above table that T cannot be at 1st or 3rd floor. Now (vi), says that there is one floor between the floor on which T and R live. Hence, R also cannot be at 3rd floor. Therefore, possibility (a) cannot be correct. Hence, we will go ahead with the possibility (b) which is R at 5th and W at 1st floor and also from (vi), it is clear that T will be on the 7th floor. Only fruit Mango is left for T, hence T likes Mango.

From (vi), it is also clear that V and P will be on 4th and 3rd floors respectively. Now only person left for 9th floor is X.

Final arrangement will be as follows:

Floors	Fruits	Persons
	✓	✓
9	Grapes	X
8	Banana	Q
7	Mango	T
6	Watermelon	Y
5	Orange	R
4	Papaya	V
3	Kiwi	P
2	Apple	U
1	Pineapple	W

Question.37. Answer : Option 3**Explanation:**

From (i), it is clear that both Q and U are on even numbered floor and since, U is on 2nd floor, only 4th, 6th and 8th floor are there for Q and Y. Since, Y is not above Q, there are two possibilities:

Possibility (a) – Q at 8th and Y at 6th floor.

Possibility (b) – Q at 6th and Y at 4th floor.

But statement (ii) says, that one who likes papaya lives on 4th floor and Y does not like papaya, possibility (b) is not possible.

Hence, we will go with possibility (a) which is Q at 8th (likes Banana) and Y at 6th floor.

Statement (ii) also says that person on 3rd floors likes Kiwi.

From (iii), it is clear that the person who likes orange is on the 5th floor.

From (vii), we can say that the person who likes grapes is on the 9th floor and also the person who likes watermelon lives on the 6th floor.

From (v), T is not on the 1st floor and also since he does not like Kiwi, he is not on the 3rd floor.

Floors	Fruits		Persons	
	✓	×	✓	×
9	Grapes			
8	Banana		Q	
7				
6	Watermelon	Papaya	Y	
5	Orange			
4	Papaya			
3	Kiwi			T
2	Apple		U	
1				T

From (iv), neither W nor R can be at the 9th floor, as W likes pineapple and R is not at the topmost floor. Also as W likes pineapple, only two floors .i.e 7th and 1st, are left for W. Hence, there are two possibilities for W and R :

Possibility (a) – W at 7th floor and R at 3rd floor.

Possibility (b) - R at 5th floor and W at 1st floor.

But we can see in the above table that T cannot be at 1st or 3rd floor. Now (vi), says that there is one floor between the floor on which T and R live. Hence, R also cannot be at 3rd floor. Therefore, possibility (a) cannot be correct. Hence, we will go ahead with the possibility (b) which is R at 5th and W at 1st floor and also from (vi), it is clear that T will be on the 7th floor. Only fruit Mango is left for T, hence T likes Mango.

From (vi), it is also clear that V and P will be on 4th and 3rd floors respectively. Now only person left for 9th floor is X.

Final arrangement will be as follows:

Floors	Fruits	Persons
	√	√
9	Grapes	X
8	Banana	Q
7	Mango	T
6	Watermelon	Y
5	Orange	R
4	Papaya	V
3	Kiwi	P
2	Apple	U
1	Pineapple	W

Question.38. Answer : Option 1

Explanation:

From (i), it is clear that both Q and U are on even numbered floor and since, U is on 2nd floor, only 4th, 6th and 8th floor are there for Q and Y. Since, Y is not above Q, there are two possibilities:

Possibility (a) – Q at 8th and Y at 6th floor.

Possibility (b) – Q at 6th and Y at 4th floor.

But statement (ii) says, that one who likes papaya lives on 4th floor and Y does not like papaya, possibility (b) is not possible.

Hence, we will go with possibility (a) which is Q at 8th (likes Banana) and Y at 6th floor.

Statement (ii) also says that person on 3rd floors likes Kiwi.

From (iii), it is clear that the person who likes orange is on the 5th floor.

From (vii), we can say that the person who likes grapes is on the 9th floor and also the person who likes watermelon lives on the 6th floor.

From (v), T is not on the 1st floor and also since he does not like Kiwi, he is not on the 3rd floor.

Floors	Fruits		Persons	
	✓	×	✓	×
9	Grapes			
8	Banana		Q	
7				
6	Watermelon	Papaya	Y	
5	Orange			
4	Papaya			
3	Kiwi			T
2	Apple		U	
1				T

From (iv), neither W nor R can be at the 9th floor, as W likes pineapple and R is not at the topmost floor. Also as W likes pineapple, only two floors .i.e 7th and 1st, are left for W. Hence, there are two possibilities for W and R :

Possibility (a) – W at 7th floor and R at 3rd floor.

Possibility (b) - R at 5th floor and W at 1st floor.

But we can see in the above table that T cannot be at 1st or 3rd floor. Now (vi), says that there is one floor between the floor on which T and R live. Hence, R also cannot be at 3rd floor. Therefore, possibility (a) cannot be correct. Hence, we will go ahead with the possibility (b) which is R at 5th and W at 1st floor and also from (vi), it is clear that T will be on the 7th floor. Only fruit Mango is left for T, hence T likes Mango.

From (vi), it is also clear that V and P will be on 4th and 3rd floors respectively. Now only person left for 9th floor is X.

Final arrangement will be as follows:

Floors	Fruits	Persons
	✓	✓
9	Grapes	X
8	Banana	Q
7	Mango	T
6	Watermelon	Y
5	Orange	R
4	Papaya	V
3	Kiwi	P
2	Apple	U
1	Pineapple	W

Question.39. Answer : Option 2

Question.40. Answer : Option 4

Question.41. Answer : Option 3

Question.42. Answer : Option 1

Question.43. Answer : Option 4

Question.44. Answer : Option 3

Question.45. Answer : Option 4

Explanation:

The Bill introduces an amendment to Section 2 of the 1958 Act, expanding the definition of public works to construction by any department of the Central government for public purposes, which can be done on the recommendation of National Monuments Authority.

Question.46. Answer : Option3

Question.47. Answer : Option 1

Explanation:

Participatory Notes commonly known as P-Notes or PNs are instruments issued by registered foreign institutional investors (FII) to overseas investors, who wish to invest in the Indian stock markets without registering themselves with the market regulator, the Securities and Exchange Board of India - SEBI.

Question.48. Answer : Option3

Explanation:

On 4th September 2018, **HDFC ERGO General Insurance Company** announced the launch of 'E@Secure', a Cyber Insurance Policy for individuals. This policy offers comprehensive protection to individuals and their families including children, against cyber-attacks, cyber frauds or digital threats that might cause financial loss or reputational loss. This policy offers protection against cyber risks and frauds performed from any device and from any location of the world.

Question.49. Answer : Option 4

Explanation:

The S & P 500 is a stock market index containing the stock of 500 Large - Cap corporations, most of which are American. The index is most noticeable of the many indices owned and maintained by Standard & Poor's a division of Mc Graw- Hill. S & P 500 is used in reference not only to the index but also to the 500 companies that have their common stock included in the index.

Question.50. Answer : Option 4

Question.51. Answer : Option 3

Question.52. Answer : Option 5

Explanation:

Paytm has launched “**Paytm AI Cloud for India**” for developers, start-ups, and enterprises in partnership with **Alibaba**, a global tech giant. This is a made-in-India AI-powered cloud. It offers ready-to-use services to automate workflow, easy to integrate payments, messaging and customer engagement without the trouble of managing hardware and software, in-built CRM, Campaign Management.

Question.53. Answer : Option 4

Explanation:

Non Resident External account can be defined as an account that allows transfer or conversion of Indian currency across borders in an effective manner and is also equipped with options to avail various types of saving schemes in India.

Question.54. Answer : Option 1

Question.55. Answer : Option 4

Explanation:

Chandoli National Park is a natural world heritage site spread over Satara, Kolhapur and Sangli district of Maharashtra.

Question.56. Answer : Option 3

Explanation:

Recently, the Union Home Secretary Rajiv Gauba has launched an online ‘e-Sahaj’ portal for grant of security clearance to businesses. The portal will facilitate an applicant to submit application online and also to view the status of his application from time to time.

Question.57. Answer : Option 4

Explanation:

The iconic Trump Tower was launched in Kolkata recently in November. This is the third Trump tower to be launched in India.

Question.58. Answer : Option 2

Explanation:

Credit risk is the risk of loss arising from a borrower who does not make payments as promised.

Question.59. Answer : Option 3

Question.60. Answer : Option 2

Explanation:

India was ranked 44th out of 50 countries in the Intellectual Property (IP) Index released by US Chamber of Commerce. Last year, India was ranked 43rd out of 45 countries in index, with an overall score of 8.4 points.

Question.61. Answer : Option 1

Explanation:

Indian Post Payment Bank became the 'third' payment bank in India.

First- Airtel Payment Bank

Second - Paytm Payment Bank.

Question.62. Answer : Option 4

Question.63. Answer : Option 1

Explanation:

The **Odisha** government has launched Mukhyamantri Kalakar Sahayata Yojana (MMKSY) for literature and cultural artists of the state.

Question.64. Answer : Option 3

Question.65. Answer : Option 4

Question.66. Answer : Option 3

Question.67. Answer : Option 3

Question.68. Answer : Option 4

Explanation:

On September 27, 2018, External Affairs Minister Sushma Swaraj attended the 9th IBSA Trilateral Ministerial Commission in New York, United States. It was convened by Minister of Foreign Affairs Aloysio Nunes Ferreira Filho.

Question.69. Answer : Option 1

Question.70. Answer : Option 3

Explanation:

On 30th September 2018, Mercedes' Lewis Hamilton won the Russian Grand Prix in Russia. his was Lewis Hamilton's 70th career win. Mercedes' Valtteri Bottas finished in second position. He was followed by Ferrari's Sebastian Vettel in third place.

Question.71. Answer : Option 4

Explanation:

On October 1, 2018, Uzbekistan President Shavkat Mirziyoyev held delegation level talks with PM Narendra Modi at Hyderabad House in New Delhi. Here, India and Uzbekistan signed 17 MoUs in various fields.

Question.72. Answer : Option 2

Explanation:

On October 3, 2018, MobiKwik launched an instant loan approval and disbursal product called 'Boost'. As per the offer, loans of upto Rs 60,000 can be sanctioned as well as disbursed in a matter of 90 seconds.

Question.73. Answer : Option 2

Question.74. Answer : Option 3

Question.75. Answer : Option 1

Question.76. Answer : Option4

Question.77. Answer : Option 3

Explanation:

National Green Tribunal ordered a four-member committee to conduct an inspection and submit report about the waste dumping issue at the Polavaram dam in Andhra Pradesh . The decision of the committee was taken by a bench headed by NGT Chairperson Justice Adarsh Kumar Goel.

Question.78. Answer : Option 2

Question.79. Answer : Option2

Question.80. Answer : Option 3

Question.81. Answer : Option 4

Explanation:

The power sector is in trouble because - **"Non-performing assets (NPAs) among power-generating companies are mounting. There is a shortage of coal"**.

Question.82. Answer : Option 3

Explanation:

Substantially - of ample or considerable amount.

Question.83. Answer : Option 3

Explanation:

Mounting - heighten / expand / increase.

Question.84. Answer : Option1

Explanation:

Revive - to activate or set in motion again.

Question.85. Answer : Option 3

Explanation:

Mandated - in this context means that they were 'ordered' or 'asked' to carry out.

Question.86. Answer : Option 3

Explanation:

The statement is definitely false, as the information in the passage clearly says the complete opposite - "Launched in 2015, UDAY — Ujwal Discom Assurance Yojana — was to provide much-needed relief, **which it did temporarily**".

Question.87. Answer : Option 1

Explanation:

Only the first statement is true as mentioned in the paragraph - **"States were to take over 75% of discom debts as on September 30, 2015. This was to ease their fiscal burden and 'improve' their balance sheets"**.

Question.88. Answer : Option 1

Explanation:

There is no such condition mentioned in the passage and all the states are being referred to in general.

Question.89. Answer : Option 3

Explanation:

"Almost all the discoms got on board and utilised the facility to transfer debt to the state government. This improved their financial health, some even showing profits".

Question.90. Answer : Option 2

Explanation:

The author explicitly mentions in the passage that the other states should have learnt something from the way Gujarat carried out the power sector model and that, "much time was spent on fiscal restructuring. Equal, if not more, **time should have been spent on understanding how AT&C losses were reduced in states like Gujarat, the ACS-ACR gap was reduced** and it could be adopted by other states".

Question.91. Answer : Option 3

Explanation:

The whole **system** has to direct itself in a direction.

Question.92. Answer : Option 1

Explanation:

Liquidity in the context means the availability of liquid assets to a market or a company.

Question.93. Answer : Option 4

Explanation:

Propel – spur or drive into particular situation.

Question.94. Answer : Option 2

Explanation:

Looking at the words, the words Repealed, Abrogated, Retracted and Disavowed means to deny any responsibility, but in the sentence a word to support the responsibility is required. **Enacted** is the only word with means to make law and put into practice.

Question.95. Answer : Option 5

Explanation:

Strength – the quality or state of being physically strong

Question.96. Answer : Option 3

Explanation:

Yielded- To produce or provide.

Question.97. Answer : Option 3

Explanation:

Recoveries - The action of regaining or securing compensation or money lost or spent by means of a legal process or subsequent profits.

Question.98. Answer : Option 1

Explanation:

Engaging - Involve someone in a conversation or discussion.

Question.99. Answer : Option 4

Explanation:

Critics - A person who expresses an unfavourable opinion of something.

Question.100. Answer : Option 2

Explanation:

Monumental – Great in importance.

Question.101. Answer : Option 3

Explanation:

The statement conveys the past experience of Walmart in a way, and that is why we will use past tense. We cannot predict what it 'will see' in future.

Question.102. Answer : Option 4

Explanation:

As we refer to a situation which has already happened in the past, therefore past participle of the verb will be used here.

Question.103. Answer : Option 4

Explanation:

The statement conveys the information in simple present tense, therefore the options I & II can be ruled out.

Question.104. Answer : Option 2

Explanation:

Subject- verb agreement -The subject here is in plural form, i.e. 'discussions', therefore the verb will be used accordingly.

'Under way' is a phrase used to indicate towards something that has already started or is happening.

Question.105. Answer : Option 1

Explanation:

While depicting a process which is continuing from past and is still in process, i.e. present perfect continuous tense, we use 'has been + '-ing' form of the verb.

Question.106. Answer : Option 3

Explanation:

The State Department said recently **that** India has ordered defence equipment **worth \$18 billion from the U.S, and the administration is unlikely** to stall it all under sanctions.

Explanation-

B- 'That' acts as a conjunction, thus it is the correct word to be used here.

C- 'Worthy' is usually followed by the preposition 'of', thus is grammatically incorrect. Therefore 'worth' will be used here. ('Worth' and 'worthy' both are adjectives.)

E- The use of 'unlikely' followed by the preposition 'to' is grammatically incorrect. 'Unlikely' to is the correct usage.

Question.107. Answer : Option 2

Explanation:

There could **be** strong statements **from the U.S, in continuation with** its line, but sanctions **are extremely unlikely according to** both official and unofficial sources.

Explanation-

A- 'Could' is usually followed by 'have' which is further followed by 'been'. Also here we are talking about a possibility which is best expressed by 'could be'.

C- The correct phrase to be used is 'in continuation with'.

E- In order to form a correct preposition, according has to be followed by 'to'.

Question.108. Answer : Option 5

Explanation:

There are also no specific trigger points mentioned in CAATSA for sanctions, and the administration can delay the decision without announcing any waiver.

Question.109. Answer : Option 3

Explanation:

The path that we **take hereon will not only determine** our well-being but **also** that of the generations who **will inhabit** our planet after us.

Explanation-

A- The verb is further followed by the adverb 'hereon', which indicates towards future, thus 'take' will be the correct form to be used, and not 'took' as it is in the past tense.

C- While presenting two conditions simultaneously, we need a **correlative conjunction** which is used as – 'Not onlybut also'.

E- Again in this part we are talking about future, something that will happen 'after us', therefore, using past tense of the verb (did) doesn't work here. We need to use future form of the verb, therefore – 'will'.

Question.110. Answer : Option 2

Explanation:

When we as a society are aware of our strong links **with** environmental conservation and talk about it **regularly**, we will automatically be proactive **in** working towards a sustainable environment.

Explanation-

B- We are always linked 'with' something.

C- We need an adverb 'regularly' in place of an adjective 'regular'.

D- We are active or proactive 'in' something, as the preposition here too is followed by the reason or goal 'in' which we need to be proactive.

Question.111. Answer : Option 3

Explanation:

$$3 \times 1 + 3 = 6$$

$$6 \times 3 + 5 = 23$$

$$23 \times 5 + 7 = 122$$

$$122 \times 7 + 9 = 863$$

$$863 \times 9 + 11 = 7778$$

Question.112. Answer : Option 2

Explanation:

$$32 \times 1 + 1^2 = 33$$

$$33 \times 2 + 2^2 = 70$$

$$70 \times 3 + 3^2 = 219$$

$$219 \times 4 + 4^2 = 892$$

$$892 \times 5 + 5^2 = 4485$$

Question.113. Answer : Option 3

Explanation:

$$34 \times 2 + 5 = 73$$

$$73 \times 2 - 5 = 141$$

$$141 \times 2 + 5 = 287$$

$$287 \times 2 - 5 = 569$$

$$569 \times 2 + 5 = 1143$$

Question.114. Answer : Option 3

Explanation:

$$47 \times 1.5 = 70.5$$

$$70.5 \times 2.5 = 176.3$$

$$176.3 \times 3.5 = 616.9$$

$$616.9 \times 4.5 = 2776$$

$$2776 \times 5.5 = 15268$$

Question.115. Answer : Option 3

Explanation:

$$13 \times 2 - 1 = 25$$

$$25 \times 3 - 1 = 74$$

$$74 \times 4 - 1 = 295$$

$$295 \times 5 - 1 = 1474$$

$$1474 \times 6 - 1 = 8843$$

Question.116. Answer : Option 4

Explanation:

No. of female employees in Banking Sector = $\frac{3}{5} \times 13\% \text{ of } 15,000 = 1,170$

No. of female employees in Retail Sector = $\frac{2}{7} \times 28\% \text{ of } 15,000 = 1,200$

$\therefore \text{Reqd. \%} = \frac{1170}{1200} \times 100 = 97.5\% \text{ approx.}$

Professions	Male	Females	Total
Telecom	2800	800	3600
Banking	780	1170	1950
Construction	1350	900	2250
Aviation	1000	2000	3000
Retail	3000	1200	4200

Question.117. Answer : Option 3

Explanation:

Number of male employees placed in all the given sectors together = $2,800 + 780 + 1,350 + 1,000 + 3,000 = 8,930$

Number of female employees placed in all the given sectors together = $800 + 1170 + 900 + 2,000 + 1,200 = 6,070$

$\therefore \text{Reqd. Diff.} = 8,930 - 6,070 = 2,860$

Professions	Male	Females	Total
Telecom	2800	800	3600
Banking	780	1170	1950
Construction	1350	900	2250
Aviation	1000	2000	3000
Retail	3000	1200	4200

Question.118. Answer : Option 4

Explanation:

Number of employees placed in Banking sector = 1,950

Number of employees placed in construction sector = 2,250

$\therefore \text{Reqd. \%} = \frac{2250 - 1950}{2250} \times 100 = 13.33$

Professions	Male	Females	Total
Telecom	2800	800	3600
Banking	780	1170	1950
Construction	1350	900	2250
Aviation	1000	2000	3000
Retail	3000	1200	4200

Question.119. Answer : Option 2

Explanation:

Number of persons placed in aviation sector left their jobs = 20% of 3,000 = 600

∴ Now, total number of persons in Banking sector = 1,950 + 600 = 2,550

Professions	Male	Females	Total
Telecom	2800	800	3600
Banking	780	1170	1950
Construction	1350	900	2250
Aviation	1000	2000	3000
Retail	3000	1200	4200

Question.120. Answer : Option 1

Explanation:

Number of female employees who joined telecom and construction sector = 800 + 900 = 1,700

Professions	Male	Females	Total
Telecom	2800	800	3600
Banking	780	1170	1950
Construction	1350	900	2250
Aviation	1000	2000	3000
Retail	3000	1200	4200

Question.121. Answer : Option 2

Explanation:

7 balls

1st case: (2 2 2 1) × 4

4 possibilities :- (2 2 2 1), (2 2 1 2), (1 2 2 2), (2 1 2 2)

2nd case: (3 2 1 1) × 12

12 possibilities :-

(3 2 1 1), (3 1 2 1), (3 1 1 2), (2 1 1 3),
(2 1 3 1), (2 3 1 1), (1 1 3 2), (1 3 1 2),
(1 3 2 1), (1 1 2 3), (1 2 1 3), (1 2 3 1)

$$(7C_2 \times 5C_2 \times 3C_2 \times 1C_1) \times 4 = 2520$$

$$(7C_3 \times 4C_2 \times 2C_1 \times 1C_1) \times 12 = 5040$$

$$2520 + 5040 = 7560$$

Question.122. Answer : Option1

Explanation:

Let, total amount Ritesh has = Rs. 30 (LCM of 10 and 30).

Cost of 1 pen = Rs. 3 and cost of 1 pencil = Re. 1

Amount spent on chocolate = 10% of 30 = Rs.3

Amt. spent on pens = $3 \times 7 = \text{Rs.}21$

Amt. left = $30 - (21 + 3) = \text{Rs.}6$

No. of pencils he can purchase = 6

Question.123. Answer : Option 3

Explanation:

Total number of flowers = $5 + 7 + 8 = 20$

Let S be the sample space. Then,

$$n(S) = \text{number of ways of drawing 3 flowers out of 20} = {}^{20}C_3 = \frac{20 \times 19 \times 18}{3 \times 2 \times 1} = 1140$$

Let E = event of drawing 3 flowers of the different colour

$$n(E) = {}^5C_1 \times {}^7C_1 \times {}^8C_1 = 5 \times 7 \times 8 = 280$$

$$P(E) = \frac{n(E)}{n(S)} = \frac{280}{1140} = \frac{14}{57}$$

Question.124. Answer : Option 4

Explanation:

Let the stick be broken in the ratio 1 : x

And x be the greater fraction.

Now,

$$4x/(5 \times 1) = [5(1+x)]/6x$$

$$24x^2 - 25x - 25 = 0$$

$$x = [+25 \pm (\sqrt{625 + 2400})]/48$$

$$x = (+25 \pm 55)/48$$

x's value can't be negative since it is a larger part (and $x > 1$)

$$\text{so } x = (+25+55)/48 = 80/48 = 5/3$$

$$\text{Required ratio} = x/(1 + x)$$

$$= (5/3)/(1+5/3) = (5/8)$$

Question.125. Answer : Option 5**Explanation:**

$$P = (x - 35) \text{ days}$$

$$Q = (x - 15) \text{ days}$$

$$(P + Q) = (x + 505)/22 \text{ days}$$

$$1/(x - 35) + 1/(x - 15) = 1/(x + 505)/22$$

$$(x - 25)/(x^2 - 50x + 525) = 11/(x + 505)$$

$$10x^2 - 1030x + 18400 = 0$$

$$x^2 - 103x + 1840 = 0$$

$$x = +80, +30$$

x can't be +30.

$$\text{So } x = 80$$

$$\text{Now } P = 80 - 35 = 45 \text{ days}$$

$$Q = 80 - 15 = 65 \text{ days}$$

$$\text{Total work} = \text{LCM of 45 and 65} = 585 \text{ unit}$$

$$\text{Efficiency of P} = 585/45 = 13$$

$$\text{Efficiency of Q} = 585/65 = 9$$

$$\text{P and Q works on alternate days so their 2 days work} = 22$$

$$\text{In 52 days} = 22 \times 26 = 572 \text{ unit}$$

$$\text{In 53 day} = 572 + 13 = 585 \text{ unit}$$

So in 53 days they will complete the work.

Question.126. Answer : Option 1**Explanation:**

$$\text{CP for A with commission} = \text{Rs. } 32,648$$

$$\text{SP for A} = \text{Rs. } 32,400$$

$$\therefore \text{Loss} = \text{Rs. } 32,648 - \text{Rs. } 32,400 = \text{Rs. } 248$$

$$\text{CP for B with commission} = \text{Rs. } 35,760$$

$$\text{SP for B} = \text{Rs. } 44,000$$

$$\therefore \text{Profit} = \text{Rs. } 44,000 - \text{Rs. } 35,760 = \text{Rs. } 8,240$$

CP for C with commission = Rs. 38,160

SP for C = Rs.43,200

∴ Profit = Rs. 43,200 – Rs. 38,160 = Rs. 5,040

CP for D with commission = Rs. 37,445

SP for D = Rs. 37,800

∴ Profit = Rs. 37,800 – Rs. 38,160 = Rs. 355

Hence, shopkeeper A is the only one who is incurring losses.

	Shopkeepers			
	A	B	C	D
CP(in Rs.)	32,000	34,000	36,000	36,500
MP(in Rs.)	$32,000 \times \frac{125}{100} = 40,000$	49,000	$36,000 \times 1.5 = 54,000$	42,000
Discount	$40,000 - 32,400 = \text{Rs. } 7600$	Rs. 5,000	20%	10%
S.P.(in Rs.)	$40,000 \times \frac{90}{100} \times \frac{90}{100} = \text{Rs. } 32,400$	44,000	43,200	37,800
Commission on SP(in Rs.)	648	1,760	2,160	945
CP + Comm. (in Rs.)	32,648	35,760	38,160	37,445
Profit / loss % approx. (with comm.)	0.76% loss	23.04% profit	13.21% profit	0.95% profit
Profit / loss % approx. (without comm.)	1.25% profit	29.41% profit	20 %profit	3.56% profit

Question.127. Answer : Option 1

Explanation:

SP for A = Rs.32,400

SP for B = Rs.44,000

SP for C = Rs.43,200

SP for D = Rs. 37,800

Hence, from shopkeeper A we can get the cheapest rate.

	Shopkeepers			
	A	B	C	D
CP(in Rs.)	32,000	34,000	36,000	36,500
MP(in Rs.)	$32,000 \times \frac{125}{100} = 40,000$	49,000	$36,000 \times 1.5 = 54,000$	42,000
Discount	$40,000 - 32,400 = \text{Rs. } 7600$	Rs. 5,000	20%	10%
S.P(in Rs.)	$40,000 \times \frac{90}{100} \times \frac{90}{100} = \text{Rs. } 32,400$	44,000	43,200	37,800
Commission on SP(in Rs.)	648	1,760	2,160	945
CP + Comm. (in Rs.)	32,648	35,760	38,160	37,445
Profit / loss % approx. (with comm.)	0.76% loss	23.04% profit	13.21% profit	0.95% profit
Profit / loss % approx. (without comm.)	1.25% profit	29.41% profit	20 %profit	3.56% profit

Question.128. Answer : Option 2

Explanation:

Total CP for shopkeeper B = 34,000 + 34,000 + 35,760 = Rs. 1,03,760

Total SP for shopkeeper B = Rs. 44,000 x 3 = Rs. 1,32,000

∴ Profit earned by shopkeeper B = Rs. 1,32,000 - Rs. 1,03,760 = Rs. 28,240

	Shopkeepers			
	A	B	C	D
CP(in Rs.)	32,000	34,000	36,000	36,500
MP(in Rs.)	$32,000 \times \frac{125}{100} = 40,000$	49,000	$36,000 \times 1.5 = 54,000$	42,000
Discount	40,000 – 32,400 = Rs. 7600	Rs. 5,000	20%	10%
S.P(in Rs.)	$40,000 \times \frac{90}{100} \times \frac{90}{100} =$ Rs.32,400	44,000	43,200	37,800
Commission on SP(in Rs.)	648	1,760	2,160	945
CP + Comm. (in Rs.)	32,648	35,760	38,160	37,445
Profit / loss % approx. (with comm.)	0.76% loss	23.04% profit	13.21% profit	0.95% profit
Profit / loss % approx. (without comm.)	1.25% profit	29.41% profit	20 %profit	3.56% profit

Question.129. Answer : Option 2

Explanation:

CP for A without commission = Rs. 32,000

SP for A = Rs.32,400

Profit = Rs. 32,400 - Rs.32, 000 = Rs.400

$\therefore \text{Profit \%} = \frac{400}{32000} \times 100 = 1.25\%$

CP for B without commission = Rs. 34,000

SP for B = Rs.44,000

Profit = Rs. 44,000 – Rs. 34,000 = Rs. 10,000

$\therefore \text{Profit \%} = \frac{10000}{34000} \times 100 = 29.41\%$

CP for C without commission = Rs. 36,000

SP for C = Rs.43,200

Profit = Rs. 43,200 – Rs. 36,000 = Rs. 7,200

$$\therefore \text{Profit \%} = \frac{7200}{36000} \times 100 = 20\%$$

CP for D without commission = Rs. 36,500

SP for D = Rs. 37,800

Profit = Rs. 37,800 – Rs. 36,500 = Rs. 1,300

$$\therefore \text{Profit \%} = \frac{1300}{36500} \times 100 = 3.56\%$$

Hence, B is earning the highest profit %.

	Shopkeepers			
	A	B	C	D
CP(in Rs.)	32,000	34,000	36,000	36,500
MP(in Rs.)	$32,000 \times \frac{125}{100} = 40,000$	49,000	$36,000 \times 1.5 = 54,000$	42,000
Discount	$40,000 - 32,400 = \text{Rs. } 7600$	Rs. 5,000	20%	10%
S.P(in Rs.)	$40,000 \times \frac{90}{100} \times \frac{90}{100} = \text{Rs. } 32,400$	44,000	43,200	37,800
Commission on SP(in Rs.)	648	1,760	2,160	945
CP + Comm. (in Rs.)	32,648	35,760	38,160	37,445
Profit / loss % approx. (with comm.)	0.76% loss	23.04% profit	13.21% profit	0.95% profit
Profit / loss % approx. (without comm.)	1.25% profit	29.41% profit	20 %profit	3.56% profit

Question.130. Answer : Option 3

Explanation:

Profit earned by shopkeeper B by selling one laptop = Rs. 44,000 – Rs. 35,760 = Rs. 8,240

Profit earned by shopkeeper B by selling 5 laptop = Rs. 8,240 x 5 = Rs. 41,200

Profit earned by shopkeeper C by selling one laptop = Rs.43,200 – Rs. 38,160 = Rs. 5,040

Profit earned by shopkeeper C by selling 7 laptop = Rs. 5,040 x 7 = Rs. 35,280

∴ Required difference = Rs. 41200 – Rs. 35280 = Rs. 5,920

	Shopkeepers			
	A	B	C	D
CP(in Rs.)	32,000	34,000	36,000	36,500
MP(in Rs.)	$32,000 \times \frac{125}{100} = 40,000$	49,000	$36,000 \times 1.5 = 54,000$	42,000
Discount	$40,000 - 32,400 = \text{Rs. } 7600$	Rs. 5,000	20%	10%
S.P(in Rs.)	$40,000 \times \frac{90}{100} \times \frac{90}{100} = \text{Rs. } 32,400$	44,000	43,200	37,800
Commission on SP(in Rs.)	648	1,760	2,160	945
CP + Comm. (in Rs.)	32,648	35,760	38,160	37,445
Profit / loss % approx. (with comm.)	0.76% loss	23.04% profit	13.21% profit	0.95% profit
Profit / loss % approx. (without comm.)	1.25% profit	29.41% profit	20 %profit	3.56% profit

Question.131. Answer : Option 1

Explanation:

From statement I, it is clear that had P not left the work, the remaining work would have been completed in 6 days. Now since, P's efficiency is equal to (Q + R)'s efficiency, now the work will be completed in 12 days.

Statement II is not related to the question.

Question.132. Answer : Option 5

Explanation:

From statement (i), $S = M + 44,000$ and $R = M - 16,000$

From the above we cannot get the answer.

But with the help of above and statement (ii),

$$M + 44,000 + M - 16,000 = 1,92,000$$

$$2M + 28,000 = 1,92,000$$

$$M = 82,000$$

$$\text{Rohan's salary} = M - 16,000 = 82,000 - 16,000 = \text{Rs.}66,000$$

Hence, with the help of both the statement we can get the answer.

Question.133. Answer : Option 3

Explanation:

The data given in the question are C.P. and discount%. Using statement I alone, as the marked price of the article is given and discount% is known, we can find the selling price of the article. We can find the profit using cost price and the selling price of the article.

Statement II, as X's SP and his profit% are known, we can find X's CP. Which is trader's SP also. Now, since, we have both trader's CP and SP, we can get the Profit.. Hence, statement II alone is also sufficient.

Question.134. Answer : Option 4

Explanation:

Since, we don't know the length of the train from even both the statements, we cannot get the answer.

Question.135. Answer : Option 4

Explanation:

Since, we don't know the Marked price of the article, even with the help of both the statements, selling price cannot be determined.

Question.136. Answer : Option 5

Explanation:

$$\text{Quantity 1: Number of ways} = {}^5C_2 \times {}^6C_3 + {}^5C_1 \times {}^6C_4 + {}^5C_0 \times {}^6C_5 / {}^{11}C_5 = 281/462 = 281/462$$

$$\text{Quantity 2: Number of ways} = 7! / (2! \times 3! \times 2!) = 210$$

$$\text{Quantity 1} < \text{Quantity 2}$$

Question.137. Answer : Option3

Explanation:

$$\text{Quantity 1: Total possible outcomes} = 2^3 = 8 \text{ i.e. HHH, HHT, HTH, HTT, THH, THT, TTH and TTT.}$$

$$\text{Number of desired outcome} = 4$$

$$\text{Required probability} = 4/8 = 1/2$$

$$\text{Quantity 2: Total possible outcomes} = 6^2 = 36$$

$$\text{Number of desired outcomes} = [(1, 2), (1, 5), (2, 1), (2, 4), (3, 3), (3, 6), (4, 2), (4, 5), (5, 1), (5, 4), (6, 3), (6, 6)] = 12$$

$$\text{Required probability} = 12/36 = 1/3$$

Quantity 1 > Quantity 2

Question.138. Answer : Option 2

Explanation:

Quantity 1:

$$(2x+4)/(3x+4)=7/10$$

$$\Rightarrow 20x+40=21x+28$$

$$\Rightarrow x=12 \text{ years}$$

$$\text{Mala's present age} = 3 \times 12 = 36 \text{ years}$$

$$\text{Mala's age 10 years ago} = 36 - 12 = 24 \text{ years}$$

$$\text{Quantity 2: The age of mother} = (4 \times 12 - 3 \times 8) = 24 \text{ years}$$

$$\text{Quantity 1} = \text{Quantity 2}$$

Question.139. Answer : Option 5

Explanation:

$$\text{Number of employee people in the migrated} = 20000 \times 20/100 \times 50/100 = 2000$$

Quantity 2:

$$\text{Number of people in 2018} = P(1+R/100)^n$$

$$3600 = P(1+20/100)^2$$

$$\Rightarrow 3600 \times 5/6 \times 5/6 = P$$

$$P = 2500$$

$$\text{Quantity 1} < \text{Quantity 2}$$

Question.140. Answer : Option5

Explanation:

Quantity 1:

$$\text{Milk in vessel C} = 2/5 + 5/12 = (24+25)/60 = 49/60$$

$$\text{Water in vessel C} = 3/5 + 7/12 = (36+35)/60 = 71/60$$

$$\text{Milk and Water ratio in vessel C} = 49/60 : 71/60 = 49:71$$

$$\text{Required percentage} = 71/120 \times 100 = 59\%$$

Quantity 2:

$$\text{Alcohol in tank S} = 1/5 + 3/8 = 20/40$$

$$\text{Water in tank S} = 4/5 + 5/8 = (32+25)/40 = 57/40$$

$$\text{Alcohol and Water in tank S} = 23/40 : 57/40 = 23:57$$

$$\text{Required percentage} = 57/80 \times 100 = 71\%$$

Quantity 1 < Quantity 2

Question.141. Answer : Option 4

Explanation:

Rate of interest of Wilton= $2 \times 4 = 8\%$

Amount of Wilton = $P + \text{PNR}/100$

$A = 15000 + (15000 \times 4 \times 8)/100 = \text{Rs.}19800$

Amount of Binni= $2 \times 19800 = \text{Rs.}39600$

$39600 = P \{1 + (5/100)\}^3$

$P = (39600 \times 100 \times 100 \times 100)/(105 \times 105 \times 105) = \text{Rs.}34207.96 = \text{Rs.}34208$

Question.142. Answer : Option 2

Explanation:

Total amount of Wilton=16500

Interest = $16500 - 15000 = 1500$

Interest rate= $(1500 \times 100)/(2 \times 15000) = 5\%$

Principal of Anjani=15000

Amount= $15000 + (15000 \times 3 \times 5)/100 = 15000 + 2250 = \text{Rs.}17250$

Question.143. Answer : Option 3

Explanation:

Principal of Anjani= $3000/2 \times 5 = 1500$

Rate of interest= $1.25 \times 4 = 5\%$

Total amount of Anjani= $7500 + (7500 \times 3 \times 5)/100$

$A = 7500 + 1125 = \text{Rs.}8625$

Total Amount of Swati = $3000 \times (1 + 4/100)^2$

$A = 3000 \times 104/100 \times 104/100 = 3244.8$

Required percentage= $(3244.8/8625) \times 100 = 37.6\%$

Question.144. Answer : Option 2

Explanation:

Principal of Binni= $125/100 \times 15000 = 18750$

Amount of Binni= $18750 \times (105/100)^3$

$A = 18750 \times (105 \times 105 \times 105)/(100 \times 100 \times 100) = \text{Rs.}21705.46$

Question.145. Answer : Option 4

Explanation:

Total Amount of Swati = $3000 \times (1 + 4/100)^2$

$A = 3000 \times 104/100 \times 104/100 = 3244.8$

Principal Amount of Esha = $5 \times 3244.8 = 16224$

$A = 16224 + 16224 \times 2 \times 5/100 = 17846.4$

Question.146. Answer : Option 3

Explanation:

Let the stipend per day of the intern be Rs. x

He came late for $30 - (20 + 4) = 6$ days

Then,

$$20x + \frac{6 \times x}{2} - 12 \times 4 = 1,792$$

$$23x = 1840$$

$$x = 80$$

Total stipend for the month = $80 \times 30 = \text{Rs. } 2,400$

Question.147. Answer : Option 1

Explanation:

Let the total number of people be x

According to the question,

$$\text{Number of graduates} = \frac{1}{2} x$$

$$\text{Number of post graduates} = \frac{1}{5} x$$

$$\text{Number of double graduates} = x - \frac{1}{2} x - \frac{1}{5} x = \frac{3}{10} x$$

$$\text{Number of graduates who are unemployed} = \frac{3}{4} \times \frac{1}{2} x = \frac{3x}{8}$$

$$\text{Number of post graduates who are unemployed} = \frac{3}{5} \times \frac{1}{5} x = \frac{3x}{25}$$

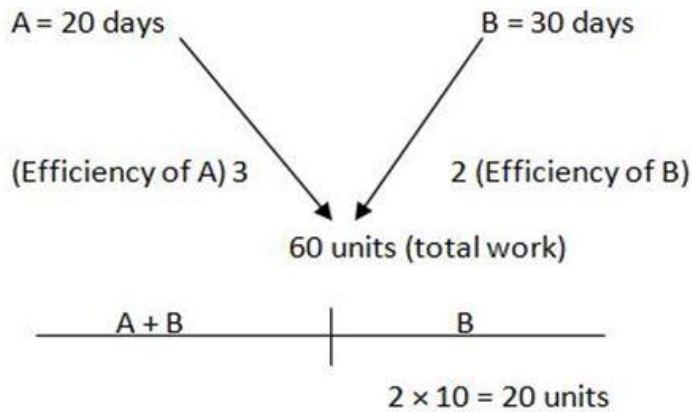

$$\text{Number of double graduates who are unemployed} = \frac{1}{2} \times \frac{3}{10} x = \frac{3x}{20}$$

$$\begin{array}{l} \text{Total} \quad \quad \text{number} \quad \quad \text{of} \quad \quad \text{people} \quad \quad \text{who} \quad \quad \text{are} \quad \quad \text{employed} \quad \quad = \\ x - \frac{3x}{8} - \frac{3x}{25} - \frac{3x}{20} = \frac{200x - 75x - 24x - 30x}{200} = \frac{71x}{200} \end{array}$$

The percentage of people who are employed = $\frac{71x}{200} \times 100 = 35.5\%$

Question.148. Answer : Option 2

Explanation:

Remaining work = $60 - 20 = 40$ units

Remaining work done by (A + B)

Time = $40 / (3 + 2) = 8$ days

Total time = $10 + 8 = 18$ days

Question.149. Answer : Option 4

Explanation:

$4 \times 4 \times 4 \times 4 \times 4$ ways = 1024

Method 1:

Every letter has 4 ways of distribution. It can go to any of 4 envelopes. So applying fundamental principle of counting, we get

$4 \times 4 \times 4 \times 4 \times 4$ ways = 4^5 ways = 1024

Note: we cannot say every envelop has 5 ways of choosing a letter so 5 to the power 4 is wrong.

Method 2:

The same 1 letter cannot be in different envelopes but the same 1 envelope can have different letters. So, repetition of box is there, hence answer would be 4^5 not 5^4 .

Question.150. Answer : Option 1

Explanation:

	A	B	C
Profit	6500×6	8400×5	10000×3
	39000	42000	30000
	13	14	10

A's extra share on working partner (5% profit)

Remaining profit = $7400 \times (95/100)$ = Rs. 7030

According to question

B investment = $7030 \times (14/37)$ = Rs. 2660.
