

The answers along with explanations are given at the end of the question paper

Section: Test of Reasoning

Directions (1-2):

Study the following information carefully and answer the questions given below:

S is brother of P. N is mother of S. T is daughter of P. E is grandmother of T. N does not have married son.

Question No. 1

How is T related to S?

Options :

1. Son
2. Grandson
3. Daughter
4. Niece
5. None

Question No. 2

If M is married to P, then how is S related to M?

Options :

1. Sister-in-law
2. brother
3. brother-in-law
4. sister
5. aunt

Directions (3-5):

In each question, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statement and select the appropriate answer. Give answer

Question No. 3

Statements: $P < Q = S \geq U$; $V \leq P \geq N > I$

Conclusions: I. $U < V$ II. $Q > I$

Options :

1. If only conclusion I is true.
2. If only conclusion II is true.
3. If both conclusion I and II are true.
4. If either conclusion I or II is true.
5. If neither conclusion I nor II is true.

Question No. 4

Statements: $P \geq S \geq C \leq U$; $N \geq S < G$; $C \leq M$

Conclusion I. $P \geq N$ II. $M < S$

Options :

1. If only conclusion I is true.
2. If only conclusion II is true.
3. If both conclusion I and II are true.
4. If either conclusion I or II is true.
5. If neither conclusion I nor II is true.

Question No. 5

Statements: $J < K = L \geq M \geq P$; $F \geq K < G$

Conclusion I. $J < G$ II. $F \geq P$

Options :

1. If only conclusion I is true.
2. If only conclusion II is true.
3. If both conclusion I and II are true.
4. If either conclusion I or II is true.
5. If neither conclusion I nor II is true.

Directions (6-10):

Study the following information carefully and answer the given question.

Eight-person A,B,C ,D ,E, F, G and H are sitting around a circular table in a meeting. Some are facing the centre while some are facing outside the centre. They also work in different companies viz. Wipro, Glenmark, Google, Bank of America, Infosys, IBM, Yahoo and Facebook.

A sits third to the right of C. There is one person sitting between A and B. D sits fourth to right of B. The person who works with Google sits second to the right of D. A does not work with Google. Three persons sit between the person who works with Google and Facebook. The person who works with

Wipro sits second to the right of the person who works with Facebook. D does not work with Wipro. The person who work with IBM sits third to the right of the person who work with Wipro. C work with IBM. There are two people sitting between D and E. There are three people sitting between the person who work with Infosys and Bank of America. E does not work with Infosys or Bank of America. There is one person sitting between the person who work with Bank of America and Glenmark. The person who work with Google sits third to the right of the person who work with Glenmark. The person who work with Yahoo sits third to the right of the person who work with Bank of America. G sits fourth to right of the person who work with Infosys. F is not the immediate neighbour of G. The person who work with Infosys sits third to the left of the person who work with Google and both faces the same direction.(Same direction means if one faces centre then other also faces the centre and vice-versa). E faces opposite the centre. A work with Facebook.

Question No. 6

Who among the following works with Google?

Options :

1. A
2. B
3. H
4. E
5. None of these

Question No. 7

If E is related to C and B is related to D, in the same way, A is related to?

Options :

1. A
2. B
3. E
4. C
5. H

Question No. 8

Who among the following sits third to the right of the person who work with Facebook?

Options :

1. F
2. D
3. G
4. H
5. T

Question No. 9

Which of the following is correctly matched?

Options :

1. E - Wipro
2. C - Google
3. D - Yahoo
4. F - Bank of America
5. None of these

Question No. 10

Who sits opposite to person who work with Wipro?

Options :

1. F
2. The person who work with Bank of America
3. C
4. The person who work with Facebook.
5. The person who work with Yahoo.

Directions (11-14):

In each of the questions below are given three statements followed by three conclusions numbered I, II and III. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of given conclusions logically follows from the given statements disregarding commonly known facts.

Question No. 11

Statements : No fan is a tubelight.
All building are tubelight.
Some apartment are fan.

Conclusions: No apartment is a tubelight.
Atleast some fan are apartment.
Atleast some building are fan.

Options :

1. Only I follows.
2. Only II follows.
3. Only I and II follows.
4. None follows.
5. None of these

Question No. 12

Statements : Some cabinets are ministers.

All ministers are governor.

No governor is a parliament.

Conclusions: All governor being cabinet is a possibility.

All governor are ministers.

No minister is a parliament.

Options :

1. Only I and III follows.
2. Only II and III follows.
3. Only I and II follows.
4. All I, II and III follows.
5. None of these

Question No. 13

Statements : All apples are bananas.

Some oranges are apples.

Some kiwis are oranges.

Conclusions: Atleast some kiwis are apples.

All bananas being kiwi is a possibility.

All oranges being bananas is a possibility

Options :

1. Only I follows.
2. Only II follows.
3. Only II and III follows.
4. All I, II and III follows.
5. None of these

Question No. 14

Statements : All rivers are mountains.

No sky is a mountain.

All ponds are skies.

Conclusions: All mountains being rivers is a possibility.

Some rivers are not skies.

Atleast some ponds are not mountains.

Options :

1. Only I follows.
2. Only II and III follows.
3. Only III follows.
4. Only I and II follows.
5. All of the above

Question No. 15

From the given alternatives select the word which cannot be formed using the letters of the given word

REASONING

Options :

1. NOISE
2. SONG
3. SON
4. PING
5. None of these

Directions (16-20):

Study the following information carefully and answer the questions given below:

Kevin, Henry, Tanya, Rick, Susan, Jesse, Tailor, and Jim are eight persons. Each of them visits different cities, which are Dispur, Bangalore, Mumbai, New Delhi, Bhopal, Odisha, Chennai, and Jaipur. Each of them has a different choice of cuisine-Assyrian, Gujarati, Punjabi, Chinese, Thai, Garhwali, South Indian, and Continental but not necessarily in the same order.

- (i) Kevin, who likes South Indian, visits neither Jaipur nor Bhopal.
- (ii) Henry visits New Delhi and does not like either Assyrian or Punjabi.
- (iii) The one who visits Dispur likes Chinese.
- (iv) The one who likes Continental visits Bangalore and the one who visits Chennai likes Gujarati.
- (v) Jim doesn't like Thai.
- (vi) Susan and Jesse like Gujarati and Garhwali, though not necessarily in the same order.
- (vii) Rick likes Continental.
- (viii) Tailor visits Odisha and doesn't like Assyrian.
- (ix) The one who visits Bhopal likes Garhwali.
- (x) Tanya doesn't visit Jaipur.
- (xi) The one who visits Mumbai doesn't like either Punjabi or Thai.

Question No. 16

Who among of the following likes Continental?

Options :

1. Jim
2. Tailor
3. Rick
4. Susan
5. None of these

Question No. 17

Who among of the following visits Jaipur?

Options :

1. Rick
2. Susan
3. Jim
4. Tailor
5. None of these

Question No. 18

Tanya visits which of the following cities?

Options :

1. Dispur
2. Bhopal
3. Odisha
4. Mumbai
5. None of these

Question No. 19

Which of the following combinations is definitely correct?

Options :

1. Tanya–Dispur–Gujarati
2. Jesse–Chennai–Gujarati
3. Rick–Odisha–Assyrian
4. Henry–New Delhi–Thai
5. None is correct

Question No. 20

Which of the following cuisine Tailor likes?

Options :

1. Thai
2. South Indian
3. Assyrian
4. Punjabi
5. None of these Directions

Section: English Language

Directions (21-30):

Read the following passage carefully and answer the questions given below it. Certain words/ Phrases have been printed in bold to help you locate them while answering some of the questions.

The hesitation shown by the Central government in deciding upon full legal protection for one of its most prized natural assets, the Western Ghats in their totality, is a major disappointment. The idea that whatever is left of these **fragile** mountainous forests should be protected from unsustainable exploitation in the interests of present and future generations, while presenting sustainable ways of living to the communities that inhabit these landscapes, is being lost sight of. Quite unscientifically, the issue is being framed as one of development-versus-conservation. Given the weak effort at **forging a consensus**, there is little purpose in the Centre returning to the drawing board with another draft notification to identify ecologically sensitive areas. What it needs is a framework under which scientific evidence and public concerns are debated democratically and the baseline for ESAs arrived at. It is accepted, for instance, that the Ghats play an irreplaceable role in mediating the monsoon over the country and the forests harbor a rich biodiversity that has not even been fully studied. New species continue to emerge each year in an area that has endemic plants and animals, although, as the scientist Norman Myers wrote nearly two decades ago, only 6.8% of primary vegetation out of the original 182,500 sq km remains in the Western Ghats and Sri Lanka taken together. The ecologically sensitive nature of the forests stretching 1,600 km along the western coast as a global biodiversity hotspot was emphasized by the Western Ghats Ecology Expert Panel headed by Madhav Gadgil, while for conservation purposes, the Kasturirangan Committee identified only a third of the total area. Both expert groups have encountered resistance from State governments and industries, although they mutually differ in their recommendations.

The question that needs speedy resolution is how much of the Western Ghats can be demarcated as ecologically sensitive, going beyond the system of national parks and sanctuaries that already exist. As a corollary, are other areas free to be exploited for industrial activity, including mining and deforestation, with no environmental consequences? A frequently cited example of destruction is the loss of ecology in Goa due to rampant, illegal mining. More complicated is the assessment of ecosystem services delivered by the forests, lakes, rivers and their biodiversity to communities. Mr. Gadgil, for instance, has underscored the unique value of some locations, such as those with fish or medicinal plant diversity peculiar to a small area, which should not get lost in the assessment process. All this points to the need for wider and more open consultation with people at all levels, **imbuing** the process with scientific insights. The sooner this is done the better. Several options to spare sensitive areas will emerge, such as community-led ecological tourism and agro-ecological farming. A national consultative process is urgently called for.

An inference statement from this passage is mentioned below. Select the correct answer option based on the facts and other information mentioned in this passage:

Question No. 21

Statement : Of the ecologically sensitive nature of the forests stretching upto 1,600 km, the Kasturirangan Committee recommended that a third of the total area should be included in the national parks and sanctuaries.

Options :

1. The statement is 'definitely true'
2. The statement is 'probably true'
3. Can't say as data is inadequate
4. The statement is 'probably false'
5. The statement is 'definitely false'

Question No. 22

Statement : The Government will pay heed to the recommendation given by MadhavGadgil headed Western Ghats Ecology Expert Panel regarding the conservation of Western Ghats.

Options :

1. The statement is 'definitely true'
2. The statement is 'probably true'
3. Can't say as data is inadequate
4. The statement is 'probably false'
5. The statement is 'definitely false'

Question No. 23

Statement: As per Norman Myers, not more than 6.8% of primary vegetation out of the original 182,500 sq km remains in the Western Ghats and Sri Lanka taken together as of now.

Options :

1. The statement is 'definitely true'
2. The statement is 'probably true'
3. Can't say as data is inadequate
4. The statement is 'probably false'
5. The statement is 'definitely false'

Question No. 24

As per this article, which one of the following is the prime reason to save the ecological diversity of Western Ghats?

- (A) It is important to save the Ghats as they are abode to numerous flora and fauna, including various medicinal plants
- (B) It is important to save the Ghats as the new species of plants found in Western Ghats form a bulk of India's medicinal plants export.
- (C) It is important to save the Ghats as they play a pivotal role in determining the monsoon across the country
- (D) It is important to save the Ghats because of the recommendation of the two most important committees of ecological conservation i.e. Gadgil Panel and Kasturirangan committee

Options :

1. Only (B) & (C)
2. Only (D)
3. Only (C) & (D)
4. Only (A) & (C)
5. None of these

Question No. 25

Which of the following statements is /are true based on the information and facts mentioned in this passage?

- (A) While taking a decision on the development projects in the Western Ghats, it is important to reach a consensus because otherwise the developers won't be getting cooperation of the locals in pursuance of their projects
- (B) While taking a decision on the development projects in the Western Ghats, it is important to have a consensus so that the views of experts from various fields relevant to Western Ghats and the concerns of the locals are considered to best judge the cost and benefit of the prospective projects in their area

Options :

1. Only (A)
2. Only (B)
3. Both (A) & (B)
4. None of these
5. Either of these

Question No. 26

In the context of the passage, which of the following statements mentioned below holds true with respect to '**Sustainable development**'

(A) Local communities should be encouraged and engaged for the development of tourism and agro ecological farming in the core areas as demarcated by the experts.

(B) Development of projects and mining of precious minerals should be undertaken to uplift the economy of the area and prosperity of the local communities.

(C) Local communities should be free to do farming and other ancillary agricultural activities of their choice and interest.

(D) Less areas which are environmentally sensitive should be free for economic development and mining projects

Options :

1. Only (A) & (C)
2. Only (C) & (D)
3. Only (B) or (D)
4. Only (A) & (D)
5. Only (A), (C) & (D)

Question No. 27

Choose the word/group of words which is most similar in meaning to the word/ group of words printed in bold as used in passage

FORGING

Options :

1. Counterfeit
2. Disagree
3. Fake
4. Building
5. None of these

Question No. 28

Choose the word/group of words which is most similar in meaning to the word/ group of words printed in bold as used in passage.

IMBUE

Options :

1. Drain
2. Include
3. Omit
4. Permeate
5. None of these

Question No. 29

Choose the word/group of words which is opposite in meaning to the word/ group of words printed in bold as used in passage

FRAGILE

Options :

1. Coarse
2. Delicate
3. Robust
4. Rough
5. None of these

Question No. 30

Choose the word/group of words which is opposite in meaning to the word/ group of words printed in bold as used in passage.

CONSENSUS

Options :

1. Majority
2. Disagreement
3. Census
4. Unanimous
5. None of these

Directions (31-35):

In the following question, a sentence / a part of sentence is underlined. Below are given alternatives to the underlined part which may improve the sentence. Choose the correct alternative. In case no improvement is required, choose "No Improvement" option.

Question No. 31

Expenses had be greater than she had calculated.

Options :

1. have been great
2. had been greater
3. are being greater
4. have become great
5. No improvement

Question No. 32

Her hair reached below her knee and made herself almost a garment for her.

Options :

1. make themselves
2. making them
3. make it
4. made itself
5. No improvement

Question No. 33

I was thinking about this the last time we gone on a big trip.

Options :

1. they went in
2. we gone in
3. we went on
4. they had been
5. No improvement

Question No. 34

I cannot tell you the number of times that I have gone looking for the lavatory in a cinema and ended up standing on an alley on the wrong side of a self-locking door.

Options :

1. standing in an
2. stood on a
3. stood in a
4. stand in a
5. No improvement

Question No. 35

I missed my old teachers so much that I would go back and visit them .

Options :

1. visited it
2. visited them
3. visit it
4. visiting them
5. No improvement

Directions (36-40):

In the following sentences, there are two blanks. Find out the appropriate words for filling up the blanks.

Question No. 36

Meanwhile, rumours have grown larger than the truth, the flames of fear and hatred the big cat.

Options :

1. burning, against
2. strengthening, of
3. stoking, against
4. scorching, for
5. None of these

Question No. 37

Despite the uninspiring weather, the city was with a youthful

Options :

1. resonating, nostalgia
2. miffed, vigour
3. nettled, vitality
4. reverberating, verve
5. None of these

Question No. 38

One female cat was injured in a trap set by poachers and now has a permanent that makes it for her to go back to the wild.

Options :

1. amputation, likely
2. feline, feasible
3. languid, difficult
4. limp, impossible
5. None of these

Question No. 39

The of its throat oddly does not allow the big cat to, unlike say a tiger or lion.

Options :

1. physiology , roar
2. psychology, growl
3. philosophy, howl
4. structure, natter
5. None of these

Question No. 40

In its to conserve the elusive snow leopard, India has found an unlikely in Kyrgyzstan.

Options :

1. pursuit, ally
2. paroxysm, alley
3. apathy, alley
4. quest, ally
5. None of these

Directions (41-45):

Below is given a sentence divided in parts. Read the sentence to find out whether there is any error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark "No Error" as your answer. (Ignore the errors of punctuation, if any).

Question No. 41

Find the appropriate ERROR

Options :

1. Of the mid 1990s
2. financial institutions were
3. putting more and more money
4. Into new kinds of very risky investments.
5. No error

Question No. 42

Find the appropriate ERROR

Options :

1. Once you upload the brain
2. onto the internet and log in to
3. that virtual world the body can be left to rot
4. while your virtual self carries on playing Counter Strike for ever.
5. No error

Question No. 43

Find the appropriate ERROR

Options :

1. Indira Gandhi said
2. history should decide
3. whether the declaration of Emergency
4. was justified or not
5. No Error

Question No. 44

Find the appropriate ERROR

Options :

1. A minister should
2. of course try to keep in
3. with the latest trends
4. in intellectual thought.
5. No Error

Question No. 45

Find the appropriate ERROR

Options :

1. People who often
2. smile sincere
3. connect easily
4. with others
5. No Error

Directions (46-50):

Rearrange the following six sentences a, b, c, d, e and f in the proper sequence to form a meaningful paragraph; then answer the questions given below them.

a) But influenza was present in India even before 2009 in the form of H3N2 and Influenza B virus types.

b) The problem with these official figures, however, is that they only capture H1N1 numbers, a practice that has been adopted in response to the severity of the 2009 pandemic.

c) Ever since the influenza virus known as H1N1 landed on Indian shores during the 2009 pandemic, outbreaks have been an annual occurrence.

d) This year the virus has been particularly active; mortality, at 1,873 by the last week of September, is quickly catching up with the 2015 toll.

e) The worst was in 2015, when 2,990 people succumbed to it.

f) In comparison, official figures show 2016 to be a relatively benign year, with an H1N1 death toll of 265.

Question No. 46

Which is the FIRST sentence of the paragraph?

Options :

1. a
2. f
3. d
4. e
5. c

Question No. 47

Which is the SIXTH (LAST) sentence of the paragraph?

Options :

1. f
2. b
3. a
4. e
5. d

Question No. 48

Which is the THIRD sentence of the paragraph?

Options :

1. f
2. e
3. d
4. c
5. b

Question No. 49

Which is the FIFTH sentence of the paragraph?

Options :

1. f
2. b
3. a
4. d
5. c

Question No. 50

Which is the SECOND sentence of the paragraph?

Options :

1. c
2. d
3. e
4. a
5. b

Directions (51-60):

In the following passage, some of the words have been left out, each of which is indicated by a number. Find the suitable word from the options given against each number and fill up the blanks with appropriate words to make the paragraph meaningfully complete.

The Narendra Modi government has formally __ (51) __ its recapitalization exercise for public sector banks (PSBs) by __ (52) __ a Rs. 88,139 crore __ (53) __ through a mix of issuing special recap bonds (Rs. 80,000 crore) and direct budget support (Rs. 8,139 crore) during 2017-18. The move is well-timed. There are __ (54) __ some 40 defaulting companies whose loan accounts have been __ (55) __ for “resolution” by the RBI. The next few months should see quite a few resolution transactions — liquidation or buyout of the said entities’ assets by new investors — __ (56) __ at least in sectors such as steel. Banks should, then, be able to __ (57) __ some of these loans, albeit with “haircuts”, and make adequate __ (58) __ for the balance uncollectable amounts. That is where recapitalization comes in; cleaning-up balance sheets by __ (59) __ loan losses requires banks to be well-capitalized. It would be wrong, however, to assume that PSBs will resume __ (60) __ in a big way.

Question No. 51

Find the appropriate word.

Options :

1. announced
2. kickstarted
3. given

4. decide
5. acknowledging

Question No. 52

Find the appropriate word.

Options :

1. relating
2. discussing
3. announcing
4. derived
5. initiated

Question No. 53

Find the appropriate word.

Options :

1. infusion
2. introduced
3. division
4. mixed
5. none of these

Question No. 54

Find the appropriate word.

Options :

1. famously
2. directly
3. currently
4. extremely
5. sincerely

Question No. 55

Find the appropriate word.

Options :

1. overlooked
2. mistaken
3. lost
4. identified
5. disguised

Question No. 56

Find the appropriate word.

Options :

1. happen
2. occur
3. materializing
4. disclosed
5. develop

Question No. 57

Find the appropriate word.

Options :

1. recover
2. find
3. improve
4. divert
5. extended

Question No. 58

Find the appropriate word.

Options :

1. discussing
2. provisions
3. removal

4. catering
5. option

Question No. 59

Find the appropriate word.

Options :

1. captivate
2. grip
3. absorbing
4. riveting
5. protest

Question No. 60

Find the appropriate word.

Options :

1. shares
2. market
3. distinguish
4. lending
5. borrowed

Section: Computer Knowledge**Question No. 61**

The Internet utilizes the TCP/IP protocol and is accessed using a computer modem or network that is connected through an ISP. What is the role of ISP?

Options :

1. Provides IP address
2. Provides a software package, username, password and access phone number for Internet access
3. Provides Domain name registration and hosting
4. All of the above
5. None of the above

Question No. 62

A series of facts or statements that may have been collected, stored, processed and/or manipulated but have not been organized or placed into context is known as.....

Options :

1. Data
2. Database
3. File
4. Information
5. None of these

Question No. 63

Which of the following is true about Information?

Options :

1. It is collection of data stored in one unit
2. It is organized data
3. It is a database
4. It is relationship among data
5. None of these

Question No. 64

The primary mechanism for providing context for data is.....

Options :

1. information
2. Metadata
3. database
4. file
5. None of these

Question No. 65

Pick the odd one out.

Options :

1. Field
2. Row
3. Record
4. Tuple
5. None of these

Question No. 66

The quality of an MP3 file depends largely on the

Options :

1. program that open the file
2. operating system
3. content of the file
4. bit rate used for compression
5. None of these

Question No. 67

Which of the following is true about .MP4 file format?

Options :

1. it is the next generation of .mp3 for audio
2. commonly used for sharing video files on internet
3. commonly used for studio recording of songs
4. All of these
5. None of these

Question No. 68

The program used for the compression-decompression of audio and video files is known as

Options :

1. Ripper
2. Script
3. Codec
4. Player
5. None of these

Question No. 69

Which of the following file extension denotes Excel Spreadsheet?

Options :

1. .xlr
2. .docx
3. .xlsx
4. .xls
5. None of these

Question No. 70

OCR stands for:

Options :

1. optical coding recognizer
2. ostensibly characterized reader
3. optical character recognition
4. original character reader
5. None of these

Question No. 71

What is the term for a machine that contacts a server for information?

Options :

1. client
2. master
3. host
4. node
5. None of these

Question No. 72

What does API stand for?

Options :

1. Automatic platform information
2. Application programming interface
3. analogue partition ideology
4. All of these
5. None of these

Question No. 73

What is WebKit?

Options :

1. The browser engine on which Chrome is built
2. The starter kit for writing extensions for Chrome
3. The developer kit for creating apps for Chrome
4. All of these
5. None of these

Question No. 74

Which of the following operating systems is the most expensive?

Options :

1. Mac OS X Lion
2. Microsoft Windows 8
3. Ubuntu
4. All of these
5. None of these

Question No. 75

What's the common term for an error within a computer program's code that prevents it from functioning properly?

Options :

1. a glitch
2. a hack
3. a bug
4. All of these
5. None of these

Question No. 76

What is the name for an application that changes a human-readable programming language into a machine-readable language?

Options :

1. compiler
2. converter
3. encoder
4. Linker
5. Interpreter

Question No. 77

Which of the following function(s) is/are not present in the number keypad of keyboard?

Options :

1. Addition
2. Delete
3. Page up
4. Print Screen
5. End

Question No. 78

The current window that is being used is known as _____

Options :

1. Dormant Window
2. Active Window
3. Desktop
4. Passive
5. Task Manager

Question No. 79

In relation to computer, what is 'nibble'?

Options :

1. the process of pausing the current action and switching to the priority command
2. unit for half a byte

Section: Quantitative Aptitude

Directions (101-104):

Study the following information and answer the following given questions.

Tourists	Total no. of booking	Percentage of tourists who have booked for the given destinations from places			
		Meghalaya	Shillong	Andaman Nicobar	Kerala
North India	2000	26	20	19	35
South India	2400	27	30	25	18
USA	1500	32	20	25	23
Russia	1800	24	32	28	16
Canada	2800	21	20	21	38

Question No. 101

The total number of tourists from North India who have booked for Meghalaya and Andaman Nicobar together is what percent more than the total number of tourists who have booked for the same destinations for Kerala?

Options :

1. 19%
2. 37%
3. 29%
4. 31%
5. 26%

Question No. 102

Out of the total number of tourists from USA, 42% are females. If out of the total number of female tourists from USA, 20% are going to Shillong. How many male tourists are going to Shillong who have booked for Shillong from the same place?

Options :

1. 154
2. 174
3. 184
4. 164
5. 147

Question No. 103

What is the difference between the total number of tourists from Canada and South India together from for Kerala and the total number of tourists who are from the same place and have booked for Andaman Nicobar together?

Options :

1. 318
2. 204
3. 414
4. 308
5. 214

Question No. 104

Out of the total number of tourists from Canada 60% were unable to go to the destination. If the respective ratio between the number of tourists going to Meghalaya, Shillong, Andaman Nicobar and Kerala who were unable to go from Canada was 3:4:2:3, what is the number of tourists who were unable to go to Shillong from Canada?

Options :

1. 560
2. 350
3. 480
4. 610
5. 640

Directions (105-108):

What should come in place of the question mark (?) in the following number series?

Question No. 105

352, 354, 363, 391, 456, ?

Options :

1. 327
2. 284
3. 378
4. 582
5. None of these

Question No. 106

645, 646, 654, 681, 745, ?

Options :

1. 266
2. 442
3. 870
4. 748
5. None of these

Question No. 107

562, 561, 557, 548, 532, ?

Options :

1. 371
2. 395
3. 507
4. 543
5. None of these

Question No. 108

20, 9.5, 8.5, 11.25, 20.5, ?

Options :

1. 37.5
2. 48.75
3. 46.5
4. 49
5. None of these

Directions (109-111):

In the following questions two equations numbered I and II are given. You have to solve both the equations. Give answer :

Question No. 109

I. $143y^2 - 161y + 36 = 0$

II. $36x^2 - 161x + 143 = 0$

Options :

1. If $x < y$
2. If $x > y$
3. If $x = y$ or no relationship cannot be established between x and y
4. If $x \geq y$
5. If $x \leq y$

Question No. 110

I. $84y^2 - 187y + 104 = 0$

II. $132x^2 - 41x - 40 = 0$

Options :

1. If $x < y$
2. If $x > y$
3. If $x = y$ or no relationship cannot be established between x and y
4. If $x \geq y$
5. If $x \leq y$

Question No. 111

I. $63x^2 + 146x + 80 = 0$

II. $42y^2 + 109y + 70 = 0$

Options :

1. If $x < y$
2. If $x > y$
3. If $x = y$ or no relationship cannot be established between x and y
4. If $x \geq y$
5. If $x \leq y$

Question No. 112

In an assembly election, a candidate got 60% of the total valid votes. 2% of the total votes were declared invalid. If the total number of voters is 126000, then the number of valid votes polled in favour of the candidate is.

Options :

1. 96082
2. 84604
3. 74088
4. 90284
5. None of these

Question No. 113

A dishonest milkman purchases some milk at Rs 20 per litre and mixes 6 litres water in it. By selling the mixture at the rate Rs 20 per litre, he earns a profit of 15%. The quantity of the mixture that he had was

Options :

1. 55 litres
2. 40 litres
3. 46 litres
4. 50 litres
5. None of these

Question No. 114

The work done by a man, a woman and a child are in the ratio of 4 :3: 1. There are 15 men, 20 women and 30 children in a factory. Their weekly wages amount to Rs. 1500, which is divided in the ratio of work done by them. What will be the wages of 10 men, 15 women and 25 children for one week?

Options :

1. Rs. 1000
2. Rs. 1100
3. Rs. 1200
4. Rs. 900
5. None of these

Question No. 115

Two trains, whose respective lengths are 120 metres and 180 metres, cross each other in 15 seconds when they are moving in opposite directions and in 50 seconds when they are moving in the same direction. What is the speed of the faster train (in km/hr)?

Options :

1. 46.8 kmph
2. 40.2 kmph
3. 54 kmph
4. 56.5 kmph
5. None of these

Directions (116-118):

In each of the following questions, a question is followed by three statements numbered I, II and III. Read all the statements and answer accordingly which statement/s are sufficient to find the answer .

Question No. 116

What is the principal amount?

Statement I: The Simple Interest obtained on the principal after 3 years at 10% rate of interest is Rs 580 less than the compound interest obtained on the same principal after 3 years at 10% per annum.

Statement II: The sum becomes double in 20 years at 8% per annum rate of simple interest.

Statement III: The compound interest obtained on the principal amount is Rs 5580 after 3 years at the rate of 10% compounded annually.

Options :

1. Only I
2. All I, II and III together
3. II and III together
4. either I or III
5. I or II and III

Question No. 117

What is the speed of boat in still water?

Statement I: The boat can cover 16 km downstream distance in 2 hours.

Statement II: Speed of the stream is two-fifth the speed of boat in still water.

Statement III: The boat can cover 24 km upstream distance in 6 hours.

Options :

1. I and III together
2. Only II
3. I and II together
4. I and either II or III
5. Any combination of 2 statements can give the required result

Question No. 118

Jolly borrowed some money at compound interest for 4 years. What will be the amount required to return after 4 years?

Statement I: If the amount was borrowed at simple interest, then after 10 years Rs 1200 was required to pay as simple interest.

Statement II: The rate of interest is 12% per annum

Statement III: The sum of money borrowed is 15 times the amount required to be paid as simple interest after 3 years.

Options :

1. I and either II or III
2. Even all statements together cannot answer the question
3. II and III together
4. I and III together
5. All I, II and III

Question No. 119

Rice at Rs 80/kg is mixed with rice at Rs.40/ kg in a certain ratio such that by selling the mixture at Rs.60/ kg profit of 20% is made. If the quantity of 1st type of rice is 75 kg, find quantity of 2nd type of rice?

Options :

1. 172kg
2. 160kg
3. 225kg
4. 164kg
5. 240kg

Question No. 120

Akash invested some money in a venture for a period of 5 months. After 3 months of his investing, Brijesh invested some amount such that the ratio of investment of Akash and Brijesh become 8:7. 4 months before the end of the year, Chirag came with an investment such that the ratio of Brijesh and Chirag's investment become 5:7. Find the difference between Akash and Chirag's profit if the total profit of the business after the end of the year is Rs. 35550.

Options :

1. Rs. 775
2. Rs. 1125
3. Rs. 200
4. Rs. 535
5. None of these

Options :

1. Climate Sustainable Agriculture
2. Climate Smart Agriculture
3. Climate Suffice Agriculture
4. Climate Strategic Agriculture
5. Climate Social Agriculture

Question No. 165

Which of the following is an objective of Green Highways (Plantations, Transplantations, Beautification and Maintenance) Policy – 2015 promulgated by The Ministry of Road Transport and Highways (MoRTH), Government of India.

Options :

1. Planting 10 crore tree plantation along NHs
2. Green Corridors along 1 lakh km developed National Highways
3. Green Highways for reinforcing India's CoP 21 commitment
4. Creating Sustained Employment for 1 lakh workers
5. All of the above

Question No. 166

The GoI has in February, 2016, launched the National Rurban Mission from Kurubhat, in Rajnandgaon district of _____.

Options :

1. Jharkhand
2. Chattisgarh
3. Gujarat
4. Rajasthan
5. Haryana

Question No. 167

As per SECC, the % of rural households having a family member who has completed education upto graduation or higher is ____

Options :

1. 10.4
2. 8.4
3. 6.4
4. 3.4
5. 1.4

Question No. 168

The primary objective of “Mahila Kisan Sashaktikaran Pariyojana (MKSP)” implemented by Ministry of _____ is to empower women in agriculture by making systematic investments to enhance their participation and productivity, as also create and sustain agriculture based livelihoods of rural women.

Options :

1. Agriculture and farmers welfare
2. Rural Development
3. Panchayatiraj
4. Social justice and empowerment
5. Skill development and entrepreneurship

Question No. 169

The NITI Aayog, is a policy think tank of the Government of India, established in 2015, with the aim to achieve Sustainable Development Goals and to enhance cooperative federalism by fostering the involvement of State Governments of India in the economic policy-making process using a bottom-up approach. What does NITI stand for

Options :

1. National Institution for Transforming India
2. National Institute of Transformation India
3. Neo Institution for Transforming India
4. Neo Institute of Transformation India
5. None

Question No. 170

In the last Budget, Indian Government has announced the facility of extension of Kisan Credit Card scheme (KCC) to Animal Husbandry and Fisheries farmers. In this Interim budget, it is proposed to provide the benefit of ___ % interest subvention to the farmers pursuing the activities of animal husbandry and fisheries, who avail loan through Kisan Credit Card.

Options :

1. 0.5
2. 1.0
3. 1.5
4. 2.0
5. 2.5

Question No. 171

As per the announcement made by the FM during the presentation of the Union Budget 2019-20, the GoI is planning in setting up of " _____ " to upscale sustainable genetic up-gradation of cow resources and to enhance production and productivity of cows.

Options :

1. Rashtriya Kamdhenu Aayog
2. Rashtriya Gau Utpadakta Aayog
3. Rashtriya Gau Suraksha Aayog
4. Rashtriya Gauraksha Aayog
5. None of the above

Question No. 172

As per the Agriculture census, 2015-16, the average size of operational holding has declined to _____ ha. In 2015-16 as compared to 1.15 in 2010-11.

Options :

1. 1.08
2. 1.19
3. 1.26
4. 1.34
5. 1.42

Question No. 173

In 2016, A committee constituted by the Niti Aayog has prepared a model agricultural land leasing act. Which of the following is not a key feature of the model leasing act, 2016?

Remove the clause of adverse possession of land in the land laws of various states

Options :

1. Allow automatic resumption of land after the agreed lease period
2. Allow the terms and conditions of lease to be determined mutually by the land owner and the tenant without any fear on the part of the landowner as well as tenant
3. Facilitate all tenants to access crop insurance and bank credit
4. Tenants cannot make investment in land improvement of the leased land
5. Remove the clause of adverse possession of land in the land laws of various states

Question No. 174

As per the Rural Health Statistics report released in 2018, the number of PHCs has increased by 2507 during the period 2005-2018, from 23236 to 27413, of which _____ state recorded the highest.

Options :

1. Kerala
2. Karnataka
3. Bihar
4. Tamil Nadu
5. None of the above

Question No. 175

As per the Interim budget 2019-20, the amount allocated for the PM Gram Sadak Yojana is Rs _____ Crores

Options :

1. 15000
2. 19000
3. 24000
4. 31000
5. 39000

Question No. 176

Deen Dayal Upadhyaya Grameen Kaushalya Yojana is implemented by the Ministry of _____

Options :

1. Social justice and Empowerment
2. Labour and Employment
3. Health and Family welfare
4. Rural Development
5. Skill Development and Entrepreneurship

Question No. 177

Inspired by the principles and values of Mahatma Gandhi, which of the following Schemes places equal stress on nurturing values of national pride, patriotism, community spirit, self-confidence and on developing infrastructure.

Options :

1. NRLM
2. SAANJHI
3. GPDP
4. PMGPY
5. None of the above

Question No. 178

Post Independence era witnessed rural reconstruction and development a pivotal role in economic planning, which has caused a rapid transformation of

Options :

1. Land reforms
2. Agriculture and animal husbandry
3. Village industries
4. Rural leadership and village administration
5. All of the above

Question No. 179

Regardless of the rise in urbanization, it is projected that _____ of India's population would still be rural by 2050

Options :

1. 25%
2. 34%
3. 42%
4. 22%
5. >50%

Question No. 180

The Forest Conservation Act has come into force on the 25th day of October, _____

Options :

1. 1965
2. 1970
3. 1975
4. 1980
5. 1985

Question No. 181

What are the major constraint for Dryland farming.

Options :

1. Wind Erosion
2. Water Erosion
3. Sheet Erosion
4. Both Wind and Water erosion
5. All of the above

Question No. 182

Which one is the Stomata closing type of anti transpirant ?

Options :

1. Phenyl Mercuric Acetate (PMA)
2. hexadecanol
3. Kaolin
4. cycocel
5. None of these

Question No. 183

Which type of Rice is generally grown in submerged land lower in elevation and harvested in summer season?

Options :

1. Aus
2. Aman
3. Boro
4. Pora
5. Aam

Question No. 184

When water is available for three irrigation in wheat , than it should apply to.

Options :

1. CRT, Late tillering, flowering
2. CRI, Boot stage, Milk Stage
3. CRT, Boot stage, Dought Stage
4. CRT, Milk Stage, Dought Stage
5. CRT, flowering, Boot stage

Question No. 185

The style past which is verylong silky filament and present in cluster in maize is known as

Options :

1. Tassel
2. Silk
3. Bsace
4. gynophase
5. Brone

Question No. 186

Which one is the famous variety of Bengal gram for the resistance of Ascochyta blight?

Options :

1. Annnegri
2. chaffa
3. Gaurav
4. Pusa 256
5. Sheetal

Question No. 187

Which pluse is having often cross pollination type made of pollination.

Options :

1. Pea
2. Bengal Gram
3. Pigeon Pea
4. Low Pea
5. Moth Bean

Question No. 188

Crop Known as wonder crop or meat for the poor, which is richest and cheapest source of protein and fat is.

Options :

1. Cow pea
2. Ground nut
3. Sun flower
4. Soybean
5. Green bean

Question No. 189

Among given option which is not the suitable method to judge the sugarcane maturity.

Options :

1. Bud swell out of nods
2. Bsix seeding(16-18%)
3. Eyes start sprouting
4. Glucose content(710%)
5. None of the above

Question No. 190

Which option does not satisfy the definition of weed?

Options :

1. Unwanted Plant
2. Noxious, Poisnous
3. Cultivable spp
4. Plant out of place
5. All of the above satisfy the definition of weed

Question No. 191

Which one of the following is Rabi Weed?

Options :

1. Cassia occidentalis
2. Euphorbia spp
3. Convolvulus arvensis
4. Cyperus rotundus
5. None of these

Question No. 192

What will be the Potational Intensity of Maize- Sugarcane-Ratoon type of crop rotation.

Options :

1. 50%
2. 100%
3. 200%
4. 300%
5. 75%

Question No. 193

Which method of irrigation is used for the uniform application of water and to minimise the Percolation losses.

Options :

1. Check Basin Method
2. Border Strip Method
3. Furrow Method
4. Sugarcane irrigation
5. Center Pivot Irrigation

Question No. 194

Which one is the type of primary mineral found in soil?

Options :

1. Quaitz
2. Dolomite
3. Feldspar
4. Hornblende
5. Bakerlite

Question No. 195

What is the percentage of oxygen in the earth crust (outer) composition?

Options :

1. 47%
2. 25%
3. 5%
4. 10%
5. 12%

Question No. 196

Name the process which removes silica instead sesquioxide from the upper layer of soil?

Options :

1. Podzolization
2. Eluviation
3. Laterization
4. Solodization
5. None of these

Question No. 197

What is the Diameter of Silt particle in (mm)

Options :

1. 0.02-0.2
2. 0.002-0.02
3. < 0.002
4. 0.2-2
5. > .01

Question No. 198

What is the apparent specific gravity of soil generally used for various calculation

- 1) 1.4 g/cm^3
- 2) 1.33 g/cm^3
- 3) 2.33 g/cm^3
- 4) 2.60 g/cm^3
- 5) 1.66 g/cm^3

Options :

1. (1)
2. (2)
3. (3)
4. (4)
5. (5)

Question No. 199

When water is held by a negative tension of 0.3 atm (0.1 to 0.3 atm) is known as

Options :

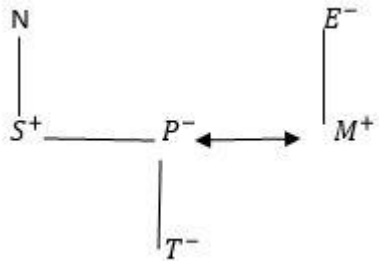

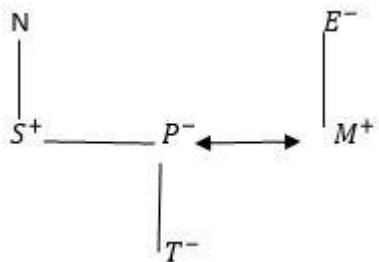

1. Hygroscopic water
2. Capillary water
3. Gravitational water
4. Hygroscopic coefficient
5. None of these

Question No. 200

Which element is immobile in plant but highly mobile in soil?

Options :

1. N
2. B
3. K
4. Zn
5. Al

Answers and Explanations**Question.1.** Answer : Option 4**Explanation:****Question.2.** Answer : Option 3**Explanation:****Question.3.** Answer : Option 2**Explanation:**Combined Inequalities: $V \leq P < Q = S \geq U$ and $I < N \leq P < Q = S \geq U$

$V \leq P < Q = S \geq U$ No relationship can be established between U and V. Hence conclusion I is not true.

$I < N \leq P < Q = S \geq U$ $I < Q$. Hence conclusion II is true.

Question.4. Answer : Option 5**Explanation:**

$P \geq S \leq N$ No relationship can be established between P and N. Hence conclusion I is not true.

$P \geq S \geq C \leq M$ No relationship can be established between M and S. Hence conclusion II is not true.

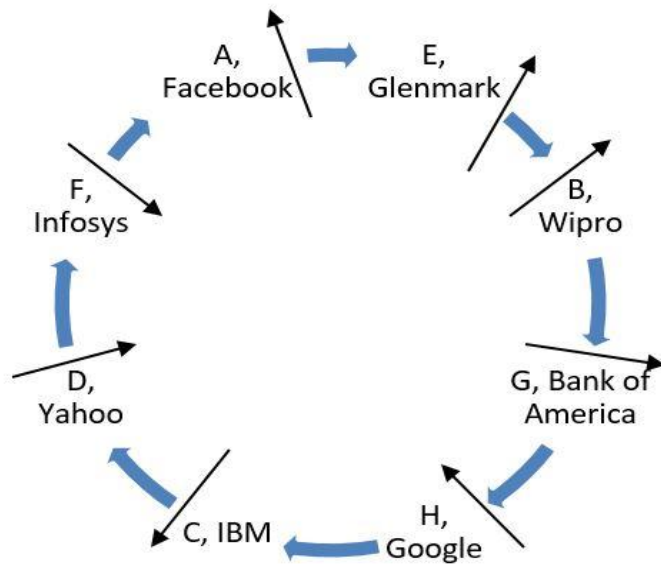

Question.5. Answer : Option 3**Explanation:**

$J < K = L < G$ $J < G$. Hence conclusion I is true.

$P \leq M \leq L = K \leq F$ $P \leq F$. Hence conclusion II is true.

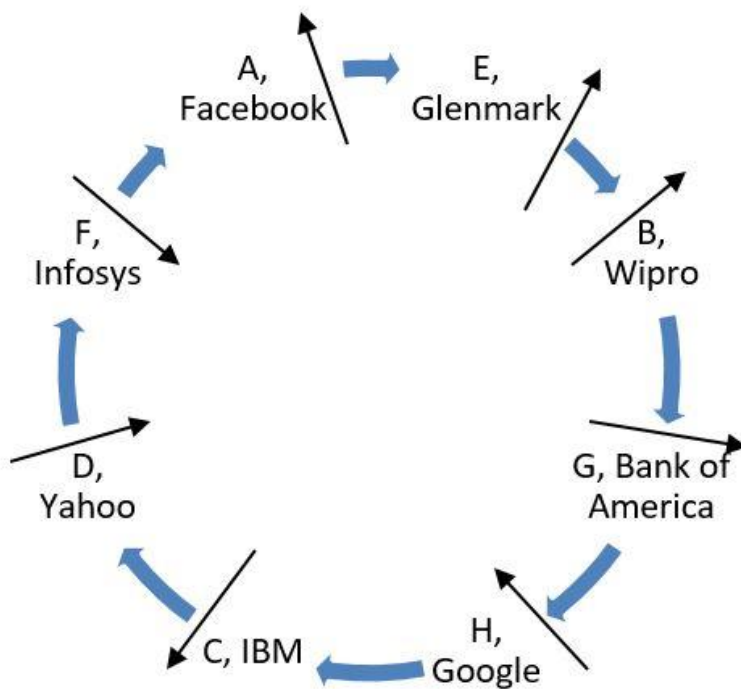

Question.6. Answer : Option 3

Explanation:

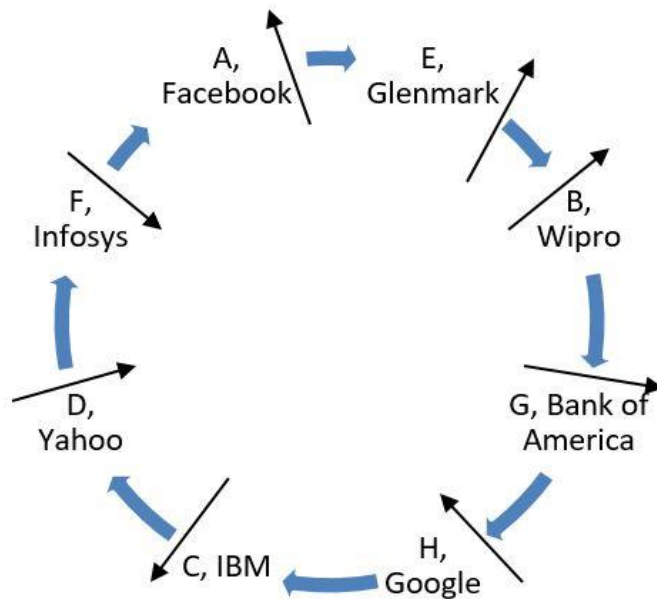

Question.7. Answer : Option 5

Explanation:

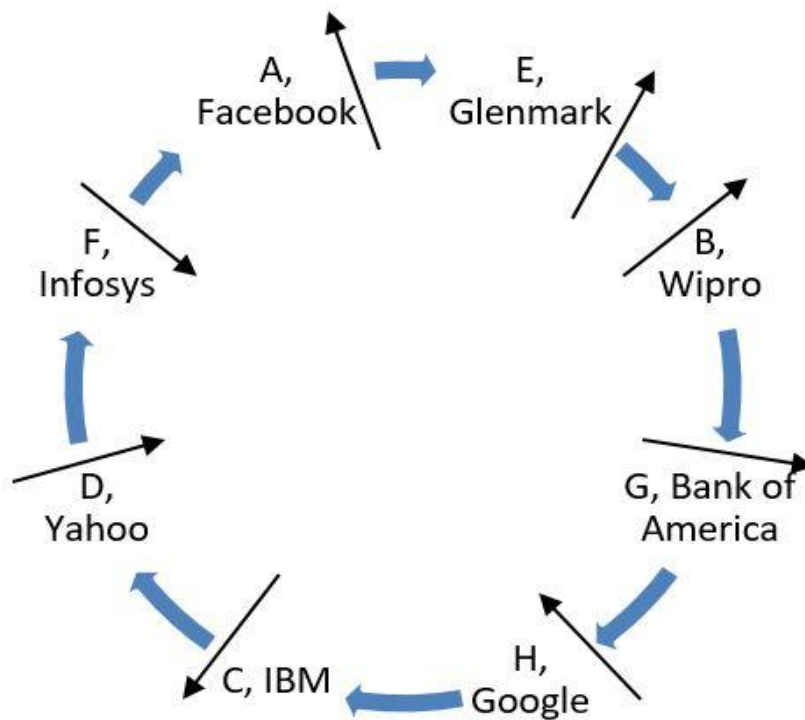

Question.8. Answer : Option 3

Explanation:

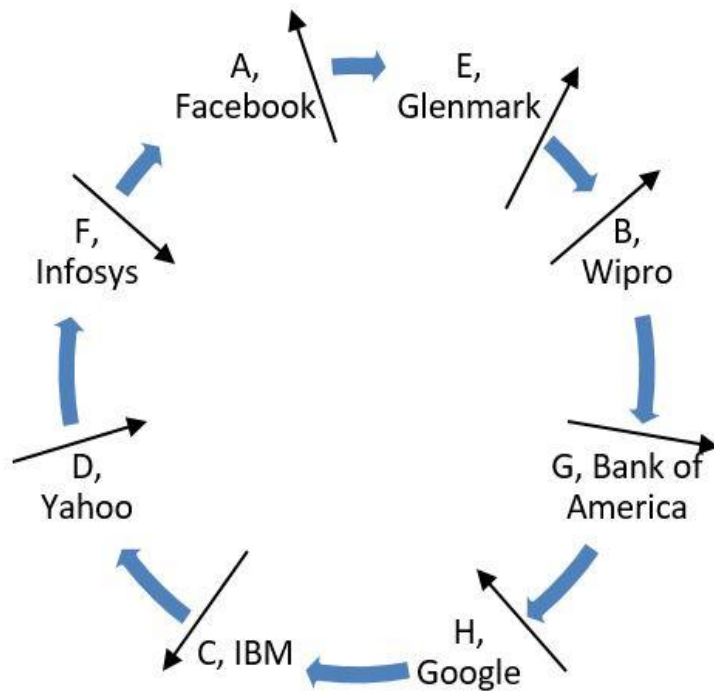

Question.9. Answer : Option 3

Explanation:

Question.10. Answer : Option 5

Explanation:

Question.11. Answer : Option 2

Explanation:

Some apartment are fan(I) + No fan is a tubelight(E) $\Rightarrow$ Some apartment are not tubelight(I). Hence conclusion I does not follow.

Some apartment are fan(I) $\Rightarrow$ Conversion $\Rightarrow$ Some fan are apartment(I). Hence conclusion II follows.

All building are tubelight(A) + No tubelight is a fan(E) $\Rightarrow$ No building is a fan(E). Hence conclusion III does not follow.

Question.12. Answer : Option 1

Explanation:

Some cabinets are ministers(I) + All ministers are governor(A) $\Rightarrow$ Some cabinets are governor(I) $\Rightarrow$ Conversion $\Rightarrow$ Some governor are cabinets(I) $\Rightarrow$ Probable conclusion $\Rightarrow$ All governor being cabinet is a possibility(A). Hence conclusion I follows.

All ministers are governor(A) $\Rightarrow$ Conversion $\Rightarrow$ Some governor are ministers(I). Hence conclusion II does not follow.

All ministers are governor(A) + No governor is a parliament(E) $\Rightarrow$ No minister is a parliament(E). Hence conclusion III follows.

Question.13. Answer : Option 3

Explanation:

Some kiwis are oranges(I) + Some oranges are apples(I) $\Rightarrow$ No conclusion. Hence conclusion I does not follow.

Some oranges are apples(I) + All apples are bananas(A) $\Rightarrow$ Some oranges are bananas(I) $\Rightarrow$ conversion $\Rightarrow$ Some bananas are oranges(I) + Some oranges are kiwis (I) $\Rightarrow$ Probable conclusion $\Rightarrow$ Some bananas are kiwis(I) $\Rightarrow$ Probable conclusion $\Rightarrow$ All bananas being kiwi is a possibility(I). Hence conclusion II follows.

Some oranges are apples(I) + All apples are bananas(A) $\Rightarrow$ Some oranges are bananas(I) $\Rightarrow$ Probable conclusion $\Rightarrow$ All oranges being bananas is a possibility. (I). Hence conclusion III follows.

Question.14. Answer : Option 5

Explanation:

All rivers are mountains(A) $\Rightarrow$ Conversion $\Rightarrow$ Some mountains are rivers(I) $\Rightarrow$ Probable conclusion $\Rightarrow$ All mountains being rivers is a possibility. Hence conclusion I follows.

All rivers are mountains(A) + No mountain is a sky(E) $\Rightarrow$ No river is a sky(E) $\Rightarrow$ Conversion $\Rightarrow$ Some rivers are not sky(O). Hence conclusion II follows.

All ponds are sky(A) + No sky is a mountain(E) $\Rightarrow$ No pond is a mountain(E) $\Rightarrow$ Conversion $\Rightarrow$ Some ponds are not mountains(O). Hence conclusion III follows.

Question.15. Answer : Option 4

Question.16. Answer : Option 3

Explanation:

Since From (i), Kevin visits neither Jaipur nor Bhopal.

Also from (iii), the one who visits Dispur likes Chinese.

From (iv), one who likes Continental visits Bangalore and one who visits Chennai likes Gujarati. Therefore, the only city left for Kevin is Mumbai. Hence, Kevin visits Mumbai.

From (vii), Rick likes Continental and also from (iv), one who likes Continental visits Bangalore. Therefore, Rick visits Bangalore and likes Continental.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	
Tanya		
Rick	Bangalore	Continental
Susan		
Jesse		
Tailor	Odisha	
Jim		

Since From (ii), Henry does not like either Assyrian or Punjabi and also from (vi), Susan and Jesse likes Gujarati and Garhwali not necessarily in the same order. Therefore, only cuisine left for Henry is Thai. Hence, Henry likes Thai.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	Thai
Tanya		
Rick	Bangalore	Continental
Susan	Chennai/ Bhopal	Gujarati/ Garhwali
Jesse	Bhopal/ Chennai	Garhwali/ Gujarati
Tailor	Odisha	
Jim		

Since From (x), Tanya doesn't visit Jaipur. So, the only city left is Dispur. Therefore, Tanya visits Dispur and also from (iii), one who visits Dispur likes Chinese. Hence, Tanya visits Dispur and likes Chinese.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	Thai
Tanya	Dispur	Chinese
Rick	Bangalore	Continental
Susan	Chennai/ Bhopal	Gujarati/ Garhwali
Jesse	Bhopal/ Chennai	Garhwali/ Gujarati
Tailor	Odisha	
Jim		

Now, only city left for Jim is Jaipur. Therefore, Jim visits Jaipur.

Since From (viii), Tailor does not like Assyrian. So, the only cuisine left for Tailor is Punjabi.

Now, only cuisine left for Jim is Assyrian therefore, Jim likes Assyrian.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	Thai
Tanya	Dispur	Chinese
Rick	Bangalore	Continental
Susan	Bhopal/ Chennai	Gujarati/ Garhwali
Jesse	Chennai/ Bhopal	Garhwali/ Gujarati
Tailor	Odisha	Punjabi
Jim	Jaipur	Assyrian

Question.17. Answer : Option 3

Explanation:

Since From (i), Kevin visits neither Jaipur nor Bhopal.

Also from (iii), the one who visits Dispur likes Chinese.

From (iv), one who likes Continental visits Bangalore and one who visits Chennai likes Gujarati. Therefore, the only city left for Kevin is Mumbai. Hence, Kevin visits Mumbai.

From (vii), Rick likes Continental and also from (iv), one who likes Continental visits Bangalore. Therefore, Rick visits Bangalore and likes Continental.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	
Tanya

Susan		
Jesse		
Tailor	Odisha	
Jim		

Since From (ii), Henry does not like either Assyrian or Punjabi and also from (vi), Susan and Jesse likes Gujarati and Garhwali not necessarily in the same order. Therefore, only cuisine left for Henry is Thai. Hence, Henry likes Thai.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	Thai
Tanya		
Rick	Bangalore	Continental
Susan	Chennai/ Bhopal	Gujarati/ Garhwali
Jesse	Bhopal/ Chennai	Garhwali/ Gujarati
Tailor	Odisha	
Jim		

Since From (x), Tanya doesn't visit Jaipur. So, the only city left is Dispur. Therefore, Tanya visits Dispur and also from (iii), one who visits Dispur likes Chinese. Hence, Tanya visits Dispur and likes Chinese.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	Thai
Tanya	Dispur	Chinese
Rick	Bangalore	Continental
Susan	Chennai/ Bhopal	Gujarati/ Garhwali
Jesse	Bhopal/ Chennai	Garhwali/ Gujarati
Tailor	Odisha	
Jim		

Now, only city left for Jim is Jaipur. Therefore, Jim visits Jaipur.

Since From (viii), Tailor does not like Assyrian. So, the only cuisine left for Tailor is Punjabi.

Now, only cuisine left for Jim is Assyrian therefore, Jim likes Assyrian.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	Thai
Tanya	Dispur	Chinese
Rick	Bangalore	Continental
Susan	Bhopal/ Chennai	Gujarati/ Garhwali
Jesse	Chennai/ Bhopal	Garhwali/ Gujarati
Tailor	Odisha	Punjabi
Jim	Jaipur	Assyrian

Question.18. Answer : Option 1

Explanation:

Since From (i), Kevin visits neither Jaipur nor Bhopal.

Also from (iii), the one who visits Dispur likes Chinese.

From (iv), one who likes Continental visits Bangalore and one who visits Chennai likes Gujarati. Therefore, the only city left for Kevin is Mumbai. Hence, Kevin visits Mumbai.

From (vii), Rick likes Continental and also from (iv), one who likes Continental visits Bangalore. Therefore, Rick visits Bangalore and likes Continental.

Person	Cities	Cuisine
Kevin	Mumbai	South Indian
Henry	New Delhi	
Tanya

Question.21. Answer : Option 5

Question.22. Answer : Option 3

Question.23. Answer : Option 3

Question.24. Answer : Option 4

Question.25. Answer : Option 2

Question.26. Answer : Option 4

Question.27. Answer : Option 4

Question.28. Answer : Option 4

Question.29. Answer : Option 3

Question.30. Answer : Option 2

Question.31. Answer : Option 2

Explanation:

Had been greater or have been greater should be used.

Question.32. Answer : Option 4

Question.33. Answer : Option 3

Question.34. Answer : Option 1

Explanation:

Continuous form of tense to be used as LOOK(ING) mentioned in the sentence.

Question.35. Answer : Option 5

Question.36. Answer : Option 3

Question.37. Answer : Option 4

Question.38. Answer : Option 4

Explanation:

Here active voice will be used.

Question.39. Answer : Option 1

Question.40. Answer : Option 1

Question.41. Answer : Option 1

Explanation:

Replace 'of' with 'from'.

We are talking about the time of 1990s since when the financial institutions were into the process of putting more money, therefore, we use 'from' as we are tracing the time that was long back.

Question.42. Answer : Option 2

Explanation:

Replace 'in' with 'on'.

Log 'in' means to sign in with a username and password.

Log 'on' means to visit a website casually to have an overlook.

Question.43. Answer : Option 2

Explanation:

Replace 'should' with 'would' .

Here Indira Gandhi was making a probable statement that may happen in future; she wasn't giving a command or a definite statement that this 'has to' happen

Question.44. Answer : Option 2

Explanation:

Replace 'in' with 'up'.

Keep up with latest trends –to stay updated / match up with the ongoing trend.

Question.45. Answer : Option 2

Explanation:

Replace 'sincere' with 'sincerely'.

Question.46. Answer : Option 5

Explanation:

c e d f b a

Ever since the influenza virus known as H1N1 landed on Indian shores during the 2009 pandemic, outbreaks have been an annual occurrence. The worst was in 2015, when 2,990 people succumbed to it. This year the virus has been particularly active; mortality, at 1,873 by the last week of September, is quickly catching up with the 2015 toll. In comparison, official figures show 2016 to be a relatively benign year, with an H1N1 death toll of 265. The problem with these official figures, however, is that they only capture H1N1 numbers, a practice that has been adopted in response to the severity of the 2009 pandemic. But influenza was present in India even before 2009 in the form of H3N2 and Influenza B virus types.

Question.47. Answer : Option 3

Explanation:

c e d f b a

Ever since the influenza virus known as H1N1 landed on Indian shores during the 2009 pandemic, outbreaks have been an annual occurrence. The worst was in 2015, when 2,990 people succumbed to it. This year the virus has been particularly active; mortality, at 1,873 by the last week of September, is quickly catching up with the 2015 toll. In comparison, official figures show 2016 to be a relatively benign year, with an H1N1 death toll of 265. The problem with these official figures, however, is that they only capture H1N1 numbers, a practice that has been adopted in response to the severity of the 2009 pandemic. But influenza was present in India even before 2009 in the form of H3N2 and Influenza B virus types.

Question.48. Answer : Option 3

Explanation:

c e d f b a

Ever since the influenza virus known as H1N1 landed on Indian shores during the 2009 pandemic, outbreaks have been an annual occurrence. The worst was in 2015, when 2,990 people succumbed to it. This year the virus has been particularly active; mortality, at 1,873 by the last week of September, is quickly catching up with the 2015 toll. In comparison, official figures show 2016 to be a relatively benign year, with an H1N1 death toll of 265. The problem with these official figures, however,

is that they only capture H1N1 numbers, a practice that has been adopted in response to the severity of the 2009 pandemic. But influenza was present in India even before 2009 in the form of H3N2 and Influenza B virus types.

Question.49. Answer : Option 2

Explanation:

c e d f b a

Ever since the influenza virus known as H1N1 landed on Indian shores during the 2009 pandemic, outbreaks have been an annual occurrence. The worst was in 2015, when 2,990 people succumbed to it. This year the virus has been particularly active; mortality, at 1,873 by the last week of September, is quickly catching up with the 2015 toll. In comparison, official figures show 2016 to be a relatively benign year, with an H1N1 death toll of 265. The problem with these official figures, however, is that they only capture H1N1 numbers, a practice that has been adopted in response to the severity of the 2009 pandemic. But influenza was present in India even before 2009 in the form of H3N2 and Influenza B virus types.

Question.50. Answer : Option 3

Explanation:

c e d f b a

Ever since the influenza virus known as H1N1 landed on Indian shores during the 2009 pandemic, outbreaks have been an annual occurrence. The worst was in 2015, when 2,990 people succumbed to it. This year the virus has been particularly active; mortality, at 1,873 by the last week of September, is quickly catching up with the 2015 toll. In comparison, official figures show 2016 to be a relatively benign year, with an H1N1 death toll of 265. The problem with these official figures, however, is that they only capture H1N1 numbers, a practice that has been adopted in response to the severity of the 2009 pandemic. But influenza was present in India even before 2009 in the form of H3N2 and Influenza B virus types.

Question.51. Answer : Option 2

Explanation:

Kickstart – to make something functional / active.

Question.52. Answer : Option 3

Question.53. Answer : Option 1

Explanation:

The government announced that there will be an infusion / addition of Rs 88,139 crore for the PSBs.

Question.54. Answer : Option 3

Explanation:

Currently (at present), there are some 40 defaulting companies.

Question.55. Answer : Option 4

Explanation:

The loan accounts of 40 defaulting companies have been identified / recognized for resolution by the RBI.

Question.56. Answer : Option 3

Explanation:

Materialize – to come into existence.

Question.57. Answer : Option 1

Explanation:

Recover – to regain

Question.58. Answer : Option 2

Explanation:

Make provisions – make arrangements.

Question.59. Answer : Option 3

Explanation:

Absorbing losses– to put up with the losses / combat.

Question.60. Answer : Option 4

Explanation:

Looking at the condition of the losses, we can assume that banks cannot resume 'lending' in a big way.

Lending – to give, accommodate

Question.61. Answer : Option 3

Question.62. Answer : Option 1

Question.63. Answer : Option 2

Question.64. Answer : Option 2

Question.65. Answer : Option 1

Question.66. Answer : Option 4

Question.67. Answer : Option 2

Question.68. Answer : Option 3

Question.69. Answer : Option 4

Question.70. Answer : Option 3

Question.71. Answer : Option 1

Explanation:

A machine asking for information from a server is a client. Machines can act as both clients and servers, depending on what action they're performing at the time.

Question.72. Answer : Option 2

Explanation:

An API is an application programming interface. Many Web 2.0 sites provide an API so that third-party developers can create applications using the respective site as a platform. Facebook is a good example of a site that developers use as an application platform.

Question.73. Answer : Option 1

Explanation:

WebKit is an open source Web browser engine as well as the framework used by the Safari Web browser and several other Mac OS X applications.

Question.74. Answer : Option 2

Explanation:

The retail price for Windows 8 is \$125. Apple sells Mac OS X Lion through the Apple App Store at \$29. Ubuntu is free.

Question.75. Answer : Option 3

Explanation:

Bugs are code mistakes that cause computer programs to behave in weird ways or to not work at all. Removing bugs is called debugging.

Question.76. Answer : Option 1

Explanation:

Compilers translate programs from a human-readable format into a machine-readable one.

Question.77. Answer : Option 4

Question.78. Answer : Option 2

Question.79. Answer : Option 2

Question.80. Answer : Option 4

Explanation:

Java is a product of Oracle. It was developed by Sun microsystems and later acquired by Oracle.

Question.81. Answer : Option 1

Explanation:

- The WWF's 'risk index' for the globe — indicating threats from loss of above-ground diversity, pollution and nutrient over-loading, over-grazing, intensive agriculture, fire, soil erosion, desertification and climate change — shows India among countries whose soil biodiversity faces the highest level of risk.
- Such countries are colored red on the Atlas and these include Pakistan, China, several countries in Africa and Europe, and most of North America.
- The World Wide Fund for Nature is an international non-governmental organization founded in 1961, working in the field of the wilderness preservation, and the reduction of human impact on the environment.
- Headquarter- Gland, Switzerland
- Motto- "For a living Planet"

Question.82. Answer : Option 2

Explanation:

- The decision aims at checking crop residue burning and creating awareness about its ill-effects
- The three android mobile applications launched by the Chief Minister have been developed by Punjab Remote Sensing Centre (PRSC).
- They are i-Khet Machine for facilitating farmers to have access to the agriculture machinery/equipment for in-situ management of crop residue, e-PEHaL for monitoring tree plantation, and e-Prevent to have prompt and accurate information regarding incidents of crop residue burning.

Question.83. Answer : Option 1

Explanation:

"With a market potential of roughly \$1 trillion in revenue for the next five years, India clearly is the most promising emerging market for Kreditech" said David Chan, CEO at Kreditech.

Question.84. Answer : Option 4

Explanation:

- It would benefit 25 lakh people who were left out of the National Food Security Act.
- The beneficiaries will get 5 Kg of rice per person per month at the rate of Rs.1 per Kg.

- The state government will spend Rs.443.5 cr annually for the scheme and Rs.221.75 cr in current fiscal.

Question.85. Answer : Option 1**Explanation:**

- NITI Aayog has signed pact with Microsoft India to deploy Artificial Intelligence (AI) technologies to address challenges various sectors such as agriculture and healthcare.
- As per the pact, Microsoft will support NITI Aayog by combining the cloud, AI, research and its vertical expertise for new initiatives and solutions across several core area.
- It will also accelerate the use of AI for the development and adoption of local language computing in addition to building capacity for AI among the workforce through education.
- Under the agreement, Microsoft will provide Niti Aayog advanced AI-based solutions such as farm advisory services, healthcare screening models at primary health centers along with building capacity for AI through education.

Question.86. Answer : Option 3**Explanation:**

It is aimed at doubling the agricultural exports and integrating Indian farmers and agricultural products with the global value chains.

This is in line with the Prime Minister's vision of doubling farmers' income.

Objectives of the Agriculture Export Policy are –

To double agricultural exports from present ~US\$ 30+ Billion to ~US\$ 60+ Billion by 2022 and reach US\$ 100 Billion in the next few years thereafter.

- With a stable trade policy regime
- To diversify our export basket
- Destinations and boost high value and value added agricultural exports
- To strive to double India's share in world agri exports by integrating with global value chain at the earliest
- Enable farmers to get benefit of export opportunities in overseas market etc.

Question.87. Answer : Option 4**Explanation:**

- SHREYAS will be a major effort in this direction to make our degree students more skilled, capable, employable and aligned to the needs of our economy so that they contribute to country's progress and also obtain gainful employment.
- SHREYAS is a programme conceived for students in degree courses, primarily non-technical, with a view to introduce employable skills into their learning, promote apprenticeship as integral to education and also amalgamate employment facilitating efforts of the Government into the education system so that clear pathways towards employment opportunities are available to students during and after their graduation.
- SHREYAS is a programme basket comprising the initiatives of three Central Ministries, namely the Ministry of Human Resource Development, Ministry of Skill Development & Entrepreneurship and the Ministry of Labour & Employment viz the National Apprenticeship Promotion Scheme (NAPS), the National Career Service (NCS) and introduction of BA/BSc/BCom (Professional) courses in the higher educational institutions.

Question.88. Answer : Option 4

Explanation:

The scheme aims to capitalize the rich heritage of the Uttar Pradesh by reviving them through modernization and publicisation to enhance the reach of these products.

Question.89. Answer : Option 2

Explanation:

- It provides minimum 100 days of manual work to every household in one financial year.
- It provides a statutory minimum wage thus increases income and prevents migration to cities for work and its associated exploitation.
- It is a demand driven program, thus work is provided within 15 days of application. And failure to do so means an unemployment allowance is given to the person.
- **It is also called as 'right to work'.**
- It also creates asset or infrastructure in rural areas. Ensures social equity by encouraging participation of marginalized sections like women/ STs/ SCs in this wage employment. At least one-third of the beneficiaries should be women.

Question.90. Answer : Option 4

Explanation:

- Swachh Bharat Abhiyan or Swachh Bharat Mission is a nation-wide campaign in India for the period 2014 to 2019 that aims to clean up the streets, roads and infrastructure of India's cities, towns, and rural areas.
- The campaign's official name is in Hindi and translates to "Clean India Mission" in English.
- Launched the Swachh Bharat Mission on 2nd October, 2014.
- The Mission Coordinator for SBM is Secretary, Ministry of Drinking Water and Sanitation (MDWS) with two Sub-Missions, the Swachh Bharat Mission (Gramin) and the Swachh Bharat Mission (Urban). Together, they aim to achieve Swachh Bharat by 2019, as a fitting tribute to Mahatma Gandhi on his 150th Birth Anniversary.
- In Rural India, this would mean improving the levels of cleanliness through Solid and Liquid Waste Management activities and making villages Open Defecation Free (ODF), clean and sanitised.

Question.91. Answer : Option 1

Explanation:

World Food Day 2018 - Our actions are our future. A #ZeroHunger world by 2030 is possible

World Milk Day - Drink Move Be Strong

World Food Day 2014: Family Farming: Feeding the world, caring for the earth

World Food Day 2015: Social Protection and Agriculture: Breaking the Cycle of Rural Poverty

World Food Day 2016: Climate change: Climate is changing. Food and agriculture must too

Question.92. Answer : Option 2

Explanation:

- Madhya Pradesh Chief Minister Kamal Nath launched his government's Rs 50,000 crore farm debt waiver scheme named 'Jai Kisan Rin Mukti Yojana'.
- It would benefit 55 lakh small and marginal farmers.

Question.93. Answer : Option 1

Question.94. Answer : Option 5

Explanation:

Brown Revolution is associated with the development of Lather/ Cocoa / Non-Conventional Products. It happened in the tribal areas of Visakhapatnam. The tribal people were taught, and encouraged, to grow "socially responsible and environment friendly" coffee to cater to the demand from developed countries.

Question.95. Answer : Option 4

Explanation:

- The Somasila Dam is a dam constructed across the **Penna River** near Somasila, Nellore district, Andhra Pradesh, India.
- The reservoir can get water by gravity from the Srisailem reservoir located in Krishna basin.
- It is the biggest storage reservoir in Penna River basin and can store all the inflows from its catchment area in a normal year.

Question.96. Answer : Option 2

Explanation:

- RSETIs are Rural Self Employment Training Institutes, an initiative of Ministry of Rural Development (MoRD) to have dedicated infrastructure in each district of the country to impart training and skill upgradation of rural youth geared towards entrepreneurship development.
- RSETIs are managed by banks with active co-operation from the Government of India and State Governments.

Question.97. Answer : Option 4

Explanation:

The Inclusive Development Index (IDI) is an annual assessment of 103 countries' economic performance that measures how countries perform on eleven dimensions of economic progress in addition to GDP. It has 3 pillars; growth and development; inclusion and; intergenerational equity – sustainable stewardship of natural and financial resources.

Question.98. Answer : Option 3

Explanation:

- Every Makar Sankranti, which coincides with Assam's harvest festival Bhogali Bihu, bulbul fights are organised in the Hayagriva-Madhava Temple in Hajo, 30 km from Guwahati.
- People of surrounding villages catch bulbul chicks and rear them for a few weeks before they are taken to the temple premises on Makar Sankranti; the owners of the winners get various prizes.

Question.99. Answer : Option 1

Explanation:

- Food and Agriculture Organisation (FAO) and the Animal Genetic Resources list the breed as facing extinction.
- Animal genetics and breeding scientists from the NTR University of Veterinary Sciences in Gannavaram are now engaged in efforts to save the unique breed from extinction.

Question.100. Answer : Option 1

Explanation:

- The centre will serve as a hub for rice research and training in South Asia.
- The International Rice Research Institute is an international agricultural research and training organization with headquarters in Los Baños, Laguna in the Philippines.

Question.101. Answer : Option 3

Explanation:

Total number of tourists from Canada who have booked for Meghalaya and Andaman Nicobar = (26 + 19) % of 2000 = 900

Number of tourists booked for Kerala = 35% of 2000 = 700

$$\text{Required percent} = \frac{900 - 700}{700} \times 100 = 28.57\% = 29\%$$

Alternate method:

Total number of tourists from Canada who have booked for Meghalaya and Andaman Nicobar = (26 + 19) % = 45%

Number of tourists booked for Kerala = 35%

$$\text{Required percent} = \frac{45 - 35}{35} \times 100 = 28.57\% = 29\%$$

Question.102. Answer : Option 2

Explanation:

Number of female tourists from USA = 42% of 1500 = 630

Female tourists booked for Shillong = (20% of 630) = 126

Total tourists booked for Shillong = (20% of 1500) = 300

Number of male tourists = 300 – 126 = 174

Question.103. Answer : Option 4

Explanation:

Total number of tourists from Canada and South India:

Kerala = (38% of 2800 + 18% of 2400) = 1064 + 432 = 1496

Andaman Nicobar = (21% of 2800 + 25% of 2400) = 588 + 600 = 1188

Required difference = $1496 - 1188 = 308$

Question.104. Answer : Option 1

Explanation:

Number of tourists who were unable to go from Canada = 60% of $2800 = 1680$

Meghalaya: Shillong: Andaman Nicobar:Kerala = $3:4:2:3$

Sum of the terms of ratio = $3 + 4 + 2 + 3 = 12$

Tourists who were unable to go to Shillong = $\frac{4}{12} \times 1680 = 560$

Question.105. Answer : Option 4

Explanation:

$$352 + 1^3 + 1 = 354$$

$$354 + 2^3 + 1 = 363$$

$$363 + 3^3 + 1 = 391$$

$$391 + 4^3 + 1 = 456$$

$$456 + 5^3 + 1 = 582$$

Question.106. Answer : Option 3

Explanation:

$$645 + 1^3 = 646$$

$$646 + 2^3 = 654$$

$$654 + 3^3 = 681$$

$$681 + 4^3 = 745$$

$$745 + 5^3 = 870$$

Question.107. Answer : Option 3

Explanation:

$$562 - 1^2 = 561$$

$$561 - 2^2 = 557$$

$$557 - 3^2 = 548$$

$$548 - 4^2 = 532$$

$$532 - 5^2 = 507$$

Question.108. Answer : Option 2

Explanation:

$$20 \times 0.5 - 0.5 = 9.5$$

$$9.5 \times 1 - 1 = 8.5$$

$$8.5 \times 1.5 - 1.5 = 11.25$$

$$11.25 \times 2 - 2 = 20.5$$

$$20.5 \times 2.5 - 2.5 = 48.75$$

Question.109. Answer : Option 2

Explanation:

$$\text{I. } 143y^2 - 161y + 36 = 0$$

$$143y^2 - 117y - 44y + 36 = 0$$

$$13y(11y - 9) - 4(11y - 9) = 0$$

$$(13y - 4)(11y - 9) = 0$$

$$\therefore y = 4/13, 9/11$$

$$\text{II. } 36x^2 - 161x + 143 = 0$$

$$36x^2 - 117x - 44x + 143 = 0$$

$$9x(4x - 13) - 11(4x - 13) = 0$$

$$(9x - 11)(4x - 13) = 0$$

$$\therefore x = 11/9, 13/4$$

Hence, $x > y$

Question.110. Answer : Option 1

Explanation:

$$\text{I. } 84y^2 - 187y + 104 = 0$$

$$84y^2 - 91y - 96y + 104 = 0$$

$$7y(12y - 13) - 8(12y - 13) = 0$$

$$(7y - 8)(12y - 13) = 0$$

$$\therefore y = 8/7, 13/12$$

$$\text{II. } 132x^2 - 41x - 40 = 0$$

$$132x^2 - 96x + 55x - 40 = 0$$

$$12x(11x - 8) + 5(11x - 8) = 0$$

$$(12x + 5)(11x + 8) = 0$$

$$\therefore x = -5/12, 8/11$$

Hence, $x < y$

Question.111. Answer : Option 3**Explanation:**

$$I. 63x^2 + 146x + 80 = 0$$

$$63x^2 + 90x + 56x + 80 = 0$$

$$9x(7x + 10) + 8(7x + 10) = 0$$

$$(9x + 8)(7x + 10) = 0$$

$$\therefore x = (-8)/9, (-10)/7$$

$$II. 42y^2 + 109y + 70 = 0$$

$$42y^2 + 60y + 49y + 70 = 0$$

$$6y(7y + 10) + 7(7y + 10) = 0$$

$$(6y + 7)(7y + 10) = 0$$

$$\therefore y = (-7)/6, (-10)/7$$

Hence, there is no relation between x & y

Question.112. Answer : Option 3**Explanation:**

$$\text{Total votes} = 126000$$

$$\text{Total valid votes} = 126000 \times ((100-2))/100$$

$$= 126000 \times 98/100 = 123480$$

$$\text{Votes polled in favour of the candidate} = 123480 \times 60/100$$

$$= 74088$$

Question.113. Answer : Option 3**Explanation:**

Let the initial amount of milk be x litres.

Price of x litres milk at Rs. 20 per litre = Rs. $20x$

When 6 litre of water was mixed then total quantity of mixture = $x + 6$ litres

Price of $(x + 6)$ litres of mixture at Rs. 20 per litre = Rs. $(x + 6)20$

According to the question,

Profit = 15%

$$20x \times \frac{115}{100} = (x + 6)20$$

$$23x = 20x + 120$$

$$3x = 120$$

$$x = 40 \text{ litres}$$

$$\text{Quantity of mixture} = 40 + 6 = 46 \text{ litres.}$$

Alternate Method:

Net CP of new mixture of milk & water = $20/115 \times 100 = 400/23$

So by Alligation,

$$\begin{array}{r} 20 \qquad 0 \\ 400/23 \end{array}$$

or

$$\begin{array}{r} 460 \qquad 0 \\ 400 \end{array}$$

$$400 : 60$$

$$40 : 6$$

If later is 6L then former will be 40L.

So quantity of mixture = $40 + 6 = 46L$

Question.114. Answer : Option 2

Explanation:

	Men	Women	Children
Work	4	3	1
Number	15	20	30
Ratio of wages	$(4 \times 15) = 60$	$(3 \times 20) = 60$	$(1 \times 30) = 30$
	2	2	1
Total wages of 15 men = $1500 \times \frac{2}{5} = 600$			
Total wages of 20 women = $1500 \times \frac{2}{5} = 600$			
Total wages of 30 men = $1500 \times \frac{1}{5} = 300$			
Total wages of 10 men, 15 women and 25 children = $10 \times \frac{600}{15} + 15 \times \frac{600}{20} + 25 \times \frac{300}{30} = 400 + 450 + 250 = \text{Rs. } 1100$			

Question.115. Answer : Option 1

Explanation:

Let the speed of faster train be x and

speed of slower train be y

According to question,

when they are moving in opposite direction

$$(x + y) = (180 + 120)/15$$

$$(x + y) = 300/15$$

$$(x + y) = 20 \dots\dots\dots(i)$$

now, when they are moving same direction

$$(x - y) = (180 + 120)/50$$

$$(x - y) = 300/50$$

$$(x - y) = 6 \dots\dots\dots(ii)$$

from (i) and (ii), we get

$$x = 13 \text{ m/sec and } y = 7 \text{ m/sec}$$

therefore, Speed of faster train (in km/hr) = $13 \times (18/5)$

$$= 46.8 \text{ km/hr}$$

Question.116. Answer : Option 4

Explanation:

From I:

$$PR^2(300+R)/100^3 = 580$$

$$P \times 10^2(300+R)/100^3 = 580$$

So we can find principal.

From II:

Sum gets double so net interest = 100% in 8 years so $R = 12.5\%$ per annum

So we cannot find principal.

From III:

$$P\{1 + (10/100)\}^3 - P = 5580$$

So we can find principal.

So we can find by either I or III.

Question.117. Answer : Option 5

Explanation:

Let speed of boat = u , and stream = v

From I: $u + v = 16/2 = 8 \text{ km/hr}$

From II: $v = 2u/5$

From III: $u - v = 24/6 = 4$ So solving I and II 'u' can be found. Similarly by solving II and III and by solving I and III.

Question.118. Answer : Option 1

Explanation:

From I:

SI after 10 years is Rs 1200, so after 1 year = $1200/10 = \text{Rs } 120$

so, SI of 1 year = Rs. 120

From III:

Principal = $15 \times \text{S.I after 3 years}$

$$\text{or } P = 15 \times P \times R \times 3/100$$

$$\text{or } R = 100/45\%$$

So **from I and II**, $\text{SI} = 120 = P \times R \times 1/100 = P \times (100/45) / 100$

So we can find Principal. then we can find the required amount by CI formula

So from I and II, $SI = 120 = P \times R \times 1/100 = P \times (12) / 100$

So we can find Principal, then we can find the required amount by CI formula

Question.119. Answer : Option 3

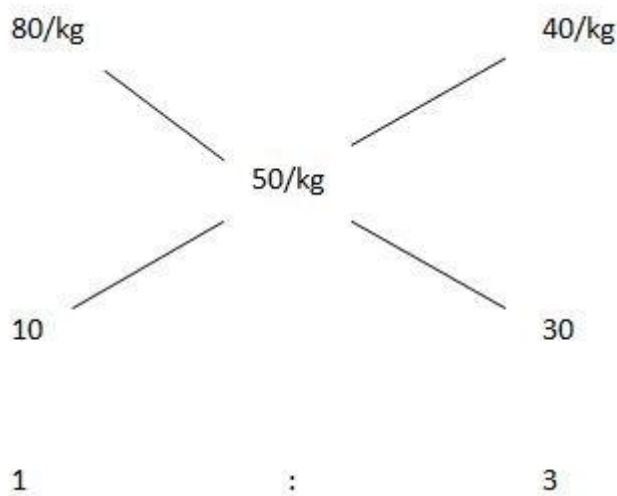

Explanation:

S.P Of the quantity = Rs.60/kg

C.P of the quantity = $60/120 \times 100$

=Rs.50

Now ,Solve with Allegation

Quantity for 1st = 75 kg Therefore, Quantity for 2nd = $75 \times 3/1 = 225$ kg.

Question.120. Answer : Option 3

Explanation:

Month ratios

5:9:4

Ratios are

Akash : Brijesh = (8:7)

Brijesh : Chirag = (5:7)

To make the ratios proportionate

Akash : Brijesh = (8:7) X 5 = 40:35

Brijesh : Chirag = (5:7) X 7 = 35: 49

Investment ratio of Akash: Brijesh : Chirag = 40:35:49

Investment of Akash = $40 \times 5 = 200$

Investment of Brijesh = $35 \times 9 = 315$

Investment of Chirag = $49 \times 4 = 196$

$200 + 315 + 196 = 711$

$711x = 35550$

$x = 50$

Akash's profit = 50×200

Chirag's profit = 50×196

Difference = $50 \times (200 - 196) = 200$

Question.121. Answer : Option 1

Explanation:

The Eight Core Sectors includes Electricity, steel, refinery products, crude oil, coal, cement, natural gas and fertilizers.

Question.122. Answer : Option 3

Explanation:

The bi-annual Fiscal Stability Report discusses issues relating to the development and regulation of the financial sector and it is released by RBI.

Question.123. Answer : Option 5

Explanation:

FSDC is headed by the Union Finance Minister and membership includes Governor Reserve Bank of India (RBI), Finance Secretary and/ or Secretary, Department of Economic Affairs (DEA), Secretary, Department of Financial Services (DFS), Secretary, Ministry of Corporate Affairs,

Secretary, Ministry of Electronics and Information Technology, Chief Economic Advisor, Ministry of Finance, Chairman, Securities and Exchange Board of India (SEBI), Chairman, Insurance Regulatory and Development Authority (IRDA), Chairman, Pension Fund Regulatory and Development Authority (PFRDA), Chairman, Insolvency and Bankruptcy Board of India (IBBI).

Question.124. Answer : Option 1

Explanation:

The Credit Linked Subsidy Scheme (CLSS) is associated with the PMAY-Urban. Credit linked subsidy component is implemented as a Central Sector Scheme while other three components are implemented as Centrally Sponsored Scheme (CSS) under the scheme.

Question.125. Answer : Option 1

Explanation:

The loan subsidy for the middle-income group under Pradhan Mantri Awas Yojana has been extended till 31st March 2020. CLSS under PMAY is being implemented by two central nodal agencies in India, namely Housing Urban Development Corp and National Housing Bank.

Question.126. Answer : Option 3

Explanation:

The committee suggested All India Council for Technical Education (AICTE) not to allow setting up of new Engineering colleges from 2020.

Question.127. Answer : Option 5

Explanation:

Performance Indicators for Elementary School Teachers (PINDICS) is a framework for assessing performance of teachers and providing constructive feedback for further improvement. It has been developed by NCERT.

Question.128. Answer : Option 1

Explanation:

National Achievement Surveys has been carried out by NCERT. It assesses learning achievement of children in Classes – III, V, VIII, and X.

Question.129. Answer : Option 4

Explanation:

Explanation:

On India's Independence Day, the Prime Minister Shri Narendra Modi, made a commitment to launch the Saansad Adarsh Gram Yojana (SAANJHI). Holding true the commitment made, he is launching the Scheme on 11th October, 2014 - Lok Nayak Jai Prakash Narayan Ji's birth anniversary – at Vigyan Bhawan, New Delhi.

The goal is to develop three Adarsh Grams by March 2019, of which one would be achieved by 2016. Thereafter, five such Adarsh Grams (one per year) will be selected and developed by 2024.

Inspired by the principles and values of Mahatma Gandhi, the Scheme places equal stress on nurturing values of national pride, patriotism, community spirit, self-confidence and on developing infrastructure. The SAANJHI will keep the soul of rural India alive while providing its people with quality access to basic amenities and opportunities to enable them to shape their own destiny.

Question.178. Answer : Option 5

Question.179. Answer : Option 5

Explanation:

India is primarily a rural country with almost 68.8 per cent of country's population and 72.4 per cent of labor force inhabits in rural areas (according to 2011 census).

Rural economy comprises 46 per cent of national income. Regardless of the rise in urbanization, it is projected that more than half of India's population would still be rural by 2050. Consequently, rural economy's growth and development and its population form key to overall growth and inclusive development of our country.
