

The answers along with explanations are given at the end of the question paper

Section: Mathematic**Question No. 1**

If diagonal of a rhombus are 16m & 12 m, what is the area of rhombus?

Options :

1. 90 m²
2. 190 m²
3. 96 m²
4. 120 m²

Question No. 2

If M be the volume of cone and N be the curved surface area of a cone of dimensions p, q and r where p is the radius, q is the height and r is the slant height of a cone, then 1/M is equal to.

Options :

1. $N (3r)/q r$
2. $3N/p q$
3. $3N/qr$
4. $3r/(Npq)$

Question No. 3

A building alpha casts a shadow 75m at the same time when the building gamma casts a shadow 60m long on the field. If the height of the gamma building is 40m, what will be the height of the building alpha?

Options :

1. 20m
2. 30m
3. 90m
4. 50m

Question No. 4

The weight of two container P and Q are in the ratio of 5:4. Weight of P increased by 20% and the total weight of P and Q together becomes 150 kg, with an increase of 25%. By what percent did the weight of Q increases?

Options :

1. 30%
2. 36.5%
3. 31.25%
4. 40.5%

Question No. 5

The radius of gyser (in the shape of cylinder) is 20m and its height is 15m. Initially the gyser is empty. When we start filling the gyser with the water through pipe whose diameter is 40cm. Water coming out of pipe with a velocity of 10m/sec. How many minutes will it take in filling the gyser with water?

Options :

1. 120min
2. 250min
3. 100min
4. 175min

Question No. 6

Which of the following is the highest? (You are not expected to calculate the exact value).

Options :

1. SQUARE ROOT OF (9/11 of 2750)
2. CUBE ROOT OF (8/13 of 8142)
3. SQUARE ROOT OF (13/14 of 5160)
4. CUBE ROOT OF (5/17 of 3312)

Question No. 7

30 boys can do a piece of work in 'a' days. 42 girls can do a piece of work in 'a – 4' days. 70 boys can do a piece of work in 'b' days and 126 girls can do a piece of work in 'b – 4' days. Find the value of 'a'?

Options:

1. 16 days
2. 24 days
3. 28 days
4. 14 days

Question No. 8

Cost price of jeans is double than that of shirt and shopkeeper mark up both the article 25% higher than the cost price. If at the time of sale shopkeeper gave Rs. 15 discount and earn 20% profit on total. Find the cost price of jeans?

Options :

1. Rs 100
2. Rs 150
3. Rs 200
4. Rs 175

Question No. 9

Kamayani married 5 years back. Today her age is $\frac{4}{3}$ times her age at the time of her marriage and her daughter is $\frac{1}{4}$ of her age. After 8 years, Find the ratio of Kamayani age to her daughter's ?

Options :

1. 21:13
2. 24:11
3. 28:13
4. 13:15

Question No. 10

A bus crosses a pole in 15 sec. Another bus of same length crosses a bus station in 20 sec with a speed 25% more than the first bus. Find out the ratio of length of bus and length of bus station.

Options :

1. 2:1
2. 3:2
3. 4:3
4. 1:3

Question No. 11

The difference between the selling price at a discount of 40% and that at two successive discounts of 20% and 10% is Rs.132. Find the marked price of the laptop?

Options :

1. Rs 1220
2. Rs 1575
3. Rs 1100
4. Rs 1345

Question No. 12

What will come in place of the question mark (?) in the following number series?

24 13 21.5 ? 202.625 916.8125

Options :

1. 55.25
2. 49.75
3. 56.75
4. 53.25

Question No. 13

Paras takes loan of Rs. 40,000 on the condition that he would pay it in the monthly instalment of Rs. 5,000. He has to pay interest @ 16% on the outstanding balances, then what is the average rate of interest received by the creditor per annum.

Options :

1. 12.5%
2. 9 %
3. 4 (1/2)%
4. 12%

Question No. 14

A fruit vendor bought 500 bananas at Rs 25 per 10 bananas. 200 bananas got spoiled and hence thrown. He sold 12 dozen bananas at the rate of Rs 20 per dozen and the remaining at Rs 3 per banana. What is the approximate profit/loss percent?

Options :

1. 43% loss
2. 52% profit
3. 47% loss
4. 50% profit

Question No. 15

$$\sqrt{(14)^2 - 35 \div 5 - 81 \div 27 + 70} = (?)^2$$

Options :

1. 256
2. 16
3. 4
4. 2

Question No. 16

$$65\% \text{ of } 8/13 \text{ of } 7565 = ? + 895$$

Options :

1. 1213
2. 2131
3. 3121
4. 2311

Direction:

There are 3 statements given & one question is asked, find which statement/s are required to answer the question.

Question No. 17

What was the price of a Car P last year?

- I. The ratio of the price of two Car P to Q was 3:4 last year.
- II. This year, the price of car P has increased by 20% and that of car Q by Rs 20,000.
- III. This year the ratio of the price of car P to car Q is 4:5.

Options :

- 1. Only II and III
- 2. Only I and II
- 3. All I, II and III
- 4. Only III

Question No. 18

14% of the voters in an election did not cast their votes. In the election, there were only two candidates. The winner by obtaining 46% of the total votes defeated his contestant by 810 votes. The total number of voters in the election were

Options :

- 1. 12000
- 2. 13500
- 3. 15500
- 4. 15000

Question No. 19

Find the number of factors are 180?

Options :

- 1. 18
- 2. 20
- 3. 15
- 4. 16

Question No. 20

The Compound Interest on a sum of Rs 7290 becomes 1283.75 in 9 months. If the rate of interest is compounded quarterly, then what is the rate of interest?

Options :

1. 12.5%
2. 10.33%
3. 200-9%
4. 20%

Section: General Intelligence & Reasoning**Question No. 21**

If '×' means '+', '+' means '÷', '-' means '×' and '÷' means '-', then $9 \times 8 - 5 + 40 \div 3 = ?$

Options :

1. 14
2. 5
3. 7
4. 11

Directions(22-25):-

In each of the following questions, select the related letters / words / numbers from the given alternatives.

Question No. 22

8 : 63 :: 11 : ?

Options :

1. 90
2. 100
3. 124
4. 120

Question No. 23

Dark : Fear :: Honesty : ?

Options :

1. Trust
2. Personality
3. Money
4. Treachery

Question No. 24

CFHL : BEGK :: QTWZ : ?

Options :

1. SVYP
2. PSVY
3. YPSV
4. PYSV

Question No. 25

In each of the following questions, find the odd word/ number / letters / number pair from the given alternatives.

Options :

1. JKM
2. VWY
3. LMO
4. STU

Question No. 26

In each of the following questions, find the odd word/ number / letters / number pair from the given alternatives.

Options :

1. 13 : 78
2. 18 : 108
3. 9 : 81
4. 15 : 90

Directions:-

From the given alternative words, select the word/words which cannot be formed using the letters of the given word.

Question No. 27

UDAIPUR

Options :

1. AID
2. PAIR
3. RUDE
4. RAID

Question No. 28

Z is in the East of Y which is in the North of A. If Q is in the South of A, then in which direction of Z, is Q?

Options :

1. South
2. North
3. North - east
4. South - west

Question No. 29

A's son B is married with C whose sister-in-law D is married to E the father of G. How G is related to A?

Options :

1. Daughter
2. Granddaughter
3. Grandson
4. Either Granddaughter or Grandson

Question No. 30

Five boys participated in a competition. Ajay was ranked lower than only Manoj. Vijay was ranked higher than Dinesh Amit's rank was between Ajay and Vijay. Who was ranked lowest?.

Options :

1. Dinesh
2. Ajay
3. Vijay
4. Manoj

Question No. 31

Which word will appear last in the dictionary?

Options :

1. perfervid
2. plash
3. perchance
4. philippic

Question No. 32

If SERVICES is written as ESVRCISE, how can DROUGHTS be written in that code?

Options :

1. RDOHGSUT
2. UOHRDGST
3. RDHGSTUO
4. RDUOHGST

Directions(33-34):-

In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the two given statements, disregarding commonly known facts. Give Answer:

Question No. 33

Statements:

All mobiles are tablets
All tablets are laptops.

Conclusions:

- I. Some mobiles are laptop.
- II. All mobiles are laptops.

Options :

1. Only I follows.
2. Only II follows
3. Either conclusion I or II follows.
4. Both conclusions I and II follow

Question No. 34

Statements:

Some diamonds are golds.
Some golds are marbles.

Conclusions:

- I. Some diamonds are marbles.
- II. Some gold are diamonds.

Options :

1. Only I follows.
2. Only II follows
3. Either conclusion I or II follows.
4. Both conclusions I and II follow

Question No. 35

Select the missing number from the given responses.

10	15	25	5
35	25	60	?
55	15	70	14

Options :

1. 12
2. 15
3. 24
4. 16

Question No. 36

In the following series, how many LHO occur in such a way that 'H' is in the middle and 'L' and 'O' are adjacent to it on both sides?

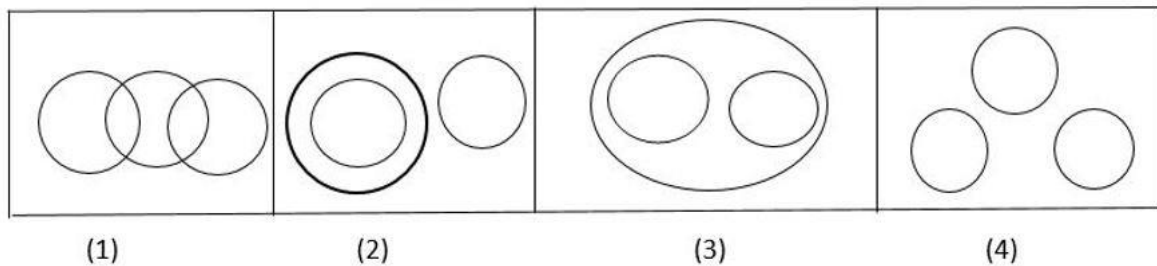

BLHMNOERLHDTOLHULHOLEAQVYHLF

Options :

1. 3
2. 5
3. 1
4. 2

Question No. 37

Which of the following diagrams indicates the best relation between Mammal, Deer and Bat?

Options :

1. 1
2. 2
3. 3
4. 4

Directions:- (38-39)

In each of the following questions a number is missing. Find this missing number from the following alternatives.

Question No. 38

512, 343, 216, 125, ?

Options :

1. 45
2. 55
3. 64
4. 69

Question No. 39

3, 7, 16, 35, ?, 153

Options :

1. 74
2. 83
3. 66
4. 50

Section: General Awareness & Current Affairs

Question No. 40

Antyodaya Aahaar Yojana is a scheme that provides _____.

Options :

1. good quality of medicines.
2. good quality fertilizers for farmers.
3. good quality of food.
4. none of the above

Question No. 41

Santosh trophy is related to which sport?

Options :

1. cricket
2. tennis
3. hockey
4. football

Question No. 42

A Non Performing Asset (NPA) is a loan or advance in which the principal or interest payment remains overdue for a period of _____.

Options :

1. 60 days
2. 30 days
3. 90 days
4. 45 days

Question No. 43

Who is the current governor of Reserve Bank of India ?

Options :

1. Shaktikanta Das
2. Urjit Patel
3. Y.V.Reddy
4. D. Subbarao

Question No. 44

Recently in the month of February, Kamala Das featured on the Google's Doodle on the main page. Who is/was she ?

Options :

1. a doctor
2. an engineer
3. a poet
4. a politician

Question No. 45

Which high-level committee of Union Government has recently approved financial assistance to several flood affected states?

Options :

1. arun jaitley committee
2. rajiv kumar committee
3. rajiv gauba committee
4. rajnath singh committee

Question No. 46

The prestigious Aravindan Puraskaram for the best debutant director of 2017 was bagged by ?

Options :

1. Atanu Ghosh
2. P S Manu
3. Sanju Surendran
4. Sagar Chaya Vanchar

Question No. 47

The theme of the 15th Edition of BioAsia conference 2018 was ?

Options :

1. right time, right now.
2. right time is next.
3. strive for good.
4. none of the above

Question No. 48

Who was sworn-in as the new President of the Republic of Honduras?

Options :

1. Luis Orlando Zelaya
2. Salvador Nasralla
3. Juan Orlando Hernandez
4. None of the above

Question No. 49

The 21st national conference on e-Governance will be held in which Indian city?

Options :

1. Chennai
2. Bangalore
3. Hyderabad
4. New Delhi

Question No. 50

Which of these states has topped the gold medal tally at the first-ever Khelo India School Games (KISG-2018)?

Options :

1. Haryana
2. Punjab
3. Karnataka
4. Maharashtra

Question No. 51

Who has been appointed as the first independent female director of International Cricket Council (ICC)?

Options :

1. archana bhargava
2. indira nooyi
3. kiran majumdar shaw
4. tulasi munda

Question No. 52

Who has been honoured with the V Shantaram Lifetime Achievement Award 2018?

Options :

1. anurag kashyap
2. madhur bhandarkar
3. shyam benegal
4. raju hirani

Question No. 53

Which city recently hosted the 2018 Kala Ghoda Arts festival?

Options :

1. New Delhi
2. Bangalore
3. Rajasthan
4. Mumbai

Question No. 54

Which country won the 12th edition of ICC Under-19 Cricket World Cup 2018?

Options :

1. Australia
2. South Africa
3. India
4. New Zealand

Question No. 55

The world's tallest hotel Gevora has been opened in which city?

Options :

1. Beijing
2. Mumbai
3. Dubai
4. Paris

Question No. 56

Which country will be hosting the 2018 Shanghai Cooperation Organization (SCO) Summit?

Options :

1. China
2. India
3. Bangladesh
4. Japan

Question No. 57

The Bheemgarh dam is built on which river in Madhya Pradesh?

Options :

1. Barna
2. Wainganga
3. Sindh
4. Tawa

Question No. 58

The 6th edition of annual joint military exercise 'Garuda Shakti-2018' has started between India and which country?

Options :

1. Russia
2. Brazil
3. Sri Lanka
4. Indonesia

Question No. 60

Which company has recently launched world's first 5G chip?

Options :

1. Nokia
2. Samsung
3. Huawei
4. None of these

Section: General Science

Question No. 60

While moving from the surface of earth to the centre of earth acceleration due to gravity _____?

Options :

1. decreases
2. increases
3. no change
4. first increases than decreases

Question No. 61

Which of the following cell organelle called as suicide bag of the cell?

Options :

1. mitochondria
2. lysosomes
3. ribosomes
4. Golgi body

Question No. 62

Who discovered X-rays ?

Options :

1. Roengten
2. Newton
3. Becquerel
4. hertz

Question No. 63

Washing soda is

Options :

1. sodium bicarbonate
2. sodium carbonate
3. potassium carbonate
4. potassium bicarbonate

Question No. 64

Morphology of chromosomes is possible in

Options :

1. prophase
2. metaphase
3. anaphase
4. telophase

Question No. 65

Which of following vitamin deficiency causes night blindness?

Options :

1. vitamin K
2. vitamin A
3. vitamin D
4. vitamin C

Question No. 66

Process of cycle tyre bursting is

Options :

1. isothermal
2. isochoric
3. isobaric
4. adiabatic

Question No. 67

zika virus first observed in

Options :

1. 1945
2. 1946
3. 1947
4. 1948

Question No. 68

Kilowatt hour is unit of

Options :

1. work
2. power
3. energy
4. force

Question No. 69

Which among the following is the most powerful radioactive substance?

Options :

1. Radium
2. uranium
3. plutonium
4. thorium

Question No. 70

Which sector provides largest share in energy in India?

Options :

1. thermal
2. solar
3. nuclear
4. hydel

Question No. 71

Temperature of sun is measured using?

Options :

1. Thermometer
2. Calorimeter
3. Thermistors
4. Pyrometer

Question No. 72

Vitreous humour in eye is present in between?

Options :

1. Eyelens and retina
2. Cornea and eye lens
3. Eye lens and ciliary muscles
4. Ciliary muscles

Question No. 73

In astigmatism person is not able to see____?

Options :

1. Horizontal lines clearly
2. Vertical lines clearly
3. Both
4. None of the above

Question No. 75

Which of the following poisonous gas forms when chloroform is exposed to air?

Options :

1. Methane
2. Carbon monoxide
3. Methyl isocyanide
4. Phosgene

Answers and Explanations

Question.1. Answer : Option 3

Explanation:

$$\begin{aligned}\text{Area of rhombus} &= \frac{1}{2} \times \text{1st diagonal} \times \text{2nd diagonal} \\ &= \frac{1}{2} \times 16 \times 12 \\ &= 96 \text{ m}^2\end{aligned}$$

Question.2. Answer : Option 4

Explanation:

Since, $M = \frac{1}{3} \pi \text{ radius}^2 \text{ height} = \frac{1}{3} \pi p^2 q$ and

$$N = \pi \times \text{radius} \times \text{slant height} = \pi pr$$

Now,

$$N/M = \pi pr / (\frac{1}{3} \pi p^2 q)$$

Therefore,

$$1/M = 3r/(Npq)$$

Question.3. Answer : Option 4

Explanation:

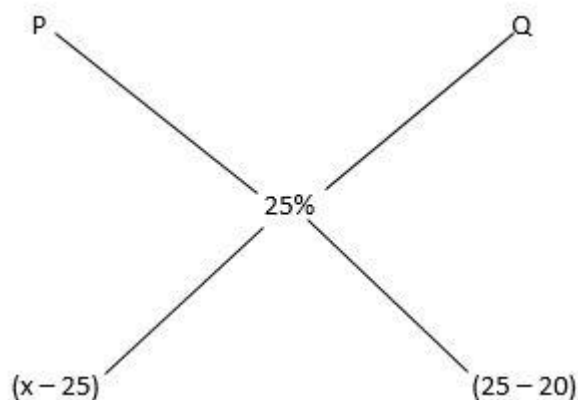

Let the height of building alpha be x metre

$$\text{Then, } 75 : 60 = x : 40$$

Therefore, $x = 50\text{m}$

Question.4. Answer : Option 3

Explanation:

$$\text{Now, } (x - 25) / (25 - 20) = 5/4$$

$$4x - 100 = 25$$

Therefore, $x = 125/4$ or 31.25%

Alternate Method:

Let $P = 5x$ & $Q = 4x$

So $5x \times 1.2 + 4x \times y = (5x+4x) \times 1.25$

$6x + 4xy = 11.25x$

$5.25x = 4xy$

$y = 21/16 = 1.3125$

Hence increase in $Q = 0.3125 = 31.25\%$

Question.5. Answer : Option 2

Explanation:

Required time = $H = (\pi \times 20^2 \times 15) / (\pi \times 0.20 \times 0.20 \times 60 \times 10) = 250$ minutes

Question.6. Answer : Option 3

Explanation:

$$(9/11 \text{ of } 2750)^{1/2} = 47$$

$$(8/13 \text{ of } 8142)^{1/3} = 17$$

$$(13/14 \text{ of } 5160)^{1/2} = 69$$

$$(5/17 \text{ of } 3312)^{1/3} = 10$$

Question.7. Answer : Option 3

Explanation:

30 boys can complete the work in 'a' days

1 boy can complete the work in '30a' days ... (i)

42 girls can complete the work in (a – 4) days

1 girl can complete the work in 42(a – 4) days ... (ii) and

Also, 70 boys can complete the work in 'b' days

1 boy can complete the work in '70 b' days ... (iii)

126 girls can complete the work in '(b – 4)' days

1 girl can complete the work in 126 (b – 4) days ... (iv)

Equate (i) & (iii) and (ii) & (iv)

$30a = 70b \Rightarrow a/b = 7/3 \Rightarrow b = 3/7 a$... (v)

$$42(a - 4) = 126 (b - 4)$$

$$\Rightarrow a - 4 = 3b - 12$$

$$\Rightarrow 3b - a = 8 \quad \dots (vi)$$

Using (v) and (vi)

$$3[(3/7) a] - a = 8$$

$$9a/7 - a = 8$$

$$\Rightarrow a = 8 \times 7/2 = 28 \text{ days}$$

Question.8. Answer : Option 3

Explanation:

Let the C.P of jeans = $2x$

C.P of shirt = x

Total cost price = Rs $3x$

Marked price = $3x \times 125/100 = \text{Rs } 3.75x$

According to question,

$$3.75x - 15 = 3x \times 1.20$$

$$3.75x - 3.6x = 15$$

$$0.15x = 15$$

Therefore, $x = 100$

Cost price of Jeans = $2 \times 100 = \text{Rs } 200$

Question.9. Answer : Option 3

Explanation:

Let the present age of Kamayani = x years

According to questions,

$$x = 4/3 (x - 5)$$

$$3x = 4x - 20$$

Therefore, $x = 20$ years

Present age of Kamayani's daughter = $20/4 = 5$ years

Now, required ratio = $(20 + 8):(5 + 8) = 28:13$

Question.10. Answer : Option 2

Explanation:

Let length of bus and bus station be 'a' and 'b' respectively

1st bus cross the pole in = 15 sec

2nd bus (25% faster than first bus) Cross the pole = $15 \times \frac{4}{5} = 12$ sec (same length)

Time taken to cross bus station = 20 sec

According to the question,

$$a + \frac{b}{20} = \frac{a}{12}$$

$$12a + 12b = 20a$$

$$8a = 12b$$

$$\frac{a}{b} = \frac{12}{8}$$

$$a : b = 3 : 2$$

Alternate method:-

let length of the bus = L

and length of the bus station = x

if speed of the 1st bus = s

then speed of the 2nd bus = 1.25s

ATQ,

$$s = \frac{L}{15} \dots\dots (1)$$

$$1.25s = \frac{(L + x)}{20} \dots\dots (2)$$

solving 1 and 2, we get $\frac{L}{x} = \frac{3}{2} = 3 : 2$

Question.11. Answer : Option 3

Explanation:

Let the Marked Price be x

In the first case, Selling Price at 40% discount = $\frac{60x}{100}$

Single discount equivalent to 20% and 10% successive discounts = $[20 + 10 - \{(20 \times 10)/100\}] = 28\%$

Selling Price in the second case = $\frac{72x}{100}$

$$\text{Now, } \frac{72x}{100} - \frac{60x}{100} = 132$$

$$\frac{12x}{100} = 132$$

$$x = 100 \times \frac{132}{12}$$

$$= \text{Rs. } 1100$$

Question.12. Answer : Option 3

Explanation:

$$24 \times 0.5 + 1 = 13$$

$$13 \times 1.5 + 2 = 21.5$$

$$21.5 \times 2.5 + 3 = \mathbf{56.75}$$

$$56.75 \times 3.5 + 4 = 202.625$$

$$202.625 \times 4.5 + 5 = 916.8125$$

Question.13. Answer : Option 2

Explanation:

Monthly instalment = Rs. 5000

Total loan = Rs. 40,000

Number of instalment = $40,000/5,000 = 8$

Once the payment starts outstanding balances will go on diminishing.

Hence, from point of view of interest, principal = $40,000 + 35,000 + 30,000 + 25,000 + 20,000 + 15,000 + 10,000 + 5,000 = \text{Rs } 1,80,000$

Interest on Rs. 1,80,000 for 1 month at 16% p.a. = $(1,80,000 \times 16 \times 1)/(100 \times 12) = \text{Rs. } 2,400$

Time = 8 months = $8/12$ year

Average rate of interest = $(100 \times I)/(P \times T)$

Rate of interest = $2400 \times 100 \times 12/40,000 \times 8 = 9\%$

Question.14. Answer : Option 1

Explanation:

Cost Price of bananas = $500 \times 25/10 = \text{Rs } 1,250$

Remaining bananas = $500 - 200 = 300$

Selling Price of bananas sold at Rs 20 per dozens = $20 \times 12 = \text{Rs } 240$

Selling Price of bananas sold at Rs 3 per banana = $(300 - 12 \times 12) \times 3 = \text{Rs } 468$

Total S.P = $240 + 468 = \text{Rs } 708$

Loss % = $[(1250 - 708)/1250] \times 100 = 43.36\%$

Question.15. Answer : Option 3

Explanation:

$$\sqrt{196 - 7 - 3 + 70} = (?)^2$$

$$\sqrt{256} = (?)^2$$

$$16 = (?)^2$$

$$(?)^2 = 4^2$$

$$? = 4$$

Question.16. Answer : Option 2

Explanation:

65% of $8/13$ of 7565 = ? + 895

$65/100 \times 8/13 \times 7565 = ? + 895$

$$3026 = ? + 895$$

$$? = 2131$$

Question.17. Answer : Option 3

Explanation:

Let the price of two car P and Q be $4x$ and $5x$ respectively

$$\{3x \times 120/100\} / \{4x + 20,000\} = 4/5$$

$$18x = 16x + 80,000$$

$$18x - 16x = 80,000$$

$$2x = 80,000$$

$$x = 40,000$$

Last year the price of car P was $40,000 \times 3 = \text{Rs } 1,20,000$

Hence all the statements together are required to answer the question.

Question.18. Answer : Option 2

Explanation:

Let the total numbers of voters be x

Vote cast = 86% of $x = 43x/50$

Votes in favour of winning candidates = $46x/100 = 23x/50$

Votes polled by defeated candidates = $43x/50 - 23x/50 = 20x/50$

$$23x/50 - 20x/50 = 810$$

$$3x/50 = 810$$

$$x = 13,500$$

Question.19. Answer : Option 1

Explanation:

The factors of 180 are 1,2,3,4,5,6,9,10,12,15,18,20,30, 36,45 , 60 , 90 & 180

Alternate Method :

$$180 = 2^2 \times 3^2 \times 5$$

$$\text{So number of factors} = (2+1)(2+1)(1+1) = 3 \times 3 \times 2 = 18$$

Question.20. Answer : Option 3

Explanation:

Principal = 7290 ₹. Time (n) = 9 months = $3/4$ year

Compound Interest = 1283.75 ₹.

$$\text{Amount} = \text{C.I.} + P = 7290 + 1283.75 = \text{Rs } 8573.75$$

$$\text{Amount (A)} = P \{1 + (r/4 \times 100)\}^{4t}$$

$$8573.75 = 7290 \{1 + (r/400)\}^{4 \times 3/4}$$

$$857375/729000 = \{1 + (r/400)\}^3$$

$$(95/90)^3 = \{(400+r)/400\}$$

$$95/90 = \{(400+r)/400\}$$

$$95 \times 400 = (400 + r) 90$$

$$\text{Rate} = 2000/90$$

$$\text{Rate} = 22 \frac{2}{9} \% \text{ per annum}$$

Question.21. Answer : Option 3

Explanation:

$$9 \times 8 - 5 + 40 \div 3 = ?$$

$$\Rightarrow 9 + 8 \times 5 \div 40 - 3$$

$$\Rightarrow 9 + 8 \times \frac{5}{40} - 3$$

$$\Rightarrow 9 + 1 - 3$$

$$\Rightarrow 10 - 3 = 7$$

Question.22. Answer : Option 4

Explanation:

$$8^2 - 1 = 64 - 1 = 63 \quad 11^2 - 1 = 121 - 1 = 120$$

Question.23. Answer : Option 1

Explanation:

We get 'Fear' in 'Dark' similarly, we get 'Trust' by 'Honesty'.

Question.24. Answer : Option 2

Explanation:

$$C - 1 = B$$

$$F - 1 = E$$

$$H - 1 = G$$

$$L - 1 = K$$

THEN,

$$Q - 1 = P$$

$$T - 1 = S$$

$$W - 1 = V$$

$$Z - 1 = Y$$

Question.25. Answer : Option 4

Explanation:

Pattern is

$$J + 1 = K + 2 = M$$

$$V + 1 = W + 2 = Y$$

$$L + 1 = M + 2 = O$$

$$S + 1 = T + 1 = U$$

Question.26. Answer : Option 3

Explanation:

In all other parts, second number is obtained by multiplying the first number by 6.

$$13 \times 6 = 78$$

$$18 \times 6 = 108$$

$$9 \times 9 = 81 \text{ (Odd one)}$$

$$15 \times 6 = 90$$

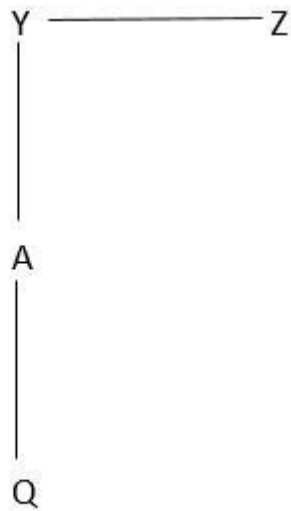

Question.27. Answer : Option 3

Explanation:

There is no 'E' in the given word.

Question.28. Answer : Option 4

Explanation:

Q is south – west of Z.

Question.29. Answer : Option 4

Explanation:

A
|
E (+) X D (-) = B (+) X C (-)
|
G

Question.30. Answer : Option 1

Explanation:

Manoj > Ajay > Amit > Vijay > Dinesh

Question.31. Answer : Option 2

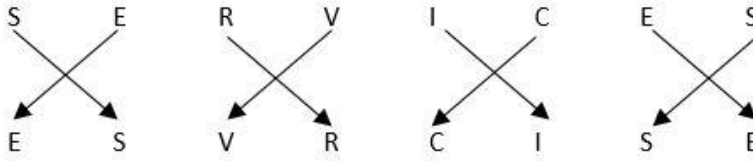

Explanation:

Arrangement as per dictionary:

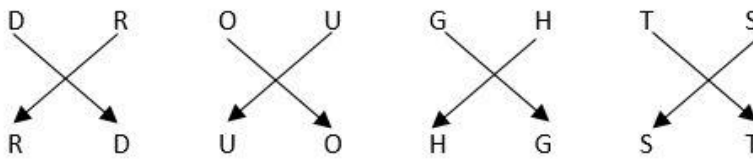

3. perchance
1. perfervid
4. philippic
2. plash

Question.32. Answer : Option 4

Explanation:

Similarly,

Question.33. Answer : Option 4

Explanation:

All mobiles are tablets (A) + All tablets are laptop $\Rightarrow$ All mobiles are laptop(A) $\Rightarrow$ I.I $\Rightarrow$ Some mobiles are laptop (I). Hence, conclusion I follows.

All mobiles are tablets (A) + All tablets are laptops $\Rightarrow$ All mobiles are laptops(A). Hence, conclusion II follows.

Question.34. Answer : Option 2

Explanation:

Some diamonds are golds (I) + Some golds are marbles (I) $\Rightarrow$ No conclusion. Hence, conclusion I does not follow.

Some diamonds are golds $\Rightarrow$ Conversion $\Rightarrow$ Some gold are diamonds (I). Hence, conclusion II follows.

Question.35. Answer : Option 1

Explanation:

$$\begin{aligned}
 10 + 15 &= 25, \frac{25}{5} = 5 \\
 35 + 25 &= 60, \frac{60}{5} = 12 \\
 55 + 15 &= 70, \frac{70}{5} = 14
 \end{aligned}$$

Question.36. Answer : Option 4

Explanation:

B L H M N O E R L H D T O H L U H L H O E A Q V Y H L F

Question.37. Answer : Option 3

Explanation:

Deer and Bat are different from each other but both are mammal.

Question.38. Answer : Option 3

Explanation:

$$8^3 = 512$$

$$7^3 = 343$$

$$6^3 = 216$$

$$5^3 = 125$$

$$4^3 = 64$$

Question.39. Answer : Option 1

Explanation:

$$3 \times 2 + 1 = 7$$

$$7 \times 2 + 2 = 16$$

$$16 \times 2 + 3 = 35$$

$$35 \times 2 + 4 = 74$$

$$74 \times 2 + 5 = 153$$

Question.40. Answer : Option 3

Explanation:

Antyodaya Aahaar Yojana is a scheme launched by the Haryana government, that will provide healthy and nutritious food to the poor and homeless people, who are under the BPL (Below Poverty Line) at affordable lower costs.

Question.41. Answer : Option 4

Explanation:

Santosh Trophy is an Indian football tournament in which the states of the country along with some government institutions participate. This is held annually since 1941. The trophy is named after the late Maharaja Sir Manmatha Nath Roy Chowdhary of Santosh, now in Bangladesh.

Sir Manmatha had been the President of the Indian Football Association .

Question.42. Answer : Option 3

Explanation:

A non performing asset (NPA) is a loan or advance for which the principal or interest payment remained overdue for a period of 90 days. In most cases, debt is classified as nonperforming when loan payments have not been made for a period of 90 days.

Question.43. Answer : Option 2

Explanation:

Shaktikanta Das is the current governor of Reserve Bank of India (RBI).

RBI is India's central banking institution, which controls the monetary policy of the Indian rupee. It commenced its operations on 1 April 1935 in accordance with the Reserve Bank of India Act, 1934.

Question.44. Answer : Option 3

Explanation:

To honor one of the greatest poet of her time, Google India payed tribute to Kamala Surayya, popularly known as Madhvi Kuty and Kamala Das, by creating Google Doodle on 1st February 2018. Kamala Das is mainly known for her contribution in Indian literature through her poems and short stories.

Question.45. Answer : Option 4

Explanation:

The high-level committee for Central Assistance Chaired by Union Home Minister Rajnath Singh has approved financial assistance of Rs 1711 crore for Bihar which was affected by floods in 2017.

Question.46. Answer : Option 4

Explanation:

Sagar Chaya Vanchar, director of Marathi film 'Redu' (Radio), has bagged the prestigious Aravindan Puraskaram for the best debutant director of 2017, instituted in memory of iconic Malayalam filmmaker late G Aravindan. The award will be presented on March 15, 2018, on the 27th death anniversary of Aravindan.

Question.47. Answer : Option 1

Explanation:

The 15th Edition of BioAsia conference 2018 was held in Hyderabad with theme “Right Time, Right Now” from February 22-24.

Question.48. Answer : Option 3

Explanation:

Honduran President Juan Orlando Hernández has been sworn-in for a second term in capital Tegucigalpa with high security after a disputed presidential election 2017. President Hernández, has been in power since 2013.

Question.49. Answer : Option 3

Explanation:

The 21st national conference on e-Governance will be held in Hyderabad. The government of India and Telangana Administrative Reforms department will be jointly organising the conference with the main theme around- technology for accelerating development.

Question.50. Answer : Option 1

Explanation:

Haryana has topped the overall medal tally at the first-ever Khelo India School Games (KISG-2018) in New Delhi after winning the 102 medals which include **38 gold** and 26 silver. Maharashtra has acquired the 2nd position with 111 medals while Delhi with 94 medals came third.

Question.51. Answer : Option 2

Explanation:

Indra Nooyi, the PepsiCo Chairman and CEO, has been appointed to the International Cricket Council (ICC) Board as its first independent female director.

Question.52. Answer : Option 3

Explanation:

Shyam Benegal, the veteran film producer and director, has been bestowed with the prestigious V. Shantaram lifetime achievement Award 2018 for his contribution to the promotion of the documentary movement..

Question.53. Answer : Option 4

Explanation:

The 2018 Kala Ghoda Arts festival was held at Cross Maidan in Mumbai, Maharashtra from February 3 till February 11.

The 2018 theme of the fest is “Hara Ghoda” to promote sustainable living, recycling and environment-friendliness. It is an open platform to discuss contemporary issues led by individuals from different fields.

Question.54. Answer : Option 3

Explanation:

India won the 12th edition of ICC Under-19 Cricket World Cup 2018 after thrashing Australia in the final by eight wickets at Bay Oval at Mount Maunganui in New Zealand on February 3. With this win, India lifted the ICC Under-19 World Cup for the record fourth time.

Question.55. Answer : Option 3

Explanation:

The world's tallest hotel 'Gevora' has opened in Dubai, United Arab Emirates (UAE) on February 11, 2018. The hotel has 528 guest rooms and suites and four restaurants. It has 232 Deluxe Rooms, 265 one-bed room deluxe and 31 two-bedroom suites.

Question.56. Answer : Option 1

Explanation:

The 18th Shanghai Cooperation Organization (SCO-2018) will be hosted by China in the city of Qingdao in June, 2018.

Question.57. Answer : Option 2

Explanation:

The Bheemgarh dam is built across the Wainganga river in Chhapara tehsil of Seoni district of Indian state of Madhya Pradesh. The dam is also known as Sanjay Sarovar Bandh and Upper Wainganga dam. It is known as the biggest Mud / Earthen dam of Asia. It is surrounded by mountains from all sides.

Question.58. Answer : Option 4

Explanation:

The 6th edition of annual joint military exercise 'Garuda Shakti-2018' has started between Indian and Indonesian Army in Bandung, Indonesia on February 19, 2018. The aim of this exercise is to build experience sharing in counter-terrorism operations.

Question.59. Answer : Option 3

Explanation:

Chinese electronic device and smartphone maker Huawei has unveiled Balong 5G01, world's first 5G chip at Mobile World Congress 2018 held in Barcelona, Spain.

Question.60. Answer : Option 1

Question.61. Answer : Option 2

Question.62. Answer : Option 1

Question.63. Answer : Option 2

Question.64. Answer : Option 2

Question.65. Answer : Option 2

Explanation:

Night blindness, or a decreased ability to see at night, usually occurs as the first sign of **vitamin A deficiency**.

Question.66. Answer : Option 4

Question.67. Answer : Option 3

Question.68. Answer : Option 3

Question.69. Answer : Option 3

Question.70. Answer : Option 1

Question.71. Answer : Option 4

Question.72. Answer : Option 1

Question.73. Answer : Option 3

Question.74. Answer : Option 4

Explanation:

Chloroform when exposed to air, forms a poisonous gas - 'phosgene', in the presence of light.
